```
DXNL 1803 - Oct 24, 2012
                      DX Newsletter

3D2, FIJI
    Ricardo,PY2PT, plans to activate following islands as 3D2PT on his way
    back from the T30PY/T30SIX DXpedition:
      Oct 25-27    Viti Levu Island (OC-016, WLOTA L0055)
      Oct 27-Nov 3  Tavarua Island  (OC-121)
    QSL via homecall.

5V, TOGO
    Wim,ON4CIT, will be QRV as 5V7TH from Lome (Loc JJ06od) in CW/SSB/RTTY
    on 40m-6m (incl. WARC bands) from Oct 26 until Nov 5. He listens
    especially for JAs. His equipment includes an Icom IC-7000, a 6 band
    Hex-Beam and verticals for 30m and 40m. His preferred frequencies are:
        CW: 10112, 14022, 18072, 21022, 24892, 28025 kHz
        SSB:  7070, 14190, 18132, 21292, 24972, 28492 kHz
      RTTY:  7042, 10142, 14082, 18102, 21080, 24922, 28090 kHz
        6m: 50.090 (CW), 50.120 (SSB) and 50.200 (RTTY) kHz
    Please use only the international radio spelling alphabet in SSB!
    QSL via homecall, OQRS, LoTW. See: http://www.dxpedition.be/5V7TH.html

5Z, KENYA
    Sig,NV7E, will join the WWDX SSB Contest in the SO/AB/HP category
    signing 5Z4EE from Nairobi.
    QSL via homecall, direct preferred, bureau ok as well.

6W, SENEGAL
    Al,F5VHJ, hopes for many points in the SO/AB/HP category of the WWDX
    SSB Contest signing 6W1RY from Dakar. QSL via homecall.

9V, SINGAPORE
    Koichi,JR1MLT, will be working in Singapore for the next five years
    and wants to be QRV as 9V1KK from the 10th floor during his little
    spare time. He will work in SSB and CW on 40m-10m with 100 watts and

SILENT KEY: Bob,VK2ABP, also known as VK0BP and AX0VB from the Davis Base
passed away at the age of only 36 years on Oct 14.
Our condolences and sympathy are with his family and friends.
We do not want to be sad that we lost him, but grateful that we could
get to know him as a radio friend. We will always keep him in memory.

OM,
Di 15M - 21.270MHz ada rekan dari JA-land (JA2PVE) sedang mencari YB.
Menggunakan bahasa Indonesia yg lucu deh, rekan YB yg QSO terbawa bahasa Indonesia yg tertatih2.

Mbak Jilly,
Apalagi saya monitor dari tadi, lucu sekali bahasa Indonesianya tapi kita harus hargai usahanya utk menggunakan bahasa kita itu, malah tadi dia berhasil menyebut "MALAM", bukan "MARAM", HI.

Hi DXers,

pagi ini 10M band hidup sekali, saya qso dengan VU2XO dan VU2DSI, masih ada lagi tapi tidak terdengar,
timur tengah juga besar signalnya, A6, A4, A7 and A9 semua S9 plus. Russia dan Europa, tapi YB land tak ada
propagasi. Lalu saya lihat ada spot YB0BCU juga YB2MVD di 15M oleh K3ZO di Maryland, tapi saya tidak bisa
dengar. Sewaktu saya search YE ada YE241PTK di 20M sayangnya tidak ada propagasi,
nah apakah rekan2 ada info ttg stn ini? Special event sampai kapan dan apakah akan aktif di 15 dan 10 m juga?
Terima kasih sebelumnya, waktu bbrp bulan lalu saya ketinggalan YE7P :-((

Waaahhhh..... udah dimarahin XYL karena teriak kenceng di tengah malam 18.10UTC masih gagal panggil VP2MDG.
Padahal dia sudah sebut YC0KR, YC0JR - malahan YE0X yang sukses sekali panggil.

Coba lagi ah, mumpung dia jelas diterima di radio 718 ini.

Congrats OM opt YE0X.

Alhamdulillah.
Tuh habis curhat disini akhirnya worked dengan VP2MDG di 21.237MHz, habis itu masuk juga YE2R.
Asyiikkk...., sayang satu rekan YC1...., masih belum berhasil, semoga bisa worked juga. Amin.

Waaahhhh..... udah dimarahin XYL karena teriak kenceng di tengah malam 18.10UTC masih gagal panggil VP2MDG.

Padahal dia sudah sebut YC0KR, YC0JR - malahan YE0X yang sukses sekali panggil.

Coba lagi ah, mumpung dia jelas diterima di radio 718 ini.

Congrats OM opt YE0X.

SB PROP @ ARL $ARLP043
ARLP043 Propagation de K7RA

ZCZC AP44
QST de W1AW
Propagation Forecast Bulletin 43 ARLP043
From Tad Cook, K7RA
Seattle, WA October 26, 2012
To all radio amateurs

SB PROP ARL ARLP043
ARLP043 Propagation de K7RA

Good conditions should prevail for the CQ World Wide SSB DX Contest this weekend. A chance of solar flares has greatly diminished in the past few days, and the latest forecast has planetary A index at a steady and quiet 5 for this weekend and beyond, through the first week in November.

The average of the daily sunspot number for October 18 through 24 was 95.3, down 1.7 points from the previous seven days. Average daily solar flux rose 14.7 points to 143.9. Geomagnetic activity was quieter, with all daily planetary A index measures in the single-digits.

The current prediction (from October 25) from NOAA and the U.S. Air Force shows solar flux at 125 on October 26, 120 on October 27, 115 on October 28-29, 110 on October 30-31, 105 on November 1-2, 100 on November 3, then 105 and 110 on October 4-5, 115 on October 6-7, 120 on November 8-11, 125 on November 12-13, then peaking at 145 on November 18 and dropping back to 100 on November 29-30. It then rises to 120 on December 5-8.

This is a substantial downward revision from the previous day's forecast, (presented in the October 25 ARRL Letter) which showed solar flux at 135 on October 25-26, 130 on October 27-29, 125 on October 30 through November 1, and 100 on November 2-3.

Now that I use the spreadsheet I prepared last week for tracking the USAF/NOAA flux forecast changes, I can see a history of the changing flux forecast for today. Until October 1 a flux value of 150 was predicted for October 26, then it changed to 135 on October 1-14, 130 on October 15-17, 125 on October 18-19, 120 on October 20, 130 on October 21, back to 150 this week on Monday, October 22, then 140 on Tuesday, 135 on Wednesday, and yesterday 125 on October 25.

You can check the actual solar flux directly from the Penticton, British Columbia observatory today some time after 2000 UTC at ftp://ftp.geolab.nrcan.gc.ca/data/solar_flux/daily_flux_values/fluxtable.txt. Three readings per day are shown at 1700, 2000 and 2300 UTC, and the local noon (2000 UTC) value becomes the official one for the day. The way to read it is to scroll all the way to the bottom of the page, then in the first column is the date (expressed as 20121026) and the second is the time, 200000 for 2000 UTC. Then for the observed solar flux, skip over to the fifth column to the right. You can see that yesterday the three values were 132.2, 130.0 and 129.2, and so 130 became the official flux value for October 25, as reported by NOAA at http://www.swpc.noaa.gov/ftpdir/indices/DSD.txt.

Note the Penticton observatory resolves the number to one more decimal place than the report from NOAA, which rounds it to the nearest whole number.

Predicted planetary A index is 5 on October 26 through November 7, 10, 20 and 15 on November 8-10, 5 on November 11-17, 10 on November 18-19, and 5 on November 20 through December 4.

Our regular weekly geomagnetic forecast from F.K. Janda, OK1HH of the Czech Propagation Interest Group shows quiet conditions today, October 26, active to disturbed on October 27-28, quiet on October 29, mostly quiet October 30, quiet October 31 and November 1, mostly quiet November 2-3, quiet to active November 4, active to disturbed November 5, quiet to active November 6, mostly quiet November 7, quiet to unsettled November 8-9, quiet to active November 10, active to disturbed November 11, quiet to unsettled November 12-13, mostly quiet November 14, and quiet November 15-17.

I received OK1HH's forecast at 1618 UTC on October 25, and I don't know how long prior to that it was created. Based on the fact that the likelihood of solar flares dropped dramatically in the past few days, I think we can discount the dire prediction (active to disturbed on October 27-28) for the contest weekend.

I received an email from him at 1132 UTC today (October 26) and he thinks there still could be a disturbance, because a coronal hole is position right in the center of our view of the Sun.

Sunspot group 1598 emitted a powerful X1 class solar flare on October 23, and it is rotating into the center of the solar disc today. But it shrunk in the past couple of days, and now the chance of flares has declined to just 5%, according to NOAA forecasters quoted at http://www.spaceweather.com. The shrinking of the formerly giant sunspot led to declining solar flux predictions and should ease any worries from the OK1HH prediction about this weekend.

Check this video at http://www.youtube.com/watch?v=kRagLBBqAYM showing sunspot group 1598 and the recent flare. Note the position of the sunspot projected the flare away from Earth.

Also please ignore the videos previewed on the right side of the screen, which on my display show nonsense about the end of the world, grand planetary alignments, phantom rogue planets, the scary "Planet X," and probably channeling your past lives using crystals. Old time hams know that crystals are only good for channelizing radios.

Jeff Hartley, N8II of West Virginia writes on October 22, "Regarding peak signal directions during very disturbed conditions, they tend to peak farther south in general and seem to divert the most on 20 meters, but I don't have any Yagis below that band. Russian Central Asians from Zone 18 which normally peak 0 to 10 degrees were peaking around 330-350 as an event was just starting. The next morning VK6s which usually peak around 310 were best around 280-290 degrees. JAs on 20 sometimes peak due north where the true heading is 330 during low K index periods.

"Don't forget long path; T30PY around 2000Z on the October 21 was long path on 15 SSB about S3, but not hearing well, later at 2300Z, they were about the same strength short path and hearing people better. I also worked A71EM long path on 17 CW around 1400Z. The Middle East is often better long path in our mornings on 20 than short path, but they come through well short path from 1900Z, sometimes all the way through their sunrise.

"Conditions were quite good over the weekend (October 20-21). I had a solid run of Russian stations on 10 meter CW starting around 1200Z Saturday October 20 including many UA9s in zone 17, one UN0 also made it thru with an S3 signal. OH6NT called in with a 25 dB over S9 signal. I was busy with the family Saturday evening, but Sunday evening and afternoon were definitely above recent normal conditions, with very late openings to Europe and Africa on all bands, including 3B9SP on 10 CW at 2030Z. The morning Asians/Russians were not as good on 10 Sunday, but did log VU2MGS on 10 CW. Sunday evening was quite good working BA7IO on 10 CW about 90 minutes past sunset and JA8CMC was S9 along with a CQ answer from UA0IT who was S5-7 with only a vertical antenna."

Pat Ryan, KC6VVT of Tonica, Illinois reported on October 20, "10 meters opened yesterday between the US and Europe, and many stations appeared on 10 as word spread via Facebook. I heard (in grid EN51) IZ7NLJ running 400 watts into his home brew Yagi antenna, and CT1DVV, both working the US pileups! I used my 100 watt radio and 10 meter resonant vertical whip antenna on my mobile parked in my driveway to work Augi from club station 9A1CCB in Croatia (JN85) and Karel OK1CF in the Czech Republic (JO60) from 1558-1608Z. Later, around 1742Z from the inside station (using 100 watts into a 5-band ribbon dipole, 20-10M), I worked Antonio CU3AG in Azores Island (HM68)."

Pete Markavage, WA2CWA of Sayreville, New Jersey reports, "On October 18 had a great morning on 10 meters AM. Band opened around

9:30 AM into Europe. Worked mostly around 29.01 MHz, included: OR0A, GW8TBG, DB5ZP, UU5AI, G8ETD, G4ZXN, G4CZU, EA1GGX, UZ2HZ, G4FHI, RK6DP, GW0AGZ, GU4LJC, G7OSR, MM0OPX, GW3TMP, G3XGW, G3YBY, SM0ZCQ, G3VWH, SM2A, AND ON3KA. AM is alive and well on the upper end of 10 meters. I was running about 100 watts into an old Wilson System 1 tri-bander up about 40 feet."

Last week's Propagation Forecast Bulletin ARLP042 mentioned Joe Dawson, K4WLS of Atlanta, Georgia and his Slinky antenna. He wrote again on October 19 about a Slinky-to-Slinky QSO: "I spoke to a ham in Italy on 10 meters this morning who is running the same mini slinky antenna. He tells me that the low take off characteristics of the antenna make it his DX choice on 10 and 12 meters.

"I got a slinky junior antenna to use on a camping trip. I put it up to test it as an inverted V on my back deck. It has worked MAGIC on 17, 15, 12 and 10 meters. I would not have believed it since I thought it would tune to 20 and 40 due to the electrical length. Well, it does not tune to 20 and 40 but DX contacts galore on the upper 4 HF bands. I love it!"

Lee Gordy, KJ4KUT of Cartersville, Georgia wrote, "When 'Ten is In,' then you can load just about anything and make some DX contacts with low wattage. My uncle W4TIY (SK), former FCC Monitoring Engineer, was stationed in Texas at the end of World War 2. He had rented a room at a boarding house. 'Ten was In' so he loaded the metal bedsprings....literally. Made some really good contacts."

And finally, Don Kalinowski, NJ2E of Cary, North Carolina sent along this interesting and entertaining video about the NASA Radiation Belt Storm Probes. Watch it at,
http://www.sciencefriday.com/segment/10/19/2012/spacecraft-records-chorus-of-space-sounds.html
and note that you can expand this all the way to double normal resolution by clicking on the asterisk-like "Change Quality" control at the bottom, then click on "Full Screen" all the way to the right.

If you would like to make a comment or have a tip for our readers, email the author at, k7ra@arrl.net.

For more information concerning radio propagation, see the ARRL Technical Information Service web page at, http://arrl.org/propagation-of-rf-signals. For an explanation of the numbers used in this bulletin, see http://arrl.org/the-sun-the-earth-the-ionosphere. An archive of past propagation bulletins is at http://arrl.org/w1aw-bulletins-archive-propagation. Find more good information and tutorials on propagation at http://myplace.frontier.com/~k9la/.

Monthly propagation charts between four USA regions and twelve overseas locations are at http://arrl.org/propagation.

Instructions for starting or ending email distribution of ARRL bulletins are at http://arrl.org/bulletins.

Sunspot numbers for October 18 through 24 were 112, 120, 112, 75, 86, 84, and 78, with a mean of 95.3. 10.7 cm flux was 137.6, 141.4, 151.4, 144.2, 155.6, 141.6, and 135.6, with a mean of 143.9. Estimated planetary A indices were 5, 4, 3, 3, 3, 7, and 4, with a mean of 4.1. Estimated mid-latitude A indices were 4, 3, 3, 2, 2, 9, and 6, with a mean of 3.7.

OPDX Bulletin 1084 October 29, 2012
The Ohio/Penn Dx PacketCluster
DX Bulletin No. 1084
BID: $OPDX.1084
October 29, 2012
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)
Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q & W1AW, NG3K & ADXO, W3UR & The Daily DX, N4AA & QRZ DX, N4JF, KS5Z, KH6BZF, K8GI, K8YSE, W8BBQ, W8GEX & 60m News, W9ILY, 4J5T, AT International, DK8JB & The DX News Letter, DL1SBF, DxCoffee.com, DX-World.Net, ES1CW, F5NQL, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, I2MQP & DX Italia News, OZ6OM & 50 MHz DX News, Pete's DX-Newsdesk, RSGB IOTA Web Site, Sixitalia Weekly, VA3RJ & ICPO the VHF-DX-Portal (MMMonVHF) and ZL3AB for the following DX information.
EDITOR'S SPECIAL NOTES (by Tedd, KB8NW)
This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX SSB Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX SSB Contest participants.
DXCC COUNTRY/ENTITY REPORT
According to the AR-Cluster Network for the week of Friday, 19th-October, through Friday, 26th-October there were 230 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, CY0, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FS, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J7, J8, JA, JD/m, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ4, PJ5, PJ7, PY, PZ, R1FJ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T30, T5, T7, T8, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6,
V7, V8, VE, VK, VP2E, VP2M, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YL, YN, YO, YU, YV, Z2, Z3, Z8, ZA, ZB, ZD7, ZD8, ZF, ZL, ZP, ZS
* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).
3V, TUNISIA
Operators Hrane/YT1AD and Ashraf "Ash", KF5EYY (SWL 3V4-002), will be active as 3V8SS from the "Radio Club Station of Tunisian Scouts" in Sousse, during the CQWW DX SSB Contest (October 27-28th) as a Multi-Op/ All-Band/Low-Power entry. QSL via LoTW or to LX1NO.
4J/4K, AZERBAIJAN
Members of the "Federation of Radio Sports of Azerbaijan" and the Safari DX Activators Club are organizing a DXpedition to the battle line of the Nagorno Karabakh area between October 25-28th. The DXpedition will use two different callsigns, 4K3K and 4J0K. Please be aware that the mentioned callsigns are only legal to operate in the assigned Nagorno Karabakh area. No other callsigns are issued for the named territory by the Ministry of

Communication of Azerbaijan. Any other callsigns are considered illegal. QSL both 4K3K and 4J0K via RW6HS. For more details, please see (QRZ.com).
5T, MAURITANIA
Sadao, JA1PBV, is now active as 5T5BV until November 10th. Activity has been on 30/12/10 meters CW and RTTY. QSL via JA1PBV.
5V, TOGO (Reminder)
By the time you read this, Wim, ON4CIT, will be active as 5V7TH from Togo (Grid Square JJ06rf) until November 5th. Activity will be on 40-6 meters, including the 30/17/12 meter bands, using CW, SSB and RTTY. Suggested frequencies reported inOPDX.1077. Wim requests on SSB to PLEASE call him only using the "International Radiotelephony Spelling Alphabet". QSL via his home callsign, direct (2 USDs/EU and 3 USDs/US), by the Bureau, LoTW (uploaded year later) or by the ClubLog's OQRS. For more details, visit:
http://www.dxpedition.be/5V7TH.html
8Q, MALDIVES
Andrew, G7COD, is once again active as 8Q7AK from Embudu Island on the South Male Atoll, Maldives (AS-013), for three weeks in February 2013. If like last time, this trip is a holiday and he will be active on 80-12 meters, including 30/17/12 meters using CW and SSB. The following are suggested times of operations: 0730-0830z, 0900-1100z, 1300-1500z and 1730-1800z. Suggested frequencies (+/- QRM) are:
CW - 3503, 7003, 10103, 14003, 18073, 21003 and 24893 kHz
SSB - 3795, 7063, 14190, 18133, 21253 and 24953 kHz"
QSL via his home callsign, direct (see Web page) or by the Bureau. Andrew now has a dedicated Web page at: http://8q7ak.freewebspace.com
C3, ANDORRA
Members of the "Andorran Amateur Radio Union (URA)" will team up with a Spanish ham to be active as C37NL during the CQWW DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via C37URA. Operators mentioned are Josep/C31AT, Josep/C31JM, Beli/C31KC, Michel/C31MO, Martinho/ C31VM, Joan/C31US, Xavi/C32JK and Gerardo/EA3HCJ.
CN, MOROCCO
Operators Stefano/IK2QEI, Matteo/IK2SGC, Flavio/IK1SPR, Manuel/IK3STG, Filippo/IZ1LBG and George/NR5M will be active as CN3A from Safi during the CQWW DX SSB Contest (October 27-28th) as a Multi-? entry. QSL via LoTW or via IV3ZXQ. Visit their Web page at:
http://www.facebook.com/pages/CN3A/112969535390789
CR2, AZORES
Toni, OH2UA, will be active as CR2X from Ribeira Grande during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All- Band/High-Power entry. QSL via OH2BH. For more details, visit the CR2X Web page at:
http://www.cu2a.comCR2, AZORES (Correction)
Kim, OH6KZP, will be active as CR2X from Ribeira Grande during the CQWW DX CW Contest (November 24-25th) [not the CQWW DX SSB Contest] as a Single-Op/All-Band/High-Power entry. QSL via OH2BH.
CR3, MADEIRA
Members of the Madeira Contest Team will be active as CR3A during the CQWW DX SSB Contest (October 27-28th) as a Multi-? entry. Operators mentioned are Joe/CT3BD, Luis/CT3DL, Joe/CT3DZ, Luis/CT3EE, Duarte/CT3EN, Miguel/CT3IA, Tiago/CT3KU, Jose/CT3KY, Jose/CT3NT (CT1BOH) and Tony/CT1FFU. QSL via LoTW.
CY0, SABLE ISLAND
Operators Murray/WA4DAN and Ron/AA4VK continue to be active as homecall/CY0 from Sable Island until October 31st. Activity is focused on 10, 12, and 15 meters where the demand for CY0 is greatest, especially on 10m. Also, they plan to be active in the upcoming CQWW Phone contest on 10, 15, 20, and 40 meters. Look for possible update on:

http://www.cy0dxpedition.com
E2, THAILAND
Operators Bob/HS0ZIA, Jack/HS0ZHI and Peter/NO2R will be active as E2E during the CQWW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via HS0AC.
E7, BOSNIA-HERZEGOVINA
Operators Richard/9A1TT, Chris/9A5K, Suad/DK6XZ, Ranko/E70R, Vlado/E70T, Sanjin/E71DX, Fuad/E73CQ, Daniel/E73M, Radomir/ E74IW, Zoran/E76C, Braco/E77DX, Rob/E77E and Bill/F5SNJ will be active as E7DX during the CQWW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via E77E.
EA6, BALEARIC ISLANDS
Luis, EA6XQ, will be active during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via the Bureau.
ED8, CANARY ISLANDS
Operators Manuel/EA8DO, Al/EA7JR and Manolo/EA7LL will be active as ED8W during the CQWW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via EA8DO.
F6, FRANCE
Members of the Ville de Provins ARC will be active as F6KOP during the CQWW DX SSB Contest as a Multi-2 entry. Operators mentioned are Frank/F4AJQ, Terry/F4TTR, Michael/F4TJE, Olivier/F4FLF, Tony/F8ATS, Antoine/F5RAB, John/F5VHQ, Larry/F6BBO, Serge/F6DZS, Jean-Paul/F8BJI, Joël/F6JMT, Maurice/F5NQL and maybe Romain/F8BUI and Claude/F5GVA. QSL via F6KOP, by the Bureau.
HR9, HONDURAS
Hiro, JA6WFM, will be active as HR9/NP3J during the CQ WW DX SSB Contest (October 27-28th) as a Single-Op/Low-Power entry. QSL via EA5GL only direct. Hiro will be there until January 2014.
ADDED NOTE: Hiro mentions to also look for HR9/NP3JA in contest. Operator is Naomi, JM6EBU. QSL via via JM6EBU.
IOTA NEWS
AF-019. Emilio, IZ1GAR, will be active as IH9/IZ1GAR from Pantelleria Island (IIA TP-001, WLOTA 0041) between November 22-25th. In the CQWW DX CW Contest (November 24-25th), Emilio will be active as IH9R and as a Single-Op/Single Band (40m) entry. Pantelleria counts as Multiplier Zone 33 Africa Italy for the CQWW DX rule (islands are located over the African continent platform). QSL via IZ1GAR, direct or by the Bureau.
EU-025. The II9K Contest Team will be active as II9K from Sicily during the CQWW DX SSB Contest (October 27-28th) as a Multi-2 entry. Operators mentioned are Giuseppe/IT9HBT, Girolamo/ IT9GNG, Rino/IT9FXY, Vincenzo/IT9ECQ, Sal/IW9FRA, Mike/IF9ZWA, Domenico/IW9GTD, Antonino/IW9HII, Dario/IT9RDZ and Santo/ IT9KZW. QSL via IT9HBT. For more details, see: http://www.ii9k.it
OC-133. Satoshi "Saty", JE1JKL, will be active as 9M6NA from Labuan Island, East Malaysia, during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL via his home callsign, direct, by the Bureau or LoTW. To see the 9M6NA station, go to: http://jsfc.org/je1jkl/9m6na.html
J3, GRENADA
Operators Terry/KS5Z and Mike/K5KM arrived in Grenada on October 22nd, and will be operating as J38T for the CQWW DX SSB Contest (October 27-28th). Also look for J38K on 12 and 17 meters a day or two before the contests. QSL via operator's instructions.
J7, DOMINICA
Walter, HB9MFM, will once again be active as J79WTA from the Tamarind Tree Hotel near Salisbury on Dominica (NA-101) between October 26th and December 17th. Activity will be holiday style on 160-10 meters using SSB, RTTY, PSK and if possible in SSTV. He will use an

IC-7000 with an ACOM 1000 into a dipole 50m above sea level and Spider Beam. QSL via his home callsign, direct or by the Bureau.
KG4, GUAM (News)
"The Daily DX" reports [edited]: "Operations by Bill/ KG4WV and Ed/KG4KL are QRT due to loss of the ham shack to Hurricane Sandy which took off the roof and damaged several antennas. This weekend's contest activity by John/KG4EM and Norm/KG4AJ will not happen. We thank all who contacted us and hope to get back here soon to put the shack back together. 73, Bill, KG4WV"

UA2, KALININGRAD
Dmitri, UA2FB, will be active as UA2K (ex-UA2KK) from the Keeper Telecom LTD Club Station during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (20m) entry. QSL via direct to: Ulrich Mueller, 13 Kreutzacker Str, D-35041 Marburg, Germany. No German stamps please! All cards are replied from Russia. No IBRS please! Bureau QSLs go to the UA2 QSL Bureau.
UI2, KALININGRAD
Igor, UA2FZ, will be active as UI2K during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via UA2FZ.
V2, ANTIGUA (NA-100)
A team of operators will once again activate the V26B super station at Gunthroppes, during the CQ WW DX SSB Contest (October 27-28th) as a Multi-Multi entry. Activity will be on all bands. Please QSL V26B direct to KA2AEV or LoTW. Visit Team Antigua's Web page at: http://www.team-antigua.comOperators mentioned are Darrell/AB2E, Bob/W2BZR, Mike/K3GEG, Dale/N3BNA, Brian/N3OC, Sam/WT3Q, Marco/HB9OCR, Roberto/I2WIJ, Don/JH5GHM and Luis/ PY5NY. Look for operators possibly to be active before and after the contest using their own V2 callsigns.
V6, MICRONESIA (Update)
Haru, JA1XGI will be active as V63XG from Yap Island (OC-012) between December 5-12th. Activity will be on 40-6 meters (especially 30/17/12m) using mainly CW, with some SSB and the Digital modes. Also JT65. Suggested frequencies are:
 CW - 7005, 10105, 14005, 18075, 21005, 24895 and 28005 kHz
 SSB - 7086, 14175, 18135, 21260, 24940 and 28450 kHz
 RTTY - 10140, 14088, 18120, 21088, 24910 and 28088 kHz
 JT65 - 7076, 10138, 14076, 18102, 21076, 24920 and 28076 kHz
 6m - 7005/CW and 7086/SSB
He will use an IC-7000 into a two element yagi for 17/12m and a fishing rod (only 5m long) antenna. QSL via JA1XGI, direct or by the Bureau. QSOs will be uploaded to LoTW. Look for updates and details on Haru new Web page or Blog page at: http://island.geocities.jp/v63xg/index.htmhttp://ja1xgidxvacation.blogspot.com
VI6, AUSTRALIA
John, VK6HZ, will be active as VK6XX during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band or Single-Band (10m)/High-Power entry. QSL via VK6HZ.
XV2, VIETNAM
Mal, VK6LC, will once again return to Vietnam on a "DX Vacation" during the month of November. His schedule is as follows:
 XV1LC - from Northern Vietnam during early November
 XV2LC - from Ho Chi Minh City during late November
Activity will usually be mainly 20 meters with some 17/12 meters using mostly CW with some SSB. QSL via his home callsign, only direct. He does NOT use the QSL Bureau. Check out (QRZ.com) for some more details and pictures under VK6LC, XV1LC and XV2LC.
XU, CAMBODIA

Barry, ZL1DD, will be active as XU7AEL from the XU7AAA Rental Shack (Samkam Beach Hotel) in Sihanoukville, Cambodia, during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band/Low- Power entry. QSL via his home callsign.
YE0, INDONESIA
The YE0X Team will once again be active from Jakarta during the CQWW DX SSB Contest (October 27-28th) as a Multi-Multi entry. QSL via YB0ZZ. Visit the official YE0X Web page at:
http://ye0x.com
YE2, INDONESIA
Members of the ORARI Daerah Jawa Tengah Contesting Team will be active as YE2R from Semarang on the Island of Java (IOTA OC-021, WLOTA L1660), during the CQWW DX SSB Contest (October 27-28th) as a Multi- Multi entry. QSL via YB3MM. Operators mentioned are Djoko/YB1TJ, Bobby/ YB2BBY, Hans/YB2DX, Seno/YB2LSR, Jon/YB2ECG, Sri/YB2TET (YL), Dani/YB2TJV, Deta/YB2VTO (YL), Bagus/YB2WB, Tom/YB3KM, Buntoro/YB3PXF, Adhi/YB3MM, Imam/YB4IR, Joy/YB0NSI, Nur/YC2WBF, Budi/YF1AR, Bob/KR7O and Iwan/W7NZ. For more details, look at:
http://www.ye2r.wordpress.com
Z6, KOSOVO
The following was reported on (QRZ.com) [edited]:
"FROM PHRISTINA TODAY 2012-10-25.
>LATEST FROM THE REPUBLIC OF KOSOVO, Z60WW
>Mission Goodwill Kosovo is an alliance of several nationalities in their mission to bring Kosovar hams back on the air after more than a twenty years hiatus. The initial Z60K activity was to launch Amateur Radio in this fledgling republic of two million people. Their Amateur Radio association (SHARK) is now fully registered and its initial member-ship is expected to reach fifty (50) this year. You may read about some of their first operators on the QRZ.com Website: Z61AJ, Z61DD, Z61DX, Z61FF, Z61VB.
>Today SHARK has announced plans for their first participation in the CQWW DX Contest, as Z60WW, using two stations in the multi-two category and employing a multi-national team in addition to their own members. The station has an impressive lay-out with a good location in the capital, Pristina, using a beam antenna and two K3s with amplifiers. This is the first time for the Z6 prefix and the Republic of Kosovo will appear in any contest thus everyone is urged to update their CTY files. Usage of 80m is now allocated as of today for the first time.
>Operators will be: Ali/Z61DD, Driton/Z61DX, Feti/Z61FF, Stein/LA4MIA, Martti/OH2BH, Dusan/S52DD and Teemu/SM0W.
>QSLs for this operation via OH2BH."ZL, NEW ZEALAND
Members of the Quake Contesters Group will be active as ZL3X during the CQWW DX SSB Contest (October 27-28th) as a Multi-2/ High-Power entry. QSL via ZL3PAH or LoTW. Operators mentioned are Mark/ ZL3AB, Andrew/ZL3ADW, Don/ZL3DMC, Byron/ZL3DXT, Andrew/ZL3DW, Geoff/ZL3GA, Graeme/ZL3GK, Mike/ZL3MJS and Phil/ZL3PAH.
ZM4, NEW ZEALAND
Members of the East Coast Contesters ZM4T/ZM2M Team will be active using the callsign, ZM4T, in the CQWW DX SSB Contest (October 27-28th) as a Multi-2 entry. Operators mentioned are: Lee/ZL2AL, ZL2CC, Gary/ZL2IFB, Holger/ZL3IO, Peter/ZL2LF, Tom/ZL2MY, Phil/ZL2RVW, Stan/ZL2ST and Wayne/ZL2WG. QSL via ZL2AL, direct or LoTW or OQRS. Visit the ZM4T Web page at:
http://www.zm4t.comMark, ZL3AB, adds details about their QTH, "Back at our hillside location and having learnt some valuable lessons from the CQ WW RTTY contest, we have warmer clothes, some better antennas and in the immortal words of Tim the Toolman Taylor

'more power!' planned as well as a Cluster connection that actually works!"

http://w1vx.net/pedition/zl7/2012ZL7.htm

This site devoted entirely to Amateur Radio

40 years anniversary Project
ZL7A (Also ZL1WY/ZL7) Chatham Is. in 2012

ZL7A 's Shack in 2010

I am very happy to inform you about my DX trip in 2012.
This time, I will be active from the Chatham Islands (OC-038) between 1 and 9 November. and will operate on 80-6meters CW, SSB and Digi-mode, with an emphasis on 80 and 6metres.
Especially, a beacon will be on 50.117MHz around the clock for the Pacific..
Please call me by all means if any other areas station could catch me anywhere, anytime.

Thank you and looking forward to seeing on the air.

Hiro Miyake ZL7A / ZL1WY / W1VX / JF1OCQ (Since 1972)

Special QSL cards

Which do you favorite TYPE 1 or TYPE 2 ?
< This designs are subject to change without notice >

TYPE 1 (ONLY SASE)

This type is folded in half, Double-side printed, Full color

!!! Attention !!!
This card is replied to only SASE request. I can NOT send it via the JA-Bureau.
(JA-Bureau does not accepted Folded- QSL card)

TYPE 2

This is regular size, Both SASE and via Bureau are available.

Operation Detail

Operator ZL7A Hiro C, Miyake
Schedule Nov 1st to Nov 9
Band 80m - 6m
Mode SSB, CW, RTTY, PSK
Equipment Primary : TS-590S + ACOM1000 (400W)
Backup : K2/100 (100W)
Beacon for 6m : FT-100 (100W)
QRG CW SSB RTTY FM & PSK

GM all,

setelah kami semua anggota tim YE2R memeriksa kembali dan terakhir di-rekapitulasi oleh manager logging kami , YB2ECG / Jon,
maka kamu membukukan hasil kontes kami di arena CQWW SSB 2012 akhir Oktober lalu dengan hasil sbb,

YE2R katagory M-M

Band	QSOs	Pts	ZN	Cty
3.5	70	139	20	27
7	709	2005	33	81
14	1260	3587	37	116
21	1841	5423	35	111
28	1625	4712	36	100
Total	5505	15866	161	435

Score: 9,456,136

Seno

Dari tim YE2R

GM all,

setelah kami semua anggota tim YE2R memeriksa kembali dan terakhir di-rekapitulasi oleh manager logging kami , YB2ECG / Jon,
maka kamu membukukan hasil kontes kami di arena CQWW SSB 2012 akhir Oktober lalu dengan hasil sbb,

YE2R katagory M-M

Band	QSOs	Pts	ZN	Cty
3.5	70	139	20	27
7	709	2005	33	81
14	1260	3587	37	116
21	1841	5423	35	111
28	1625	4712	36	100
Total	5505	15866	161	435

Score: 9,456,136

Seno

Dari tim YE2R

Papa Foxtrot, I think this is maybe good for #1 OCEANIA.
A true cause for celebration.
Congrats to all the team members with special hats off to the host YB2DX
and the coordinator YB2LSR.

Dear All,
Semua kita adalah satu Team, baik yg Multi-Multi, yg Multi two maupun yang single operator, adalah peserta dari Indonesia dan adalah anggota ORARI.

Meskipun QRV di berbagai tempat di Indonesia dgn berbagai Callsign, kenyataannya bahwa Kita semua membawa satu bendera merah putih dan satu tujuan utk bisa menang di benua dan bahkan Dunia.

Semoga next time kita bisa lebih bagus kerjasamanya, termasuk pembagian kategori, strategi dan lain2 sehingga peluang untuk menang di dunia akan semakin bisa kita capai.

Selamat untuk semuanya.

YE2R ??? . ini kan yg tempoari di□sinis□i bbrp rekans krn mendeklarasikan diri sbg the DRAGON DX Club?

[nyatanya kan selama kontes/trek-trekan nggak ada □warga□nya yg kelepasan dan lantas me□lafal□kan: CQ Contest, CQ Contest, CQ Contest .. this is DDXC, Dragon DX Club from Grobogan, Indonesia calling DX and standing bye ... atau di sela suatu pile up meneriakkan: Dee-dee-ex-cee atau Delta-delta-x-ray-charlie .....]

PF guys, betapapun kalian telah membuktikan: MERAH PUTIH über alles!!!

73,

[bam]

V84SMD, Brunei Darussalam, IOTA OC-088

GEMILANG
Persatuan GEMILANG Daerah Tutong (GEMILANG) is registered to Registrar of Society, The Royal Brunei Police Force, Negara Brunei Darussalam on 4th November 2004 (Ref:BPD 25/1160).

Its aim is to facilitate and promote the development of leadership, management skill and individual's potential, by running interest-based activities in support of our nation's objective in shaping Brunei's youth into excellence.

The association's core activities are Amateur Radio; four wheel drive, Photography and Agriculture.

Other activities includes religious activities, social activities, economic studies, sport activities, cultural activities, traditional activities and a lot more.

As one of the core activities, GEMILANG AMATEUR RADIO CLUB or GEMILANG Radio was form in line with the aspiration of the Association. With a humble start of a few members of the association itself shaping the club direction and strategy since 2008, GEMILANG Radio has now been established as of the main player of Ham activities in Brunei.

GEMILANG Radio has been able to put up two interlink repeaters V84RPG and V84RGR., participate in DX contests, pioneering Foxhunting (ARDF) competition in Brunei, providing several Emergency Communications during flooding and landslides disaster, and various other HAM activities such as field day DXing and RAE classes.

QSL POLICY

Complete on PayPal your OQRS direct card request:

Manager for direct/bureau/OQRS cards:

IK2VUC – Giuliano Mondini
PO BOX 10
21052 Busto Arsizio (VA)
ITALY

LoTW files will be uploaded by the end of May 2013

Manager’s Requirements:
for paypal: 2 euro for Europe and 3 euro out side Europe thanks.
For direct qsl, I require that you provide appropriate SASE or SAE+ current IRC or SAE+greenstamp for direct mail return.
To send a standard 20g letter from Italy are necessary:
€ 0.75 to ship a letter to Europe
€ 1.60 to ship a letter to USA
€ 2.00 to ship a letter to Oceania & South America

for OQRS via paypal please send 2 euro for europe, 3 euro for others.

ALL QSLs received without these requirements for direct return will processed via the bureau.

PLEASE! If you send your QSL via one route, do not send a duplicate QSL via another route. For example, if you send a card direct, please DO NOT also send a card via the bureau! This will slow considerably the Manager’s work. Thanks!

7P8D, LESOTHO

23 NOVEMBER TO 3 DECEMBER 2012

What started out to be a small local DX-pedition has developed into a multi National team effort. Our aim...To give as many deserving DX'ers Lesotho on as many bands as possible, in CW SSB and RTTY.
We will be running 3 good stations 24/7 and have some really good operators.
See you all in the Pile-ups.

Background to Lesotho

Lesotho, officially the Kingdom of Lesotho, is a landlocked country and enclave, completely surrounded by its only neighboring country, the Republic of South Africa. It is just over 30,000 km2 (11,583 sq mi) in size with a population of approximately 2,067,000. Its capital and largest city isMaseru. Lesotho is a member of the Commonwealth of Nations. The name Lesotho translates roughly into the land of the people who speak Sesotho. About 40% of the population live below theinternational poverty line of US $1.25 a day.

Band Plan

160m
CW 1.820 up SSB 1.840 up
80m
CW 3.520 up SSB 3.780 up
40m
CW 7.026 up RTTY 7.038 up SSB 7.160 up
30m
CW 10.105 up RTTY 10.138 up
20m
CW 14.020 up RTTY 14.085 up SSB 14.185 up
17m
CW 18.075 up RTTY 18.102 up SSB 18.150 up
15m
CW 21.020 up RTTY 21.085 up SSB 21.220 up
12m
CW 24.895 up RTTY 24.922 up SSB 24.945 up
10m
CW 28.015 up RTTY 28.080 up SSB 28.480 up
NO 60m - Licence does not cover it-Sadly!
This is HF Dx Pedition No 6m- Sorry!

QSL Information Page

NO Bureau qsl's will reach us!!

DIRECT REQUESTS

LESOTHO DX PEDITION 2012
P O BOX 29169
SUNRIDGE PARK
6008
SOUTH AFRICA
To cover cost we request a donation of $3 with your QSL card. Please no IRC as it is difficult to convert at the post office.
OQRS system will also be implemented just after the expedition.

LOGS WILL BE UPLOADED TO LOTW WITHIN 6 MONTHS AFTER THE EXPEDITION HAS BEEN COMPLETED.

http://5t0sp.dxing.pl/

5T0SP, Mauritania, Africa

Yes, it is going to happen again. After previous DXpedition adventures a group of Polish operators joined to organize the next DXpedition.

This time their target is Mauritania. Perhaps it is not on the top of the Most Wanted DXCC Entity List but activcity from 5T is not too high, in fact there is only one active HAM in 5T. Also not too many DXpeditions have vistited that African country.

So here is the DXpedition team: SP2EBG, SP3CYY, SP3GEM, SP6EQZ, SP6FXY, SP6IXF and 5T0JL. Read their short personal profiles to learn about their previous DXpedition experiences.

Visit our website to learn about plans and operation details. We can confirm, that we have already received the licence 5T0SP thanks to the great help of Jean 5T0JL and courtesy of the l'Autorité de Régulation de Mauretanie.

Fly tickets are already booked.

We were going to keep the information about our DXpedition in secret a few days more. We needed a few days more to create the website and some additional articles. But it was impossible to keep it secret. So stay tuned for more details. We will publish more information very soon.

It is not sure if there will be internet access in the QTH of the DXpedition. There are no roaming services there. Perhaps it will possible to buy a prepaid card of thr local operator. If it is only possible we will try to have internet and upload our logs to the ClubLog.

We will publish a survey to let you vote on which bands and/or modes you need 5T. Just give us some days to prepare it. You can also always use our contact email: 5t0sp@... – this email already works and will be active during and after the DXpedition.

We received some questions about 6 meters. Unfortunately our permission does not allow for the magic band operation.

More information will be published soon…

Thanks for all HAM friends who sent us really friendly comments. Many of you asked for the 160 meters. We can say that we are going to be really well prepared for the Top Band operation. Many of us have low band experience. Especially Jurek SP3GEM is mad about low bands (you can have a lok at his antennas at: http://sp3gem.smoczyk.pl/). The coming weekend we are going to have a meeing of the DXpedition team at Jurek's QTH. After that we will publish the list of equipment and antennas we are going to take to Mauritania.

In the meantime we have implemented some new features on our website. You can now take part in the survey and vote for bands and modes where you need QSOs with Mauritania most. The

survey is published at the following URL: http://survey.dxing.pl/index.php?sid=17849. After completing the survey you will be able to see the summary statistics of all votes. In the same time here on our website we published a table with votes aggregated by continets (data is updated on the fly after each completion of the survey).

We have also placed a link to the PayPal account of the DXpedition. In general we are ready to cover costs of the expedition ourselves. However if you can help each support will be very appreciated.

5T0SP Team Meeting. The list of equipment

The DXpedition Team members had their first meeting on 18th of August at the QTH of Jurek SP3GEM. There were five of them (SP2EBG, SP3CYY, SP3GEM, SP6EQZ and SP6IXF) who participated the meeting. They met to discuss some aspects of the DXpedition, especially to talk about transceivers and antennas. So here is the preliminary list of equipment they are going to take to Mauritania.
Transceivers: 3 x TS590, 2 x K3, 1x IC7000.
Fiberglas poles: 2 x 8m, 2 x 12m and 1 x 15m.
Masts: 1x fiberglass 9m high and 3 x aluminum 12m high.
Antennas:
Receiving antennas: 1xK9AY + few beverages (maybe put directly on sand if no suitable poles).
Transmitting antennas: Verticals for 160 & 80 m, phased 2 el vertical array for 40 & 30m, GP7 vertical for 40 – 10m, 2 x Spider beam, 1 x 3 elements Yagi, 4 elements Yagi for 17 & 24m, 4 elements Yagi for 6m.
Logging software: Wintest for DXpedition
Other: 6 computers in the local network.

Have a look at the pictures. On the first picture you can see 5T0SP Team mebers (L-R): Jurek SP3GEM, Janusz SP6IXF, Włodek SP6EQZ, Bogdan SP2EBG, Jan SP3CYY. On the second picture you can see them in the company of their friends and family members (L-F): Gala SP2GKS (XYL of SP2EBG), Bogdan SP2EBG, Jan SP3CYY, Józef SP9-31029, Wojtek SP9PT, Wanda (XYL of SP9PT), Włodek SP6EQZ, Janusz SP6IXF.

There were no news last weeks on our website but many things happened in the meantime as we work hard to prepare everything. Here are the most important news:
Many antenna tests were made. We know antennas we are going to use but all of them are tested to check that no parts are missing and antennas work as expected. Of course to make such tests it is necessary to build each antenna.

Janusz SP6IXF is checking the SpiderBeam

Measurement of the 160m vertical. It works!!!

Jean 5T0JL informed that there is Internet access in the hotel. So we hope it will be possible to upload the log to ClubLog on daily basis.
We did some paperwork, check our passports etc. just not to miss any of the very basic things.
We warmly welcome Andre V51B in our team as a support. Andre will be our pilot station. Please check the link “Team Members” to read Andre’s personal profile. We believe that with the help of Andre V51B and Tom SP5UAF HAM radio community will be perfectly informed about 5T0SP activities.
Some members of the 5T0SP Team are going to meet during the weekend of September 22-23

(during the annual meeting of the SP DX Club). There will be a short presentation about the DXpedition. It will be also a chance to discuss some matters.

Asia Pacific DX Convention, Osaka-Japan, November 2-4,2012

We are pleased to announce that the 4th Asia Pacific DX Convention will be held at Osaka International House in Osaka, Japan on November 2 through 4, 2012. The program details will be announced on this website as they become available. Please check back often for updates on APDXC 2012. Photos and presentation videos from the 2005, 2008 and 2010 APDXCs are also on the website. Take a look and see how a great time was had by all at the previous conventions. We are looking forward to welcoming you at APDXC 2012.
Presentation

N6BV Dean Straw - "Little Pistol" vs "Big Gun" Antennas for DXing and Contesting

In a pileup on a really rare DX station, a 1- or 2-dB weaker signal than your competition can really test your patience trying to break through for a QSO. And if you are a "Little Gun" with modest antennas, you can easily be down two S-Units (12 dB) compared to a "Big Gun" superstation with huge stacks on tall towers.
So how does your Little Gun station actually do covering a wide geographic area ? such as all of Europe? Can you reasonably expect to have fun calling CQ with a modest station? The answer is that you most certainly can! N6BV analyzes in detail the ability of even small stations to successfully work DX and domestic contests. More about N6BV Dean Straw - Clike here

HK0NA Malpelo DX-pedition - by Glenn W0GJ and Jorge HK1R

Glenn has participated in several rare and remote DXpeditions, five of which have been DXpedition of the Year. He is giving us a presentation of the most recent DXpedition of the year, HK0NA with the team leader HK1R Jorse. More about W0GJ Glenn Johnson - Clike here

XT2HB Hugolin Pooda - Amateur Radio service for development of least developed countries

When a group of amateur radio operators (JH3AEF Tojo, JA3VWT Nakano, JA3IVU Kitai) landed in a country called Burkina Faso located in the heart of West Africa, it was not a simple trip of discovery. Deploying some impressive antennas in a small town called Kampti in southwestern Burkina, it was to be one of many DX expeditions in rare lands. Hugo will explain why this DX activity contributes effectively to the changing environment.

Ham radio in Middle East - by Mohammad A61M
TBA

HF Propagation for Beginners (and Old Timers too) - by N6BV

N6BV covers the basic principles of HF ionospheric propagation in the first half of this presentation, followed by advanced topics dealing with propagation predictions.
Detailed tables showing predictions from Osaka are introduced, and then area-coverage mapping techniques are demonstrated.
"Exotic" propagation paths, such as long-path, skew-path, grayline and Sporadic-E, are also explored in some detail. More about N6BV Dean Straw - Clike here

"Is 3 dB Worth a Divorce?" - by Glenn Johnson W0GJ

"What is important to you? What is the most gain (dB) you can get for an investment? How to save your marriage and how to be a happy & successful with an effective station. Some new and ractical ideas to make the most with what you have. Do you like hamburgers? If so, you will LOVE this talk!!! Please pass the ketchup." More about W0GJ Glenn Johnson - Clike

Worked All Europe DX Contest - Rules 2012

The Deutscher Amateur Radio Club (DARC) invites radio amateurs world wide to participate in the annual WAE DX Contest.

1 Times

CW: August, second full weekend
Saturday, August 11, 2012, 0000 UTC until Sunday, August 12, 2012, 2359 UTC

SSB: September, second full weekend
Saturday, September 8, 2012, 0000 UTC until Sunday, September 9, 2012, 2359 UTC

RTTY: November, second full weekend
Saturday, November 10, 2012, 0000 UTC until Sunday, November 11, 2012, 2359 UTC

2 Bands

3.5 - 7 - 14 - 21 - 28 MHz.

According to IARU recommendations operation should be avoided outside contest-preferred segments. No operation to take place on:

CW : 3560-3800; 7040-7200; 14060-14350 kHz
SSB: 3650-3700; 7050-7060; 7100-7130; 14100-14125; 14300-14350 kHz.

3 Categories

SINGLE-OP LOW
Max. output 100 watts - all bands. Only one signal permitted at any time.
SINGLE-OP HIGH
Output higher than 100 watts - all bands. Only one signal permitted at any time.
MULTI-OP
Band changes are allowed every 10 minutes; this includes all activities of a main station, including QSO & QTC traffic and CQing.
Only exception: Working of a multiplier. Other transmitters may be used in parallel to the main station to work multipliers on other bands.
SWL
(see §12)

Notes:
Transmitters, receivers and antennas used in the contest must be located within a 2 km diameter circle.
The use of DX spotting nets is allowed in all categories.

4 Off Times

Single Operator stations may only operate 36 out of the 48-hour contest period.

The total of 12 hours off time may be taken in one part but not more than three parts. The off times must be shown on the summary sheet. If operation is interrupted for more than 12 hours the three longest off time periods must be a minimum of 12 hours.

5 Exchange

A contest QSO can only be conducted between a European and a non-European station (exception: RTTY, see §13). The exchange consists of RS/RST and a progressive serial number starting with 001. If the station worked does not send a serial number, log the contact with number 000. Each station can be credited only once per band.

6 Multiplier

For non-European stations the multiplier is the number of countries defined in the WAE Country List (see below) worked per band.

For European stations every non-European DXCC entity counts as a multiplier.
Exception: In the following countries up to ten numerical call areas count as multipliers: W, VE, VK, ZL, ZS, JA, PY and RA8/RA9 and RAØ -- without respect to their geographical location.

Examples: W1, K1, KA1 and K3../1 count as W1;
VE1, VO1 und VY1 count as VE1;
JR4, 7M4 und 7K4 count as JA4;
ZL2 and ZL6 are two different multipliers.

Multiplier bonus: Country multiplier points are "weighted" by band. Multiply the number of countries worked on 3.5 MHz by four, on 7 MHz by three, and on 14/21/28 MHz by two. The total multiplier is the sum of the weighted multiplier points of all bands.

7 QTC Traffic

Additional points can be achieved by QTCs. A QTC is the report of a contest QSO back to a European station (exception: RTTY, see §13).

The following rules apply:
A QTC contains time, call sign and serial number of the reported QSO. Example: "1307 DA1AA 431" means that DA1AA was worked at 1307 UTC and sent serial number 431.
Each QSO may only be reported once as a QTC. The QTC may not be reported back to the original station.
Every QTC that was correctly transferred, counts one point for the sender and one point for the receiver.
Two stations may exchange up to 10 QTCs maximum. The two stations may establish contact several times to complete the quota.
QTCs are transferred by means of QTC series. A QTC series is a block of one (minimum) to ten (maximum) QTCs. QTC series are numbered using the following scheme: The first figure is the progressive serial number starting with one; the second figure denotes the number of QTCs in the series. Example: "QTC 3/7" means this is the third QTC series transmitted by this station and it contains seven QTCs.
For every QTC series that is transmitted or received, the QTC number, time and frequency

band of the QTC transmission must be logged. If any of this data is missing from your log, no credit will be given for this QTC series.

8 Scoring

The final score is the result of total QSOs plus QTCs on all bands multiplied by the sum of all multipliers weighted by the band bonus factor (see §6).

9 Disqualification

Violation of the rules of the contest or unsportsmanlike conduct will be deemed sufficient cause for disqualification. The decisions of the contest-committee are final.

10 Submissions

URL: http://www.waedc.de

Messages to contest manager (no logs): waedc-info@...

Logs need to be sent in STF or Cabrillo-Format to the following e-mail address: WAEDC CW : waecw@... WAEDC SSB : waessb@dxhf.darc.de WAEDC RTTY : waertty@...

Be sure to put the station call sign into the subject of each message.

By submitting an electronic log, the participant claims to fully accept the rules of the contest. A written declaration is not necessary.
Note: After publication of the results all logs will be put into the DARC Contest Logbook (DCL).

Hand-written logs:

After the contest use a proper logging program or LM from DL8WAA to enter your data.

See Link: http://contestsoftware.com/e/home.htm

If you do not have a computer, please ask a friend or family member to import the log.

11 DX & Contest Club Competition

The club score is calculated by adding the final results of all participating club members in all three WAE contests, excluding SWLs. To be counted, the name of the club has to be indicated in the log on a separate header line using the keyword "CLUB".

The club must not be an official national amateur radio club. For a club to be listed, a minimum of three logs must be submitted.

A trophy is sponsored for the top DX (non-EU) and the top EU clubs.

For DL stations participating in the German DARC/VFDB-Clubmeisterschaft put your DOK in the log on a separate header line using the keyword "SPECIFIC".

12 Special Rules for SWLs

SWLs record stations working in the WAEDC. Participation is only possible as a single operator all bands. Every call sign heard - European or non-European station - may be credited only once per band. Both call signs of a contest QSO have to be recorded.

Each station that is logged including the serial number that was sent by that station, counts one point. Every complete QTC which includes all QTC series information (up to a maximum of 10 per station) also counts one point.

Multipliers are counted according to the criteria indicated in §6, but both European and non-European multipliers are counted. A call sign can only be counted as a multiplier, if the serial number it sent was recorded. In the best case, for a completely recorded QSO, two points and two multipliers can be credited.

13 Special Rules for RTTY

In the RTTY portion of the WAEDC there are no continental limits; everybody can work everybody. Only QTC traffic must be performed between different continents.

Every station may send and receive QTCs. The sum of QTCs exchanged between two stations (sent plus received) must not exceed 10 (ten).

The European and non-European multipliers indicated in §6 count for all stations.

14 Log Deadline

Log deadline is always two weeks or, more specific, the third Monday after the end of the contest.

CW: August 27; SSB: September 24; RTTY: November 26, 2012.

15 Criteria for WAEDC Awards and Plaques

Continental winners will receive a plaque. Printable online certificates will be availabe for all stations on result publication.

Entries from countries split by numerical call areas for multiplier reasons (see §6) will be listed according to their reported location within their respective geographical call area.

Stations who activate a WAE country for the WAEDC from where no log was received over the last three years will be recognized as "WAEDC Hero" and receive a special prize. For 2012 these 9 countries are:
1AØ, HV, JW, JW/b, JX, R1F, SV/A, YU8, ZB

Stations who have been in the Top-Ten/Top-Six list for at least five times can apply for a special plaque.

The WAEDC committee reserves the right to honor special contest activities with additional plaques.
WAE Country List

1AØ, 3A, 4O, 4U1I, 4U1V, 9A, 9H, C3, CT, CU, DL, E7, EA, EA6, EI, ER, ES, EU, F, G, GD, GI, GJ, GM, GM/s, GU, GW, HA, HB, HBØ, HV, I, IS, IT, JW, JW/b, JX, LA, LX, LY, LZ, OE, OH, OHØ, OJØ, OK, OM, ON, OY, OZ, PA, R1F, RA, RA2, S5, SM, SP, SV, SV/A, SV5, SV9, T7, TA1, TF, TK, UR, YL, YO, YU, YU8, Z3, ZA, ZB.[R1M removed]

CQ SA SSB Contest 2012 - Rules

Mode: Phone (SSB)

Date: November 17, 2012

Start: 00:00hs UTC Saturday End: 23:59hs UTC Saturday

1 – Objective:
The contest is to establish as many contacts as possible between radio amateurs around the world and radio amateurs in the South America. Everybody can work everybody.

2 – Period of Operatio:
24 hours

3 – Bands:
10m (28MHz), 15m (21MHz), 20m (14MHz), 40m (7MHz), 80m (3.5MHz), 160m (1.8MHz).
3.1 – No WARC bands allowed.

4 – Terms of competition for all categories:
4.1 – All entrants must operate within the limits of their chosen category, any irregular activity can impact your score. Note that single band stations can also work other bands, see 9 and 11.3.
4.2 – Only the entrant’s callsign can be used to aid the entrant’s score. A different callsign must be used for each entry.
4.3 – All entrants must not exceed 1000 watts total output power, or the maximum output power of their station licence, or the power limit of their entry category.
4.4 – The use of DX spotting nets is allowed in all categories.
4.5 – Self-spotting or asking other stations to spot you is not allowed.
4.6 – All operation must take place from one operating site. Transmitters and receivers must be located within a 500 meter diameter circle or within the property limits of the station licensee’s address, whichever is greater. All antennas used by the entrant must be physically connected by wires to the transmitters and receivers used by the entrant.
4.7 – Operator may be a member of a single station and can’t longer participate in any other category or another station in the same contest.
4.8 – Member of contest committee can take part in the contest, but no pretension to get any award.

5 – Categories:
5.1 – Single Operator, Single Band, High Power (SOSB-HP).
One person performs all of the operating and logging functions. Only one transmitted signal is permitted at any time. Total output power must not exceed 1000 watts..
5.2 – Single Operator, Single Band, Low Power (SOSB-LP).
One person performs all of the operating and logging functions. Only one transmitted signal is permitted at any time. Total output power must not exceed 100 watts.

5.3 – Single Operator, All Band, High Power (SOAB-HP).
One person performs all of the operating and logging functions. Only one transmitted signal is permitted at any time. Total output power must not exceed 1000 watts.
5.4 – Single Operator, All Band, Low Power, (SOAB-LP).
One person performs all of the operating and logging functions. Only one transmitted signal is permitted at any time. Total output power must not exceed 100 watts.
5.5 – Multi Operators, Single Transmitter (MULTI-SINGLE) All-Band.
Only one transmitted signal is permitted per band. No power subcategories. Total output power must not exceed 1000 watts. A multiplier station cannot call CQ.
Running staition: Observe the 10 minutes rule.
* The 10 minutes rule means that only one transmitter and one band are permitted during any 10 minutes period, defined as starting with the first logged QSO on a band. However, one-and only one other band may be used during any 10 minutes period if and only if the station worked is a new multiplier.
5.6 – Multi Operators, Multi-Transmitter (MULTI-MULTI) All-Band.
No limit to the number of transmitters, but:
only one signal allowed per band and
only one running transmitter allowed per band.
No power subcategories. Total output power must not exceed 1000 watts per band.

6 – Exchange:
RS report plus a progressive contact serial number starting with 001 for the first contact. All categories must use a single serial number sequence for the complete log.
(for example 59 001)

7 – QSO Points.
Each station can be credited only once per band.
7.1 – For South American stations:
One (1) point for contacts between stations in the same DXCC Country.
Two (2) points for contacts between stations on the same continent but different DXCC Countries.
Three (3) points for contacts between stations on different continents.
7.2 – For non-South American stations:
One (1) point for contacts between stations in the same DXCC Country.
Two (2) points for contacts between stations on the same continent but different DXCC Countries.
Three (3) points for contacts between stations on different continents. Ten (10) points for contacts with stations in South America.

8 – Multipliers:
A multiplier of one (1) for each different continent contacted on each band.
A multiplier of one (1) for each different South America DXCC Country contacted on each band.
Stations are permitted to contact their own continent for multiplier credit.
Maritime mobile stations are not the multipliers, but worth three (3) points for any participant.

9 – Scoring: Scoring is the same for all stations.
The final score is the sum of QSO points from all bands multiplied by the sum of multipliers from all bands. Scoring = (The total of the QSO points) x (The total of the multipliers)

A Single-Band log will be eligible for a Single-Band award only. If a log contains more than one band, only contacts made on the band specified in the Cabrillo header will be considered for scoring purposes.

10 – Awards:
10.1 – First place certificates will be awarded in each category in each DXCC country, including the South American countries.
10.2 – A participation certificate will be awarded to every station that makes at least 100 contacts.
All certificates will be available at the www.brcontest.com website for downloading.

11 – Log Instructions:
11.1 – All times must be in UTC. All sent and received exchanges are to be logged.
11.2 – All logs must be Cabrillo format. The Contest Committee accepts logs in the Cabrillo format only. Logs in the Cabrillo format CQ WPX model created by all major logging programs. The Cabrillo specification can be found at www.brcontest.com.
11.3 – Every participant must declare their entry in one category only, any remaining QSO's will be used as check logs.
11.4 – All entrants must indicate the output power (HP or LP) in the Cabrillo log. If no power is mentioned in the log the participant's score will be moved to High Power category automatically.
11.5 – Entries from MULTI-SINGLE and MULTI-MULTI stations must be merged into a single chronological Log, and must also indicate which transmitter made each contact.
11.6 – Filename must be the stations callsign. (for example: PS2Y.cbr or PS2Y.log).
11.7 – Portable callsigns should use a hyphen. (for example: PW2P-PY0.log for PW2P/PY0)
11.8 – Maritime mobile stations append a "MM" to end of their call sign. (for example: PX2T-MM.cbr for PX2T/MM)
11.9 – Submitted Logs will be confirmed with the receipt log protocol number by an email sent to entrants email address (the o ne informed in the upload page). After 12 hours www.brcontest.com should access the site and verify that the Cabrillo file is in the list of logs received. If present error in Cabrillo format, a new file can be sent.
All logs received via upload will be confirmed via email. A listing of logs received can be found at www.brcontest.com.

12 – Disqualification:
Violation of amateur radio regulations in the country of the contestant, or the rules of the contest; unsportsmanlike conduct; taking credit for excessive unverifiable contacts or unverifiable multipliers will be deemed sufficient cause for disqualificatio n. Incorrectly logged calls will be counted as unverifiable contacts.
Any use by an entrant of any non-amateur means including, but not limited to, telephones, email, Internet, Instant Messenger, chat rooms, VoIP, or the use of DX cluster to solicit, arrange, or confirm any contacts during the contest is unsportsmanlike and the entry is subject to disqualification.
An entrant whose log is deemed by the Contest Committee to contain a large number of discrepancies may be disqualified from eligibility for an award.

13 – Declaration:
By participating in the CQ SA SSB Contest you agree that:
a) You have read and understood the rules of the contest and agree to be bound by them, as well as all rules and regulations for amateur radio in the country of operation;
b) your log entry may be made open to the public, and

c) all actions and decisions of the CQ SA SSB Contest Committee are official and final.

14 – Log Deadline:
Dez ember 17, 2012
Logs must be submitted to the Contest Committee no later than 2012/DEZ/17
Logs received after the deadline may be listed in the results but will be ineligible for any award.

15 – Log Submission:
We will accept logs only through our Log Submit Page.
http://www.brcontest.com/cqsa/up/ We do not accept paper logs and summary.

Contac t Information:
Contest Committee, e-mail: brc ontest@brc ontest.c om (Do not send logs via e-mail) Offic ial website CQ SA SSB Contest: http://www.brc ontest.c om

COMMENTS:
- Logging software for CQWPX c an be used, the sc oring in real time will not be c orrec t but we will be able to read the Cabrillo file and sc ore ac c ording to the rules.
- It is forbidden to disc lose (open) Log public ly before the final determination of the c ompetition. This is a rule for every amateur c ontest.

Bulgarian DX Contest

Organized By:
Bulgarian Federation of Radio Amateurs

Date and period:
The weekend before the last full weekend of November from 12:00 UTC on Saturday till 12:00 UTC on Sunday (19/20 November 2011). (i.e. during the weekend before CQWW CW contest weekend)

Band and mode:
80; 40; 20; 15 ; 10 m ; CW and SSB
It is necessary to observe IARU band plan.
Same station may be worked once on CW and once on SSB on each band. Changing the mode and the band is permitted for single operator categories. For multi operator categories there is 10 min rule for band and for mode (for running stn) , only mults can be worked on another band with 10 min rule for band(for mult stn). Only one signal can be transmitted at any given time.

Categories:
A - Single Operator/All Bands/Mixed
B - Single Operator/All Bands/CW
C - Single Operator/All Bands/SSB
D - Single Operator/Single Band/Mixed
E - Multi Operators/All Bands/Single Transmitter/Mixed
F - Single Operator/All Bands/Mixed/QRP (max.10W)
G - SWL
Low power (max 100 W output) entrants will be marked with (*) sign in final results.
Bulgarian stations are listed separately from foreign entrants.

Exchange:
For non LZ Stns: RS(T) + ITU zone
For LZ Stations: RS(T) + 2 letters district abbreviation

Points:
10 points for each QSO with LZ station
3 points for each QSO with other continent
1 point for each QSO with the same continent (own country included)
1 point for each QSO between LZ and LZ station

SWL Points:
3 points for two call signs and two numbers
1 point for two call signs and one number

Multiplier:
The sum of ITU zones + LZ districts on each band regardless of the mode

Final score:
The sum of QSO points multiplied by final multiplier

Paper LOGs:
Separate logs for each band + summary sheet are required.
Please, send your log to: BFRA, P.O.Box 830, 1000 Sofia, Bulgaria

Electronic LOGs:
Please, send your e-log (preferably in CABRILLO format) to E-mail:
lzdxc@... or
lzdxc@...

Deadline:
30 days after the contest (post seal being decisive)

Advisable logging software:
SD, Write Log, TR4W, N1MM, Wintest
or any other in IARU contest mode

Awards:
Top three scores in each category will be awarded a diploma.
This year (2010) following additional awards will be given to foreign participants:

Plaque for 1-st place SO/AB/MIXED
Donated by LZ2KSB
In memorial of LZ2RF

Plaque for 1-st place SO/AB/CW
Donated by LZ3FN

Plaque for 1-st place SO/AB/SSB
Donated by LZ3FN

Plaque for 1-st place SO/AB/QRP
Donated by LZ3FN

Cat.G Plaque for 1-st place SWL
Donated by LZ3FN

Plaque for 1-st place SO/SB/80M
Donated by LZ3FN

Plaque for 1-st place SO/SB/40M
Donated by LZ3FN

Plaque for 1-st place SO/SB/20M
Donated by LZ3FN

Plaque for 1-st place MO/AB/ST/MIXED
Donated by LZ3FN

Plaque for over all score in EUROPE
Donated by LZ3FN
(if not first in other category)

Plaque for over all score in NORTH AMERICA
Donated by LZ3FN
(if not first in other category)

Plaque for over all score in ASIA
Donated by LZ3FN
(if not first in other category)

Remarks:
The total number of LZ districts is 28.
Here are the abbreviations of all 28 districts:

BU - BURGAS
BL - BLAGOEVGRAD
VN - VARNA
VT - VELIKO TARNOVO
VD - VIDIN
VR - VRATSA
GA - GABROVO
DO - DOBRICH
KA - KARDZHALI
KD - KYUSTENDIL
LV - LOVECH
MN - MONTANA
PA - PAZARDZHIK
PK - PERNIK
PL - PLEVEN
PD - PLOVDIV
RZ - RAZGRAD
RS - RUSE
SS - SILISTRA
SL - SLIVEN
SM - SMOLYAN
SF - SOFIA (CITY)
SO - SOFIA (DISTRICT)
SZ - STARA ZAGORA
TA - TARGOVISHTE
HA - HASKOVO
SN - SHUMEN
YA - YAMBOL

YE2R dalam Kontes CQWW SSB, 2012
Apa yang dapat disimpulkan dari dua screen shots di bawah ini?

Gbr. 1. Skor YE0X dalam Kontes CQWW SSB, 2012, MM, HP

Gbr. 2. Skor YE2R dalam Kontes CQWW SSB, 2012, MM/HP Silakan Anda analisis dan tarik kesimpulan sendiri. Selamat buat tim YE2R yang telah berhasil membuat rekor baru di Indonesia!

JAPAN INTERNATIONAL DX CONTEST RULE
2012-10
** RULE CHANGE! ** 1. Deadline is shortened. 1month after the contest.

OBJECTIVE: For amateurs around the world(DX) to contact JA stations in
as many JA prefectures + JD1 islands as possible.
For amateurs in Japan to contact DX stations in as many DXCC entities
and CQ Zones as possible. 1. CONTEST PERIOD
CW Start Sat. 0700 -Sun. 1300UTC 2nd full weekend of April PH Start Sat. 0700 -Sun. 1300UTC 2nd full weekend of November PH 2012-11-10 0700 - 2012-11-11 1300 UTC CW 2013-04-13 0700 - 2012-04-14 1300 UTC 2. BANDS:
PH 3.5/7/14/21/28MHz (JAs on 3525-3575, 3599-3612, 3680-3687, 3702-3716 3745-3770 & 3791-3805KHz 7030-7200KHz also) CW 1.8/3.5/7/14/21/28MHz (JAs on 1810-1825 & 1907.5-1912.5KHz) Except for the WARC bands.3. ENTRY CLASSIFICATIONS:
**** CHOOSE ONLY ONE! **** 3-1.Single Operator(*1) High Power(*2) Abbreviation = category AB = SINGLE-OP ALL-BAND HIGH-POWER 28 = SINGLE-OP 28MHz SINGLE-BAND HIGH-POWER 21 = SINGLE-OP 21MHz SINGLE-BAND HIGH-POWER 14 = SINGLE-OP 14MHz SINGLE-BAND HIGH-POWER 7 = SINGLE-OP 7MHz SINGLE-BAND HIGH-POWER 3.5 = SINGLE-OP 3.5MHz SINGLE-BAND HIGH-POWER 1.8 = SINGLE-OP 1.8MHz SINGLE-BAND HIGH-POWER 3-2.Single Operator Low Power(*3) ABL = SINGLE-OP ALL-BAND LOW-POWER 28L = SINGLE-OP 28MHz SINGLE-BAND LOW-POWER 21L = SINGLE-OP 21MHz SINGLE-BAND LOW-POWER 14L = SINGLE-OP 14MHz SINGLE-BAND LOW-POWER 7L = SINGLE-OP 7MHz SINGLE-BAND LOW-POWER 3.5L = SINGLE-OP 3.5MHz SINGLE-BAND LOW-POWER 1.8L = SINGLE-OP 1.8MHz SINGLE-BAND LOW-POWER 3-3.Multi Operator (*4) MOP = MULTI-OP (SINGLE-TX ALL-BAND HIGH-POWER) 3-4.Maritime Mobile(*5) MM = MARITIME-MOBILE # All categories, except Multi Op, only one transmitted signal is allowed at any one time.
# All stations can use the spotting network(like DXsummit).
# No SELF-SPOTTING of any form is allowed in all categories. Self-spotting is defined as generating spots for your contest callsign by yourself.
# All stations, except Maritime Mobile, must not change the operating location in entire contest period.
# Anyone may only submit one entry in spite of the callsign used. Submission of check logs for operation on other bands or other callsigns are encouraged.
# JA stations must sign their call area as "/#" if they operate from different call area against their callsign. *1 Single operator must do all contest related things by himself. +Single-Operator can change bands at any time. +Multiple Single-Operator entries from the same location must use different callsigns.
*2 High Power: Output power 100w over
*3 Low Power: Output power 100w or less
*4 Multi Op station must remain the same band at least 10 minutes when they make the contact on that band (RUNNING station). They can transmit one other band simultaneously only when the station worked is a new multiplier (MULTIPLIER station). The above 10 minutes rule will be applied to each RUNNING station and MULTIPLIER station separately.
*5 All Maritime Mobile stations must sign "/MM" after the callsign. They will send CQ-Zone

number for exchange with JA stations only. Their scores will be listed in the result but not eligible for the awards. 4. CONTEST EXCHANGE:
JAs : RS(T) + Prefecture number(01 to 50) Others: RS(T) + CQ Zone number You can download the Prefecture number= jidxmult.lst 5. POINTS:
Only contacts between JA and DX(+/MM) are worth contest points.
(DX-DX, DX-/MM or JA-JA contacts are no point and no multi) 1.8MHz..... 4pts 3.5/3.8MHz ..... 2 points 7MHz, 14MHz and 21MHz.. 1 point 28MHz..... 2 Points
The same station may be worked only once per band.
No cross mode, cross band nor repeater contacts are allowed. 6. MULTIPLIER:
JAs :The number of different DXCC country (except JD1) and CQ Zone worked on each band. QSO with /MM stations is worth for Point and Zone multi but no Country multi.
Others:The number of different Japanese Prefecture plus Ogasawara Is.(JD1), Minami-Torishima Is.(JD1) and Okino-Torishima Is. worked on each band. Maximum of 50 (See the List) per band. 7. SCORING:
The final score is the result of the
(Total QSO points) multiplied by (Total multiplier).
Ex. 100 QSO points x 59 multi = 5,900 8. LOG INSTRUCTIONS:
** Only one log is accepted for the result regardless of the callsign used.
8-1. All times must be in UTC.
8-2. All sent and received exchanges are to be logged. **DO NOT FORGET TO RECORD YOUR ZONE/PREFECTURE ON EITHER LOG or SUMMARY**
8-3. Indicate the new multiplier only the FIRST TIME it is worked on each band.
8-4. Duplicate contacts on same band must be clearly shown and marked as 0 QSO point.
8-5. Electronic Log: Please follow the ELECTRONIC LOG instructions. You can send it by following 2ways to the committee. DISK LOG: MS-DOS compatible 3.5" disk only. (No 5" disk or Mac format) EMAIL LOG: send the Log file as email attatchement. The instruction [jidxelog-e.html] is here. send your email logs to cw@... ph@... 8-6. Use a separate sheet for each band. Use a separate sheet for Multi Op, RUNNING and MULTI station.
8-7. Each entry must be accompanied by a summary sheet showing all scoring information, class of entries, name and address in BLOCK LETTERS, and a signed declaration that "All contest rules and regulations for amateur radio in the entity of operation have been observed. JIDX Contest committee decision is final"
8-8. All entrants, except Electronic Log submittion, are required to submit dupe-check sheets (an alphabetical list of calls worked) for each band if 200 or more QSOs were made on that band, or for all bands if a total of 500 or more QSOs were made. 9. PLAQUES:
Plaques will be awarded to the winners which have donnors.
The Single Op/Sigle band plaques will be awarded to the highest
scorer regardless of the High/Low power category. ==== 2012 PHONE Plaque Donors ==== JAPAN

First(plus 2nd & 3rd, depending on number of entries) place
certificates will be awarded in each class in every entity and
in each call area of the USA if the station got SUFFICIENT* score. **CHANGE** Certificate
will be the PDF file after 2012 Phone
contest. The winners will get the PDF certificate and print it by
yourself. *What is sufficient? Depending on the band conditions, activities etc, judged by
the committee. 11.REPORTING:
A original log and a summary sheet will be requested with a SAE
with one IRC but any log forms will be accepted.
All logs should be sent to JIDX "PHONE/CW" Contest c/o FIVE-NINE MAGAZINE P.O.Box 59,
Kamata, Tokyo, 144-8691 Japan
The contest results will be sent with one IRC and SAE. Email log submissions will be judged
with the time stamp of the email
and it should be sent to;
Separate addresses for each (Phone & CW) contests NOW!! Please use the following email
addresses;

CW : cw@...
Phone: ph@... (Log submissions only)
The acknowledgment will be sent when the email log is received and
the result also will be sent by email. Email Log Submission Guide is available here.
CABRILLO FORMAT is recommeneded. 13.Deadline:
No later than ONE month after the end of contest. PH 2012-12-10 CW 2013-05-13 The deadline will be extended up to 2 weeks if the JIDX contest committee
accept the request with the reason by email prior to the deadline. Email: jidx-chairman@...
12.DISQUALIFICATION:
Violation of the contest rules. False statement in the report. The decision of the JIDX contest committee is final. 13.Information on the Internet
You'll be able to get JIDX related informations at the

http://www.cqww.com/rules.htm

The 2012 CQ World-Wide DX Contest
[Rule changes for 2012 are marked in red text. See explanation of changes.]
CW: November 24 - 25 Starts 0:00:00 UTC Saturday Ends 23:59:59 UTC Sunday

I. OBJECTIVE: For amateurs around the world to contact other amateurs in as many zones and countries as possible.
II. BANDS: Six bands only: 1.8, 3.5, 7, 14, 21 and 28 MHz.
III. For all categories:
1. All entrants must operate within the limits of their chosen category when performing any activity that could impact their submitted score.
2. You must not exceed the total output power limitation of your chosen category on any band. Total output power on any band at any time is measured at the output of the active amplifier(s).
3. Operating location: All transmitters and receivers used by the entrant must be located within a single 500-meter diameter circle or within the property limits of the station licensee's address, whichever is greater.
4. All antennas used by the entrant must be physically connected by wires to the transmitters and receivers used by the entrant.
5. Only the entrant's call sign can be used to aid the entrant's score.
6. A different call sign must be used for each CQ WW entry.
7. An entrant's remote station is determined by the physical location of the transmitters, receivers, and antennas. A remote station must obey all station and category limitations of Rule III.
8. A competitor who wishes to be judged for a top score in their category must agree to a potential visitation at any time during the contest by an observer appointed by the CQ WW Contest Committee (CQ WW CC). Failure of the entrant to respond to our correspondence or to allow a CQ WW CC observer full access to the contest QTH during the full contest period may result in the competitor being removed from award eligibility for 3 years.
9. Self-spotting or asking to be spotted is not allowed.
10. Only one signal on a band is allowed at any time.
11. Remote receivers outside the limitations of Rule III.3 are not allowed. The only exception is public remote skimmers which are allowed for the Multi-Operator, Assisted and Xtreme categories.
12. When two or more transmitters are present on the same band, a hardware device MUST be used to prevent more than one signal at any one time; interlocking two or more transmitters on a band with alternating CQs (soliciting contacts) is not allowed.
13. Post-contest correcting of call signs by using any database, recordings or confirming QSO's is not allowed (Rule XII.2 always applies).
14. All competitors are expected to have read and to comply with the rules of the chosen category. The entrant agrees that any violation of CQ WW contest rules makes the entrant subject to either a red or yellow card (see rule XIII).
IV.TYPES OF COMPETITION
A. Single Operator (All-Band or Single-Band): only one person (= the entrant) can

contribute to the final score during the official contest period. Call sign alerting assistance of any kind places the entrant in one of the Single Operator Assisted categories. For all single operator categories, all-band or single-band, only one signal is allowed at any time; for the all-band category the operator can change bands at any time.
1. Single Operator: QSO alerting assistance of any kind is not allowed.
a. Single Operator High Power (All-Band or Single-Band): Total output power must not exceed 1500 watts on any band at any time (see III.2).
b. Single Operator Low Power (All-Band or Single-Band): Total output power must not exceed 100 watts on any band at any time (see III.2).
c. Single Operator QRP (All-Band or Single-Band): Total output power must not exceed 5 watts on any band at any time (see III.2).
2. Single Operator Assisted: Any public QSO alerting assistance is allowed for all assisted categories. This includes, but is not limited to, DX Cluster-type networks, local or remote Skimmer and/or Skimmer-like technology and reverse beacon network. A local Skimmer is one obeying Rule III.3.
a. Single Operator High Power Assisted (All-Band or Single-Band): Total output power must not exceed 1500 watts on any band at any time (see III.2).
b. Single Operator Low Power Assisted (All-Band or Single-Band): Total output power must not exceed 100 watts on any band at any time (see III.2).
c. Single Operator QRP Assisted (All-Band or Single-Band): Total output power must not exceed 5 watts on any band at any time (see III.2).
B. Multi-Operator Categories (all-band operation only): Any public QSO spotting help is allowed. Any number of operators is allowed. Total output power must not exceed 1500 watts on any band at any time (see III.2).
1. Single Transmitter (MS): Only one transmitter and one band permitted during any 10-minute period (run transmitter).Exception: One- and only one-other band may be used during any 10-minute period, if-and only if-, the station worked is a new multiplier (multiplier transmitter). The run and multiplier transmitters are governed by independent ten minute rules. Ten-minute periods are defined as starting with the first logged QSO on a band (see Rule XII.2). The multiplier station cannot call CQ (solicit contacts). Logs found in violation of the 10-minute rule may be reclassified as M2. The log must indicate which transmitter (run or multiplier) made each QSO.
2. Two Transmitters (M2): A maximum of two transmitted signals at any time on two different bands. Both transmitters may work any station.A station may only be worked once per band regardless of which transmitter is used. The log must indicate which transmitter made each QSO. Each transmitter may make a maximum of 8 band changes in any clock hour.
3. Multi-Transmitter (MM): A maximum of six transmitted signals, one per band, at any one time. Six bands may be activated simultaneously.
C. Xtreme Contesting: To encourage the development of new technologies in contesting. The rules for the Xtreme category are different from the rules presented here. For the full Xtreme rules, go to <http://www.cqww.com> and click on rules for the Xtreme category.
D. Team Contesting: A team consists of any five radio amateurs operating in any single operator category. A person may be on only one team per mode. Competing on a team will not prevent any team member from submitting his/her personal score for a radio club. A team score will be the sum of all the team members submitting scores. SSB and CW teams are totally separate. A member of an SSB team may be on a totally different CW team. A list of a team's members must be received at CQ Headquarters by the time the contest begins. E-mail to <teams@...>, or mail or fax the list to CQ, Attn: Team Contest, 25 Newbridge Road, Hicksville, NY 11801 U.S.A.; fax 516-681-2926. Awards will be given to the top teams on each mode.
V. NUMBER EXCHANGE: Phone: RS report plus zone (e.g., 5905). CW: RST report plus zone

(e.g., 59905).
VI. MULTIPLIER: Two types of multiplier will be used.
1. A multiplier of one (1) for each different zone contacted on each band.
2. A multiplier of one (1) for each different country contacted on each band. Stations are permitted to contact their own country and zone for multiplier credit. The Worked All Zones written rules, DXCC entity list, Worked All Europe (WAE) multiplier list and IG9/IH9, and WAC boundaries are standards. Maritime mobile stations count only for a zone multiplier.
VII. POINTS:
1. Contacts between stations on different continents are worth three (3) points.
2. Contacts between stations on the same continent but different countries, one (1) point. Exception: For North American stations only, contacts between stations within the North American boundaries count two (2) points.
3. Contacts between stations in the same country are permitted for zone or country multiplier credit but have zero (0) point value.
VIII. SCORING: All stations: the final score is the result of the total QSO points multiplied by the sum of your zone and country multipliers. Example: 1000 QSO points × 100 multiplier (30 Zones + 70 Countries) = 100,000 (final score).
IX. AWARDS: First-place certificates will be awarded in each category listed under Sec.IV in every participating country and in each call area of the United States, Canada and Japan. All scores will be published. To be eligible for an award, a Single-operator station must show a minimum of 12 hours of operation. Multi-operator stations must operate a minimum of 24 hours. A single-band log is eligible for a single-band award only. If a log contains more than one band it will be judged as an all-band entry, unless specified otherwise. In countries or call areas where the returns justify, 2nd and 3rd place awards will be made. All certificates/plaques will be issued to the licensee of the station used.
X. TROPHIES AND PLAQUES: Plaques and trophies are awarded for top performance in a number of categories. They are sponsored by individuals and organizations. For a current list of plaques and sponsors, or to learn how to become a sponsor, see the CQ WW DX website www.cqww.com or the CQwebsite: <http://www.cq-amateur-radio.com/cq_contests/cq_ww_dx_contest/index_cq_ww_dx_contest.html>. A station winning a World trophy will not be considered for a sub-area award; the trophy will be awarded to the runner-up in that area.
XI. CLUB COMPETITION:
1. The club must be a local group and not a national organization.
2. Participation is limited to club members living within a local geographic area defined as within a 275 km radius from the center of club area (except for DXpeditions conducted by members living within the defined club geographic area). Club contributions from DXpedition scores are a percentage of the number of club members on the DXpedition.
3. To be listed, a minimum of three logs (combined phone and CW) must be received from a club, and an officer of the club must submit a list of eligible members for each contest.
XII. LOG INSTRUCTIONS:
1. All times must be in UTC.
2. All sent and received exchanges are to be logged. In addition to the number exchange, the call sign sent by an entrant during a completed exchange, must be logged as sent by the entrant. All QSO exchanges must be logged upon QSO completion.
3. If submitting a paper log, you must indicate zone and country multipliers the FIRST TIME worked on each band. This is not required for electronic Cabrillo log submissions.
4. Electronic log submission is strongly encouraged. The Committee requires an electronic log for any possible high-scoring log.
By submitting a log to the CQ WW Contest, the entrant agrees to have the log open to the public. If possible, we would appreciate complete frequencies in the log (rule III.14 applies). E-mail Required Content: Please submit your log in the Cabrillo file format

created by all major logging programs.
Be sure to put the STATION CALL SIGN in the "Subject:" line of each message. Your e-mail log will automatically be acknowledged by the server. You will also receive a personal access code from the server at a later time (usually in late spring). Electronic submission implies a signed declaration that all contest rules and regulations for amateur radio in the country of operation have been observed. Submit your CQ WW SSB log to < ssb@... > and your CQ WW CW log to < cw@... >.
5. Paper log submission: Use a separate log sheet for each band.
Each paper log entry MUST be accompanied by a summary sheet showing all scoring information, category of competition, and contestant's name and address in BLOCK LETTERS. Sample log and summary sheets and zone maps are available from CQ. A large, self-addressed envelope with sufficient postage or IRCs must accompany your request. If official forms are not available, make up your own, 80 contacts to the page on 8 1/2" × 11" paper or European A4. All paper log entrants are required to submit cross-check sheets (an alphabetical list of calls worked) for each band on which 200 or more QSOs were made. Send paper logs to Paper Logs, Box 481, New Carlisle, Ohio 45344, USA. Please mark SSB or CW on the envelope.
6. QRP and Low Power stations must indicate their category on their summary sheets and state the actual maximum power output used in the comment section of their Cabrillo submission.
XIII. ACTIONS OF THE CQ WW CC
Violation of a contest rule makes the entrant subject to a red, a yellow card, a warning letter or log rejection at the discretion of the CQ WW CC (rule III.14 always applies).
a. YELLOW card: One Yellow card: entrant not eligible for an award in the entered contest. An entrant or operator issued a yellow card will be listed at the end of the published results. Two Yellow cards: An entrant receiving two yellow cards in three consecutive CQ WW DX contests is equal to a Red Card.
b. RED card: One Red card: entrant not eligible for an award in the entered contest. Entrants receiving a red card will be listed at the end of the published results. An entrant or operator receiving a Red card will be ineligible for any CQ-sponsored contest award for a period of one year beginning with the publication of the violation in CQ magazine. Two Red cards: An entry or operator receiving two Red cards within five consecutive CQ WW DX contests will be ineligible for any CQ-sponsored contest award for a period of two years beginning the month of publication of the second violation in CQ magazine. If the entrant receiving a Red card is in a multi-operator category, all listed operators are so affected.
c. Further CQ WW CC actions:
1. The entrant agrees that the CQ WW CC reserves the right to reject any entry.
2. Bad QSO: The bad QSO is removed and a penalty of three more equivalent QSOs is applied to the points only.
3. Unsportsmanlike conduct can be grounds for action by the CQ WW CC. Examples of unsportsmanlike conduct includes but is not limited to: violation of the CQ WW rules; ANY use by an entrant of any non-amateur means during the contest including, but not limited to, telephones, Internet, instant messaging, chat rooms, VoIP, or the use of any DX cluster/reflector to ARRANGE, or CONFIRM any contacts during the contest; repetitive frequency transmissions outside oflicense limitations by the entrant; post-contest modification of a log by using data sources to correct call sign/exchange errors and "rubber clocking" by the entrant.
4. Taking credit for excessive unverifiable QSOs or unverifiable multipliers may result in a Yellow or Red card at the discretion of the CQ WW CC.
5. An entrant is free to withdraw his/her submitted log for any reason prior to receiving an official letter from the CQ WW CC.

6. By submitting a CQ WW DX Contest log, an entrant agrees that the issuing of Red cards, Yellow cards, and other decisions of the CQ WW CC are official and final.
7. Disqualification actions taken by the EUHFC, the SCC RTTY Championship and the JIDXC will honored by the CQ family of contests as if a red card had been issued.
8. Questions concerning these rules should be e-mailed to: <questions@...>.
XIV. DEADLINE:
1. All entries must be sent WITHIN FIVE (5) DAYS after the end of the contest. November 2, 2012 for the SSB section and November 30, 2012 for the CW section.
2. An extension may be given if requested by e-mail (questions@...). The granted extension must be confirmed by the Contest Director, must state a legitimate reason, and the request must be received before the log mailing deadline. Logs dated after the extension deadline may be listed in the results but will be declared ineligible for an award.

UKRAINIAN DX CONTEST 2012 RULES
Sponsored by: Ukrainian Contest Club (UCC), Ukrainian Amateur Radio League (UARL)
Date & time: The 1st full weekend of November (in 2012 it will be on 3-4 of November).
12:00 UTC Saturday to 12:00 UTC Sunday.
Bands: 1.8 - 28 MHz (excluding WARC bands).
Modes: CW, SSB.
Contest exchange: For Ukrainian stations: RST(RS) + two letters (oblast abbreviation); For all other participants: RST(RS) + serial number starting from 001.
List of ukrainian oblasts abbreviations: CH CN CR DN DO HA HE HM IF KI KO KR KV LU LV NI OD PO RI SL SU TE VI VO ZA ZH ZP
Points:
Stations from Ukraine:
1 point for QSO with own country;
2 points for QSO with different country on the same continent;
3 points for QSO with different continent;
Stations outside of Ukraine:
1 point for QSO with own country;
2 points for QSO with different country on the same continent;
3 points for QSO with different continent;
10 points for QSO with Ukraine (for participants outside of Ukraine only).
Multipliers: DXCC and WAE countries plus Ukrainian oblasts on every band. Ukraine also is a country multiplier for foreign stations, i.e. the first QSO on each band gives 2 multipliers. For stations in Ukraine multiplier is DXCC + WAE countries only (Ukraine counts as a country).
Categories of participants:
#
Entry
1 Single Operator-High Power-All Bands-Mixed
2 Single Operator-High Power-All Bands-CW
3 Single Operator-High Power-All Bands-SSB
4 Single Operator-Low Power-All Bands-Mixed
5 Single Operator-Low Power-All Bands-CW
6 Single Operator-Low Power-All Bands-SSB
7 Single Operator-QRP(max.5W)-All Bands-Mixed
8 Single Operator-160m Band-Mixed
9 Single Operator-80m Band-Mixed
10 Single Operator-40m Band-Mixed
11 Single Operator-20m Band-Mixed
12 Single Operator-15m Band-Mixed
13 Single Operator-10m Band-Mixed
14 Multi Operator-All Bands-Single Transmitter-Mixed
Common rules: All entries separated by World and Ukraine.
All participants regardless of category must remain on the band at least 10 minutes after

changing bands, quick QSY to another bands is permitted only to work new multiplier.
There is no any limitation for mode change on the band. Start time will be determined on the first QSO made on that particular band.
QSOs made during 10-minute rule on another band by mistake and which are not multipliers will be counted as 0 points without penalty.
The use of DX-cluster is permitted for all categories however self-spotting is strictly prohibited.
You can make up to 2 QSO with the same station on the same band - CW and SSB. CW QSOs must be made in the CW portion of the band.
Duplicate contacts with same station on the same mode and band counts 0 points. No penalty for duplicate QSO. Please do not delete dupes.
In the Single Band category you can make QSO on other bands. Single Band entrants who operate other bands during the contest are encouraged to submit full log for more than one band to aid in the log cross-checking process.
They should send one Cabrillo file of full log and thoroughly indicate correct category in the head of the file. All logs will be checked by special software for UBN (unique, bad, not in log) contacts. Unique calls will be removed from the LOG.
QSO is not counted for the following:
- incorrectly logged call (Bad Call);
- incorrectly logged exchange numbers;
QSO is not confirmed in the other station's log (NIL).
Also QSO is not counted for the following:
- other station incorrectly logged entrant's call;
- other station incorrectly logged entrant's exchange number;
- QSO time in entrant's log and other station's log difference is more than 3 minutes (except systematic computer errors);
- QSO bands or modes in entrant's log and other station's log differ (except systematic errors);
- dupe QSO which is not in the other station's log.
Since URDXC 2009 Categories A and B are divided on three different: MIXED, SSB, CW for both UKRAINE and WORLD division, and the are no penalties anymore
Awards and plaques: Winner in each category will be awarded by plaque or prize. Top 10 leaders in all categories will receive awards.
Contest logs: CABRILLO is preferred format for logs. Ukrainian DX Contest is supported by most of popular contest loggers as follows :
#
Soft
Website
1 5MContest http://5mcontest.qrz.ru"
2 MixW http://www.mixw.net"
3 TR4W http://www.tr4w.com"

9 RCKlog http://www.rcklog.de"
10 Win-Test http://www.win-test.com"
11 UR5EQF http://www.ur5eqf.com"
etc.
Electronic logs must be sent within 30 days after the end of the contest to e-mail

Be sure to put the station call sign and the category in the "Subject:" line of your letter with applied Cabrillo file. In the header part of the electronic log submission you must specify a category of entrance.
Paper logs must be sent within 30 days after the end of the contest to UCC HQ : P.O. Box 4850, Zaporozhye, 69118, Ukraine
Reception of every e-mail LOG will be confirmed. If there is a problem with your LOG you will be notified by the Contest Committee. Also you can check the reception of your log at http://www.urdxc.org . UBN-file is sent by request to e-mail
Disqualification: Violation of amateur radio regulations in the country of the contestant or violation of the rules of the contest, or unsportsmanlike conduct, will be deemed sufficient cause for disqualification.
Disputes: The decisions of the Contest Committee will be final.

ARLD045 DX news

ZCZC AE45
QST de W1AW
DX Bulletin 45 ARLD045
From ARRL Headquarters
Newington CT November 1, 2012
To all radio amateurs

SB DX ARL ARLD045
ARLD045 DX news

This weeks bulletin was made possible with information provided by NC1L, W3UR, QRZ DX, The Weekly DX, the OPDX Bulletin, 425 DX News, The Daily DX, DXNL, Contest Corral from QST and the ARRL Contest Calendar and WA7BNM web sites. Thanks to all.

MAURITANIA, 5T. Sadao, JA1PBV is now active as 5T5BV until November 10. Activity has been on 30, 12 and 10 meters, using CW and RTTY. QSL via JA1PBV.

TOGO, 5V. Wim, ON4CIT is active as 5V7TH until November 5. Activity is on 40 through 6 meters, including the 30, 17 and 12 meter bands, using CW, SSB and RTTY. QSL via his home call sign, direct, by the Bureau, LoTW or by the ClubLog's OQRS.

AZORES, CR2. Kim, OH6KZP will be active as CR2X from Ribeira Grande during the CQWW DX CW Contest, November 24 and 25, as a Single-Op/All-Band/High-Power entry. QSL via OH2BH.

EAST MALAYSIA, 9M6. Satoshi, JE1JKL will be active as 9M6NA from Labuan Island, during the CQWW DX CW Contest as a Single-Op/All-Band entry. QSL via his home call sign, direct, by the Bureau or LoTW.

DOMINICA, J7. Walter, HB9MFM is active as J79WTA from the Tamarind Tree Hotel near Salisbury until December 17. Activity is holiday style on 160 through 10 meters, using SSB, RTTY, PSK as well as SSTV, if possible. QSL via his home call sign, direct or by the Bureau.

SINT MAARTEN, PJ7. Kazu, 7L4XDT and Masa, K1GI will be active as PJ7XK and PJ7I, respectively, from November 18 to 24. Activity will be on 160 through 6 meters using CW, SSB and the digital modes. QSL PJ7XK via 7L4XDT and PJ7I via JG2BRI.

MICRONESIA, V6. Haru, JA1XGI will be active as V63XG from Yap Island (OC-012) from December 5 to 12. Activity will be on 40 through 6 meters, using mainly CW, with some SSB and the digital modes, and JT65. QSL via JA1XGI, direct or by the Bureau.

AFGHANISTAN, T6. LZ1CNN will sign T6LG in the CQWW CW Contest. He plans to be Single-Op/All-Band/Low-Power. QSL via LZ1ZF.

SLOVENIA, S5. Slovenian special event station S512IAPMC is QRV until January 15, from the International Association of Peace Messenger Cities in Slovenj Gradec. Activity is on all bands, using CW, SSB and digital modes. QSL via the Bureau.

SINGAPORE, 9V. Koichi, JR1MLT has been active as 9V1KK on weekends only, on 160 through 10 meters, using SSB and CW. He hopes to get on the digital modes in the future as well. QSL via JH1ILX.

BERMUDA, VP9. Paul, VP9KF will be active using CW from November 5 to 19. He plans to concentrate on grayline propagation to Japan. QSL direct only, via W4/VP9KF, Paul Evans, 6809 River Road, Tampa, FL, 33615, USA.

SEYCHELLES, S79. Hardy, DL8NU plans to operate as S79NU from Mahe Island, from November 9 to 24. He will be mostly on CW on the HF bands. QSL via DL8NU.

AUSTRALIA, VK. Special event call sign VI6ARG30 will be active November 5 to 18 for the 30th anniversary of the Peel Amateur Radio Group in Western Australia, VK6ARG. QSL via VK6VKS.

MALDIVES, 8Q. Andrew, G7COD will be active as 8Q7AK from Embudu Island on the South Male Atoll, AS-013, for three weeks in February 2013. QSL via his home call sign, direct or by the Bureau.

THIS WEEKEND ON THE RADIO. The ARRL November Sweepstakes CW, ARRL EME Contest, Ukrainian DX Contest, Radio Club of America QSO Party, OK1WC Memorial Contest, Collegiate ARC Championship and the DARC 10 Meter Digital Corona will keep contesters very busy this weekend. Please see November QST and the ARRL and WA7BNM Contest websites for details.

http://www.ybdxc.net/2011/11/pendaftaran-aggota.html

Kepada Rekan2,

Mengajukan permohonan menjadi anggota YBDXC kepada YB2DX OM Hans melalui email yb2dx@... dengan persyaratan memenuhi salah satu sbb:

Dapat melampirkan copy/scan/photo award dari salah satu kontest yg berskala Internasional (skala Nasional tidak berlaku) atau

Dapat melampirkan copy/scan/photo salah satu dari DXCC Awards yang dikeluarkan oleh ARRL atau

Dapat melampirkan copy/scan/photo QSL Card yg terdiri dari minimal 5 Benua (AF, AN, AS, EU, NA, SA), (OC tidak berlaku)

Anggota diharuskan mempunyai data pada www.qrz.com

de YB4IR Imam / YB1AR Yana

ONLINE REGISTRATION (at this moment, valid YB Operator only)

4244. YBDXC on www.clublog.org

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-11-04 02:54:42 UTC
From: Yb land Dx club
Topic: 2113 Message: 4244

Dear All,

One of the most interesting ways to use Club Log is to join your clubs, so that you can participate in your own leagues against friends. Also, if you are interested in joining in the HF or LF challenges organised by CDXC, then you can join these contests in Club Log and have your score automatically calculated by Club Log.

Note: members must add themselves to this club. Instruct them to click 'Settings' and then go to the 'Clubs' tab to join. This method allows users to opt-out (by default) of leagues and DXpedition charts. The opt-in principle is how Club Log is intended to work.

PS: Only YBDXC registered member who got the number membership will be approved.

http://www.clublog.org/edituser.php goes to settings, goes to clubs, thick YBDXC, goes to join clubs

SB PROP @ ARL $ARLP044
ARLP044 Propagation de K7RA

ZCZC AP45
QST de W1AW
Propagation Forecast Bulletin 44 ARLP044
From Tad Cook, K7RA
Seattle, WA November 2, 2012
To all radio amateurs

SB PROP ARL ARLP044
ARLP044 Propagation de K7RA

Solar activity quieted this week. Average daily sunspot numbers were down nearly 37 points to 58.4. Average daily solar flux declined 27 points to 116.9.

Predicted solar flux values are 100 for November 2-3, 105 on November 4-5, 110 on November 6-9, 120 on November 10-11, 125 on November 12-13, 130 on November 14, and peaking at 135 on November 15-20, then 130, 125 and 120 on November 21-23, and 115 on November 24-26. It then drops to a minimum of 100 on November 29 through December 1, then back to a high of 135 by mid-December.

The predicted planetary A index is 10 and 8 on November 2-3, 5 on November 4-5, 7 on November 6-7, then 10, 12 and 15 on November 8-10, 5 on November 11 through December 4, and 10, 20 and 15 again on December 5-7, followed by a quiet 5 again through December 16.

A coronal mass ejection hit Earth's magnetic field at 1530 UTC on October 31. This sparked aurora and contributed to the planetary and mid-latitude A index of 17 on November 1, with the college A index (in Alaska) at a stormy 48. The activity is subsiding, with a declining A index through the weekend.

This will be important to domestic HF contesters, as the ARRL November CW Sweepstakes is this weekend. Conditions should be pretty good for the contest.

The geomagnetic forecast from OK1HH says quiet to unsettled activity November 2-3, mostly quiet November 4, quiet to active November 5-6, quiet to unsettled November 7-8, quiet to active November 9, active to disturbed November 10, quiet to active November 11, mostly quiet November 12-14, quiet November 15-18,.mostly quiet November 19, quiet November 20-22, and mostly quiet November 23-24.

Last weekend (October 27-28) was the SSB portion of the CQ World Wide DX Contest. The CW weekend is right after Thanksgiving, November 24-25. Jeff Hartley, N8II in West Virginia reports: "I operated 10 meters single band in the contest, but the band was nearly closed as expected at the start, so I migrated down for a few 20 meter Qs. 20 was open nearly world wide for the first 2 hours with excellent conditions over the pole from just west of JA all the way across to northern Europe; there were also a few very southwestern Europeans workable and the Middle East was loud as usual at that time of day. I worked many Russians including all call areas. RT4RO was S9+25-30 dB. BA, YE2, A7, VU, EY were all logged along with some very loud Africans (C5A, D4C, 5Z4EE). VK1CC called in via long path around 0100z, unusual to work that path so late. This was probably the best 20 meters has ever been at the contest start in my many years of contesting.

"The solar flux averaged around 120 over the weekend with Saturday being slightly better. This allowed excellent conditions to all of Europe and fairly long openings to Russia including zone 17 UA9s. But propagation was very limited to central Asia (worked two UNs with good signals Sunday) and the Far East (none logged) beyond JA; conditions were better to there last year. Good European conditions and activity allowed me to make over 2,150 QSOs with 1,000 in the log by 1715Z Saturday! There was activity up to above 28.8 MHz during the peak time to Europe. Even stations with poor antennas and running QRP were easy to work for hours. Conditions to the south Pacific were rather poor (worse than expected) except from 2300-2330z the last day; mid afternoon to late afternoon. Sunday was pretty much dead that direction except for KH6. KH2/KH0 stations were extremely loud from 2100z until 2300z, much louder than the JAs, about 10 stations were logged total from those 2 countries."

Steve Brunt, K6AAB of Fresno, California reports, "Conditions this weekend were fabulous! 10 meters was open until 0200z on the West Coast. Could have worked 10 single band, but didn't. 15 meters was also great with worldwide openings. 20 meters was open, but odd propagation. I could hear lots of Eastern Europeans, but couldn't work them. I completely missed Zone 15 on 20."

Jon Jones, N0JK in Kansas reports, "Sunday afternoon there were great conditions in the CQ WW SSB contest to the Far East. Many Japanese stations were 20 over S9 on 10 meters just before sunset Sunday afternoon. I worked AH2, AH0, Japan, China, and Hawaii with 100 watts and a CB mag-mount whip. Most stations worked on first or second call."

If you would like to make a comment or have a tip for our readers, email the author at, k7ra@....

For more information concerning radio propagation, see the ARRL Technical Information Service web page at, http://arrl.org/propagation-of-rf-signals. For an explanation of the

numbers used in this bulletin, see
http://arrl.org/the-sun-the-earth-the-ionosphere. An archive of past
propagation bulletins is at
http://arrl.org/w1aw-bulletins-archive-propagation. Find more good
information and tutorials on propagation at
http://myplace.frontier.com/~k9la/.

Monthly propagation charts between four USA regions and twelve
overseas locations are at http://arrl.org/propagation.

Instructions for starting or ending email distribution of ARRL
bulletins are at http://arrl.org/bulletins.

Sunspot numbers for October 25 through 31 were 58, 71, 59, 55, 75,
56, and 35, with a mean of 58.4. 10.7 cm flux was 130, 130.7, 121.7,
117, 108.4, 106.3, and 104.2, with a mean of 116.9. Estimated
planetary A indices were 4, 4, 4, 3, 3, 2, and 5, with a mean of
3.6. Estimated mid-latitude A indices were 3, 4, 3, 3, 2, 1, and 5,
with a mean of 3.

No 1122

==========

*** 4 2 5 D X N E W S ***

**** DX INFORMATION ****

==========

Edited by I1JQJ & IK1ADH

Direttore Responsabile I2VGW

3A - Look for Max, 3A/ON5UR and Marc, 3A/ON8AK to be active from Monaco on 9-17 November. They will operate SSB only on 80-10 metres. QSL via M0URX. [TNX DX World]

5X - Once again Nick, G3RWF will be QRV (hopefully also on 160 and 6 metres) as 5X1NH from Uganda starting on 6 November for five weeks. He prefers CW, with some activity on SSB and digital modes. QSL via home call, direct and bureau, and LoTW.

A5 - Zorro, JH1AJT will be active as A5A from Bhutan on 8-15 November. He will be QRV in his spare time on 40-10 metres. QSL via home call, direct or bureau. [TNX JA1TRC]

CY0 - Al, VE1AWW is going back to Sable Island (NA-063), and expects to remain there and be QRV in his spare time as CY0/homecall until late December. He apologizes for "the great delay in QSL replies": he plans to "sort through the backlog" while on the island, and mail those cards on his return to the mainland. He prefers new requests come by the bureau.

EL - The VooDoo Contest Group will participate in the CQ WW CW Contest as EL2A (Multi-Multi) from Liberia. QSL via G3SXW. Outside the contest, possibly between 17 and 27 November, the team will operate with their personal callsigns: AA7A as EL2ES, G3SXW as EL2A, G4BWP as EL2WP, G4IRN as EL2RN, KC7V as EL2MF, KY7M as EL2LF and N7CW as EL2WS. QSL EL2WP via G5LP, others via home call. Logs will be uploaded to LoTW and Club Log (with OQRS) as soon as possible. [TNX G3SXW]

ET - The Ethiopian Amateur Radio Club, ET3AA (http://et3aa.com/), is commemorating their mentor, Sid T. May (ET3SID), who passed away in late September. Activity started on 29 October and will go on until they make 10,000 QSOs. The QSL manager for this event is N2OO.

FM - Dmitry, UT5UGR will be active as FM/KL7WA from Martinique (NA-107) on 19-26 November. He will participate in the CQWW CW Contest as TO7A. QSLs via home call. [TNX UT5UGR]

I - Special event station IY1EY will be active on 3-11 November from Loano (www.ariloano.it) to commemorate the experiments conducted by Gugliemo Marconi from his yacht 'Elettra' in the Ligurian Sea between 1919 and 1936. Expect activity on CW, SSB, RTTY and PSK31.

QSL via IK1QBT, bureau preferred. [TNX IK1QBT]

LU - Owing to unfavourable weather forecast, the LT0X IOTA expedition to Isla Pinguino (SA-087) [425DXN 1120] has been postponed to 9-11 November. Eight operators plan to be QRV on 80-10 metres SSB, CW and PSK31 with three stations. QSL direct to LU7DSY.

LU - An IOTA expedition to Isla Escondida (SA-096, new one) is scheduled to take place in early January 2013 under the auspices of the Radioclub de Puerto Madryn. A team of four operators, including Cezar VE3LYC, Johan PA3EXX and two LU radioamateurs will attempt to maintain two stations on the air for up to four days. Further information is expected in due course. [TNX DX World]

PJ2 - DB5IJ, DF9MV, DJ1MGK and DL5MFL will be active as PJ2/homecalls from the Signal Point contest station on Curacao (SA-099) on 6-15 November. They will also participate in the Worked All Europe RTTY Contest (10-11 November). QSL via home calls, direct or bureau. [TNX VA3RJ]

PY0S - The PT0S DXpedition [425DXN 1109] team members (AA7JV, HA7RY, PP5XX and PY2XB) are on schedule to leave the city of Natal on 5 November, and to arrive at St. Peter & St. Paul Rocks on the 9th. It will then take one day to set up. There will be a dedicated station operating on 160 metres from sunset to sunrise, while a second station will be on 80 and 40 metres at night. During the day there will be two stations on the higher bands - and 6 metres - depending on conditions. RTTY will also be supported. QSL via HA7RY (OQRS for direct and bureau cards will be available on the website) and LoTW (the logs will be uploaded "generally within 36 hours of the QSO taking place"). For further information and regular updates please visit http://pt0s.com/

S7 - Hardy, DL8NU will be active as S79NU from Mahe (AF-024), Seychelles on 9-24 November. He will operate mainly CW. QSL via home call.

V8 - Announced frequencies for the 11-23 November V84SMD activity from Brunei [425DXN 1100] are:

CW	1826.5	3505	7005	10105	14025	18075	21025	24895	28025 50101
SSB	1840	3799	7080	-	14200	18145	21295	24950	28470 50130
RTTY	-	3600	7040	10140	14085	18100	21080	24930	28085

A multi-national team of 23 operators will be active with seven stations from two different sites. QSL via IK2VUC. Further information, including QSLling policy and logsearch, can be found at http://www.mdxc.org/v84smd

==========

Edited by I1JQJ & IK1ADH
Direttore Responsabile I2VGW

NEW IOTA CHECKPOINT ---> Effective 1 November, Alejandro Valdez (XE1EE) is the new IOTA Checkpoint for Mexico, Central America and the Caribbean Islands (with the exception of territories with US or French zip codes). He

can be reached at iota.mexico[@]gmail. [TNX rsgbiota.org]

QSL GALLERY ---> The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Fourteen different galleries include more than 10,300 cards for the ten Most Wanted DXCC Entities (2004-11), the 61 deleted DXCC Entities, obsolete prefixes, stations from Magrebh from 1947 to 1962, Allied Forces stations in Germany (1946-62), Antarctic bases & TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1970), pre-1945 countries, French Departments and CONUS, plus a gallery for cards not accepted by DXCC. Your participation is encouraged - please visit www.LesNouvellesdx.fr and send your comments to lesnouvellesdx[@]free.fr [TNX F6AJA]
SABLE ISLAND ---> Weather conditions deteriorated, and Ron AA4VK and Murray WA4DAN were forced to leave Sable Island around 1915 UTC on 27 October, four days earlier than expected. "Naturally we were very disappointed", they say, but "we had little choice as we could have been stranded on the island for weeks". During the 4.5 days of the DXpedition, approximately 13,000 QSOs were logged. QSL for either WA4DAN/CY0 and AA4VK/CY0 direct to WA4DAN; OQRS on www.cy0dxpedition.com/

TOP LISTS ---> The latest Topband, Topmode and Toplist listings are now available at http://www.425dxn.org/awards/toplist/index.html. QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send your scores, as well as any request for further information, to Luciano Lucini, IK2QPO (ik2qpo[@]425dxn.org).

Club: Radio SYD

Comments:

The SSB round is always a bit more problematic and hectic down here. The beach
in front of our QTH changed drastically - instead of close to 200m width it is
less then 100 m now, so we could not use the layout from the 2011 CW, which
seemed to be the good one. There were also two interesting changes - one to the
better - the jam coming from about 240 deg. disappeared and the other one to the
```

worse a new one from about 265 deg showed up. It was on all bands and
all
antennas in various strength from 53 on 4SQ of vertical dipoles on 15m to 58 on one of the 5Y over 5Y on 10m. The worst situation was of course on 160m. To work stations from the States and from the West was a real challenge. After the contest we were guessing how many million points it cost us.....

On Friday we had a big problem with an interference from 40m to 15 and 10. Instead of taking it easy before the contest we spent practically the whole day with it and somehow solved it without really knowing where the problem was. As you all know sometimes the inter-band interference does not behave as expected. Well it appeared on Sunday early evening again and we were unable to find where the problem was, so we could not use our 4SQ there and the vertical Yagi into the States was the only usable antenna - so with the propagation East or North but the antenna to the West is not the best situation.... It cost us
at least
350 QSOs there.

As always the multipliers - to the East were the real challenge - very often not successful. To name a few ST2M, XV1X, both the T88, AH0, VR2...

Overall we are very happy with the result. We are happy that with our field day setup we could compete with the huge setup at HK1NA.

Thanks for a QSO and hope to work you all in the CW leg again.

For the Radio SYD - C5A team

Jiri
OK1RI

6x (IC756PROIII + OMpower + Microkeyer)
Antennas :
160m 4SQ - 26m high elements - 16 radial each.
80m 4SQ - LAMBDA/4 elements - 16 radial each.
40m 4SQ - LAMBDA/4 elements - 16 radial each + 4 el.Yagi made of around
LAMBDA/4 elements
20m 4SQ of vertical dipoles + Spiderbeam @11m
15m 2x4SQ of vertical dipoles + 2x5Y@12/22m on the rotor (!)
10m
2x 2x5Y @6/14m turned by ropes tied to vegetation around

OM Seno,
Sebenarnya lumayan kuat signalnya, lho - cuma pileupnya juga "kuat".
Saya sebenarnya sudah confirmed dg Vatican, tapi tergelitik juga dengar signalnya. HI. (ngomporin).
Kalo yg Malawi - 7Q7DFC sudah dapat ya ?

Memangnya perlu 2 versi OM Uun...?? HI HI
Malawi saya baru kemarin itu dapatnya, itupun kebetulan karena lihat di cluster padahal saat itu radio sedang posisi utk PSK-31 - mike dicopot ganti kabel interface & lupa pencet mike yg masih nggantung.

Cari di frequency seperti yg di spot dia gak ada, akhirnya saya dialing nemu yg sedang QSO agak lama juga, ternyata salahsatunya 8Q7DFC.
Setelah selesai saya tunggu, kirain mau CQ - ternyata bubaran. Saya coba panggil disitu - ternyata masih monitor dan sempat QSO-worked. Alhamdulillah.

Sebenarnya lumayan kuat signalnya, lho - cuma pileupnya juga "kuat".
Saya sebenarnya sudah confirmed dg Vatican, tapi tergelitik juga dengar signalnya. HI.
(ngomporin).
Kalo yg Malawi - 7Q7DFC sudah dapat ya ?

Lhaaa...., udah confirmed di 10M, ngapain tadi nyoba panggil ? HI.
Utk Suriname saya baru cfmd 15M (PZ5BU ??) itupun dulu dan QSLnya lama sekali padahal saya direct - ternyata dia pulang ke belanda lama dan balik ke suriname baru lihat ada QSL dari saya. Dengan PZ5RA di 15M blm lama ini saya kontak utk Diamond DXCCnya.

Faroe island baru terbaca di cluster, OJ0 juga dapetnya di kontes kemarin.

4271. A Sleep Strategy for DX Contests

Yahoo group: YBDXC_News (2012-06 — 2012-12)

http://www.contesting.com/articles/37

A Sleep Strategy for DX Contests
from Randy Thompson, K5ZD on June 9, 2000
View comments about this article!
Why am I here? Listen to all these signals. Who are they? Wonder what they are doing? All this CW sure sounds nice. What should I do with this keyer paddle? Should I push this button? I can turn this big knob but what does it mean? Why am I here? There must be some reason, if only I could remember.
It is the 1981 CQ WW CW Contest and my first real attempt at single op DX contesting from the station of N5AU. Sunrise on Sunday morning is only minutes away. I remember waking up, sitting in front of the radio, and experiencing a disorienting state of confusion and wonder. Later, I learn from N5AU's mother that I sat there for over 15 minutes without moving. Finally, slowly, I was able to understand what I was doing and why. The "sleep drunkenness" abated and I returned to the rhythm of the contest.
There have been lots of articles that describe contest strategy and station design, but there is little about the mental and physiological aspects of the sport. Yet we have all known of, or experienced, contest efforts that were cut short by an operator who could not wake up on Sunday morning. This article will present a strategy I use to get through DX contests with the minimum amount of sleep (and maximum score).
I have no medical experience or training. The ideas presented here are based on techniques learned in conversations with many successful contesters including N6TJ, N6AA, K5MM and others. I was also greatly influenced by an article which appeared in the November, 1988 issue of NCJ(1) by Scott Johnson, KC1JI. Johnson was a Physician and sleep researcher at Harvard Medical School. As NCJ editor at the time, I was fortunate to have had the opportunity to talk with him and gain some additional understanding of sleep and its effects.
There is no magical or perfect technique for controlling the effects of sleep deprivation during a contest. Probably the most important aid is simply the knowledge of what sleep deprivation feels like. The more you understand the effects and how they influence your own mental and physical attitude, the better equipped you are to compensate for them.
Sleep Basics
There are a few basic aspects of sleep that are useful to know. Researchers have found that sleep is structured into approximately 90-minute cycles. A typical night's sleep typically has 4 to 6 cycles. Each cycle begins with light sleep, progresses into deep (or delta) sleep, and ends with dream or rapid eye movement (REM) sleep. The first sleep cycle has a predominance of delta sleep with a short period of REM sleep tacked on to the end. With each cycle, delta sleep diminishes and REM sleep occupies more of the 90-minute cycle. By the fifth cycle, sleep is almost totally REM.
Since REM sleep is associated with being closest to wakefulness, it seems logical that it will be easiest to wake up during this time. Since the first sleep cycle ends with a short period of REM, you want to try to time your contest naps to match the 90-minute cycle.
The body temperature falls during sleep and typically reaches its lowest point approximately 1.5 hours before the usual waking time in the morning. This minimum in body temperature coincides with the time of minimal alertness, if you happen to be awake. Lower

body temperature is the reason that waking up just before sunrise during a contest often includes a period of chills and uncontrollable shivering. As you become more awake, your body warms up, and the feeling of cold goes away.

Recently, I read a military training manual that presented some information on sleep and its effects. It presented several interesting "facts."

* You can not train for lack of sleep. In other words, there is no value in "practicing" sleep deprivation as a way to train the body to live without sleep.
* Under sleep deprivation, highly practiced skills will deteriorate more slowly than those which require new or creative thought. This explains why we can continue to do CW, copy call signs and send exchanges at the end of a contest, but may be unable to answer a simple question from our spouse.

Before the Contest

Contesting is hard work that places both physical and mental stress on the body. You can practice the mental skills of contesting by operating in lots of contests. As for the physical aspect, I divide my preparation into two parts: fitness and sleep.

Do your family or co-workers laugh when you tell them contesting is a physically demanding activity? It takes a lot of energy to sit up straight, talk or send CW, concentrate on listening, type on the keyboard, and reach all of the switches and knobs found in your station. Dick Norton, N6AA, uses a very good example which may make it easier to understand. A 48-hour contest is the equivalent of six 8-hour workdays. Imagine sitting at your desk at work for just one work day with little or no breaks and then multiply by six! At one point in my career, I had a sales job that involved driving about 4000 miles each month. I noticed that the longer I did this job, the easier it was to sit up straight through a contest. My body developed the muscles required for sitting up during the hours and hours of driving.

Several years ago I got a bicycle and began by just riding to the end of the street and back. Each day I would go a little farther until finally I was up to 5, then 10, then 15 miles each day. It was fun. When Fall came and there was not enough light to go for long rides after work, I tried running. The aerobic workout of the bike made running easy. Once again, I started just going down the street and back, then increasing the distance each week.

When the contests came, I noticed an incredible benefit of the exercise. It was as though the physical demands of the contest had disappeared! I was able to stay awake more easily and my muscles were not as tired during the contest. Without the physical drag, I was able to focus all of my energy to battling the mental fatigue. One result was a 48-hour effort (no sleep) from K3TUP for a win and new USA record in the CQ WW CW. In retrospect, any 3 hours of sleep would have cost me the record and possibly the contest. Another benefit of the exercise was 25 pounds of lost weight!

When my travel schedule made it impossible to maintain this exercise regimen, the weight came back and I noticed how much more difficult it was to get through the contests. You spend hours developing your station and operating skills. Can you ignore physical fitness as a component of a winning contest effort? For best results, you should begin your physical preparations a minimum of 12 weeks prior to the contest.

The sleep preparation for a contest begins five to seven days before the contest. The goal is to be as well rested as possible going into the event. I try to get as much sleep as I can each night during the week. While sleep can not be "stored," the benefits of starting well rested are obvious.

The night before the contest I go to sleep as early as possible. I have learned that excitement, anticipation and nervousness will have me awake at dawn. Some people even take a sleeping pill Thursday evening to insure a sold night's sleep. Not knowing if there are residual effects of these pills, I have avoided this.

One questionable technique many people try is to stay up late on Thursday evening in the hope of sleeping late on Friday morning. This sounds like a good plan but there are several things at work against it. The body's natural rhythms, referred to as circadian rhythms, modulate the physiologic functions such as sleep, hunger, etc. If you normally wake up at 7 AM, there is a good chance that you will wake up at 7 AM the morning of the contest. If you stayed up late, you are just reducing the amount of sleep you are likely to get. Nerves and anticipation will increase the chance of waking early and not being able to fall back asleep.

I usually go to work on Friday morning. This keeps the mind busy (and off the contest). I try to get to the station in the early afternoon. I turn everything on, make sure it's all working, and then head off to bed for a nap. A 1.5 or 3 hour nap prior to the contest is crucial in making it through the first 24 hours without sleep. You may find it difficult to sleep with the contest only hours away, but it has to be attempted. I often practice relaxation techniques to help fall asleep. If I wake up early, I repeat the process. I want to wake up about an hour before the contest starts.

The last bit of preparation before the contest is a meal. I try to keep it light and not drink too much liquid. The goal is to have enough fuel to make it through European sunrise (0900z) without having to get out of the chair.

The First 24 Hours

For me, the first 2 or 3 hours of the contest are some of the most difficult. The nerves are on edge, adrenaline is flowing, and the body must adjust to the demands of operating. It is even harder when no one answers your CQ and all that energy must be channeled into a search & pounce effort!

I have two simple goals for the first 24 hours of the contest: operate as much as possible and maximize the score. For most contests, I am out of the chair no more than three times for a total of less than 15 minutes in the first 24 hours. I do not even consider sleeping. By pushing so hard the first night and covering all the bands, I usually have a good multiplier and understanding of the available propagation. This will be important when planning the sleep strategy during the second night.

If you do need to sleep the first night, the best time (from the Eastern USA) seems to be the hours between European sunrise and local sunrise. The 09 - 11Z hours are often very low rate multiplier chasing. You can sleep for 90 minutes at a cost of approximately 30 contacts and 10 multipliers.

If you can arrange your shack so that you can see the sun rise through a window, this can be a great lift. There is something about seeing the sun come up that energizes the body and improves alertness (remember those circadian rhythms). It also keeps you in tune with when you should make the last low band sweep for multipliers before moving to the higher bands.

I also use the full 24 hour first day effort as a form of motivation. We began noticing at the K5RC multi-single efforts that we could predict our final score based on the 24 hour score. My formula is to double my 24 hour score and add 10 percent. For example, if I have 1.8 Million points after 24 hours, I estimate my final score to be 3.6 plus 10%, which is just under 4.0 Million. My focus for the remainder of the contest is to make that formula come true!

Much of contesting is a series of mental games. Each one designed to give a short term target that maintains focus on increasing the score. Trying to maximize my 24 hour score provides a big boost for me during late Saturday afternoon when the first signs of tiredness begin.

The Second 24 Hours

I am convinced almost anyone can get through 24 hours of contesting just on their love of

the game. But the second day requires a solid commitment, desire, and preparation. The fact that contesting is a solitary pursuit both helps and hinders the participants. It helps because the scores of other participants are not known, which makes it easy to justify continuing. The enemy is fatigue which will cause doubts and questions on whether it is even worth continuing! Or, as Vince Lombardi once said, "Fatigue makes cowards of us all." The top competitors have committed themselves to the contest. They know they must go on no matter what. It's not easy, but this little fact will help them ride through all but the worst problems. Everyone feels the same pain and effects of sleep deprivation. It's really a question of how bad you want to win.

I notice that my committment to a contest often starts many weeks before the contest. As the contest approaches, I become more focused and more committed to doing a full effort. The build up and motivation gained over the weeks makes it almost impossible to give up or stop.

Maybe it is just a mental let down, but it always seems as if the propagation and activity take a dive immediately after 0000z. Rates are slow because many Europeans have gone to bed and the South Americans have all been worked before. By 01 or 02z, it is becoming a battle to stay awake.

Stu Santleman, KC1F, recommends that this is an excellent time to catch some sleep. "Sleep when the Europeans sleep," he suggests. I disagree with this since it is also the last opportunity to catch many Europeans on 160 and 80 meters. However, I do feel it is a good chance to take some time to recharge your batteries. I usually take 30 to 45 minutes during the 01 or 02z hours to take a shower and eat dinner. The shower wakes me up enough to get through the crucial hours of European sunrise. I eat sitting at the radio tuning for multipliers.

After European sunrise, about 0900z, the contest really slows down. Attention is split between random CQing and tuning for new multipliers. Here is where commitment will be really tested!

I base my sleep strategy on the activity and propagation that was available during the first night. I know what multipliers I am missing on the low bands and can decide if sleep is more important than taking the chance of finding them.

Once the decision to sleep is made, it is important to get right to bed. Don't waste time trying to think about the contest. When you lay down, clear the mind and fall asleep as quickly as possible. Set the alarm for either 90 or 180 minutes later to take advantage of the natural sleep cycle. If you try to wake up from deep sleep, a form of disorientation I call sleep drunkenness may result. Worse than the hallucinations and disorientation is the real possibility that you will go back to sleep without ever waking completely up. This has happened to me twice. One time I even had a conversation with a local multi-op on two meters (so they said, I can't remember it at all) and woke up four hours later in another room of the house. This fear of not waking up is usually the real reason I try to stay awake and keep going!

When you wake up, you will probably feel very cold. Be prepared for this by having something warm to drink available and a sweatshirt or sweater you can pull on. Take a few minutes to get fully awake and eat something. Once you sit down at the rig, you must plan to be there until the end of the contest (with only short breaks). As soon as the sun comes up or you pass your normal wake up time, it is easy to stay awake. The battle is in the minutes or hours before dawn.

The last 12 to 13 hours of the contest coincides with my normal rhythm for being awake. The only difficulty is fighting the effects of sleep deprivation. These are not usually obvious at the time. However, there is an easy way to see just what the loss in mental sharpness is. During the next DX contest, tape record a run during the first morning. Then tape record a similar time the second morning. After the contest, play the two tapes back to

back. You won't believe how much your call sign recognition and ability to get calls on the first try is degraded! Unfortunately, there is not much you can do except recognize the problem and work through it.

More Tips

There are a number of other techniques that you may wish to use as part of your sleep strategy. One suggested by W2SC is to try taking very short 10 minute naps when you feel sleepy. This appears to offer some rest yet does not allow you to fall so far asleep that you can not wake up easily.

Notice that I did not mention the use of caffeine in my strategy. I am not a coffee drinker so I can't speculate on its effects. As I get older I am finding it much more difficult to fight through the need for sleep. As a result, I have occasionally taken a caffeine pill (such as No-Doze) to help stay awake. I take 100 mg of caffeine at the lowest point of each night. Caffeine can upset your stomach so it is a good idea to eat something at the same time.

I have had some success with combining caffeine with the short nap technique. I take the caffeine and then sleep for 10 minutes. The effect of the caffeine and the nap seem to compliment each other as a way of getting some rest and yet waking up with a clear head.

I think it goes without saying that drugs and alcohol should not be used during the contest. Alcohol is a depressant and will cause you to fall asleep (not to mention interfering with the mental energy you need to win).

One area of contest physiology that I have not studied is the effects of diet. I find that I eat and drink very little during the course of the contest. Working stations is like potato chips for me -- I can't stop! Several times during the contest I will suddenly realize I am starving, and yet I keep wanting to work just one more station before taking a break. And one more. And another!

Not drinking very much has the benefit of reducing the number of trips to the bathroom. However, this must be balanced against the danger of dehydration. I have lost as much as 5 pounds during the course of one contest! If you have discovered a successful contest diet, share it with me!

After the Contest

One thing I have always been amazed by is the adrenaline generated by the excitement of the end of the contest. The pressure of the last two hours is trying to push the score on the computer screen over the next milestone. Should I call CQ or tune? Or a combination of both. When it's over, I am tired and almost incoherent (just listen to the single ops on 3830 for proof). Afterwards, I can't fall asleep for several hours. If only we could bottle that feeling!

Expect any contest effort of more than 44 hours to require several days of recovery. I usually sleep for 12 to 15 hours after the contest. And I still feel sleepy until about Wednesday!

I hope the ideas presented here are of help to you in your next serious DX contest effort. As long as DX contests are 48 hours, the serious single operator entrants must deal with the effects of sleep deprivation. Good preparation, serious commitment, and a well-tuned sleep strategy may be just the edge you need to beat your competition.

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

4273. Low Profile DX Contesting

Yahoo group: YBDXC_News (2012-06 — 2012-12)

http://www.mapability.com/ei8ic/contest/lolprof.php

Low Profile DX Contesting
There are may of us out there who for whatever reason don't have a really competitive station. In my case, I live in a row house in Philadelphia with a back yard 20 feet wide and about 50 feet deep. To my east is a row of 30 foot high brick houses. A tower is out of the question. So is running high power. I have had to make do with 100 watts and simple antennas.
My antennas consist of a R6000 vertical on the roof of the house for 20, 15, & 10, a shortened dipole on 40 up about 20 feet, and a centerfed 80 meter inverted L fed with ladder line up about 30 feet in a neighbor's tree. As you can see, my antenna farm is quite limited.
Challenges This does present some challenges. I keep these in mind when I start planning for a DX contest. Some of these challenges are:
* I'm 20Db below a Kilowatt & a TH-6
* I'm 10Db below 100 Watts & a TH-6
* With the vertical, most RF doesn't go in a useful direction
* Verticals pick up more noise than horizontal antennas
Propagation One of the things I do to prepare for a DX contest is to keep a close watch on solar activity. Knowing what propagation to expect helps me plan what bands to be on and when. I do look at last year's results and learn what I can about rates on different bands. But I give more weight to current band conditions when planning my operating strategy. My results while running low power with marginal antennas are controlled more by propagation than anything else. This also plays a major role in the band on which I choose to start the contest.
Operating Strategy Getting off to a good start is always important. I like start the contest on 20 if it is open. Most people in this part of the world would probably start on 40 since it is usually open to Europe. I cannot get any kind of good rate competing against KWs and beams on 40 at the start of the contest. So, if 20 is open, I start there for the first hour and then go down to 40 after things have settled in for the evening. I usually pick up some nice Asiatic Russians on 20 from zones 18 and 19.
I don't spend much time on 80, no more than 30 minutes at a time. I usually try and work all the strong stations as quickly as possible and then move to another band. I check 80 about once every hour or so on Friday and Saturday nights. Packet is a good tool checking 80. 160 is out of the question for me.
My most productive bands are 10 followed closely by 15. The R6000 vertical has separate half wave elements for these to bands and plays pretty well. The morning openings to Europe on these two bands can get the rate display as high as 100 QSOs per hour for short periods. The overall rate is around 40 per hour.
Packet I always enter the single op assisted category (except on RTTY where I don't use packet). I use packet as a tool to spot new multipliers and stations, as well as an indication of propagation. Using packet requires discipline. I like to look at the station that sends the spot. If I see an isolated spot for a JA on 20, I'd probably ignore it. If I see lots of JA spots form several locals, I would probably check it out.
Its important to not only watch for spots, but also to watch who is sending them. It's not

important for me to know that 20 is open to JA in W6 land when 10 is open to Europe for me.
Other things to remember when running low power and simple antennas and using packet:
Never call a juicy multiplier right after it is spotted. Wait at least 5 minutes for the feeding frenzy to die down.
When Searching and Pouncing, send out spots for all stations worked. This helps everyone.
If I cannot work a spot on the 3rd call, put it in memory and come back in a few minutes.
Never leave a productive run frequency to work a spot. Remember, you are operating a contest and not DXing.
Searching and Pouncing VS Running I spend about 60 percent of my time doing S&P. This can be very productive time as far as the club score is concerned especially if you spot everything you work. I keep track of my rate when doing S&P. When the rate drops below 40 per hour, this is a signal for me that its time to try and run for a while. My S&P strategy is to start at the top of the band and work my way to the bottom. After the first pass, I go back to the top and work my way down again. While doing this I don't really look at packet spots. After the second pass through the band, I work all the packet spots possible. After this is done I find as clear a frequency as I can and start calling CQ. I stay at this until the rate again drops below 40. I then work some more packet spots, and then change bands and again start my S&P procedure.
A lot of low profile contesters might be intimidated by calling CQ. There is an old saying that it is better to give than to receive. If this is true then it is also true that in order for people to give, there have to be people willing to receive. Don't be afraid to call CQ. I have had a lot of multipliers come back to my CQs and this is always a lot of fun.
Conclusion Not every ham is blessed to live in a location with multiple towers and stacks of monobanders. Many of us live in areas where using a low profile installation is the best way to get on the air. It is the best way for me.
I know going in to every DX contest that I cannot win. I cannot make the top 10, or even the top 100. I know that the only way I can win is when the club wins. So, I do everything I can legally do to make points for the club.
Steve, W3BGN, preaches that in order to maximize your score you have to be in the chair operating. This is certainly true for the big guns and us pop guns as well. Remember, a big station that operates only a few hours will be beaten by a smaller station who operates the contest every time. With a little forethought and determination, us smaller stations can add many millions of points to the club score and have lots of fun in the process.

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.

lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2

score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Dear All,

One of the most interesting ways to use Club Log is to join your clubs, so that you can participate in your own leagues against friends. Also, if you are interested in joining in the HF or LF challenges organised by CDXC, then you can join these contests in Club Log and have your score automatically calculated by Club Log.

Note: members must add themselves to this club. Instruct them to click 'Settings' and then go to the 'Clubs' tab to join. This method allows users to opt-out (by default) of leagues and DXpedition charts. The opt-in principle is how Club Log is intended to work.

PS: Only YBDXC registered member who got the number membership will be approved.

http://www.clublog.org/edituser.php goes to settings, goes to clubs, thick YBDXC, goes to join clubs

DXCC COUNTRY/ENTITY REPORT
According to the AR-Cluster Network for the week of Sunday, 28th-October, through Sunday, 4th-November there were 228 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JD/m, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ4, PJ5, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VP2E, VP2M, VP2V,
VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YJ, YL, YN, YO, YS, YU, YV, Z2, Z3, Z8, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZL7, ZP, ZS
* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).
7Q, MALAWI
David, WA1LBP/7J6CBQ, seems to be a new operator in Malawi and was issued the callsign 7Q7DFC on October 10th. He has been in Malawi since mid-September. There have been reports that he has been on 10 and 6 meters. QSL via OE4VIE. David has a Twitter at:
https://twitter.com/DavidinMalawi/status/262098485699047424
9Y, TRINIDAD AND TOBAGO (Cancelled)
Jim, N6TJ, has canncelled his activity as 9Y4W from Scarborough, Tobago Island (SA-009, WLOTA 0412), for the CQWW DX CW Contest (November 24-25th). His host on Tobago has a broken tower and there is no time to fix it before the contest.
A3, TONGA
Jacek, SP5EAQ, will be active as A3EAQ from Tongatapu Island (OC-049) between March 26th

and April 16th. Activity will be on 80-10 meters SSB only. QSL via SP5EAQ, direct or by the Bureau. For more details and updates, watch:
http://sp5drh.com/a3eaq
A5, BHUTAN
Zorro, JH1AJT, will be active as A5A between November 8-15th. Activity will be on 40-10 meters but with limited spare time operations. QSL via his home callsign, direct or by the Bureau.
CO8LY (Lost Home and in Trouble)
Dennis, K7BV, received the following from Eduardo, CO8LY, a long time HF and 6m op who has given so many their No.1 Cuba contact [edited]:
"Dear Friends, I have sad news, the hurricane Sandy destroyed my house. I've lost everything, I need all I ask for help, please communicate with my manager EA7ADH or send me SMS to my cell 52400814. My mother is very ill and my situation is very difficult. Sorry for the inconvenience. My city Santiago de Cuba was destroyed by the hurricane.
>Big hug, Eduardo, CO8LY, I'm using tractuctor excuse the bad english."Dennis states, "I am going to be sending Eduardo some help. Rather than load Eduardo up with a lot of SMS charges, I would be happy to serve as a collection point for others wishing to send help. He is going to need a complete station, accessories, etc. too, it appears. Thanks for your consideration. Drop me a private note if you would like to send something to our buddy.....
>73 Dennis Motschenbacher K7BV
>PS: Spread the word please."CY0, SABLE ISLAND (Update)
PRESS RELEASE - date October 28th [edited]:
"Ron/AA4VK and Murray/WA4DAN were forced to leave Sable Island around 1915z on Saturday due to the dangerous East Coast storm. The effects of the storm were already being felt on the island as the sand landing area was flooding due to the rising tide and large breakers.
>Naturally we were very disappointed to cut short the DXpedition by four days. We had little choice as we could have been stranded on the island for weeks. Traveling to Sable is always a challenge no matter what time of year it is. We certainly have first-hand knowledge of this! During the 4.5 days of the DXpedition, Ron and Murray logged approximately 13,000 Q's. This DXpedition was highly focused on 10,12 and 15 meters where the most demand existed. Our mono-band yagi's and vertical antennas performed very well in the very strong winds. We had to double stake the guy lines for the antenna masts.
>We would like to thank Gerry Forbes, the officer-in-charge on Sable Island, and Maritime Air for safely getting us off the island.
>73, Ron/AA4VK and Murray/WA4DAN"ADDED NOTE: Alan, VE1AWW, is expected to be active again as CY0/VE1AWW sometime this past week or very soon. On his QRZ.com page he stated on October 30th,
"Sorry to one and all for the great delay in QSL replies and email replies. My laptop with logs died just after I was shut down late last June. I now have the computer and logs back. I am headed back to CY0 later this week. I will sort through the backlog out there and post them on my return to the mainland (late December). I will post here (QRZ.com) when back on the island."His bands of activity are unsure, but he likes to operate on SSB and PSK. QSL via his home callsign, direct or by the Bureau.
EL, LIBERIA (Update)
Look for the VooDoo Contest Group to once again be active from here between November 17-27th. This is their 24th straight year. Operations will be from a location just South of Monrovia, the capital of Liberia. Their main goal is to be an entry in the CQWW DX CW Contest (November 24-25th) as a Multi-Multi category using the callsign EL2A. Outside of the contest the operators will use their own personal callsigns. Operators mentioned are Ned/AA7A (EL2ES), Roger/G3SXW (EL2A), Fred/G4BWP (EL2WP), John/G4IRN (EL2RN), Mike/KC7V

(EL2MF), Lee/KY7M (EL2LF) and Bud/N7CW (EL2CW). QSL via their home callsign, except EL2WP via G5LP. Logs will be uploaded to LoTW and ClubLog (w/OQRS available) as soon as possible, probably after their return home.
ET, ETHIOPIA (Special Event/Press Release)
ET3AA - Ethiopian Amateur Radio Club Announcement
"In celebration of our dear mentor's passing, Mr. Sidney May (ET3SID), our club will make 10,000 QSOs starting on Tuesday, October 29, 2012, and will end once the QSO count has been achieved. In March 2012, Sid was instrumental in having the ET3AA - Ethiopian Amateur Radio Club set-up as a formal organization. With the students receiving US Ham Radio Call-Signs and four students becoming ARRL VE's, this allowed the ET3AA call sign to be transferred from Sid May's name to the club, therefore allowing the club to continue using the ET3AA call sign. The club is officially re-opened.
>Mr. David Collingham (K3LP), working with the Ethiopian Amateur Radio Club, will prepare a color QSL card with our club input and will pay for the cost for printing the QSL cards. Mr. Bob Schenck (N2OO) has agreed to be our QSL Manager for this event. Please do not send prior QSL requests to Bob since he does not have the ET3SID or ET3AA logs except for the brief K3LP visits in Aug. 3-5, 2011 and Dec. 8-13, 2011. We are in the process of setting up a new PO Box for the club and will add the new address information to our website once available.
>Please the use the DX Code of Conduct. Please be kind and work with our students as we learn and improve of radio operating skills.
>Sincerely,
>ET3AAA - Ethiopian Amateur Radio Club
>Dagmawit Solomon
>http://et3aa.com/ "EA8, CANARY ISLANDS
Jyrki "Jay", OH6CS, will be active as EA8CUU from Gáldar, Gran Canaria (AF-004, DIE S-005, WLOTA L 0969), during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (??) entry. QSL via OH6CS direct. Outside of the contest, look for Jay to do some 50 MHz CW/SSB-activity as EA8/OH6CS (QTH loc. IL28DD) between November 22-28th. For more details about the station, see:http://personal.inet.fi/cool/sierra/ea8.htm
EF8, CANARY ISLANDS
Luis, EA8AY, will use the special callsign EF8USA from Tenerife Island (IOTA AF-004, DIE S-012, WLOTA 1276, EAA TF) during the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/High- Power entry. QSL via W2GR. Visit his Web site at: http://www.ea8ay.com/ef8x
FM/TO7, MARTINIQUE
Dimitry, UT5UGR, will be active as FM/KL7WA from Martinique (NA-107) between November 19-26th. Activity will also include the CQWW DX CW Contest (November 24-25th) signing TO7A as a Single-Op/ Multi-Band entry. QSL via UT5UGR.
FM/TO5, MARTINIQUE
Valery, R5GA, will once gain be active as FM/R5GA from FM5BH's QTH between February 11-17th. Activity will include the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/High-power entry and using the callsign TO5X. Outside of the contest, his activity will probably be on CW mainly and on 160-10 meters, especially on the 30/17/12 meters. QSL via LoTW or via UA3DX.
FM/TO5, MARTINIQUE (NA-107)
Al, F5VHJ, will once again be active as TO5A, from FM5BH's QTH during the ARRL DX SSB Contest (March 2-3rd) as a Single-Op/All-Band/High-Power entry. QSL via F5VHJ, direct or by the Bureau. Logs will be uploaded to LoTW.
GJ/MJ0, JERSEY
Mat, MJ0ASP (aka-F5SHQ), will be active as GJ2A during the ARRL DX CW Contest (February

16-17th) as a Single-Op/All-Band entry. QSL via the LoTW.
HI, DOMINICAN REPUBLIC
Sergey, R4WAA, will be active as R4WAA/HI7 between November 21-30th. Activity will be on 40-10 meters and the CQWW DX CW Contest (November 24-25th). QSL via his home callsign by the Bureau.
IOTA NEWS
SA-018. Javier, CD6713, indicates that he has "a legal as Aspirant's license", and can transmit on bands of 10, 40 and 80 meters and VHF, from the Chiloe Island. QSL only direct. See details and pictures of his station on (QRZ.com).
SA-087. Members of the Ría Deseado Radio Club, who were expected to be active this past week as LT0X from Penguin Island, had to reschedule their DXpedition due to weather. The operation is postponed one week. Activity will now take place between Friday, November 9th and Sunday, November 11th. There has been no activity from this island for 12 years. Activity will be on 80/40/20/15/12/10 meters, possibly 6 meters, using CW, SSB and PSK31, with three stations active on the air. QSL via LU7DSY.
SA-096. (NEW IOTA) It was announced this past week that operators Cezar/VE3LYC and Johan/PA3EXX, along with two Argentinian operators, plan to activate Escondida Island in the Chubut Province North IOTA Group early January 2013. Activity will be for four days using two stations. Bands, modes and callsign were not mentioned or provided. QSL via VE3LYC, direct or by the Bureau. Hopefully, more details will be forthcoming.
ISWL CALLSIGNS (For November)
The following ISWL club callsigns will be used throughout the month of November:
GX4BJC/A - Operated from Great Missenden, in Buckinghamshire, by John, G8XTJ. (/A WAB Square = SP80 - England & IOTA = EU-005).
>MX1SWL/A - Operated from Hartford, in Cambridgeshire, by Tom, G3RPV. (/A WAB Square = TL27 - England & IOTA = EU-005).ALL QSLs will be handled by Herbie, G6XOU, and NOT the individual operator. The I.S.W.L. is a member of the European PSK Club. All QSL info is on www.iswl.org.uk or www.qrz.com or via www.eQSL.cc. NO LoTW. I.S.W.L. Awards are available to all Hams and SWLs, see www.iswl.org.uk for full details. The eQSL.cc cards ARE welcomed for their awards.
JU850, MONGOLIA (Special Event)
Baterdene, JT1CS, reports to look for special event stations to be on the air to celebrate Chinggis Khan's 850th birthday between November 14-21st. Mongolian amateur radio operators will be active using special event callsigns such as JU850AA, etc... QSL via info on (QRZ.com). A "Chinggis Khan Award" will be issued free to those who make three contacts with three different special event callsigns, i.e, JU850AA, JU850DA, JU850DN.... on any mode or bands. Please send your request with QSO detail information to: MRSF at MRSF.MN
KH6BZF PROPAGATION FORECAST/REPORT (November 5-11th)

100-400KH0, MARIANA ISLANDS
Operators Jussi-Pekka/OH6RX and Esa/OH7WV will be active from Saipan Island (OC-086) during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. Callsign and QSL info will be announced later. Time permitting, some operating outside of contest one day before and one day after may take place. Operators have the Saipan Rental Shack for November 22-27th, and will probably use the callsigns KH0/homecall outside of the contest. For more details about the Saipan Rental Shack, see the following Web page

at:http://saipan.rental-shack.com/english/index.html
NEWS RELEASE ("DXER'S IDEAS SOUGHT FOR MEETING INCREASING DXPEDITION COSTS"):

"LEICESTER, NC, Oct. 31 --- The DX Magazine, whose current issue features an article, 'Dealing with the skyrocketing costs of DXpeditions,' is asking DXer's for their ideas on how to increase the level of funding for future major DXpeditions.
>Carl Smith, N4AA, Editor and Publisher of the DX Magazine, says 'Major DXpeditions to entities in the top ten of the most wanted list can cost 500,000 USDs or more to activate. This poses a major fund raising challenge to organizers, with costs rising rapidly for such big ticket items as logistics, including transportation, licensing, and permits, along with inflation,' he said. Specific costs are documented in the article appearing in the November-December issue of The DX Magazine.
>Smith said, 'DXer's are invited to send their ideas to the DX Magazine, which will be reporting the results in a future issue. All suggestions are welcome, and may be either anonymous or identified by the contributor's name and call.'
>Send ideas and comments to: DXpedition Costs Survey, c/o D.E. 'Dee' Logan, W1HEO, 9901 Cypress Circle, Mentor, OH 44060-7221. E-mail to: deverelogan@... "OH0, ALAND ISLAND
Operator Tomi, OH6EI, will once again be active as OH0Z during the CQWW DX CW Contest (November 24-25th) as a Single-Op/ All-Band/High-Power entry. QSL via W0MM.
PJ5, ST. EUSTATIUS
A team of JA operators will be active as PJ5J from St. Eustatius (NA-145) between November 30th and December 12th. Activity will be on 160-10 meters using CW, SSB and the Digital modes. Operations will emphasize the lower bands, especially 160m, and working stations from AS/JA. They will participate in the ARRL 10m Contest (December 8-9th) and possibly other contests during that period. The team plans on at least one station on the air for 24 hours day, and possibly another one or two stations to operate simultaneously according to the band openings. Two stations will have 500w amps and another will operate barefoot. Antennas will be verticals for the low bands (w/beverage) and a Spiderbeam for the higher bands.
Operators mentioned are Takayuki/JA1MZL (team leader), Yutaka/JJ1LIB, Naoki/JN1RVS, Hideyuki/JJ1CBY, Katsu/JA1DXA, Toshihiko/ JN1HOW and Isao/JH1ROJ. QSL Manager will be Nao, JA1HGY. Logs will be updated daily to ClubLog and to LoTW after the operation. A OQRS will be available. No Web page was mentioned.
PT0S, ST. PETER AND ST. PAUL ROCKS (Update)
As per the PT0S Web page dated October 31st, from George, AA7JV [edited]:
"Most of the PT0S team is now in Natal. Fred, PY2XB, is going to join us on November 3rd. All our gear has made it and is being stored at the local radio club. Because importation into Brazil can be difficult and slow, we feel that we have passed one of the most worrisome hurdles we've faced. We are now procuring supplies and items that we decided to purchase locally, such as car batteries, camping gear, etc. Local HAM-s, especially Mauricio Barreto, PS7RK, have been incredibly generous helping us to buy supplies and make the final preparations.
>We are on schedule to leave for St. Peter and St. Paul Archipelago on November 5th. The weather forecast is favorable, which is good news, as seas can be rough along the 620 nautical mile passage. We -- and all our gear -- will be travelling on the 70 foot fishing boat Transmar II, along with 8 fishermen. It will be tight and the lighter the seas the more bearable the passage will be.
>We are hoping for a good and productive operation, where in addition to getting a lot of calls into the log, the entire community will have fun. We will soon start publishing operating tips and advice on how to work us best. In the meantime, please keep the following in mind: 'THE DX'ERS CODE OF CONDUCT'." -- which is listed on their Web page at:

>http://pt0s.comPZ, SURINAM
Yuri, VE3DZ, will be active as PZ5T from Surinam between November 20-27th. Activity includes the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. Outside of the contest, look for him to be on CW, SSB and RTTY. QSL via his home callsign.

QSLS RECEIVED VIA MAIL: 3C0E, 4J5A, 7O6T, 5T0JL, 9M2FB, HL3ERJ, JA1NLX/VK4, KP2/KW5E, T77C, VA7AQ/NLF, VK9CS, VP8LP, VU7M, ZA/OK2BOB, ZD9UW, ZG2FX and ZS7/DL1LLL
QSLS RECEIVED VIA THE BUREAU: 1B/DH8WLA, 3A/AI5P, 401A, 403A, 6W/LX1DA, 8P9MS, 9H3YM, 9H9OB, 9L7NS, 9X0CW, AH2L, C56E, C91TK, CN2A, CT9/DJ6TF, CT9/DL3KWF, EL2ES, FP/KV1J, FR/DJ7RJ, HK3DC, HR9/EA1APV, HR9/AI5P, HZ1AN, J7DM, KH6/K9FD, KL7/DL3LAB, KL7/K6VVA, KP2/AB1NL, KP2/AG1LE, OX/DL1RTL, PJ2/W5XU, PJ2/W0NB, PJ4R, PJ5/K1XM, S9DX, SV9/WB2GAI/P, TK/DL9YBY, TX3D, V21ZG, V5/DK1CE, VK9N/AI5P, VP2MDG, VP5T, VP5/WA2VYA, VP9BO, VP9/N1SV, WP4JCF, WP4NTJ, XE2MX, XU7MWA, XV4YY, ZD9AH, ZK3YA
RI1, ANTARCTICA
RI1ANF/P is quite often active from the Russian Priroda Refuge (WAP RUS-15) which is not too far away from Bellingshausen Base, on South Shetlands. On his previous visits to Priroda Refuge (last Oct. 21-22nd and Oct. 25-28th), Oleg made over 1200 QSOs operating as RI1ANF/P. He will try to activate Priroda Refuge again until the first week of November, so ... stay tuned! QSL via RK1PWA.
ADDED NOTE: Oleg Neruchev, ZS1OIN (UA3HK), will replace Oleg Sakharov as new Chief of Bellingshausen Base (WAP RUS-01) and will be active on all bands, mostly CW, after February 12th as RI1ANU instead of the normally used RI1ANF callsign. More info about the Antarctica

is available on the WAP Web site at:
http://www.waponline.it
S7, SEYCHELLES
Hardy, DL8NU, will be active as S79NU from Mahe Atoll (AS-013) between November 9-24th. Activity will be on the HF bands and mostly on CW. QSL via his home callsign.
SATELLITE/VHF TIDBITS
* Yuri, UT1FG/MM, reports having a very rare (Grid FK69ow - GG24PL) 5217km 144.300 MHz contact with Alberto, ZP9SC, on November 2nd, at 2359z . Yuri monitors 50.110 and 144.300 MHz and is currently in the Atlantic (GL05) headed for the English Channel. When not on 6 and 2 meters, he is working the FM and SSB satellites with his Elk and "CJU" antennas, and an IC706 from rare wet grids.
>* Larry, VY0HL, in FP53 is back on the satellites. He favors VO-52 and is in the rare Canadian Territory of Nunavut.
>* Daniel, AL7RS, in AP65 and in Teller, Alaska (on the Bearing Sea), likes CW on FO-29. E-mail him for a schedule.T6, AFGHANISTAN
Ilian, LZ1CNN (ex-YI9LZ), will be active as T6LG from Kandahar during the CQWW DX CW Contest (November 24-25th) as a Single-Op/ All-Band/Low-Power entry. Ilian will be here until February 2013. Activity is usually on 80-6 meters using CW and SSB. QSL Manager is LZ1ZF. Postal address since September 1st, 2012, for LZ1ZF is: G. Vodenicharov, P.O. Box 25, 3600 Lom, BULGARIA.
All QSOs will be uploaded to LoTW. Also, the log for T6LG is now available on ClubLog.
TF, ICELAND
Siggi, TF3CW, has announced that he will be active as TF2CW in the CQWW DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via LX1NO. QTH is the TF2LL Borgarnes station.
TK, CORSICA
Paul, G4BKI (W4/VP9KF), will be active as TK/G4BKI from Corsica between April 4-18th (2013) from various locations. QSL via W4/VP9KF.
TX5, CLIPPERTON ISLAND (Update)
The 2013 Cordell Expedition to Clipperton Island posted on November 1st that Roman, US5WDX, has joined the TX5Q team:
http://www.cordell.org/CI/CI_pages/CI_Team.html
VU3/P, ANTARCTICA (Update)
Gianni, I1HYW, informs OPDX that Bhagwati Prasad is still active as VU3BPZ/P from the new Indian Base 'Bharati' (WAP IND-04) in Antarctica, until November 22-23rd. The new team will be there around November 15th, and Bhagwati (VU3BPZ) will move on board the "P/S Ivan Papanin", soon after he hands over the Bharati radio equip- ment. He should be ready to operate as VU3BPZ/MM between December 5-6th and January 2nd (2013). At the moment, during the day light, he is busy doing several duties and Bharati station activities, so it could be that sometimes he cannot operate the radio as per schedule. However, when he gets spare time, he will be on the frequencies as per the following table:
15M Band 21260 +/- 2 0915-1000z EU, ASIA & Pacific 17M Band 18150 +/- 2 1015-1200z JA, VU, Asia and Pacific 20M Band 14180 +/- 2 1400-1500z EU, ASIA & Pacific 17M Band 18150 +/- 2 1530-1615z EU, North America & ASIA 20M Band 14180 +/- 2 1630-1745z EU, South America 20M Band 14242 0130-0300z North & South AmericaOperations will be SSB for the above times/frequencies. The Bharati Station (Larsemann Hills, Antarctica) is actually getting 19 hours of daylight; sunrise 2126z, sunset 1554z and Local time = UTC+5 hrs. QSL for VU2BPZ/P is in the printing process. QSL Manager I1HYW will start to QSL about November 15th.
ZL7, CHATHAM ISLAND
Just a reminder that Hiro, JF1OCQ/W1VX/ZL1WY, is now active as ZL7A from the Chatham

Islands (OC-038) until November 9th. Activity will be on 80-6 meters using CW, SSB and the Digital modes, with an emphasis on 80 and 6 meters. A beacon will be on 50.117 MHz around the clock. Hiro will use a TS-590S w/ACOM1000 into a Husler vertical for HF, and a FT-100 without a Linear Amp into 4 element yagi for 6 meters. QSL via JF1OCQ, direct (see QRZ.com) or by the Bureau (E-mail requests available) or LoTW. NO eQSL. For more details, see:
http://w1vx.net/pedition/zl7/2012ZL7.htm
ZL9, CAMPBELL ISLAND (Press Release)
Ed, VK2ARE, Australian publicity Officer for ZL9HR, sent out the following on October 26th:
"Thanks for your support of ZL9HR - Campbell Island. This update will be short [edited]:
>"Current Status:
>Everything is on schedule; the team is excited and ready to begin their journey to New Zealand. Team members will begin arriving in Invercargill, NZ, on November 22nd.
>The majority of our equipment arrived at a storage facility in Invercargill on Oct 18th.
>Current Schedule:
>November 23rd - The equipment will be taken to the NZ Department of Conservation (DoC) Quarantine Inspection station.
>November 24th - Everything will be unpacked and inspected; including personal items, once inspected everything will remain at the station until departure.
>November 25th - The team returns to the inspection station for DoC briefings on: safety, landing permit conditions and working around the islands wildlife.
>November 26th - The team again returns to the DoC inspection station for inspection of personal items not processed on Nov. 24th.
>- Equipment will be trucked to Bluff, NZ, and loaded aboard the boat for departure, currently scheduled at approximately 12:00 (local).
>- Several local hams have offered to assist with loading the boat.
>With good weather we estimate the voyage will take 40 hours, arriving at Perseverance Harbor sometime between midnight and 06:00 (local) on November 28th.
>During the DX-pedition daily traffic with the team will be handled by the designated Pilot stations. We ask the DX community to direct their compliments / suggestions / concerns to the Pilots who will summarize and forward to us via E-mail. We plan to upload photos and logs on a daily basis. The Pilots are listed on the Team page of our web site at:
>http://www.campbell2012.com
>Team member Dave, K3EL, updated his ZL9HR blog on Oct. 21st at:
>http://k3el.wordpress.com
>Initially we had a band / mode survey page on the web site; due to some Internet pranksters the survey was removed. However, we did collect enough data to get a view of needed bands / modes. In closing we want to again thank the corporate spons
>ors, clubs, foundations and individuals who have provided products and funding to make the activation of Campbell Island a reality after a long radio silence.
>That's it for now; safe travels to the ZL9HR team as they begin their journey. Our next update will be in November from New Zealand.
>73, Gene, K5GS, for the ZL9HR team"

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA

2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang

hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.

14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.

Heheheh,

Ga papa Mbak Endang,
Semua juga bala dewe.
mungkin ya pada bingung, yang dikometari bagian mana gitu, hi.....
Terus ...
Ahhh yg paling selamet ngucapin selamet pada Mas Nur yg mau ke YB.

Coba klo ngomentari,
Ehh Pak Seno, kemarin saweranmu kurang ga?
Atau ....
Ehhh Mas Seno, besok klo kontes lagi aku support radio / PA ya
Nah itu memang blm terdengar hehehehe

Everything is ok ya Mbak Endang,
Salam dari Solo

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu

satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R

Dear Pak Wan-wan,

Terima kasih, terima kasih ....

Mengenai perangkat yg dipergunakan,
Antena : coba lihat di qrz.com
Radio :
10m : ts-450s (yb2lsr)
PA home brew 1kW (yb3biy) yg jebol pada hari pertama, oh ya maaf pada tulisanku yg lalu tertulis 15m
Kemudian di ganti Alpha 8410 (yb2dx)
15m : ic-7410 (yb3mm)
PA homebrew
20m : ts-450s (yb3mm)
PA Alpha 8410 (yb2dx)
40m/160m : ts940 (yb2dx)
PA home-brew 1kW (yb3km)
80m : ts-440s (yb2dx)
PA : Ameritron 600w type lupa (yb2tjv)

PA yg rusak milik yb3biy dan yb3mm, smp skrg bllm tau laporannya seberapa jauh rusaknya

Demikian infonya

Salam
Seno

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.

2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Dear Pak Wan-wan,

Terima kasih, terima kasih ....

Mengenai perangkat yg dipergunakan,
Antena : coba lihat di qrz.com
Radio :
10m : ts-450s (yb2lsr)
PA home brew 1kW (yb3biy) yg jebol pada hari pertama, oh ya maaf pada tulisanku yg lalu tertulis 15m
Kemudian di ganti Alpha 8410 (yb2dx)
15m : ic-7410 (yb3mm)
PA homebrew
20m : ts-450s (yb3mm)
PA Alpha 8410 (yb2dx)
40m/160m : ts940 (yb2dx)
PA home-brew 1kW (yb3km)
80m : ts-440s (yb2dx)
PA : Ameritron 600w type lupa (yb2tjv)

PA yg rusak milik yb3biy dan yb3mm, smp skrg bllm tau laporannya seberapa jauh rusaknya

Demikian infonya

Ternyata radio YE2R radio di dominasi radio Jadul yah.. Tapi bisa mencetak new country Record.
Topsss banget...

Kesimpulan: apapun radionya yg penting the man behind the gun.
Radio bagus kalau oprnya repeat again berkali kali sama aje bohong...

Hahhahhahahaa... Hahahhhhahaaha..

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu

satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....

19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Ternyata radio YE2R radio di dominasi radio Jadul yah.. Tapi bisa mencetak new country Record.
Topsss banget...

Kesimpulan: apapun radionya yg penting the man behind the gun.
Radio bagus kalau oprnya repeat again berkali kali sama aje bohong...

Hahhahhahahaa... Hahahhhhahaaha..

Dear Pak Wan-wan,

Terima kasih, terima kasih ....

Mengenai perangkat yg dipergunakan,
Antena : coba lihat di qrz.com
Radio :
10m : ts-450s (yb2lsr)
PA home brew 1kW (yb3biy) yg jebol pada hari pertama, oh ya maaf pada tulisanku yg lalu tertulis 15m
Kemudian di ganti Alpha 8410 (yb2dx)
15m : ic-7410 (yb3mm)
PA homebrew
20m : ts-450s (yb3mm)
PA Alpha 8410 (yb2dx)
40m/160m : ts940 (yb2dx)
PA home-brew 1kW (yb3km)
80m : ts-440s (yb2dx)
PA : Ameritron 600w type lupa (yb2tjv)

PA yg rusak milik yb3biy dan yb3mm, smp skrg bllm tau laporannya seberapa jauh rusaknya

Demikian infonya

Salam
Seno

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh

....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho
....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Dear Pak Wan-wan,

Terima kasih, terima kasih ....

Mengenai perangkat yg dipergunakan,
Antena : coba lihat di qrz.com
Radio :
10m : ts-450s (yb2lsr)
PA home brew 1kW (yb3biy) yg jebol pada hari pertama, oh ya maaf pada tulisanku yg lalu tertulis 15m
Kemudian di ganti Alpha 8410 (yb2dx)
15m : ic-7410 (yb3mm)
PA homebrew
20m : ts-450s (yb3mm)
PA Alpha 8410 (yb2dx)
40m/160m : ts940 (yb2dx)
PA home-brew 1kW (yb3km)
80m : ts-440s (yb2dx)
PA : Ameritron 600w type lupa (yb2tjv)

PA yg rusak milik yb3biy dan yb3mm, smp skrg bllm tau laporannya seberapa jauh rusaknya

Demikian infonya

Ha ha ha ....
Bisa aja nih Mbak Endang

iya nih ...
Ada 2 PA yg jebol, entah kena ongkos brpa tuh, barang pinjem lagi ....
Yah siapa tahu ada orang yang budiman berkenan sawer lewat rekening

BCA
423-024-8848
HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam

Ha ha ha...
Mas Seno ini humoris banget...
Iya ya, ada ngga tuh yg komen gitu... "Ehh Pak Seno, kemarin saweranmu kurang ga? Kalo kurang tak tambahi wis... Kurang piro" ha ha...

Heheheh,

Ga papa Mbak Endang,
Semua juga bala dewe.
mungkin ya pada bingung, yang dikometari bagian mana gitu, hi.......
Terus ...
Ahhh yg paling selamet ngucapin selamet pada Mas Nur yg mau ke YB.

Coba klo ngomentari,
Ehh Pak Seno, kemarin saweranmu kurang ga?
Atau ....
Ehhh Mas Seno, besok klo kontes lagi aku support radio / PA ya
Nah itu memang blm terdengar hehehehe

Everything is ok ya Mbak Endang,
Salam dari Solo

73 / 88
Seno

Iki pie tho,

Subyek-e YE2R,
Kok malah pada ucapin selamat ke YB2WBF to?
Ayo YB2WBF traktir makan2, kemarin ditunggu2 blm terealisir lho, sampe ngiler semua nih

.....
Hehe

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan

saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau

kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Best 73
Seno
on YE2R behalf

Bisa aja nih Mbak Endang

iya nih ...
Ada 2 PA yg jebol, entah kena ongkos brpa tuh, barang pinjem lagi ....
Yah siapa tahu ada orang yang budiman berkenan sawer lewat rekening

BCA
423-024-8848
HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh

....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho
....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Best 73

lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan

dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Dear Pak Wan-wan,

Terima kasih, terima kasih ....

Mengenai perangkat yg dipergunakan,
Antena : coba lihat di qrz.com
Radio :
10m : ts-450s (yb2lsr)
PA home brew 1kW (yb3biy) yg jebol pada hari pertama, oh ya maaf pada tulisanku yg lalu tertulis 15m
Kemudian di ganti Alpha 8410 (yb2dx)
15m : ic-7410 (yb3mm)
PA homebrew
20m : ts-450s (yb3mm)
PA Alpha 8410 (yb2dx)
40m/160m : ts940 (yb2dx)
PA home-brew 1kW (yb3km)
80m : ts-440s (yb2dx)
PA : Ameritron 600w type lupa (yb2tjv)

PA yg rusak milik yb3biy dan yb3mm, smp skrg bllm tau laporannya seberapa jauh rusaknya

Demikian infonya

Salam
Seno

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

OM Ndut,
Anggota ke 100 kemarin dapat hadiah dari Bill Moore/NC1L.
DXCC Award yang antik.

Nanti mungkin anggota ke 200, 300 juga dapat.

Om Hen YC0QR, justru waktu ybdxc terbentuk, saya malah tidak mengira bisa mencapai 100 members.

Tetapi akhirnya bisa juga ... Di setiap intl contest, peserta dari YB Land juga semakin bertambah...

Mudah2an semakin hari YBDXC semakin di dukung teman2 Amatir Radio di Indonesia.

Dear All

Setelah sibuk keliling 5 benua dalam kegiatan kontes berskala international, sekarang giliran berkontes ria di nusantara dalam Marathon Kebayoran Contest 2012 yang akan diadakan pada tgl 15-16 Desember 2012 di 40M dan 80M Band dengan katagori :

1. Katagori Single Operator 80M Band

2. Katagori Single Operator 40M Band

3. Katagori Single Operator 80M dan 40M Band

4. Katagori Zulu Station 80M dan 40M Band

Rekan-rekan yang memerlukan softcopy Juklak, dapat kirim email ke yc0ost@... atau yc0mei@...

Thanks

a/n Panitia MKC 2012

Semoga ya OM Ndut,
- Anggota ORARI bertambah banyak (lagi)

- DXers bertambah jumlahnya
- Contester dari ORARI bertambah banyak

- Anggota YBDXC juga bertambah banyak
- ORARI, YBDXC makin maju, makin canggih.
Amin.

Om Hen YC0QR, justru waktu ybdxc terbentuk, saya malah tidak mengira bisa mencapai 100 members.

Tetapi akhirnya bisa juga ... Di setiap intl contest, peserta dari YB Land juga semakin bertambah...

Mudah2an semakin hari YBDXC semakin di dukung teman2 Amatir Radio di Indonesia.

OM Ndut,

Nah ini salahsatru handicap yang masih saya kuatirkan..untuk ikut kontes. HI.
Padahal utk membantu receiving saya sudah pasang DSP di IC-718 saya, tapi masih kurang peka telinganya.

4316. 2012 contests at ZM4T CQ Worldwide DX SSB

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-11-05 15:46:45 UTC
From: Yb land Dx club
Topic: 4316 Message: 4316

http://www.zm4t.com/html/activities.html

2012 contests at ZM4T
CQ Worldwide DX SSB
Pre-contest prep
Being the biggest event of our year, a multi-operator multi-transmitter entry in CQ WW requires a substantial team effort. There were a number of tasks to complete before the contest. Lee ZL2AL and Gary ZL2iFB organized working beesfew weeks prior to check/fix the antennas and reposition the coax feeds in order to fit the junction/distribution box directly behind the operating positions, making it simple to rig up and select whichever antennas each station needs. Although for practical and safety reasons we unfortunately weren't able to install the masts for a second set of LF antennas, our hard work and attention to detail paid off as the complete antenna system was ready to connect up quickly when the team arrived on site, and worked well throughout the contest.
Strategy
Saturday morning saw the operators assemble on site for our usual pre-contest strategy meeting/pep-talk. This year the emphasis was on accuracy as the contest judges will beharsh if any team steps out of line and we did not want to have our hard-earned score decimated by avoidable errors. We agreed to be more disciplined in our operating practices, avoiding superfluous/daft expressions (such as the dreaded "My number to you is …"!) which just waste time and break the rhythm, and repeating back any corrected callsigns. We could all do with being more slick and professional when every last second counts, so we agreed on a more succinct script for our QSOs.
From time to time we all slipped back into our old habits but the rest of the team were usually listening-in and on occasions tongue-in-cheek reminder notes were handed to an errant operator (both new and old hands) to gales of laughter. It made us realize the contest operating is not as easy as it looks.
Stan ZL2ST is a whizz at statistical analysis on our past contests, helping us set realistic targets and track our progress against last year's performance. Stan maintains historical hourly charts, band charts and others which are of great help to make decisions such as when to hand-rotate antennas and where to aim them. Lee ZL2AL produced shift charts to schedule individual operator's times, with just enough flexibility to cope with the inevitable ups and downs caused by sleep deprivation, variable conditions and work/family commitments.

Holger ZL3IO rightly pointed out that multipliers are the key to high scores. We knew from our performance in the recent Oceania DX contest that we ought to be able to beat last year's CQ WW effort on 80m. It takes discipline to leave a decent run on another band for a dawn or dusk slog through the QRN on 80m but we needed those multipliers and resolved to make an extra effort.
Did the strategy work? Yes, we think so. Our individual operating styles have improved and the resulting claimed score speaks for itself. Several of us noticed an increased attention to accuracy on-air this year, as well, so we await the final scores and UBN reports with great interest: hopefully our penalties will be well below the 5% mark.
One issue we haven't quite mastered yet is what to do when someone sends us an incorrect

zone (such as “zero zero one”). We patiently told some such callers that we needed their CQ zone numbers and most duly did so, but some were obviously overwhelmed by the whole thing, perhaps too excited at working their first ZL. It doesn’t seem right to log and claim what we were sent if it is patently wrong, nor to delete the entire QSO, nor to make arbitrary changes, since we are supposed to be logging this stuff accurately as sent. Likewise, we have learnt to work and log duplicate QSOs rather than waste time arguing with callers. Sometimes this is due to logging errors or incomplete QSOs, and we hope we are only going to be penalized for our own mistakes.

Equipment

Station A: Yaesu FT1000MP transceiver, Tokyo Hi-Power HL 2.5Fx amplifier, HC-1.5KAT automatic ATU, Elecraft wattmeter, Heil headset, Yaesu DVR unit, IBM T60 laptop, N1MM software.

Station B: Yaesu FT1000 mark V transceiver, Kenwood TL-922 amplifier, Daiwa wattmeter, Heil headset, Yaesu DVR unit, IBM T60 laptop, N1MM software.

DXcluster node: IBM T60 laptop, VE7CC Cluster User software.

Linear amplifiers have given us a hard time in previous contests, often letting out the smoke at the worst possible moment. This year we took a calculated risk by using a new no-tune Tokyo High Power HL2.5Fx amp with its matching auto-tune ATU on its first ever contest outing. The Elecraft W2 peak-reading SWR/power meter was a joy to watch, the display lighting up like a Las Vegas casino sign. The setup worked beautifully with the FT1000MP, albeit without the band data lead allowing fully automatic radio+amp+ATU band changes. It was interesting to watch the run rate in N1MM increase at about the same rate as the temperature on the THP amp’s readout, while we fine-tuned the ALC and speech processor settings to keep our signal as clean as possible for 1 kW output.

The TL-922 amplifier on station B had been lovingly rebuilt and maintained by Lee ZL2AL. Previously, we had suffered repeated failures of the Jennings vacuum relays but having changed to Gigavacs, Lee appears to have despatched those gremlins at last.

The Yaesu Digital Voice Recorders were heavily used, saving our vocal chords from CQing when the run rates fell. Thanks to Peter ZL2LF’s technical magic, the monitor level no longer deafens the op when he hits the go button, although we do need to be more careful about setting the audio and processing levels when recording our messages and contact bounce on the remotes remains a slight annoyance.

As well as engineering for reliability and resilience, we believe in redundancy and contingency planning: we had an Elecraft K3, KPA500 and FT1000MP in reserve should something go wrong, as well as choices of LF antennas (see below).

With I.C.E. bandpass filters available for every band, there is little interference between stations that cannot be overcome although for some reason hash (wideband transmit noise) was a bit of an issue on 15m, perhaps resulting from the mismatch caused by using an antenna tuned for the CW end of the band on SSB (a lesson there for next time, perhaps).

Another problem that has plagued us for years has been securing a reliable Internet connection on site. Aside from being decidedly rural, the metal-clad shack doesn’t help. We have tried Wi-Fi LANs and 3G USB modems with mixed success. Frequent DXCluster “dropouts” when we are hunting for multipliers is frustrating to say the least. This time, Wayne ZL2WG donated and installed a run of CAT 6 cable giving us a wired network link to our host’s broadband router. Aside from a few short interruptions in the upstream broadband service, we were more successful in picking up spotted mults to supplement those we found for ourselves.

Antennas

80m: letterbox-shaped full-wave vertically-polarized loop suspended from the fir trees, top about 25m high, bottom only 2-3m off the deck; plus a full size quarter-wave Spider

Pole wire vertical with capacitance top-hat and 2 elevated radials.
40m: quarter-wave vertical centred on the tin roof of the barn; plus a full-wave vertically-polarized triangular wire loop suspended from the trees at about 18m max height.
20m: 3 element homebrew Yagi about 15m up (hand rotated).
15m: 5 element Cushcraft Yagi about 12m up (hand rotated).
10m: 4 element homebrew Yagi about 13m up (hand rotated), now rebuilt and with a better balun giving a 1:1 SWR!
We have long wondered whether dipoles, loops or verticals are the better choice for the low bands. Over a few contests, we have discovered that dipoles can definitely be bettered and, although there is little difference in actual operation, the verticals often have the edge and consequently get more use than the loops. The 40m vertical on the shack roof performs amazingly well for such a simple antenna, thanks to the area of its tin ground plane. Still, a project for the future is a gain antenna on 40m - perhaps a 2 ele Yagi, a vertical array or even vee-beams towards W and JA. Holger ZL3IO's 80m quarter-wave Spider Pole vertical with just two elevated radials also works very well and is a valuable alternative to the wire loop dangling from, and perhaps partly obscured by, the trees.
The tall fir trees are handy supports for our wire aerials but one has grown so close to the 20m beam that it snags the reflector when turning the antenna in one direction. Consequently, we could only turn it the other way, gradually winding up the feeder like a barber's pole. Jim, our gracious host, plans to cure the problem by having the offending tree felled. We just hope the guy with the chainsaw loves our beam as much as we do!
The contest
While most of the work-slaves were chained to their desks, the operating positions, radios, amplifiers and pre-configured computers were set up on site by Lee ZL2AL on Friday, the day before the contest.
Following the final arrangements and a swift cup of coffee on Saturday morning, we moved rapidly from strategy briefing into the 2012 CQ WW DX SSB contest at 0000 UTC (1pm local time). We opened up on 10M and 15M, running so hot on both bands during that first afternoon that we soon established a noticeable lead on our 2011 effort. After a few hours we were some 300 QSOs ahead - 2012 was shaping up to be a great year already!
Sometimes you have to smile in wonder at how Murphy will strike. Mike ZL2CC recounts an incident during the contest: "I spent over an hour trying to generate a decent pile-up with only 5 contacts logged, AND one of those was a dupe! I struggled in vain to work a multiplier and was concerned that I although I heard two other ZL's work him, I just couldn't make it. Gary ZL2iFB was next in the chair while Mike ZL2MY popped out to check the antenna direction. Almost as soon as he sat down, Gary duly bagged the multiplier and got a pile-up going. "Bugga," I thought, "It happens ..." but then Mike returned with the news that the antenna had in fact been pointing completely the wrong way, out by 180 degrees! I would love to know who 'set me up' hi."
Gary ZL2iFB particularly enjoyed a contest QSO with what sounded like a very young ham. He/she was presumably being mentored by an older person, being audibly prompted to say "QSL thank you" at the appropriate point.
The last few hours of the contest were generally hard going as we had worked almost all of the stations still left CQing, while the callers who kindly came on to "give us a few points" tended to be quite weak. However, thanks to the seconds we had saved up through more efficient exchanges and the floggings that continued right up to the final whistle, we succeeded in reaching last year's score, eventually meeting and then exceeding all of our targets.
As the shack clock ticked past 2359z for the last time, N1MM showed a handsome final tally of over 7,000 QSOs and 150 multipliers giving a claimed score of just over 12 million points, well up on last year's M/2 effort. Errors, dupes, fatigued ops, QRM/QRN and the

CQWW judges will no doubt reduce the final score a bit but it is undoubtedly our best effort to date. The increased number of both multipliers and QSO numbers on all bands was gratifying, if exhausting.

Band	QSOs	Points	Zones	DXCCs	Fun
160m	0	0	0	0	Nil
80m	112	272	24	30	10%
40m	684	1904	30	64	10%
20m	1678	4798	35	125	15%
15m	2413	6978	34	105	50%
10m	2509	7408	30	85	25%
Total	7396	21360	153	409	110%

Raw score: 12,004,320

While the equipment was cooling off, we took a few minutes for a debrief while things were fresh in our minds, then completed the dismantling, packing and sweeping up to leave the place spick and span.

Close

Although our team will be depleted, we are looking forward to the next contest in our calendar, CQ WW CW at the end of November, especially if the good HF conditions return in a month’s time.

Thanks to our valiant operator/slaves Holger ZL3IO, Gary ZL2iFB, Stan ZL2ST, Wayne ZL2WG, Michael ZL2MY, Wayne ZL2WG, Mike ZL2CC and flogger-in-chief Lee ZL2AL, and to the wider band of East Coast Contest Group helpers who mucked-in with a mix of pre-contest site prep work, equipment maintenance and friendly encouragement.

73 de Lee ZL2AL

Subject: [YBDXC_News] YE2R

Dear All,
Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.
Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama
running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.Hari yang kedua terjadi lagi hal yang diluar dugaan
kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.
Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.
Rincian dari perlengkapan dan akomodasi :
* Seluruh Antenna : YB2DX* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM
* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :
1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ...,

hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

hahahahahaha...., OM Joy....bisa aja.
Masa ikan minta bimbingan cara berenang dari burung bango.

Kita khan pernah ketemu di QTH YB0KVN waktu nengok rekan2 di YE0X - dari situ sudah ketahuan siapa yang lebih mumpuni dalam masalah DXing dan QRP.
Satu lagi, khan saya yang pernah rencana mau menyambangi QTH OM Joy bersama YC0KBE/YC0ISE utk ngunduh ilmunya OM Joy - tapi belum kesampaian. HI HI

http://www.ybdxc.net/2012/09/yb-land-dx-club-1st-anniversary.html

YB Land DX Club 1st ANNIVERSARY CERTIFICATE

YB Land DX Club 1st ANNIVERSARY CERTIFICATE

YB Land DX Club is pleased to announce its one year anniversary on 13th of September 2012. To commemorate this special event, a special short term Certificate of Merit will be issued.

Only contacts with permanent YB stations between September 13 0000Z - October 31 2359Z 2012 will count.
Only mixed mode and mixed band will be offered. All contacts on HF bands (160-10M) using Phone, CW, or Digital mode will count toward the certificate. Cross band or repeater QSO does not count.

For DX Stations a minimum of 50 points is required to qualify for the basic certificate

Points are assigned as follows:
YBDXC President YB4IR: 30 pts
YBDXC Officers (YB1AR, YB2DX, YB2TJV, YB0SAT, YF1AR): 20 pts
YBDXC members: 15 pts
YB stations non YBDXC member: 10 pts

For a complete list of current YBDXC members as follows:
YB0NDT, YB0MWM, YB0COU, YB0AI, YB0DJ, YB0NFL, YB0DPO, YB0EIN, YB0PAH, YB0MZI , YB0MJY,
YC0OHG, YC0QR YE0ANA,
YB1FWO, YB1TJ, YB1WR, YB1UUN, YB1HK, YB1ALL, YB1EBA, YB1MBA, YB1KIZ, YB1BS, YB1FIH,
YB1ACN, YB1PT, YB1ND, YB1AD, YC1DML, YC1BJX, YC1UUU, YC1BRS, YD1XUH, YE1AA, YF1HDF
YB2LSR, YB2WB, , YB2UTX, YB2VVD, YB2DDT, YB2ECG, YB2AA, YB2CPO, YB2EUZ, YB2BBY,YB2VTO,
YB2DI,YC2WBF, YC2VEJ, YC2LEV
YB3GE, YB3MM, YB3KM, YB3DIK, YB3GXS, YB3PXF,
YB4TRY,
YB5QZ, YB5OUB,
YB6LD, YB6EN, YB6HJE, YB6DE, YC6LAY, YB6JRT, YC6EI
YB7KNV, YE7YE, YB7XO,
YB8EL, YB8FL, YB8VM, YB8UF, YB8TAF, YB8BRI, YB8HZ, YB8BJU,YC8EMH,
YB9AY, YC9CCS, YC9BEC, YB9WZJ, , YC9AOS, YC9DEB YC9MDX,

To claim the Certificate of Merit, you need to send your log extracts by email to QSL Manager YB2DX email: yb2dx@...

There is no cost, and the certificate will be emailed in PDF form ready to be printed and framed.
Good luck and see you on the bands. 73

YB4IR Imam
President

*) Untuk YB Land station selain mengumpulkan minimal 50 point juga harus ber QSO dengan minimal 3 station DX (cantumkan semua data QSO pada logsheet)

Subject: [YBDXC_News] YE2R

Dear All,
Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.
Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama
running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.Hari yang kedua terjadi lagi hal yang diluar dugaan
kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.
Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.
Rincian dari perlengkapan dan akomodasi :
* Seluruh Antenna : YB2DX* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM
* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :
1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan

penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat

kami sebut satu -persatu.

OM Djoko,
Thanks infonya, saya nunggu Nicaragua di 15M nih tapi selama ini sering dengarnya di 10M. Sebelumnya saya sdh confirmed LoTW dengan YN2CC lalu dengan HT9H ini beberapa hari yll 02/11/2012.

Salut dengan receivingnya, sesuai dengan janjinya :

GIMME A CALL IF YOU HEAR ME.
I USUALLY CAN PICK UP` WEAK SIGNALS, ````````
Sekali panggil dia copied my full callsign, padahal signal saya diterima kecil/lemah seperti juga signal dia di radio saya.

Hi Om Hen,

Burung Bango ga bisa berenang n perlu ikan nya yg ajarin..hehehehe..!!

Di th 2011 saya bertugas di stasiun Om Trie, YB0KVN di Warung Buncit, Jakarta Selatan. Di 2012 saya ikut di YE2R.

Om Hen, sy tggu ya kedatangan nya di QTH saya. Tar kita coba Cq Cq gaya QRP di high band. Pasti Om Hen akan rasanya 10x lebih puas kalo dapat DX QSO dengan hanya QRP..

Kalo QRO siapa pun bisa DXing kalo QRP perlu ilmu dikit.. Hehehe.

Salam n 73,

hahaha, mangkanya khan ga mungkin ngajarin orang yg harusnya justru ngajar. wah blibet bahasanya. HI.
tambah bingung kenapa saya ambil perumpamaan burung bango, hahahahahaha....

QRP. Saya sih masih heran aja karna dengan 70-100 watt saja kadang sangat sulit untuk menembus pile up - ini malahan dg power dibawah 10 watt.
Suka heran juga dengan yg ikut SOTA, naik gunung gelar tiker (HI HI) pake antenna model Budipole.

Kalo berhasil worked sih gak bisa dibayangkan puasnya... ruaaarrr biasa...!!

OM Hen harus set up antennanya yg presisi dan se-effisien bener,

Bagaimana tidak, suatu ketika OM Joy aku terima di 20m 599 pake 5W, buset,

Ada tuh rekamannya di youtube, coba deh dengerin

Wkwkwk

Iya ya OM Seno,
Untuk transmit itu salahsatu kuncinya ya efektif & efisien, semua power yang keluar dari rig harus tersalurkan dan terpancarkan semaksimal mungkin.
Penekanan losses sekecil mungkin (zero losses) di connector, coax dan antenna, sementara itu saya pake coax, connector seadanya. :-(

DXNL 1805 - Nov 7, 2012

3A, MONACO
Max,3A/ON5UR, and Marc,3A/ON8AK, will be QRV in SSB on 80m-10m working with two stations simultaneously from Nov 9-17. A website will be installed as well. QSL via M0URX (OQRS).

7Q, MALAWI
David,WA1LBP, got the callsign 7Q7DFC on Oct 10. He has been spotted on 10m and 6m already. QSL via OE4VIE.
See also: https://twitter.com/DavidinMalawi/status/262098485699047424

A5, BHUTAN
Zorro,JH1AJT, will show up as A5A from the capital Thimphu working on 40m-10m during his spare time from Nov 8-15. He is working for the Foundation for Global Children (FGC). QSL via homecall.
See also: http://www.fgc.or.jp/english

BV, TAIWAN, AS-020
The special event stations BM0LF and BV2013LF are celebrating the Taiwan Lantern Festival 2013 in Hsinchu until Mar 10, 2013.
QSLs via BM2JCC. See also: http://www.2013taiwanlantern.net/en

CE, CHILE, SA-018
Javier,CD6713, on Chiloe Island (SA-018) has an aspirant's license and is allowed to work on 10m, 40m, 80m and VHF.
See: http://www.federachi.cl/index.php/reglamento-y-normas?start=2

CX, URUGUAY
The first transmission of "Radio Paradizabal" was broadcasted on Nov 6, 1922. "Radiogrupo Sur" activates the special event station CW90A in all modes on all bands until the end of the year to celebrate the 90th anniversary of this historic event.
QSL via CX2ABC, unfortunately only direct.
See also: http://www.cw90a.radiogruposur.org

ET, ETHIOPIA
The Ethiopian Amateur Radio Club is commemorating their mentor, Sid T. May, ET3SID, who passed away in late September. Activity started on Oct 29 from the clubstation ET3AA and will end after they have made 10,000 QSOs. QSL via N2OO. See also: http://et3aa.com

EU, BELARUS
The special event stations EV200BP, EV200B and EV200S remember the Bicentenary of the smashing of the Napoleonic army at the crossing of the river Berezina.
QSL for EV200BP via bureau, direct via EW2CC, EV200B via EW2EO.

F, FRANCE
    The special event station TM7VG is working in CW, SSB and digital modes
    on 160m-2m until Nov 15 to mark the "7th Vendee Globe Boat World Race".
    QSL via F6KUF. See also: http://www.vendeeglobe.org/en

G, ENGLAND, EU-005
    Following ISWL stations will be activated during November:
      GX4BJC/A QTH: Great Missenden, OP John,G8XTJ (WAB SP80, EU-005,
                     WLOTA 1841)
      MX1SWL/A QTH: Hartford, OP Tom,G3RPV (WAB TL27, EU-005, WLOTA 1841)
    QSLs via G6XOU. See also: http://www.iswl.org.uk

I, ITALY
    The special event station IY1EY is active in CW, SSB, RTTY and PSK31
    from Loano until Nov 11 to commemorate the experiments of Gugliemo
    Marconi on his yacht "Elettra" between 1919 and 1936. QSL via IK1QBT.
    See also: http://www.ariloano.it

LU, ARGENTINA, SA-008
    "End of the World, Railway station" is a special event that will be
    activated from Tierra del Fuego (SA-008, WAP ARG-23, WFF LUFF-034,
    WLOTA 2448) on Nov 10. Several stations will be on the air and this is
    a good opportunity to collect points for WAP-WACA and WAP-WADA awards.
    Operators will be: Cecilia,LU3XUC, Cristian,LU5XUC, Jaime,LU4XPE,
    Gerardo,LU3XUJ, Hector,LU3XUH, Omar,LU5XTS, Pablo,LU4XUP, Luli,LU4XUL,
    Guillermo,LU6XSG, Guillermo,LU9XPR, Diego,LU5XWA, Mariana,LU5XTI,
    Erica,LU4XUE, Miriam,LU3XUM, Cintia,LU3XYL, and Guillermo,LU7XX.
    They will append /XP to their homecalls. As most of them hold novice
    licenses they will work on 10m from 28.300-28.350 MHz and on 80m on
    3.650 MHz. QSLs via homecalls.

W, USA
    The Tuckerton Wireless Amateur Radio Club, the Old Barney Amateur
    Radio Club and the South Jersey DX Association are celebrating the
    100th anniversary of the "Tuckerton Wireless" (WSC). Members will use
    W2WSC/100 from their home stations while W2WSC/WSC will be used from
    the last operating site of the Marine Coastal Radio Station WSC in
    West Creek, NJ. Furthermore W2WSC/40 will be activated from the
    Giffordtown Museum on Nov 17 (1500-2100 UTC) to commemorate the
    40th anniversary of the Tuckerton Historical Society. QSLs via W2WSC.

YB, INDONESIA, OC-021
    The special event station YB26SEAG will be activated by members of the
    YB Land DX Club (YBDXC) in all modes on all bands from Nov 11-17 during
    the 26th South East Asia Games (SEAG) taking place in Jakarta from
    Nov 12-22. QSL via YB1GJS.

OP wanted: Bill,N6MW, is looking for another operator to join a DXpedition
    to KH8 from Mar 19-28, 2013. See also: http://n6mw.jimdo.com

New IOTA Checkpoint: Alejandro Valdez, XE1EE (iota.mexico@gmail), is the new
    IOTA checkpoint for Mexico, Central America and the Caribbean Islands
    (islands belonging to the USA and France excluded) starting on Nov 1.

Hurricane damage and trouble: Dennis,K7BV, was contacted by Eduardo,CO8LY,
stating that hurricane Sandy destroyed his house and everything he had.
His mother is very ill as well. Dennis is willing to serve as a
collection point for others wishing to send help.
Eduardo can be contacted also via his QSL manager EA7ADH.

LINKS: Current SOTA activities (mountain summits) are announced at:
http://www.sotawatch.org

Detailed information about current VHF activities can be found on the
VHF DX portal "Make More Miles on VHF" at: http://www.MMMonVHF.de

UPCOMING CONTESTS

Nov 10/11 Worked All Europe (WAEDC) Contest, RTTY
Nov 10/11 JA International DX Contest
Nov 10/11 OK/OM DX Contest

IOTA compiled by Klaus, DL7UXG (e-mail: iota@...)

Island activities:
AF-024, S7, Inner Islands: Hardy,DL8NU, will be QRV as S79NU mainly in CW
on the HF bands from Mahe Island (WLOTA 3286) from Nov 9-24.
QSL via DL8NU (bureau/direct).

AF-090, 5R, Madagascar's Coastal Islands East: Eric,F6ICX, is active again
as 5R8IC from Nosy Boraha (WLOTA 0491) between Nov 10 and Dec 9. He is
working holiday style in CW, SSB, RTTY and PSK63. QSL via F6ICX.
Photos of earlier 5R8IC DXpeditions can be found on:
http://f6kbk.free.fr/5r8ic/5r8ic.htm

AN-010, VP8/SH, South Shetland Islands: Oleg,RI1ANF/p, was working from the
Russian Prirode Refuge (WAP RUS-015) for several time recently. He is
planning another activity from there during the beginning of November.

Oleg,ZS1OIN (UA3HK), will be the new chief of the Russian base
Bellingshausen (WAP RUS-01) and plans to become active as RI1ANU.

Nick,RK1PWA, has returned home and started to confirm his direct QSL
requests for RI1ANF. QSL fuer RI1ANF via RK1PWA (bureau/direct).
See also: http://www.waponline.it

AS-003, 4S, Sri Lanka Island: Peter,DC0KK, is travelling again to
Sri Lanka (WLOTA 0762, Loc MJ96xk) and plans to hit the airwaves as
4S7KKG in CW and digital modes between Nov 9 and Mar 9, 2013.
QSL via DC0KK (bureau/direct/LoTW).

AS-004, 5B/ZC4, Cyprus Island: Mike,5B/DL4ABO, and Martin,5B/DC8MH, are
planning a DXpedition to Cyprus from Nov 10-14 and want to work in
SSB, CW, RTTY and PSK on the HF bands. QSLs via homecalls.
See also: http://www.dc8mh.de

Correction to DXNL 1803: The QSL route for the contest station P3F

is 5B4AHJ and NOT via the operator M0DXR.

NA-066, W6, California State South (Orange/San Diego County) group:
Rich,W6VX, Don,N6IC, Frank,N6FH, Gary,NY6Y, Skip,KJ6Y and Jim,N6KZ,
will be QRV as homecalls/p from Santa Catalina Island (USi CA016S,
WLOTA 2912) in CW and SSB on 80m-10m from Nov 9-12. QSLs via homecalls.

NA-099, KP4, Puerto Rico: Members of the Puerto Rico Amateur Radio League
(PRARL) plan to activate Isla Cabras (USi PR031, Loc FK78ef) as KP4ES
on Nov 11. Activities shall take place on the usual IOTA frequencies.
QSL via NP3O (d).

OC-009, T8, Palau Islands: Toshiharu,JA3JND, plans to show up as T88ON from
Koror Island from Nov 9-13. Listen for him CW, SSB and digital modes
on HF. QSL via JA3JND. See also: http://palau.rental-shack.com/english

OC-013, E5, Rarotonga Island: Rudi,ZL2KBR, plans an activity from Rarotonga
from Nov 12-19. He will work in SSB, RTTY and PSK31 on 20m-10m signing
E51KBR in holiday style. QSL via ZL2KBR (bureau/direct).

OC-083, E5, Aitutaki group: A group of Swiss HAMs including Frank,HB9BXU,
will spend their holidays on Aitutaki from Nov 12-30. Listen for E51C,
E51ABS, E51BZD and E51CHX in CW, SSB and PSK31 from 1900-1200 UTC on:
CW: 3505, 7020, 10104, 14024, 18080, 21024, 24894, 28024 kHz
SSB: 3799, 7070, 14190, 18145, 21290, 24950, 28490 kHz
PSK31: 3580, 7035, 10139, 14070, 18100, 21070, 24920, 28120 kHz
QSLs via HB9BXU.

OC-088, V8, Borneo: Members of the Mediterraneo DX Club are planning a
DXpedition to Brunei (WLOTA 1628, Loc OJ74) from Nov 11-23. 18 team
members want to activate up to five stations at the same time signing
V84SMD in CW, SSB and RTTY on 160m-6m. QSL via IK2VUC (bureau/direct).
An OQRS will be installed as well and the log will be uploaded to the
LoTW by the end of March 2013. See also: http://www.mdxc.org/v84smd

OC-170, VK6, Western Australia State (South Coast) East Centre group:
Nigel,VK6NI, Steve,VK2SJK, Reinhard,DF4TD, and Wally,VK6YS, will be
QRV as VK6WDI from Woody Island from Nov 9-13. They will work with two
stations on 40m-10m. QSL via VK6YS (d). See: http://www.westozdx.net or
http://www.westozdx.net/IOTAS/OC170/OC170.html

OC-271, YB8, Babar Islands: Correction: The QSLs for YB8XM/6 (via YB9BU)
can be sent only direct unfortunately.

SA-006, PJ4, Bonaire Island: Marco,PE2MC, Peter,PJ4NX, and Bert,PE2KY,
will be QRV as PJ4X from Bonaire Island (WFF PAFF-024, WLOTA 1279)
from Nov 9-16. They will work holiday style in digital modes and some
SSB on the HF bands. QSL via PE2MC (bureau/direct).
See also: http://www.pe2mc.nl/bonaire-here-we-come-pj4pe2mc

SA-014, PY0S, St Peter and St Paul Rocks: The Araucaria DX group plans a
DXpedition to St Peter and St Paul Rocks (DIB OC-03, WFF PYFF-064,
WLOTA 0003, Loc HJ50). Fred,PY2XB, Peter,PP5XX/PY5CC, George,AA7JV, and

Tomi,HA7RY, will hand out IOTA and DXCC points as PT0S from Nov 10-22.
They will focus on the lowbands with one station working only on 160m.
Another station will be active on 80m and 40m during the nights. During
daylight they will use two stations on the high bands.
QSL via HA7RY (bureau/direct). OQRS will be set up as well.
See also: http://pt0s.com

SA-087, LU, Santa Cruz Province North group: Update: The DXpedition of LT0X
to Penguin Island has been posponed to Nov 9-11.

http://dx-world.net/2012/lotw-lost-data/

TUESDAY NOV 06, 2012
DX World.net has learned that up to “45% of [recently] uploaded logs and delivered awards / DXCC certificates have been lost due to corrupted database / backups”. It’s currently unknown if the “missing” data can be retrieved.
As can be seen from the latest message on the ARRL LoTW homepage, the Logbook team is currently investigating the issue.
Earlier, users were seeing this particular message as they tried to log-in:
Fatal error: initializeLOTWDB: -709 – CONNECT: (cannot connect to server socket): General database error [initializeLOTWDB: -709 – CONNECT: (cannot connect to server socket)
Hopefully problems can be resolved. An official update from LoTW developers would, of course, be beneficial.

Apakah mereka gak punya back up yang aman - sepertinya sih berdasarkan pengalaman2 mereka para ahli IT disana pasti punya ya. (sangat berharap).

Kalo sampai 45% data hilang lalu apakah semua users harus upload lagi dari semula ?
Semoga bisa segera teratasi tanpa kehilangan data yang sudah masuk. Amin.

                DXNL 1805 - Nov 7, 2012
                      DX Newsletter

              a free and weekly service of
          DARC Committee "DX and HF contesting"
                (http://www.darcdxhf.de)

            Editor: Johannes Amchewicz, DK8JB
                (e-mail: dxnl@...)

                translation by: Bob, DL7VOA
                (e-mail: dl7voa@...)

3A, MONACO
    Max,3A/ON5UR, and Marc,3A/ON8AK, will be QRV in SSB on 80m-10m working
    with two stations simultaneously from Nov 9-17. A website will be
    installed as well. QSL via M0URX (OQRS).

7Q, MALAWI
David,WA1LBP, got the callsign 7Q7DFC on Oct 10. He has been spotted on 10m and 6m already. QSL via OE4VIE.
See also: https://twitter.com/DavidinMalawi/status/262098485699047424

A5, BHUTAN
Zorro,JH1AJT, will show up as A5A from the capital Thimphu working on 40m-10m during his spare time from Nov 8-15. He is working for the Foundation for Global Children (FGC). QSL via homecall.
See also: http://www.fgc.or.jp/english

BV, TAIWAN, AS-020
The special event stations BM0LF and BV2013LF are celebrating the Taiwan Lantern Festival 2013 in Hsinchu until Mar 10, 2013.
QSLs via BM2JCC. See also: http://www.2013taiwanlantern.net/en

CE, CHILE, SA-018
Javier,CD6713, on Chiloe Island (SA-018) has an aspirant's license and is allowed to work on 10m, 40m, 80m and VHF.
See: http://www.federachi.cl/index.php/reglamento-y-normas?start=2

CX, URUGUAY
The first transmission of "Radio Paradizabal" was broadcasted on Nov 6, 1922. "Radiogrupo Sur" activates the special event station CW90A in all modes on all bands until the end of the year to celebrate the 90th anniversary of this historic event.
QSL via CX2ABC, unfortunately only direct.
See also: http://www.cw90a.radiogruposur.org

ET, ETHIOPIA
The Ethiopian Amateur Radio Club is commemorating their mentor, Sid T. May, ET3SID, who passed away in late September. Activity started on Oct 29 from the clubstation ET3AA and will end after they have made 10,000 QSOs. QSL via N2OO. See also: http://et3aa.com

EU, BELARUS
The special event stations EV200BP, EV200B and EV200S remember the Bicentenary of the smashing of the Napoleonic army at the crossing of the river Berezina.
QSL for EV200BP via bureau, direct via EW2CC, EV200B via EW2EO.

F, FRANCE
The special event station TM7VG is working in CW, SSB and digital modes on 160m-2m until Nov 15 to mark the "7th Vendee Globe Boat World Race".
QSL via F6KUF. See also: http://www.vendeeglobe.org/en

G, ENGLAND, EU-005
Following ISWL stations will be activated during November:
GX4BJC/A QTH: Great Missenden, OP John,G8XTJ (WAB SP80, EU-005, WLOTA 1841)
MX1SWL/A QTH: Hartford, OP Tom,G3RPV (WAB TL27, EU-005, WLOTA 1841)
QSLs via G6XOU. See also: http://www.iswl.org.uk

I, ITALY
    The special event station IY1EY is active in CW, SSB, RTTY and PSK31
    from Loano until Nov 11 to commemorate the experiments of Gugliemo
    Marconi on his yacht "Elettra" between 1919 and 1936. QSL via IK1QBT.
    See also: http://www.ariloano.it

LU, ARGENTINA, SA-008
    "End of the World, Railway station" is a special event that will be
    activated from Tierra del Fuego (SA-008, WAP ARG-23, WFF LUFF-034,
    WLOTA 2448) on Nov 10. Several stations will be on the air and this is
    a good opportunity to collect points for WAP-WACA and WAP-WADA awards.
    Operators will be: Cecilia,LU3XUC, Cristian,LU5XUC, Jaime,LU4XPE,
    Gerardo,LU3XUJ, Hector,LU3XUH, Omar,LU5XTS, Pablo,LU4XUP, Luli,LU4XUL,
    Guillermo,LU6XSG, Guillermo,LU9XPR, Diego,LU5XWA, Mariana,LU5XTI,
    Erica,LU4XUE, Miriam,LU3XUM, Cintia,LU3XYL, and Guillermo,LU7XX.
    They will append /XP to their homecalls. As most of them hold novice
    licenses they will work on 10m from 28.300-28.350 MHz and on 80m on
    3.650 MHz. QSLs via homecalls.

W, USA
    The Tuckerton Wireless Amateur Radio Club, the Old Barney Amateur
    Radio Club and the South Jersey DX Association are celebrating the
    100th anniversary of the "Tuckerton Wireless" (WSC). Members will use
    W2WSC/100 from their home stations while W2WSC/WSC will be used from
    the last operating site of the Marine Coastal Radio Station WSC in
    West Creek, NJ. Furthermore W2WSC/40 will be activated from the
    Giffordtown Museum on Nov 17 (1500-2100 UTC) to commemorate the
    40th anniversary of the Tuckerton Historical Society. QSLs via W2WSC.

YB, INDONESIA, OC-021
    The special event station YB26SEAG will be activated by members of the
    YB Land DX Club (YBDXC) in all modes on all bands from Nov 11-17 during
    the 26th South East Asia Games (SEAG) taking place in Jakarta from
    Nov 12-22. QSL via YB1GJS.

OP wanted: Bill,N6MW, is looking for another operator to join a DXpedition
    to KH8 from Mar 19-28, 2013. See also: http://n6mw.jimdo.com

New IOTA Checkpoint: Alejandro Valdez, XE1EE (iota.mexico@gmail), is the new
    IOTA checkpoint for Mexico, Central America and the Caribbean Islands
    (islands belonging to the USA and France excluded) starting on Nov 1.

Hurricane damage and trouble: Dennis,K7BV, was contacted by Eduardo,CO8LY,
    stating that hurricane Sandy destroyed his house and everything he had.
    His mother is very ill as well. Dennis is willing to serve as a
    collection point for others wishing to send help.
    Eduardo can be contacted also via his QSL manager EA7ADH.

LINKS: Current SOTA activities (mountain summits) are announced at:
    http://www.sotawatch.org

    Detailed information about current VHF activities can be found on the
    VHF DX portal "Make More Miles on VHF" at: http://www.MMMonVHF.de

UPCOMING CONTESTS

Nov 10/11 Worked All Europe (WAEDC) Contest, RTTY
Nov 10/11 JA International DX Contest
Nov 10/11 OK/OM DX Contest

IOTA   compiled by Klaus, DL7UXG (e-mail: iota@...)

Island activities:

    on the HF bands from Mahe Island (WLOTA 3286) from Nov 9-24.
    QSL via DL8NU (bureau/direct).

AF-090, 5R, Madagascar's Coastal Islands East: Eric,F6ICX, is active again
    as 5R8IC from Nosy Boraha (WLOTA 0491) between Nov 10 and Dec 9. He is
    working holiday style in CW, SSB, RTTY and PSK63. QSL via F6ICX.
    Photos of earlier 5R8IC DXpeditions can be found on:
    http://f6kbk.free.fr/5r8ic/5r8ic.htm

AN-010, VP8/SH, South Shetland Islands: Oleg,RI1ANF/p, was working from the
    Russian Prirode Refuge (WAP RUS-015) for several time recently. He is
    planning another activity from there during the beginning of November.

    Oleg,ZS1OIN (UA3HK), will be the new chief of the Russian base
    Bellingshausen (WAP RUS-01) and plans to become active as RI1ANU.

    Nick,RK1PWA, has returned home and started to confirm his direct QSL
    requests for RI1ANF. QSL fuer RI1ANF via RK1PWA (bureau/direct).
    See also: http://www.waponline.it

AS-003, 4S, Sri Lanka Island: Peter,DC0KK, is travelling again to
    Sri Lanka (WLOTA 0762, Loc MJ96xk) and plans to hit the airwaves as
    4S7KKG in CW and digital modes between Nov 9 and Mar 9, 2013.
    QSL via DC0KK (bureau/direct/LoTW).

AS-004, 5B/ZC4, Cyprus Island: Mike,5B/DL4ABO, and Martin,5B/DC8MH, are
    planning a DXpedition to Cyprus from Nov 10-14 and want to work in
    SSB, CW, RTTY and PSK on the HF bands. QSLs via homecalls.
    See also: http://www.dc8mh.de

    Correction to DXNL 1803: The QSL route for the contest station P3F
    is 5B4AHJ and NOT via the operator M0DXR.

NA-066, W6, California State South (Orange/San Diego County) group:
    Rich,W6VX, Don,N6IC, Frank,N6FH, Gary,NY6Y, Skip,KJ6Y and Jim,N6KZ,
    will be QRV as homecalls/p from Santa Catalina Island (USi CA016S,
    WLOTA 2912) in CW and SSB on 80m-10m from Nov 9-12. QSLs via homecalls.

NA-099, KP4, Puerto Rico: Members of the Puerto Rico Amateur Radio League
    (PRARL) plan to activate Isla Cabras (USi PR031, Loc FK78ef) as KP4ES
    on Nov 11. Activities shall take place on the usual IOTA frequencies.
    QSL via NP3O (d).

OC-009, T8, Palau Islands: Toshiharu,JA3JND, plans to show up as T88ON from Koror Island from Nov 9-13. Listen for him CW, SSB and digital modes on HF. QSL via JA3JND. See also: http://palau.rental-shack.com/english

OC-013, E5, Rarotonga Island: Rudi,ZL2KBR, plans an activity from Rarotonga from Nov 12-19. He will work in SSB, RTTY and PSK31 on 20m-10m signing E51KBR in holiday style. QSL via ZL2KBR (bureau/direct).

OC-083, E5, Aitutaki group: A group of Swiss HAMs including Frank,HB9BXU, will spend their holidays on Aitutaki from Nov 12-30. Listen for E51C, E51ABS, E51BZD and E51CHX in CW, SSB and PSK31 from 1900-1200 UTC on:

```
      CW: 3505, 7020, 10104, 14024, 18080, 21024, 24894, 28024 kHz
     SSB: 3799, 7070, 14190, 18145, 21290, 24950, 28490 kHz
   PSK31: 3580, 7035, 10139, 14070, 18100, 21070, 24920, 28120 kHz
```

QSLs via HB9BXU.

OC-088, V8, Borneo: Members of the Mediterraneo DX Club are planning a DXpedition to Brunei (WLOTA 1628, Loc OJ74) from Nov 11-23. 18 team members want to activate up to five stations at the same time signing V84SMD in CW, SSB and RTTY on 160m-6m. QSL via IK2VUC (bureau/direct). An OQRS will be installed as well and the log will be uploaded to the LoTW by the end of March 2013. See also: http://www.mdxc.org/v84smd

OC-170, VK6, Western Australia State (South Coast) East Centre group: Nigel,VK6NI, Steve,VK2SJK, Reinhard,DF4TD, and Wally,VK6YS, will be QRV as VK6WDI from Woody Island from Nov 9-13. They will work with two stations on 40m-10m. QSL via VK6YS (d). See: http://www.westozdx.net or http://www.westozdx.net/IOTAS/OC170/OC170.html

OC-271, YB8, Babar Islands: Correction: The QSLs for YB8XM/6 (via YB9BU) can be sent only direct unfortunately.

SA-006, PJ4, Bonaire Island: Marco,PE2MC, Peter,PJ4NX, and Bert,PE2KY, will be QRV as PJ4X from Bonaire Island (WFF PAFF-024, WLOTA 1279) from Nov 9-16. They will work holiday style in digital modes and some SSB on the HF bands. QSL via PE2MC (bureau/direct).
See also: http://www.pe2mc.nl/bonaire-here-we-come-pj4pe2mc

SA-014, PY0S, St Peter and St Paul Rocks: The Araucaria DX group plans a DXpedition to St Peter and St Paul Rocks (DIB OC-03, WFF PYFF-064, WLOTA 0003, Loc HJ50). Fred,PY2XB, Peter,PP5XX/PY5CC, George,AA7JV, and Tomi,HA7RY, will hand out IOTA and DXCC points as PT0S from Nov 10-22. They will focus on the lowbands with one station working only on 160m. Another station will be active on 80m and 40m during the nights. During daylight they will use two stations on the high bands.
QSL via HA7RY (bureau/direct). OQRS will be set up as well.
See also: http://pt0s.com

SA-087, LU, Santa Cruz Province North group: Update: The DXpedition of LT0X to Penguin Island has been posponed to Nov 9-11.

Standings in DXCC YB:
Displaying data calculated on the basis of the both claimed scores and final contest results.
[TL] - Operator qualifies to WRTC 2014 as a Team Leader.
[DQ] - Operator loses the right to qualify as Team Leader or participate as a Teammate (disqualification)

4345. http://forums.qrz.com/showthread.php?367527-New-Callsign-Search-Engine-at-QRZ

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-11-08 13:14:33 UTC
From: Yb land Dx club
Topic: 4345 Message: 4345

New Callsign Search Engine at QRZ
Some folks may have noticed that the behavior of the QRZ callsign search engine has changed. That's because we've just completed a major rewrite of the callsign search function and are pleased to announce several new features. These include:
>
>
>
> * Support for prefix and suffix lookups using the star (*) character, e.g. try "AA*"
> * The ability to find partial callsigns (e.g. *7x*)
> * Improved USA County search
> * The ability to list all of the QRZ callsigns for a given DXCC entity
> * The ability to search by both major and minor grid squares
>
>To see the new features, which include help info, just click on the search button at the top of the page, without filling in the search box. You will be brought to a new search box having all the aforementioned options.
>
>This software update has also introduced more performance improvements and a general rewrite of many key functions. The callsign pages are now lighter (having fewer bytes to transfer) and some features are now loaded on demand instead of by default. One feature, however, which we called Notes, did not make the cutover. We're reviewing the usefulness of this feature which at its core was a Twitter-like capability that didn't work as well as Twitter. We're going to reevaluate the feature to see if it continues to make sense. Our sense is that the majority of our users didn't make use of it.

To all radio amateurs

SB DX ARL ARLD046
ARLD046 DX news

This week's bulletin was made possible with information provided by NC1L, QRZ DX, The Weekly DX, the OPDX Bulletin, 425 DX News, The Daily DX, DXNL, Contest Corral from QST and the ARRL Contest Calendar and WA7BNM web sites. Thanks to all.

MONACO, 3A. Max, ON5UR and Marc, ON8AK are QRV as 3A/home calls until November 17. Activity is on 80 to 10 meters using SSB. QSL via M0URX.

CYPRUS, 5B. Operators DL4ABO and DC8MH will be QRV as 5B/home calls from November 10 to 14. Activity will be on the HF bands using CW, SSB, RTTY and PSK. QSL to home calls.

MADAGASCAR, 5R. Eric, F6ICX will be QRV as 5R8IC from Nosy Boraha, IOTA AF-090, from November 10 to December 9. Activity will be holiday style on the HF bands using CW, SSB, RTTY and PSK63. QSL to home call.

WEST MALAYSIA, 9M2. Seppo, OH1VR and Henri, OH3JR will be QRV as 9M2/home calls from November 11 to 15 prior to their Lord Howe Island DXpedition. Activity will be on 160 to 6 meters using CW, SSB and RTTY. QSL direct to home calls.

BHUTAN, A5. Zorro, JH1AJT is QRV as A5A from Thimphu until November 15 while working for the Foundation for Global Children. Activity will be on 40 to 10 meters in his spare time. QSL to home call.

TAIWAN, BV. Special event stations BM0LF and BV2013LF are QRV until March 10, 2013 in celebration of the Taiwan Lantern Festival 2013 in Hsinchu, IOTA AS-020. QSL via BM2JCC.

THE GAMBIA, C5. Pedro, ON7WP will be QRV as C5WP from November 11 to 18. Activity will be on 40 to 6 meters using SSB. QSL direct to home call.

URUGUAY, CX. Special event station CW90A is QRV until the end of 2012 to celebrate the 90th anniversary of the first transmission of Radio Paradizabal, broadcast on Nov 6, 1922. Activity is on all bands and modes. QSL direct to CX2ABC.

SABLE ISLAND, CY0. Al, VE1AWW is QRV as CY0/VE1AWW until late December. Activity is on the HF bands using SSB, PSK and possibly 6 meter EME. QSL to home call.

SOUTH COOK ISLANDS, E5. Look for stations E51C, E51ABS, E51BZD and E51CHX to be QRV from Aitutaki, OC-083, from November 12 to 30 while on holiday. Activity will be holiday style on 80 to 10 meters using CW, SSB and PSK31 from 1900 to 1200z. QSL via operators' instructions.

MARIANA ISLANDS, KH0. Operator JR1VAY is QRV as AH2J/KH0 from Saipan until November 12. This includes entries in the Japan International SSB DX and Worked All Europe DX RTTY contests. QSL to home call.

CURACAO, PJ2. Operators DL5MFL, DB5IJ, DF9MV and DJ1MGK are QRV as PJ2/home calls from Signal Point Station until December 15. This includes an entry in the Worked All Europe RTTY contest. QSL to home calls.

ST. PETER AND ST. PAUL ROCKS, PY0S. A group of operators will be QRV as PT0S from November 10 to 22. Activity will be on 160 to 10 meters, and possibly 6 meters conditions permitting, with two stations using CW, SSB and possibly RTTY. QSL via HA7RY.

SEYCHELLES, S7. Hardy, DL8NU is QRV as S79MU from Mahe Island, IOTA AF-024, until November 24. Activity is on the HF bands using mainly CW. QSL to home call.

UZBEKISTAN, UK. Vlad, UA4WHX is QRV as UK/UA4WHX. Activity is on 160 to 10 meters using CW and SSB. His length of stay is unknown. QSL to home call.

BRUNEI, V8. Members of the Mediterraneo DX Club will be QRV as V84SMD from November 11 to 23. Activity will be on 160 to 6 meters using CW, SSB and RTTY with up to five stations active simultaneously. QSL via IK2VUC.

INDONESIA, YB. Special event station YB26SEAG will be QRV from November 11 to 17 during the 26th South East Asia Games in Jakarta taking place November 12 to 22. Activity will be on all bands and modes. QSL via YB1GJS.

OPERATIONS APPROVED FOR DXCC CREDIT. The following operations are approved for DXCC credit: Chad, TT8TT, 2012 operation; Lakshadweep Islands, VU7M, 2012 operation, and Tristan Da Cunha and Gough, ZD9UW, 2012 operation.

THIS WEEKEND ON THE RADIO. Worked All Europe DX RTTY Contest, Japan International DX Phone Contest, 10-10 International Fall Digital Contest, QRP CW Fox Hunt, NCCC Sprint, OK/OM DX CW Contest, Kentucky QSO Party, CQ-WE Contest, SKCC Weekend CW Sprintathon, EANET Sprint are all on tap for this upcoming weekend. The NAQCC-EU Monthly CW Sprint is scheduled for November 12. The RSGB 80-Meter Club SSB Sprint, QRP CW Fox Hunt and CWops Mini-CWT CW Test are scheduled for November 14. Please see November QST, page 91 and the ARRL and WA7BNM Contest websites for details.

MADAGASCAR, 5R. Eric, F6ICX will be QRV as 5R8IC from Nosy Boraha, IOTA AF-090, from November 10 to December 9. Activity will be holiday style on the HF bands using CW, SSB, RTTY and PSK63. QSL to home call.

WEST MALAYSIA, 9M2. Seppo, OH1VR and Henri, OH3JR will be QRV as 9M2/home calls from November 11 to 15 prior to their Lord Howe Island DXpedition. Activity will be on 160 to 6 meters using CW, SSB and RTTY. QSL direct to home calls.

BHUTAN, A5. Zorro, JH1AJT is QRV as A5A from Thimphu until November 15 while working for the Foundation for Global Children. Activity will be on 40 to 10 meters in his spare time. QSL to home call.

TAIWAN, BV. Special event stations BM0LF and BV2013LF are QRV until March 10, 2013 in celebration of the Taiwan Lantern Festival 2013 in Hsinchu, IOTA AS-020. QSL via BM2JCC.

THE GAMBIA, C5. Pedro, ON7WP will be QRV as C5WP from November 11 to 18. Activity will be on 40 to 6 meters using SSB. QSL direct to home call.

URUGUAY, CX. Special event station CW90A is QRV until the end of 2012 to celebrate the 90th anniversary of the first transmission of Radio Paradizabal, broadcast on Nov 6, 1922. Activity is on all bands and modes. QSL direct to CX2ABC.

SABLE ISLAND, CY0. Al, VE1AWW is QRV as CY0/VE1AWW until late December. Activity is on the HF bands using SSB, PSK and possibly 6 meter EME. QSL to home call.

SOUTH COOK ISLANDS, E5. Look for stations E51C, E51ABS, E51BZD and E51CHX to be QRV from Aitutaki, OC-083, from November 12 to 30 while on holiday. Activity will be holiday style on 80 to 10 meters using CW, SSB and PSK31 from 1900 to 1200z. QSL via operators' instructions.

MARIANA ISLANDS, KH0. Operator JR1VAY is QRV as AH2J/KH0 from Saipan until November 12. This includes entries in the Japan International SSB DX and Worked All Europe DX RTTY contests. QSL to home call.

CURACAO, PJ2. Operators DL5MFL, DB5IJ, DF9MV and DJ1MGK are QRV as PJ2/home calls from Signal Point Station until December 15. This includes an entry in the Worked All Europe RTTY contest. QSL to home calls.

ST. PETER AND ST. PAUL ROCKS, PY0S. A group of operators will be QRV as PT0S from November 10 to 22. Activity will be on 160 to 10 meters, and possibly 6 meters conditions permitting, with two stations using CW, SSB and possibly RTTY. QSL via HA7RY.

SEYCHELLES, S7. Hardy, DL8NU is QRV as S79MU from Mahe Island, IOTA AF-024, until November 24. Activity is on the HF bands using mainly CW. QSL to home call.

UZBEKISTAN, UK. Vlad, UA4WHX is QRV as UK/UA4WHX. Activity is on 160 to 10 meters using CW and SSB. His length of stay is unknown. QSL to home call.

BRUNEI, V8. Members of the Mediterraneo DX Club will be QRV as V84SMD from November 11 to 23. Activity will be on 160 to 6 meters using CW, SSB and RTTY with up to five stations active simultaneously. QSL via IK2VUC.

INDONESIA, YB. Special event station YB26SEAG will be QRV from November 11 to 17 during the 26th South East Asia Games in Jakarta taking place November 12 to 22. Activity will be on all bands and modes. QSL via YB1GJS.

OPERATIONS APPROVED FOR DXCC CREDIT. The following operations are approved for DXCC credit: Chad, TT8TT, 2012 operation; Lakshadweep Islands, VU7M, 2012 operation, and Tristan Da Cunha and Gough, ZD9UW, 2012 operation.

THIS WEEKEND ON THE RADIO. Worked All Europe DX RTTY Contest, Japan International DX Phone Contest, 10-10 International Fall Digital Contest, QRP CW Fox Hunt, NCCC Sprint, OK/OM DX CW Contest, Kentucky QSO Party, CQ-WE Contest, SKCC Weekend CW Sprintathon, EANET Sprint are all on tap for this upcoming weekend. The NAQCC-EU Monthly CW Sprint is scheduled for November 12. The RSGB 80-Meter Club SSB Sprint, QRP CW Fox Hunt and CWops Mini-CWT CW Test are scheduled for November 14. Please see November QST, page 91 and the ARRL and WA7BNM Contest websites for details.

Dear ARRL

INDONESIA, YB. Special event station YB26SEAG will be QRV from
November 11 to 17 during the 26th South East Asia Games in Jakarta
taking place November 12 to 22. Activity will be on all bands and
modes. QSL via YB1GJS.

http://www.qrz.com/db/YB26SEAG

it was out of date, it was Special Event Station last year
please,made some necessary adjustment information
thank you

Regards,
Budi YF1AR

To all radio amateurs

SB DX ARL ARLD046
ARLD046 DX news

This week's bulletin was made possible with information provided by
NC1L, QRZ DX, The Weekly DX, the OPDX Bulletin, 425 DX News, The
Daily DX, DXNL, Contest Corral from QST and the ARRL Contest
Calendar and WA7BNM web sites. Thanks to all.

MONACO, 3A. Max, ON5UR and Marc, ON8AK are QRV as 3A/home calls
until November 17. Activity is on 80 to 10 meters using SSB. QSL
via M0URX.

CYPRUS, 5B. Operators DL4ABO and DC8MH will be QRV as 5B/home calls from November 10 to 14. Activity will be on the HF bands using CW, SSB, RTTY and PSK. QSL to home calls.

MADAGASCAR, 5R. Eric, F6ICX will be QRV as 5R8IC from Nosy Boraha, IOTA AF-090, from November 10 to December 9. Activity will be holiday style on the HF bands using CW, SSB, RTTY and PSK63. QSL to home call.

WEST MALAYSIA, 9M2. Seppo, OH1VR and Henri, OH3JR will be QRV as 9M2/home calls from November 11 to 15 prior to their Lord Howe Island DXpedition. Activity will be on 160 to 6 meters using CW, SSB and RTTY. QSL direct to home calls.

BHUTAN, A5. Zorro, JH1AJT is QRV as A5A from Thimphu until November 15 while working for the Foundation for Global Children. Activity will be on 40 to 10 meters in his spare time. QSL to home call.

TAIWAN, BV. Special event stations BM0LF and BV2013LF are QRV until March 10, 2013 in celebration of the Taiwan Lantern Festival 2013 in Hsinchu, IOTA AS-020. QSL via BM2JCC.

THE GAMBIA, C5. Pedro, ON7WP will be QRV as C5WP from November 11 to 18. Activity will be on 40 to 6 meters using SSB. QSL direct to home call.

URUGUAY, CX. Special event station CW90A is QRV until the end of 2012 to celebrate the 90th anniversary of the first transmission of Radio Paradizabal, broadcast on Nov 6, 1922. Activity is on all bands and modes. QSL direct to CX2ABC.

SABLE ISLAND, CY0. Al, VE1AWW is QRV as CY0/VE1AWW until late December. Activity is on the HF bands using SSB, PSK and possibly 6 meter EME. QSL to home call.

SOUTH COOK ISLANDS, E5. Look for stations E51C, E51ABS, E51BZD and E51CHX to be QRV from Aitutaki, OC-083, from November 12 to 30 while on holiday. Activity will be holiday style on 80 to 10 meters using CW, SSB and PSK31 from 1900 to 1200z. QSL via operators' instructions.

MARIANA ISLANDS, KH0. Operator JR1VAY is QRV as AH2J/KH0 from Saipan until November 12. This includes entries in the Japan International SSB DX and Worked All Europe DX RTTY contests. QSL to home call.

CURACAO, PJ2. Operators DL5MFL, DB5IJ, DF9MV and DJ1MGK are QRV as PJ2/home calls from Signal Point Station until December 15. This includes an entry in the Worked All Europe RTTY contest. QSL to home calls.

ST. PETER AND ST. PAUL ROCKS, PY0S. A group of operators will be QRV as PT0S from November 10 to 22. Activity will be on 160 to 10 meters, and possibly 6 meters conditions permitting, with two

stations using CW, SSB and possibly RTTY. QSL via HA7RY.

SEYCHELLES, S7. Hardy, DL8NU is QRV as S79MU from Mahe Island, IOTA AF-024, until November 24. Activity is on the HF bands using mainly CW. QSL to home call.

UZBEKISTAN, UK. Vlad, UA4WHX is QRV as UK/UA4WHX. Activity is on 160 to 10 meters using CW and SSB. His length of stay is unknown. QSL to home call.

BRUNEI, V8. Members of the Mediterraneo DX Club will be QRV as V84SMD from November 11 to 23. Activity will be on 160 to 6 meters using CW, SSB and RTTY with up to five stations active simultaneously. QSL via IK2VUC.

INDONESIA, YB. Special event station YB26SEAG will be QRV from November 11 to 17 during the 26th South East Asia Games in Jakarta taking place November 12 to 22. Activity will be on all bands and modes. QSL via YB1GJS.

OPERATIONS APPROVED FOR DXCC CREDIT. The following operations are approved for DXCC credit: Chad, TT8TT, 2012 operation; Lakshadweep Islands, VU7M, 2012 operation, and Tristan Da Cunha and Gough, ZD9UW, 2012 operation.

D4C is looking for CW Operators
Posted about 8 hours ago | 0 comment
Fabio Schettino, I4UFH reported on Contest Mailing list that the super station D4C is looking for a couple of CW operators for the contest in December.
Hi Guys,
>Even the CQWW CW contest is on the way We are looking for Two Smart CW operators available to join the D4C team for the partecipation into the ARRL 10m Contest.
>We expect to defend our All Time score of the last year, and want to be ready !!
>If Anyone is interested please drop a message, i Will update About all details.

http://www.3w2j.com/

3W2J license obtained

3W2J operators team has received the license.
See you on the air from Vietnam!

Our operations plan

We are planning to operate on 5 bands (80, 40, 20, 15, 10 meters).
The main target is the CQ WW DX CW Contest in M/S category.
Outside the contest there will be enought spare time to surf the bands on CW, SSB, RTTY modes.
We are open for individual skeds outside the contest if you need.
See you in the pile ups!

QSL information

DIRECT:
via K2PF:
RALPH G FARIELLO
23 OLD VILLAGE RD
HILLSBOROUGH, NJ 08844-4008
USA

Please provide SASE or SAE with $2

OQRS:
Minimum pay-pal charge for the Direct OQRS is $2,00

LOTW:
All QSOs will be uplouded to LOTW after DX-pedition

BUREAU:
We will send bureau QSLs for all QSOs in the LOG some time after DX-pedition.
Please DON'T SEND your QSLs to us via the bureau.

SB PROP @ ARL $ARLP045
ARLP045 Propagation de K7RA

ZCZC AP46
QST de W1AW
Propagation Forecast Bulletin 45 ARLP045
From Tad Cook, K7RA
Seattle, WA November 9, 2012
To all radio amateurs

SB PROP ARL ARLP045
ARLP045 Propagation de K7RA

Again this week solar activity retreated. Average daily sunspot numbers declined 8.7 points to 49.7, and average daily solar flux was down nearly 20 points to 97.2.

The latest forecast (from Thursday, November 8) shows solar flux at 105 and 110 on November 9-10, 115 on November 11-17, 110 on November 18-20, 105 and 100 on November 21-22, 105 on November 23-24, and 100 on November 25-26. Flux values then drop below 100 on November 27 through December 2.

The planetary A index forecast predicts an A index of 5 on November 9, 7 on November 10-12, 5 on November 13-18, 8 on November 19, 5 on November 20 through December 4, and 10 on December 5-8.

Currently the Sun is peppered with a few weak spots, but there have been 1-2 new sunspot groups every day starting on November 3. November 3 had one new spot, November 4 had two, then two more on November 5, one on November 6 and another on November 7, and two new ones on November 8.

OK1HH has a new geomagnetic forecast from Prague, and he predicts quiet to unsettled conditions November 9, active to disturbed November 10, quiet to active November 11, quiet to unsettled November 12, quiet November 13, mostly quiet November 14-15, quiet again November 16-19, mostly quiet November 20, quiet November 21, mostly quiet November 22-23, quiet November 24-26, quiet to active November 27, active to disturbed November 28, quiet to unsettled November 29, and quiet on December 1.

NASA tweaked their forecast for the smoothed sunspot number at the peak of Cycle 24 next Fall. On October 2 they predicted a sunspot number maximum of 75 in Fall 2013, and on November 2 they changed that to 73.

Scott Wright, K0MD of Rochester, Minnesota shared some brief observations on conditions during the CQ World Wide DX SSB Contest (October 27-28, two weekends ago). He wrote, "I did not find the band openings nearly as good this year as last year. Ten meters was very good but not as good as 2011. Propagation was down on 40 meters with lower country totals from the Midwest than I saw last year. 160 was not very good but no surprise there, given it is October."

Check out Scott's station at http://www.k0md.com/.

The next CQ World Wide DX contest is the CW weekend, November 24-25. See http://www.cqww.com/. A week from now is the Phone weekend for ARRL Sweepstakes, a domestic contest. See http://www.arrl.org/sweepstakes.

Scott noted the better propagation during the same contest last year. This year, the average daily sunspot number for the ten day period ending on Sunday, October 28, the last day of the contest, was 79.8. But for the same period last year, ending on Sunday, October 30, 2011 the average daily sunspot number was 111.6, quite a bit higher, by 40% in fact.

Max White, M0VNG of Worcester, UK sent this article about a coronal hole and a disastrous solar wind back in January 1994: http://o.canada.com/2012/10/17/canadian-scientists-identify-suns-coronal-hole-as-culprit-in-1994-anik-satellite-failures/.

We can check an archive of geomagnetic indices to get a sense of what the effect on Earth was:

http://www.swpc.noaa.gov/ftpdir/indices/old_indices/1994_DGD.txt

Note there are days in January of that year when readings from the magnetometer near Fairbanks, Alaska (the College A index) that have asterisks instead of numbers. This is what we see occasionally when the magnetometer is completely overloaded with energy, and cannot produce any sort of meaningful results.

We can see there was a lot of geomagnetic activity that year. I would like to refer back to propagation forecast bulletins from January 1994, but unfortunately the online archive at http://arrl.org/w1aw-bulletins-archive-propagation doesn't begin until January 1995. If anyone has copies of the propagation bulletin prior to 1995, please contact me. Perhaps you have an old hard drive from a personal computer used for packet radio twenty years ago?

K9LA has some great propagation resources on his web site at http://myplace.frontier.com/~k9la/index.html. He has download links for free pdf copies of both NM7M propagation books, and a slide presentation showing an update on Cycle 24 that he presented in July. If you don't have Microsoft PowerPoint to watch the slides, you can download a free reader at

http://www.microsoft.com/en-us/download/details.aspx?id=13.

From two years ago, G0KYA has a downloadable pdf eBook titled
"Understanding LF and HF Propagation" at
http://g0kya.blogspot.com/2010/11/understanding-lf-and-hf-propagation.html.

If you would like to make a comment or have a tip for our readers,
email the author at, k7ra@....

For more information concerning radio propagation, see the ARRL
Technical Information Service web page at
http://arrl.org/propagation-of-rf-signals. For an explanation of the
numbers used in this bulletin, see
http://arrl.org/the-sun-the-earth-the-ionosphere. An archive of past
propagation bulletins is at
http://arrl.org/w1aw-bulletins-archive-propagation. Find more good
information and tutorials on propagation at
http://myplace.frontier.com/~k9la/.

Monthly propagation charts between four USA regions and twelve
overseas locations are at http://arrl.org/propagation.

Instructions for starting or ending email distribution of ARRL
bulletins are at http://arrl.org/bulletins.

Sunspot numbers for November 1 through 7 were 48, 34, 35, 46, 47,
61, and 77, with a mean of 49.7. 10.7 cm flux was 98.4, 96.5, 93.3,
95, 96.6, 98.7, and 101.7, with a mean of 97.2. Estimated planetary
A indices were 17, 5, 3, 2, 2, 4, and 10, with a mean of 6.1.
Estimated mid-latitude A indices were 17, 5, 2, 1, 2, 4, and 10,
with a mean of 5.9.

10 November 2012 A.R.I. DX Bulletin

No 1123

==========

*** 4 2 5 D X N E W S ***

**** DX INFORMATION ****

==========

Edited by I1JQJ & IK1ADH

Direttore Responsabile I2VGW

3W - UU5WW, UU0JR and UT5JCW will be active as 3W2J from Vietnam on 22-28 November. Main activity will be during the CQ WW DX CW Contest; outside the contest they will operate CW, SSB and RTTY on 80, 40, 20, 15 and 10 metres. All of the QSOs will be confirmed automatically via the bureau and LoTW. Direct cards via K2PF; an OQRS will be provided by Club Log. Further information can be found at www.3w2j.com.

5B - Look for Martin, 5B/DC8MH and Mike, 5B/DL4ABO to be active from Cyprus (AS-004) on 10-14 November. They will operate SSB, CW, PSK and RTTY on 17, 20, 30 and 40 metres. QSL via home calls, bureau preferred.

5R - Elvio, IW1GIO is active as 5R8IO from Nosy Be (AF-057), Madagascar until 12 November. He operates CW on 30-10 metres. QSL via home call.

5X - 5X8C is the callsign issued to the 6-18 February Radio Club de Provins' expedition to Uganda [425DXN 1117]. A large multi-national team will operate CW, SSB, RTTY and PSK on 160-6 metres with six stations. QSL via F1NGP, direct or bureau (OQRS provided by Club Log), and LoTW. Updates and further information on www.5x2013.com.

8P - Dave, WJ2O will be active as 8P9DF from Barbados (NA-021) on 20-28 November, including an entry in the CQ WW DX CW Contest. He will operate "almost entirely CW", with a focus on 30, 17 and 12 metres outside the contest. QSl via home call.

9A - Sergio, IZ3NXC will be active as 9A/IZ3NXC from Lastovo Island (EU-016) on 11-12 November. QSL via home call, bureau preferred. [TNX IZ3EBA]

9H - Look for 9H3OG (QSL via DL4HG) and 9H3TX (QSL via DL5XAT) to be active from Gozo, Malta (EU-023) on 21-26 November. Their activity will include a Multi-Two entry in the CQ WW DX CW Contest as 9H3TX. [TNX NG3K]

9M6 - Once again Saty, JE1JKL will participate in the CQ WW DX CW Contest as 9M6NA (SOAB) from Labuan Island (OC-133), East Malaysia. QSL via home call, direct or bureau, and LoTW. Email requests for bureau cards can be sent to 9m6na[@]jsfc.org. [TNX NG3K]

A3 - Look for A31JY (Mat, JA1JQY), A31KJ (Sasi, JA1KJW), A31MA (Karl, JA3MCA) and A31VE (Kuni, JA8VE) to be active from Tonga until 15 November. They operate SSB, CW and RTTY on 160-10 metres. QSL via home calls.

C5 - Pedro, ON7WP will be active as C5WP from The Gambia on 11-18 November. He will be QRV in his spare time on 40-6 metres SSB running 50 watts into dipoles or a vertical antenna. QSL via ON7WP (direct only).

C6 - Bob N4BP (C6AKQ), Tim N4UM (C6ARU) and Mike K4RUM (C6AUM) will be active from Freeport, Grand Bahama (NA-080) from 20 November through 11 December. They plan to operate mainly CW and digital modes on 160-6 metres, and to participate in the CQ WW DX CW, ARRL 160m and ARRL 10m Contests. QSL direct to home calls. [TNX OPDX Bulletin]

E5_sc - Rudi, ZL2KBR will be active as E51KBR from Rarotonga (OC-013), South Cook Islands on 12-19 November. He will operate SSB, RTTY and PSK31 on 20-10 metres. QSL via home call.

F - Rodrigue, F8DFO and Jeremy, F4DVJ will be active as TM2VD on 13-18 November, 7-12 December and 2-4 January. They will operate CW, SSB and didgital modes on 80-10 metres. QSL via F8DFO, direct or bureau. The special callsign is in memory of Robert Delrue (F3VD), who passed away in late August and was an mentor for many operators. [TNX F8REF]

FS - John, K9EL and Nick, K9NB will be active as FS/K9EL and FS/K9NB from St. Martin (NA-105) on 20-28 November, CQ WW DX CW Contest included. Outside the contest they will operate CW, SSB and RTTY on 80-10 metres. QSL via home calls and LoTW. [TNX The Daily DX]

H4 - Sigi, DL7DF and other eight operators (Manfred DK1BT, Georg DK7LX, Wolf DL4WK, Reiner DL7KL, Juergen DL7UFN, Frank DL7UFR, Jan SP3CYY and Les SP3DOI) will be active as H44G from Guadalcanal (OC-047), Solomon Islands on 8-25 March 2013. Part of the group will also go and operate as H40T from Nendo Island (OC-100), Temotu Province on 12-23 March. They will have "several stations" active on 160-6 metres CW and SSB, plus one station dedicated exclusively to RTTY, PSK31 and SSTV. QSL via DL7DF, direct or bureau. Further information and logsearch at www.dl7df.com/h4/index.php.

HI - Sergey, R4WAA (ex UA4WAW) will be active on 40-10 metres as R4WAA/HI7 from the Dominican Republic on 21-30 November, including an entry in the CQ WW DX CW Contest. QSL via home call, bureau preferred. [TNX NG3K]

JT - JU850 is a special prefix to be aired from Mongolian stations (JU850AA/3, JU850DA, JU850DN, JU850CS etc) on 14-21 November to celebrate the 850th anniversary of the birth of Genghis Khan (Chinggis Khagan). A free of charge "Chinggis Khagan Award" will be issued by the Mongolian Radio Sport Federation to those who make three contacts with three different JU850 callsigns; send your request with QSO detail information to mrsf[@]mrsf.mn. [TNX JT1CS]

KH0 - Akira, JR1VAY will be active as AH2J/KH0 from Saipan (OC-086) on 9-12 November, including activity during the Japan International

DX SSB and Worked All Europe DX RTTY Contests. QSL via JR1VAY, direct or bureau. [TNX NG3K]

LU - The website for the January 2013 IOTA expedition to Isla Escondida (SA-096, new one) [425DXN 1122] is now up and running at http://lu6w.yolasite.com/. Cezar VE3LYC, Johan PA3EXX, Alex LU5WW and another operator from Argentina will be active as LU6W (requested call), hopefully with two stations for up to four days. QSL via VE3LYC, direct and bureau.

OX - Henning, OZ1BII will be active again as XP2I from Greenland (NA-018) on 16-19 November. He will operate CW only and will participate in the LZ DX Contest. He also plans to be QRV on 160 and 80 metres during the night between 18 and 19 November. QSL via OZ1BII, direct or bureau, and LoTW. [TNX NG3K]

P4 - John, W2GD will be active as P40W from Aruba on 18-29 November, CQ WW DX CW Contest included. Before and afyer the contest he will be QRV on SSB and on 30, 17 and 12 metres. QSL via N2MM and LoTW. [TNX The Daily DX]

PJ4 - Marco PE2MC, Bert PE2KY and Peter PJ4NX will be active as PJ4X from Bonaire (SA-006) on 9-16 November. QSL this operation via PE2MC, direct or bureau.

PJ4 - Look for PJ4/K1XM, PJ4/K4BAI, PJ4/KU8E and PJ4/W1FJ to be active from Bonaire (SA-006) on 20-27 November. They will participate in the CQ WW DX CW Contest as PJ4A as a multi-op entry. QSL PJ4A, PJ4/K4BAI and PJ4/KU8E via K4BAI, others direct to home call. [TNX NG3K]

PJ5 - A team of seven operators from Japan (namely JA1DXA, JA1MZL, JH1ROJ, JJ1CBY, JJ1LIB, JN1HOW and JN1RVS) will be active as PJ5J from Sint Eustatius (NA-145) from 30 November to 12 December. They will run two or three stations on 160-10 metres SSB, CW and digital modes, with a focus on the low bands and special attention for Asia. QSL via JA1HGY and LoTW. Logsearch and OQRS will be provided by Club Log. [TNX JH1ROJ]

PY0S - The PT0S team departed Natal at 20 UTC on 6 November (one day later than expected); hopefully they will be able to get on the air with the main station in the local evening of the 10th. The remote RX antennas, which are hoped to improve PT0S' ability to copy weak signals, should be up a couple of days later. PT0S will be QRV longer than originally planned, as they will participate in the CQ WW DX CW Contest in the Multi-Single category. As for 160 metres, their plan is to TX on 1825.5 kHz and listen up 2-5 (1827-1830) for Europe and North America, and listen down 2-5 (1821-1825) for Asia, VK and ZL. Bookmark http://pt0s.com/ for updates.

PZ - Yuri, VE3DZ, will operate CW, SSB and RTTY as PZ5T from Suriname on 20-27 November, including an entry in the CQ WW DX CW Contest. QSL via home call. [TNX NG3K]

V6 - Masa, JH1DVG will be active as V63JX from Pohnpei (OC-010), Micronesia on 23-26 November. He plans to be QRV on 40, 20, 15 and 10 metres. QSL via home call. [TNX The Daily DX]

V6 - Haru, JA1XGI will be active as V63XG from Yap (OC-012), Micronesia

on 5-12 December. He plans to operate CW, SSB, RTTY and JT65 on 40-6 metres. QSL via home call. Further information at www.mdxc.org/v63xg.

VK9L - Look for Seppo, VK9/OH1VR and Henri, VK9/OH3JR to be active from Lord Howe Island (OC-004) on 16-26 November. They will operate CW, SSB and RTTY on 160-6 metres, and might also participate in the CQ WW DX CW Contest as VK9/OG1M (Seppo, on 10 metres) and VK9/OH3X (Henri, on 160 metres). QSL via home calls, direct only. [TNX The Daily DX]

ZD8 - Oliver, W6NV will be active as ZD8W from Ascension Island (AF-003) on 19-30 November, including and entry in the CQ WW DX CW Contest. QSL via home call. [TNX The Daily DX]

Subject: [orari-news] Silahkan ikut serta memeriahkan event V84SMD (Brunei)

Kepada seluruh amatir radio station di Indonesia.

Pada tanggal 11 s/d 23 November 2012 nanti Mediterraneo DX Club (MDXC) bersama Gemilang Amateur Radio Club akan menyelenggarakan event DX-pedition di Bandar Seri Begawan, Brunei Darussalam dengan special call V84SMD.
V84SMD akan memancar serentak dengan 6 station di band amatir 6 ~ 160 meter dengan mode Phone, CW dan Digital.
Untuk informasi lebih detail tentang event ini, silahkan kunjungi website kami di www.mdxc.org/v84smd.

Agar lebih memeriahkan lagi bagi Amateur Radio Station Indonesia, saya pribadi sebagai salah satu operator di V84SMD akan memberikan penghargaan khusus berupa cinderamata dari Brunei bagi Amateur Radio Station Indonesia yang berhasil kontak (valid QSO) dengan V84SMD si slot (band/mode) terbanyak dan tercepat.
Bagi tingkat Siaga dan Penggalang yang terbatas pemakaian band dan mode nya akan dipertimbangkan pula.
Untuk mengetahui valid atau tidaknya QSO, kami sarankan untuk memeriksa di online log-check beberapa saat setelah QSO. Tidak perlu berkali-kali check-in di band/mode yang sama.

Mohon doa restunya.

Terima kasih. See you on the air, 73.
Adhi YB3MM

JU850AA: special event station from Mongolia
Posted about 14 hours ago | 0 comment
In November, 2012 Mongolia will celebrate Chinggis Khan’s 850th birthday. November 14-21 Mongolian amateur radio operators will be active using special event callsigns such as JU850AA, etc… QSL via qrz.com.
The Chinggis Khagan Award will be issued free to those who make three contacts with three different event callsigns, i.e, JU850AA, JU850DA, JU850DN. Any mode, any bands. Please send your request with QSO detail information to MRSF at www.MRSF.mn.

>
>On April 16, 1162 (adjusted to our current calendars, the date is November) Temujin was born on the banks of the Onon River, in the heart of Mongolia. He came to power by uniting many of the nomadic tribes of Northeast Asia. In 1207, he established the Mongol Empire and was proclaimed "Chinggis Khan". Chinggis Khan and his descendants went on to stretch the Mongol Empire across most of Euroasia by conquering or creating vassal states out of all of modern-day China, Korea, the Caucasus, Central Asian countries, and substantial portions of modern Eastern Europe, Russia and the Middle East.
>
>Chinggis Khan died in 1227.”

4358. N1MM Logger Quick-Start Guide by N4ZR

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-11-11 10:26:44 UTC

http://www.pvrc.org/~n4zr/Quick.htm

N1MM Logger Quick-Start Guide

The purpose of this guide is to give the brand-new user an easy path to getting the software running for the first time. That means using it without any external interfaces, initially and only then adding radio control. Further interfacing (such as CW, PTT and transmit audio) is covered in later chapters, along with related operating techniques. I have not tried to address digital modes in this guide, because while some aspects of program operation are identical, most are different, because of using MMTTY, MMVARI or a terminal unit to decode the digital transmissions.

Special thanks to Bob, K0RC, for his contributions to this second draft. He sanity-tested the original by installing N1MM from scratch and uncovered some errors and omissions that are (hopefully) corrected below.

Before we start, let me make a pitch right now for the excellent Google search capability built into N1MM Logger. You'll find it on the Help menu in the Entry Window (see below). It searches the 300-plus pages of the manual for keywords you select, exactly as Google does searches of the Internet. You may have to adjust your searches to get the terminology exactly right, but when you do, you'll be glad you did. With this capability you always get access to the latest version of the manual without having to download it, and you can almost always find what you want within a minute or two - highly recommended!

Chapter 1 – Getting Started

Setup

I’m assuming that you followed the instructions for downloading the program on the website (http://www.n1mm.com/), first installing Version 8.0.0 and then updating to the latest version. I’m also assuming that during the base installation you installed the Help files, downloaded the manual, and installed dlportio if needed by your operating system (Windows XP, Windows 2K, and Windows NT).

All this having been done, you’re ready to start the program for the first time. The first time you run it, the very first thing you’ll see is the following notice:

Click on OK, and what comes next is what we call the "splash screen."

After that, the next dialog that opens automatically is referred to as Station Data:

Since you have never run the program before, it is filled in with Tom, N1MM's information. You should replace it with your own information, in the same format. This is very important for proper operation of the program.

When you see one of the blue “Tip:” notes, be sure to pay attention – for example, this one warns you to be sure your computer is set up for local time, NOT GMT. N1MM Logger will take care of the conversion for you. Don't worry about the SMTP server address unless you know

it off-hand - it is only useful for bug reporting. When you have completed the form, click OK.

Next comes what looks like an error message:

Don’t take it seriously – this is related to playback of audio files, something you won’t need for a long time yet. Just OK out.

After that you will see an Entry Window, at the upper left of your screen. :

Let’s get a little terminology out of the way first. The top blue part of this (or any) window is called the Title Bar. It displays the current frequency, mode (if one has been selected), and which radio it is (nominally, Radio A). You will have to enter a mode before you begin to operate, and a band and/or mode each time you change either. You do that simply by typing a frequency in KHz (3500, 7000, etc.) in the Call-Sign Field (to the far left) and hitting [Enter]; then typing a mode (CW, USB, LSB) there, hitting [Enter] again, and you're set.

The first menu row is standard Windows style, and we’ll be using it in a minute. Below the menu is a set of entry textboxes. This row is where you log your contest QSOs. The left-most field is the Call-Sign field. You always enter the call sign of the station you are working into this field.

. The rest of the data entry fields are titled above them - depending on how you have resized the window, they may not line up perfectly with the entry fields, but they are always in the same sequence as those fields are. Depending upon the specific contest and the required contest exchange, the number and titles above these windows can be different. The example window shown above would be used during the IARU Contest. This contest requires a call sign, sent and received signal reports, and the IARU Zone be logged for each contact

For now, you can ignore the “Running” check-box, as well as the rest of the buttons alongside it. This controls one of the most important features of N1MM Logger – it distinguishes between Run and Search and Pounce modes, providing different features for each. However, these aren’t really relevant until you get into sending stored CW and phone messages, which are covered in Chapter 4. The rest of the buttons in the Entry Window are related to this, and to other advanced capabilities.

If you want to save space on your screen, you can reduce the size of the Entry Window, like this. Just use your mouse to grab the lower right corner or lower edge of the window and drag it upward.

There are two more useful features of the Entry Window. The box in the lower left corner, called the Status Line, provides a lot of useful program status information. For example, if you enter a call sign, the Status Line will tell you what country it represents. If you have set up the Entry Window just a little bigger than the minimum, it will also show you the distance and bearing, like this.

To the right of the Status Line is the progress box, where you can keep track of your QSOs and multipliers without having another window open, and to its right is a running score.

If you press the backslash (\) key, the program opens a second, almost- identical entry window. The only difference is that it will have a "B" instead of the "A" in the title bar of the first entry window, and it may well have a different frequency and/or mode as well. But if you pop up the second Entry Window by mistake, and want to get rid of it, you simply

close it by clicking the big red X.

The idea is this - most modern transceivers have two VFOs, or a main VFO and a sub-VFO. There will be circumstances - during a contest on 40 meter SSB, for example - when you will want to receive on one frequency and transmit on another, widely-separated one. Since we haven't yet gotten to controlling a radio (that's in chapter 2) it's not appropriate now to get into a lot of details, and in any case different transceivers (or brands of transceivers) manage dual VFOs differently. If you are running two radios (SO2R), the second Entry window controls the second radio.

If you really want to disable the second entry window until your radio is interfaced., select the Config menu, and under the dropdown menu, select Configure Ports, Telnet Address, Other.

That opens this rather intimidating dialog:

Ignore everything else, and just select your operating mode, from among the choices "SO1V", "SO2V" and "SO2R." SO2V is the normal default - it stands for "Single Operator 2 VFOs", and assumes that you will want, at some point, to use the second VFO of your radio for things like working split in SSB contests. Select SO1V if you wish to disable this (it prevents the program from opening the second entry window any time you press the "\" key). SO2R stands for Single Operator 2 Radios. To disable the second radio or VFOs Entry Window, select "SO1V". Now OK out.

In the row below the entry fields in the Entry Window are two colored dots – the green dot denotes which Entry window (if you are using two VFOs, or have more than one radio) has the Entry or Receive Focus. That is, it’s where information will be entered if you type it, and also the radio (or VFO) which will transmit any Function Key you press on the keyboard. The blinking Windows cursor denotes the same thing, and so does the change in color of the title bar and frame of the entry window. The red dot denotes the Transmit Focus, which frankly is not very useful, because it denotes the radio (or VFO) that transmitted the last message. More on this whole 2-radio/2-VFO business later.

A word about fonts. Windows defaults to a sans-serif font that does not distinguish well between "oh" and zero. If you click on View in the menu row, you'll see "Set Font" as one of the options. Click on that and you'll be given a list of available fonts, like this:

I have chosen Monaco for my font, even though it is normally used by Macintoshes, because it gives a good clear 0/O and l/1 distinction. In addition Monaco bold is a little bit bigger than the unbolded type-face in a given size, which helps legibility in some windows. You can make similar choices in the Log and Check windows, by right-clicking them to get the appropriate sub-menu. You may have to play around a bit with the window size and font characteristics (Bold/Regular, or point size) to fit everything in the exchange field - this is particularly true of the signal reports "59" and "599".

Now, we’re ready to set up a contest. Note that the first database the program creates is named ham.mdb by default - you can have as many databases as you want, and name them what you want. I'm using ham.mdb, but my program directory is named MM Beta (for historical reasons). Some people prefer to create a database for every contest, while others create one for a period of time, like every year. If you want to create a database, for example "2007.mdb", just click Files to drop down the menu, and then click on "New Database".

That will open a standard file creation dialog in your program directory

Name your new database and click Save. You'll be switched to the new database and ready to go.

Back to the Files menu again. This time click “New Log in Database: C:\Program Files\N1MM Logger\ham.mdb" A new dialog opens.

The first thing to do is to click on the down button of the Log Type field. That will open a list of abbreviated contest names, as I already have done above. You can use your mouse to scroll through the list, or type the first letter of the contest to jump to the right general area. Once you have found the contest you want and highlighted it, click back in the original field and the drop-down list will close.

Fill in the start date for that instance of the contest, in the format shown. This is a good idea for calculations of total contest time and to keep track in case you have logs for many different instances of the same contest name, such as QSO parties. Since I'm just illustrating here, the date is today.

Next, fill in the information in the next few fields, denoting the class and category you intend to enter in the contest. In each case, you have drop-down lists available. “Overlay category” refers to contests like WPX, which have both regular classes and categories like Rookie or “Tri-bander plus wires”. In most cases, “N/A”, for not applicable, is the answer you want there.

Next comes the most important part of this dialog, the Sent Exchange field.

For many contests, the program guesses what you will want – for example, in this case, since the CQWW contest uses CQ zones, it has already picked zone 5 for me. Note the “Omit RST” warning. If the contest you choose has serial numbers, like WPX or the NA Sprint, then you need to put "001" at the start of the Sent Exchange field. Hence, for WPX, my Sent Exchange would read 001. An important exception is the ARRL Sweepstakes. The serial number is "assumed" for this contest only, so my Sent Exchange for SS would read B 54 WV. More information on the Sent Exchange is in the Supported Contests section of the manual.

Once you have filled in the Sent Exchange, you’re done for now. Just Click OK and hit [Enter]. Now you’re almost ready to operate in the contest, but first it’s time to open a few more windows. Go back to the Menu line in the Entry Window, and Click “Window”. A sub-menu will open, like this:

To begin with, click on the “Log” window. That will open a Log window on the screen, like this:

First, you should notice that the title bar gives the current date and exact time, the name of the contest, and the database in use. As you log QSOs, they will appear in the log. I have logged one above just to indicate how it looks. The most recent last QSO is highlighted. You’ll note that each column has a fixed label – these labels do not change. CQWW is a 2-multiplier contest, so the log shows columns for "Mult" which is the country, and "Mult2" which is the CQ Zone. The "yes" in each simply means that it is the first of that multiplier on that band. If you click on any column heading, the entire log is sorted by that attribute – for example, if you click on the Mult heading, the log will be sorted so that all of your first QSOs with a given kind of multiplier (in this case, a new country) will be moved up to the front. Click on TS (for timestamp) to switch back to the normal log order.

A further nice touch - if you click a second time on the column heading, for example the "Call", the sort order switches from Ascending to Descending, so that all your "Z" QSOs come first, and your "As" last. Same goes for the TS (TimeStamp) heading - normally, you'll want to leave the Log Window in TS ascending, so that each QSO you log appears immediately at the bottom of the list.

The Log window has two “panes” – the one above the dark-grey line is the normal log, while the one below the line is to show you previous QSOs with a station, each time you type its call into the Entry Window. You can resize the entire log window, or move the separator to make the previous QSO pane bigger.

This makes it very easy to see, quickly, all the information about previous QSOs, for that special someone who drops by and asks, “What was the serial number you gave me yesterday.”

Like all windows in N1MM Logger, the Log window is resizable, as are the individual log columns – to resize the whole window, use your mouse to drag and drop the lower right corner, and to resize a column grab the between-column divider and drag it right or left. You can move any window around the screen by dragging and dropping its title bar. Also, as I mentioned above, you can change the font in the Log window by right-clicking in the window, and choosing your font as you did for the Entry window.

OK, another important window – the Check window. You open it the same way as you did the Log window., and set the font the same way (with a right-click menu choice). This window is used to display the results of checking a call-sign against your log and also against a master list of calls, variously called the master.dta or Super Check Partial file. One is provided when you install the program, and the process of updating is covered in the manual.

First things first, though. When you type a call-sign in the Entry Window, the Check window displays whether a match was found or not. If the match is in your current log, it is shown in the first line of the window, like this:

Note the program warns you that you have already worked that station, and can’t do so again on the current band (or maybe in the entire contest, like SS). Also note that two lines below are two possible matches from the master database.

Had the station you copied been W1AWB, when you entered the “B” the Check window would change to reflect that, as follows:

Note that the station’s call appears in blue, meaning that to work the station would not be a new multiplier, but would be a valid non-dupe QSO. This color coding is consistent throughout the program. Because it appears in the second row, you know that it is from the database and not from your log (if for example, you had worked him on another band, the call would appear on the first line, in blue).

OK, that’s probably enough about the Check window for now. These are really the only windows you need to operate your first contest with N1MM Logger. Now let’s sit down and operate.

For the purpose of this guide, we’ll assume that you’re operating in the CQWW SSB contest. In that case, the Entry Window will look like this:

I’m assuming that you’re going to operate phone to start, so I have typed in USB in the call-sign field, and hit [Enter]. I have left the default frequency (20M phone) in place,

but if I wanted to show another band, I need only type a frequency (in KHz) in that band (like 21200, for example) in the call-sign field and hit [Enter] to change bands.

When I've done these things, I then type a call-sign in the call-sign field. Even before I look at the Check window, I see that the call sign is color-coded green. This means that it is both a new contact and a double multiplier (in this case, both the new country of Martinique and the new Zone 8). The beam heading is displayed below, as are the country, its zone and continent (which affects points per QSO). If I have already worked Zone 8 on this band, then the call sign will be color-coded red, signifying just a new country. If both the country and zone had been worked before, but the station has not, then the color code will be blue. If it is a dupe, the call sign will be coded grey, and the warning "Dupe!" appears to the right of the entry fields.

So, you call him, and he answers. At this point, just hit [Space] to fill in the expected signal reports and move the cursor to the Zone field. N1MM Logger uses the [Space] bar as a "smart tab". The idea is that it will skip fields you are unlikely to want to change and move immediately to the one you may need to. Note, too, that the Zone is highlighted. This means that if you need to change it – for example, if FM5BH really was in Zone 9 (he isn't) – you would just type "9" and the "8" would be replaced.

Ok, but suppose he's a wise-guy and gives you a "57" report instead. No problem – you just use the [Tab] key twice, and the cursor will be on the second digit of the received signal report, ready for you to type over. The [Tab] and [Shift]+[Tab] work just as you'd expect in Windows, moving forward or backward one field. Here's how it looks:

If you need to correct the call-sign, use the [Space] bar to get you quickly there and edit as necessary. Then, once everything is as you want it (and the QSO is done), all you do is hit [Enter], and the QSO will be logged.

One thing that trips everyone up at least once is that the program checks to make sure that you have entered everything, and that everything is correctly formatted. For example, if you accidentally fatfinger the zone number, like "89", the program won't let you enter the QSO. This can be disconcerting at first - you get an error message in the status line, like this:

f the program has blocked you from logging the QSO, just use the [Space] bar to move to the appropriate field, correct it, and hit [Enter} to log. If you absolutely can't figure out what the correction should be (for instance, with an ARRL section in Sweepstakes), you can hit [Ctrl]+[Alt]+[Enter] to bypass the exchange checking and log the QSO "as is." Just in case you want to put a note in the log, when you do this a note window opens. Type whatever note you want and Hit [Enter], or just hit [Enter] to skip it and get back to the contest.

Suppose you miscopied a call sign, or he didn't really come back to your call, so you now have a mistake in your log. If you need to delete the QSO altogether, just hit [Ctrl]+D. The program will ask you if you really want to move the QSO to a Deleted QSOs file. Just hit [Enter] to do so, or type N for No.

If you need to edit the QSO, hit [Ctrl]+Q, and put the program in QuickEdit mode.

You'll notice the words QuickEdit above the call-sign field, and that the background of all of the entry fields is now blue. You can move through the fields as before and make your corrections. Then hit [Enter] and the QSO will be corrected in the log, or else hit [Esc] to get back to normal logging mode and cancel any changes. Be careful not to leave the

program in QuickEdit mode for your next QSO, or you'll screw up two QSOs at once!

As you log more QSOs, you'll note that the call-sign of your last previous QSO will appear in the space right above the call-sign field. This area, called the Call-Frame, will be very important once you have interfaced the program with your radio, but for the moment it is just a reminder of who that last guy was.

Remember, each time you change bands, you need to enter the frequency of that band in the call-sign field, and, if you change modes, enter that there too. For example, if you switch to 40M CW, you would need to enter 7000 and then enter CW (separately) before you begin logging QSOs on that band.

So, you've logged a bunch of QSOs, the contest is over, and it's time to send in your log. Almost all contests these days accept Cabrillo-format logs, and that's what N1MM Logger usually provides (check contest rules for any exceptions). To export your log in Cabrillo format, go to the File Menu in the entry window and select "Export Cabrillo to file."

The program will first check to be sure you have the Sent Exchange you want:

If it's OK, then click OK or [Enter]. Next you will see a standard Windows "Save-as" dialog. By default, the program goes to the program directory, but I usually change that to Desktop for convenience:

You can name the Cabrillo file as anything you want ([Call sign].log is suggested), and then click Save and your Cabrillo file is automatically produced and saved.

Next, and this is important, open your Cabrillo file in Notepad and check to be sure that the information in the header is in accordance with the instructions for the contest. N1MM Logger tries to keep up with Cabrillo file format changes, but nobody's perfect, so save yourself some hassle and double-check. Contest categories seem to be a particularly tricky area. You also need to be very sure that you specified the Sent Exchange correctly during contest setup - one common mistake is to put the signal report in as part of the exchange.

Okay – that pretty well wraps up the first chapter. Don't hesitate to use the Google Help facility ("Search Help Using Google (Internet)") to look up more information on any of these topics. It works tremendously well for looking up more details on any of the windows, or exploring any other aspect of the program. In the next chapter, you may need this capability a lot, because so much of interfacing is specific to a particular radio, and you really need more detail than I can provide here.

Chapter 2 – Basic Radio Control Interfacing

Regardless of whether you want to operate phone, CW or digital modes, the most useful and important interface is the one between your computer, N1MM Logger and your radio. Fortunately, most radios now incorporate an RS-232 serial port to enable them to swap information and commands with the computer.

A first step is to look up your transceiver in the manual section titled Supported Radios. Assuming you find your radio there, look for any specific settings or peculiarities that need to be addressed and make a note of them.

Many modern laptops and a growing number of desktop computers lack both RS-232 serial ports and an LPT parallel port, having replaced both with one or more USB ports. Fortunately, once you have purchased a USB-to-serial converter and installed the drivers for it, MM can

work with your radio just fine.

Once you have the hardware hooked up between your computer and your radio, start N1MM Logger and open the Config menu in the Entry window. Choose Configure Ports, Telnet Address, Other. Ignore all the other stuff for now.

That brings up the following, rather intimidating dialog. Don’t worry, we’ll walk you through the part you need now.

You may want to select SO1V if this is your first experience with N1MM. SO1V allows N1MM to control VFO A in your transceiver. If you are an experienced contester and understand how to operator in split mode (for example, working DX on 40 meter sideband) you may want to select SO2V. It allows N1MM to simultaneously control both VFO A and VFO B in your transceiver. If you are an advanced contester, whose station is configured with TWO transceivers (one for running contacts and the other for searching for new multipliers), then you will want to select SO2R.

Now identify which port you have physically connected between your computer and the radio (or in the case of USB, the virtual serial port it has created). Click the drop-down arrow under Radio, and select your specific radio model. For this example, I’ve assumed COM3 and a Yaesu radio. Virtually all Kenwood models use the one common radio configuration, while Yaesu and Icom radios are generally designated by the specific model number - refer to the manual under "Supported Radios" for more information. Icom radios require a Radio Address (Hex Code) - see the manual for more information.

Now click the "Set" button next to the port you have chosen.

That will bring up this dialog, with connection details. Normally, N1MM Logger chooses the parameters in the first two rows for you, and does a good job. You might want to verify them with your radio manual, just in case. Radio/VFO number should be 1, so that your main VFO will be displayed in the main (first) entry window. The rest of the stuff on this dialog is not important right now, so just click OK to get back to the previous dialog, and then OK again to return to the Entry Window.If all is well (you did turn your radio on, right?), when that big multi-tabbed dialog closes and the Entry Window reappears, the title bar of the Entry Window will display the radio’s frequency and mode. It’s magic. The “+0.00” simply means that RIT is turned on, but set to zero (no offset)

Now that you have radio control, you can do a lot of neat things, but one of the most basic is that you will never again have to worry about accidentally logging QSOs on the wrong band or mode.

With an interfaced radio, you will find it useful to open a Bandmap window. Click Window, then select Bandmap, and the Bandmap corresponding to your entry window will be displayed.

In the example at left, I have filled the bandmap with spots from a packet cluster, just to illustrate how spots are displayed. The stuff in the top bar is pretty self-explanatory. The SH/DX button, when mouse-clicked, sends that request to the cluster (which you don't know how to set up yet). The button labeled “Wide” toggles filters in your radio, though you may have to set it up first (the process is explained in the manual). In any case, clicking on it switches TO the filter mode shown. The red RIT means that RIT is on, and the number left of it is the amount of offset. The black XIT means that XIT is not selected. Turn on XIT and you’ll see it turn red.

The color-coding of spots in the Bandmap is the same as in the Entry Window, so each of those red calls represents a new multiplier in the contest. If you want, you can mouse over a spot, and the program will tell you more about it, like this:

The “–635 min” tells you how long ago the spot was posted. Generally, you won’t want to keep spots displayed that long, and a little later I’ll explain how to clear spots after a certain amount of time has elapsed.

In a busy contest, certain parts of the band can get pretty crowded with spots. Pressing the numeric keypad [+] key will zoom the bandmap in and spread the spots out, like this:

Pressing the numeric keypad [-] key will have the opposite effect. You can also zoom the bandmap using the scroll wheel on your mouse, if it has one.

Another useful thing about the bandmap. If you single -click on a spot, your radio will automatically be sent to that spot. If, instead, you click on the frequency scale (anywhere within the width of the frequency hash marks), the radio will go to that frequency. There are also keyboard shortcuts that will move your radio from spot to spot up and down the band. This might be a good time to look at the Key Assignments section in the manual, to get a feel for what’s there.When you single-click on a spot, something else useful happens – the call sign of that station is copied to the Call-Frame of the Entry Window, like this. This is done this way so that if you discover that the station on that frequency isn’t OK1XJ after all, you can just type in the correct call. This does happen now and then with packet spots.

However, let’s assume it’s OK. In that case, all you have to do is call the station, get him to answer you, and hit [Space]. Here’s what happens – the call sign is pulled down into the Call-sign field, and the QSO is all set for logging, once you complete the exchange.

Another good thing can happen on the band-map when you complete a QSO and tune off the frequency – the spot’s color code turns to grey, so that you know at a glance that you have worked the station already, and won’t waste time when you come back to that frequency again.

To turn on this feature, click Config, and then, in the dropdown menu, click on the two items checked (see below). You need them both because grey spots are regarded as non-workable, and they will disappear unless “Show non-workable spots” is checked. If you don't work a station, and tune off his frequency, his call sign will appear in the appropriate color to denote whether he's a new multiplier or simply a valid QSO; either way you know to go back and work him later, if he's still there.

By the way, even if you never plan to use packet spots, the Bandmap is a very useful window. As you S&P your way up and down the band, each station you’ve worked will be marked with a grey self-spot, so you can skip by them the next time even if you have no packet spots.

You may be wondering how to move quickly up and down the bandmap, hitting only the workable spots, or those that represent multipliers. This might be a good time to introduce another very useful section of the Manual. N1MM Logger makes extensive use of "hot-keys" to largely or entirely eliminate the use of the mouse during contest operations. There is a very useful section in the manual titled "Key Assignments" which explains each and every such key combination. For example, under "Active Radio/Bandmap Key Assignments" it lists:
Jump to Spots

Note: If you are operating single mode, your mode won't change when jumping between spots.

Ctrl+Down Arrow - Get next spot higher in frequency.
Ctrl+Up Arrow - Get next spot lower in frequency.
Alt+Ctrl+Down Arrow - Get next spot higher in frequency that is a multiplier.
Alt+Ctrl+Up Arrow - Get next spot lower in frequency that is a multiplier

Try these and see - with a full bandmap and these keystrokes, it is easy to work 100+ search and pounce QSOs per hour, something that used to be regarded as impossible.

As we're finishing up this introduction to the Bandmap, it might be a good idea to offer another general hint when you're exploring the program. Be sure to right-click on each new window (other than the Entry Window), to see what options involving that window might be available to you. Each of these options is explained in the section of the manual dealing with that window.

If you do this with the Bandmap, you'll see this right-click menu:

Of the choices here, "Packet Spot Timeout" is perhaps the most useful. Click there and set the timeout interval in minutes – both self-spots and spots from packet will disappear after however many minutes you choose.

The "Reset Radios" command is also useful in case, for some reason, you lose control of your radio. Click it, and the program resets the connection.

Again, if you go to the manual, you'll find much more exhaustive discussion of each menu option, but that's enough for us right now.

So really, that's all you need to operate contests with N1MM Logger controlling your radio – the Entry Window, the Check Window, the Log Window and the Bandmap. Of course, there are a zillion more capabilities you'll want to explore, beginning with the capability for sending stored messages, but I have to stop somewhere, at least for now.

Chapter 3 - Interfacing for Phone, CW and PTT

Of course, controlling your radio through a serial port isn't the only way to interface N1MM Logger and your radio - in fact, long before there were computer-controllable radios, early logging software authors developed several standards for CW and PTT interfacing, using either serial or LPT (printer) ports.

The use of your computer sound card to provide "canned" transmit audio in conjunction with logging software came along a little later, but since the target of this guide is new contesters, I'm going to assume that you'd like to hear about it first. Also, over the years, problems with transmit audio have been a leading source of questions on the reflector.

The following discussion is cribbed almost verbatim from audio trouble-shooting notes by Dave Robbins, K1TTT. If any mistakes have crept in, blame me, not him.

To begin with, make sure you close Windows Media Player, RealPlayer, Audacity, or any other sound playback/recording program you may have open. Start N1MM Logger and open the Configure|Ports, Other tab.

Now select the Audio tab. As shown here, select option 1 "zero or single sound card" from the drop-down list. Select "default" in the first "select device" list:

Now OK out to save that setting, and close N1MM Logger.

Plug your microphone directly into the microphone jack on your sound card. Plug your headset directly into its speaker output. Open the Windows Volume Control. It should come up with a set of sliders, like this:

Set all the sliders to mid range, and un-mute everything. You may have to go into Options|Properties to check the box to let you see the microphone volume control and those for other sound sources.

5. In Options|Properties, now , click the 'Recording' radio button, and make sure the microphone is checked on the list of controls:

Now OK out. Make sure the Microphone slider is at mid-range and that there is a check in the Select box. If you are using a typical ham microphone, such as a Heil, and you have the "Advanced" button, click on it and select Mic Boost if that option is available, because it provides a 20 dB preamp.

Now, when you talk in the microphone, you should be able to hear yourself in the headset. If you can't, then something is wrong with your settings, hardware or drivers. Try playing existing .wav files using the Windows Control Panel's Sounds option. Recheck volume and mute settings, check that the microphone is plugged into the right jack, try a different microphone, try a different headset. Get your 8 year old kid to help. DO NOT PASS THIS POINT UNTIL YOU CAN HEAR YOURSELF!

Now open Windows Sound Recorder, which is usually found in the Accessories category in your program list. DO NOT open Audacity, any of the audio tools that came with your sound card, or your other favorite tool. Some of them play with the mixer settings and we don't want that now that they are set.

Click the Record button in Windows Sound Recorder, and speak a few words into the microphone. You should see the green trace deflect in time with your voice. Now press Stop. Press the Play button and you should hear what you just said. If you don't there is something wrong with your hardware or drivers. Check recording control settings, adjust volume, make sure the microphone is selected as the recording source, and get that 8 year old back to help again! DO NOT PASS THIS POINT UNTIL YOU CAN RECORD AND PLAY. If Windows Sound Recorder doesn't work, then N1MM likely won't work and since N1MM is much more complicated it is harder to troubleshoot.

Now close the Windows Sound Recorder and start N1MM Logger. Put your radio in SSB mode, and make sure that the Entry Window's title bar specifies either USB or LSB (if you don't have a radio connected, type the appropriate mode in the callsign box and hit [Enter].

Right-click on any of the message buttons in the entry window. That will bring up this table:

The filenames in the table are the default filenames that are put into the table when you first install MM. Depending on how long ago you first loaded MM, the ones above may not be the same ones you see.

The easiest way to visualize this is that rows 1-12 represent the 12 function keys in "Run" mode, while rows 13-24 represent the 12 function keys in S&P ("Search and Pounce") mode. We'll get into why there are two sets of function key definitions in a little while. But for the moment, let's concentrate on programming the Run F1 function key. If you click in

the first box under Button Caption, you'll notice that the "pencil" icon moves to that row, and that the cursor will be in the box. Now you can edit the button caption to whatever you want it to be. Then hit [Tab], and the cursor moves to the .WAV File column. In the example above, I'm assuming that you have a \WAV subdirectory in the N1MM program directory, and that you want to name your CQ file as I have.

One last thing - if your SSB function keys have something in the 13th row (S&P F1), temporarily use the Edit function to delete that row, because it will just confuse things right now.

All right - now OK out, and the definition is saved.

A caution - unless you have something in both boxes in each row, the cursor will not move on to the next row. You'll note that it looks like F5 violates that rule, but it really doesn't, because there is a single empty space in that row, which I put there to meet the requirement.

Now watch the bottom of the Entry Window and press Ctrl+Shift+F1. You should see:

If you speak into the microphone at this point, whatever you say will be recorded in the file CQ.WAV. Press Ctrl+Shift+F1 again to stop the recording, and look for this report in the same place:

Now press F1. You should hear what you just recorded in the speaker. If you don't, look for an error message in the status bar. The most common problem affecting playback is that you recorded the file with a different program, using a compression or other parameters that are not supported by N1MM Logger. Another common one is to be looking for a filename that is different than the one that appears in the key definition table. For both these reasons, we suggest using the Ctrl+Shift+Fx process to record within N1MM Logger, at least until you get truly comfortable with audio files.

Now that you've got things working, you need to program at least the first few function keys. It's best to follow the order in the example above, at least for F1-F8, because a little later, when we talk about ESM (Enter Sends Messages) mode, the order is important. You will also need an interface between your sound card's Line Out jack and the microphone jack on your rig. Typically, this can be as simple as a 10:1 voltage divider (the Line Out signal level is much higher than the microphone jack can handle) and isolation transformers (to avoid feeding AC hum into the sensitive microphone jack on either your sound card or your rig). You can also use any of the commercial interfaces (RigBlasters, for example) designed for digital modes using AFSK.

Here's a simple schematic

OK, so now you have everything you need to play "canned" audio messages on the air. If you're content to use VOX to switch your transmitter, and you're not interested in CW, then you can jump ahead at this point to Chapter 4 (Using Stored Messages). However, you may want to have N1MM Logger control your radio's push-to-talk (PTT function). One good reason might be to ease wear and tear on the relay in your amplifier by having it switch on before your transceiver starts sending it RF. For this we need a PTT interface.

CW and PTT Interfacing

First, let's set it up in N1MM Logger. Begin by opening the Config menu to the Ports, other dialog:

Your dialog will show COM ports 1-8 and LPT ports 1-3, regardless of which ports are actually (or virtually) there. For this example, let's choose COM1 as our CW/PTT port. Put a check in the CW/PTT box and you'll notice that the Set button is no longer greyed. Click on it, and open the dialog for that port.

You can configure the DTR pin as either CW or PTT. Click the down arrow and you'll see the list of possibilities:

Highlight the one you want, depending on your interface. Now do the same with the RTS pin:

You'll note that the choices are different. This is because commercial interfaces generally do not use RTS for CW, while many default to RTS for PTT. If you are building your own . Just make sure you plug the correct one into the key jack.

Set the Radio/VFO Nr to 1. The PTT Delay setting is to protect the relays in an amplifier by making sure that the T/R relay is closed before the program starts sending CW. The default value of 30 Ms. is fine even if you don't have an amplifier.

Unless you know that you have your COM1 at a non-standard memory address, assume that N1MM knows best and accept the default address it suggests. If it is a USB virtual port, this setting doesn't matter anyway.

OK, now to interface to the rig. The very simplest interface imaginable will work just fine for either the CW or PTT functions with any modern radio; again, there are many commercial options, but here's the Radio Shack parts solution:

CW Messages

From the Tools menu, select Change CW/SSB/Digital Message Buttons, and then Change CW Buttons.

Now this dialog appears:

Again, depending on when you downloaded N1MM Logger, your table may have various messages already in it. No matter - just click on Edit and delete rows until you get all the way back to the empty table above.

As you discovered with voice messages, the database table editor is a little quirky, so let's walk through the process for F1. Click in the first box under "Button Caption", next to the cute little drawing of a pencil. Type a caption, for example F1, and hit [Tab]. Instead of jumping to the next box, the program highlights what you just entered, to give you a chance to change it. Hit [Tab] again and the cursor finally moves to the first box under "CW Message". Now type a message that you want to send frequently, such as a CQ, like this:

OK, what's that asterisk (*)? This is the first and one of the most useful Macros. It denotes your callsign. There are two types of macros, text macros and action macros - text macros substitute a string of text for the macro, while action macros perform some program action. Both are often used in combination with regular text in a message, as shown here - when you press the function key or click the on-screen F1 button, the program will send CQ TEST N4ZR N4ZR TEST (substituting my call for the asterisk).

There's a table of the various sorts of Macros in the chapter by that name in the manual, but for now let's go on. Hit [Tab} twice again, and this happens:

The "pencil" icon has moved to the second row, and your cursor is there. Conventionally, F2 is used for your contest exchange, so let's fill one in:

{EXCH} is a text macro that substitutes whatever you put in the Sent Exchange part of your contest setup. Say, for example, we were setting up for a contest where the exchange is signal report, your name and your state. When I set up the contest, I put PETE WV in the Sent Exchange. Now when I press or click F2, the program will send 5NN PETE WV.

A couple of fine points - you might think of putting the 5NN in your sent exchange - after all, everyone's 599, right? Well, don't, because it will screw up your Cabrillo log. Just resign yourself to putting 5NN (or 599, if you insist) anywhere you want it sent. Also, most macros are in the form of {WORD}, where "word" is the macro. The curly brackets are necessary so that the program knows it's time to substitute something or take some action.

Two messages will do for right now, so OK out, and get back to the Entry window.

From now on, if you want to change the content of any message buttons, there's a shortcut - just right-click in the area of the buttons, and the table we just left will reappear.

OK - you've hooked up your interface, so now you're ready to send some canned CW. As I said above, you can either hit the function key F1, or click on the F1 button. Either way, the program will switch your radio from Receive to Transmit (assuming you have PTT connected - you can also use VOX or break-in, of course) send the message, and then go back to Receive again.

There are two easy ways to adjust the speed of your CW - either click the up and down arrows next to the CW speed box (where it says "30" in the picture above), or press [Page Up] or [Page Down], to increase or decrease speed in 2 word per minute increments. If you hit the wrong key or button, no problem - hit the [Esc] key to stop sending immediately.

If you want to send CW manually, the easiest way is to parallel a keyer with the computer CW at the transceiver's key jack. Alternatively, hit [Ctrl + K], and a CW window appears:

Type the CW you want, and hit [Enter] when you're done. As soon as you begin typing, the program begins sending; you can type ahead, and the program will finish sending the CW before the window closes.

Chapter 4 - Using Stored Messages in Contests

Now the real fun begins. You have interfaced your radio to the program, so MM knows what band and mode you're using. You can send "canned" voice messages to your radio, as well as CW, and you can control its PTT.

So now it's time to put all these bells and whistles to work. There are several ways to do this, depending on how much you want to automate the process. The details are the same for either phone or CW messages, so let's look at the possibilities.

First, let's reopen the voice message table, by right-clicking on the message buttons while in USB or LSB.

If you don't already have all of these messages, use the Ctrl+Shift+Fx process to record them, and then OK out.

Now open the CW message table.

You need to load CW messages corresponding to the phone list above For Function keys 1-8. Here's what it should look like when you finish.

There are 4 main ways you can use the stored messages, listed here in ascending order of speed and convenience.

One key at a time - press a function key when you want to send the associated message. Use the Space bar to move your cursor. When you have everything filled in, press [Enter], and the QSO will be logged. Done this way, a typical Run (CQ) QSO would look like this:

F1 (CQ)
Station answers - copy call in callsign box
Say his callsign (phone) or press F5 to send it (CW)
Press F2 to send the exchange (either a stored voice message or CW)
Press [Space] to move the cursor to the exchange field
Type in the received exchange
Press F3 to send your acknowledgement
Press [Enter] to log the QSO

Semi-CT Style - Enter the callsign of the station calling you. Press the [Ins] key to send his call and your exchange (CW), or speak his call and then press [Ins]. Once you have copied his exchange, press F3 (TU) and [Enter to Log]. If you are calling other stations (Search and Pounce, or S&P), you would first press F4 to send your call, and when the station responds follow the sequence as above.

Early N1MM style - Enter the callsign of the station calling you. Press the [;] key to send his call and your exchange. Copy his exchange and press the ['] key (right next to it on US keyboards). The program sends the F3 (TU) message and logs the QSO. In S&P, you would hit F4 first, then [;], and then ['].

This saves some keystrokes, but there's an easier way. A decade ago, N6TR developed the idea of making TR Log "modal." By that, he meant that the program would behave differently depending on whether you were in Run or S&P mode. Making this distinction let him massively simplify and shorten the sequence of keystrokes required to complete a QSO.

N1MM Logger has now evolved N6TR's invention into what is called Enter Sends Messages, or ESM for short.

The first step is to turn it on. Open the Config menu in the Entry Window, and select ESM

Now close the menu and enter any call in the entry window. We're assuming that you are doing S&P.

What's different? Take a look at the F4 button. The highlight means that if you press [Enter] at this point, the F4 message will be sent (which is what you want - your call). Press [Enter], your call is sent, but the cursor remains in the callsign field, and F4 is still highlighted. If he doesn't answer the first time, just press [Enter] again. If he answers you, hit [Space], and look!

The cursor has moved to the Exchange box, and now F2 is highlighted. That means that the next time you hit [Enter], the program sends F2 and logs the QSO.

So instead of an 8 step process to work an S&P QSO, you have either 3 or 4:

Enter the callsign
Press[Enter]
(optional) If he doesn't answer, press [Enter] when it's time to call him again; if he does, press [Space] and copy his exchange
Press [Enter] again to send your exchange to him and log the QSO.

But suppose you're Running (Calling CQ)? The first thing to do is tell the program. You do that by checking the box next to the word "Running", either with your mouse or by hitting [Alt]+U. Now your Entry Window looks a bit different:

Note the highlight is now on F1, because the first thing in most Run QSOs is a CQ. Press [Enter] and the program will send F1.

Now someone answers. Type in his callsign and the window changes.

You're starting to get the hang of this - the highlights mean that when you hit [Enter] the program will send F5 followed by F2 (on CW - on phone you would speak the callsign and then press [Enter] to send your exchange).

Once you have done that, the window changes again.

Now the highlights tell you that you have copied a legitimate exchange (in this case the program has supplied it from the callsign, and that the next [Enter] will send your F3 message and log the QSO.

So, type a callsign, hit [Enter] 3 times, and you've logged a QSO. Pretty slick!

Now suppose you're like me and you fat-finger copying the exchange, so that you have nonsense in the Exchange box, like this. In that case, the program reminds you:

If you hit [Enter] with an incorrect exchange, the program will send the F8 message and request a repeat. Alternatively, if you see your mistake and correct it, the screen changes again to show the "F3 and Log It" highlights. Just press [Enter], the program sends the F3 message, logs the QSO, and you're done.

Once you've used ESM, I predict you'll never go back to the old way again.

Two further refinements, and then this chapter is done. Open the Config menu again, and then open the "Configure Ports, Telnet Address, Other" sub-menu. Click on the Function Keys tab:

In the left-hand column, note that I have checked "Send Corrected Call." This neat feature, in Run mode, keeps track of whether you have changed the callsign in the callsign box. For example, say you only copied "DL6A" at first, and filled in the rest later. Eventually, you copy DL6ABC, and when you press Enter to send the F3 (TU message), on CW the program sends "DL6ABC TU ..." On phone, you'll need to supply the correction.

In the right-hand column, the third checkbox is cumbersomely titled "ESM only sends your call once in S&P, then ready to copy received exchange." In shorthand, we call this the "Big Gun switch." If you nearly always get stations you call the first time, you can save a keystroke by having the cursor advance automatically to the exchange box after the first time you call. If you often need to call again, don't check it. If you have checked it, and need to call a station more than once, you just press [F4], regardless of where the cursor is.

A caution - don't change the "key mappings" (below the red type) unless you absolutely know what you're doing - it can make a horrible hash out of ESM.

TATA CARA SETTING KONFIGURASI N1MM CONTEST LOGGER
Oleh : R. Prihandoyo, YBØECT [KB3LWW]

Langkah-langkah awal install N1MM Contest Logger versi 6.319 melalui step- stepnya yang harus dilakukan adalah sebagai berikut :

1. Klik pada CD Room yang ada tulisan N1MM Folder, lalu Klik pada N!MM full Installer, Tunggu beberapa saat
2. N1MM akan memberitahu “WELCOME TO THE N1MM LOGGER 5.70 FULL INSTALLER SETUP WIZARD” Lalu klik NEXT 4 Kali sampai kepada tulisan Install Lalu, klik Install…Tunggu beberapa sa’at
3. Jika anda mempunyai windows 98 maka, Gray line chart tidak akan menampakkan di layar jika anda membuka N1MM Contest Logger, karena N1MM hanya menyediakannya pada user yang mempergunakan Windows XP dsbnya. Klik OK dstnya sampai ada tulisan DONE.
4. Setelah selesai Full installer dijalankan maka, selanjutnya anda membuka N1mmnewexeV.6.319 . Ini adalah updatenya yang harus di extract atau di copy ke N1MM Folder. Dengan perintah Klik saja N1mmnewexeV.6.319 lalu, tunggu sebentar sampai ada tulisan “ WELCOME TO THE N1MM LOGGER UPDATE 6.3.19 SET UP WIZARD “ Lalu klik Next 2 kali, selanjutnya klik Install, tunggu sebentar lalu akan terlihat tulisan “The Update hasbenn installed” Lalu klik Finish.
5. Perlu juga diingat bahwa setelah anda install N1MM tentu akan terlihat di menu utama windows anda N1MM Help Menu File dan N1MM Logger manual. Berarti anda harus COPY dan PASTE file tersebut ke dalam N1MM Folder (C:\Programfile\N1MM Logger\….)
6. Setelah itu maka, selanjutnya buka Icon N1MM pada menu utama Windsows anda, dan tunggu beberapa sa’at
7. N1MM meminta anda untuk mengisi data Callsign, alamat, Grid locator, email address anda dsbnya. Setelah itu Klik OK.
8. Selanjutnya masukkan MMTTY.EXE (Engine) untuk RTTY dengan cara sebagai berikut : Buka Folder N1MM pada CD ROOM, lalu buka dengan WINZIP MMTTY engine 165 B, tunggu sebentar,…Lalu masukkan seluruh File yang ada di winzip MMTTY engine 165 B tersebut ke dalam C:\Programfiles\N1mm Logger\… (dengan cara extract atau select all dan extract)
9. Setelah itu N1MM dapat digunakan untuk LOGGER CONTEST INTERNATIONAL
10. Jika ingin mengikuti kontes misalnya CQ WW DX SSB maka yang harus anda lakukan adalah :

a. Buka File pada N1MM Program, lalu Klik Choose which contest To Log, lalu Klik Start a new log for a contest , Lihat sebelah kiri ada tulisan Log type dan lihat sebelah kirinya ada segitiga hitam kecil, lalu klik lagi. Setelah itu anda cari tulisan CQWWSSB
b. Setelah itu lihat kebawah ada tulisan contest specifics, yang berarti anda harus mengisi category contest yang anda ikuti, Misal : Operator category : SINGLE-OP, Band Category : 80M, Power category : LOW dstnya.
c. Lalu Klik OK.
d. Sebelum contest dimulai maka, harus diketik frekwensi pada blok atau kotak kuning yang agak panjang pada manual A menu. Frekwensi yang diketik JANGAN mempergunakan TITIK atau

KOMA, jadi misalnya ketik saja : 14200 atau 3820 atau 7056 dstnya
e. Setelah pengisian frekwensi maka, langkah selanjutnya isi pula MODE yang akan digunakan Misal : USB atau LSB atau CW atau RTTY pada blok/kotak yang sama. Perlu diperhatikan bahwa untuk mode SSB harus diketik USB atau LSB, sebagai contoh jika ber operasi pada band 80M atau 40M maka modenya LSB, tetapi jika pada band 20M/15M dan 10M maka, ketik USB
f. Setelah selesai semuanya maka anda sudah dapat mempergunakan N1MM Contest Logger khususnya pada mode SSB
g. Perlu diingat bahwa jam UTC di N1MM mengikuti jam di computer, jadi jam di komputer sebaiknya menggunakan jam LOCAL
TIME
h. Setelah anda mengikuti contest maka selanjutnya log yang ada harus anda convert menjadi CABRILLO FILE yaitu dengan cara :
1. Buka FILE pada N1MM file lalu cari EXPORT dan cari kembali EXPORT CABRILLO TO FILE…
2. Klik OK yang berarti bahwa log sheet anda akan di rescore ulang oleh N1MM
3. Lalu ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari Cabrillo file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka Cabrillo anda akan dibuat pada desktop di menu windows utama anda.
4. Setelah selesai membuat cabrillo file anda close N1MM Contest logger dan anda kembali ke Desktop menu utama, lihat apakah ada Callsign anda pada desktop anda?
5. Cabrillo callsign anda itulah yang harus anda kirim kepada panitia contest (Biasanya panitia contest memberitahu alamat email address mengenai logs yang akan dikirim melalui email) dengan melampirkan cabrillo file anda di email
6. Selanjutnya anda akan mendapat TRACKING NUMBER dari panitia contest yang anda ikuti, yang berarti bahwa log sheet anda sudah diterima oleh panitia contest

Apabila ingin EXPORT File N1MM berupa ADIF FILE maka langkah- langkahnya sebagai berikut :
1. Setelah Contest selesai maka, cari FILE pada N1MM, kemudian cari EXPORT dan KLIK yang ada tulisan ADIF, lalu Klik kembali EXPORT ADIF TO FILE
2. Selanjutnya akan tampak tulisan WOULD YOU LIKE TO RESCORE IT ?
Klik Yes, yang berarti N1MM aka me rescore kembali file contest anda, Tunggu beberapa saat
3. Langkah selanjutnya ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari ADIF file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka ADIF FILE anda akan dibuat pada desktop di menu windows utama anda
4. ADIF FILE ini akan berguna jika anda ingin meng import data contest anda pada logger harian anda, sehingga anda tidak perlu lagi mengetik ulang Contest logsheet anda kedalam logger harian anda. Tak dapat dibayangkan jika anda mengetik ulang sebanyak 1000 QSO bukan ??

Apabila anda ingin mengikuti CW Contest maka cara nya sama dengan SSB namun anda harus merubah MODEnya dengan mengetik Frekwensi terlebih dahulu lalu mode CW pada Manual A atau Blok/kotak kuning pada N1MM.

Namun adakalanya agar supaya lebih praktis maka anda perlu menyediakan CW Coupler. CW Coupler ini berguna sebagai pengganti KEYER, yang isinya berupa Transistor dan resistor, kabel shield/audio tape, db25 connector dan jak connector tsb adalah sebagai coupler untuk menggerakkan tone yang ada di transceiver anda atas perintah dari computer anda. Perlu diingat bahwa mode yang digunakan pada transceiver anda adalah CW

Cara SET UP CW pada N1MM dengan menggunakan CW Coupler adalah sebagai berikut :

1. Klik CONFIG pada manual A (Menu utama/logging)
2. Sebelumnya masukkan CW Coupler pada LPT1 dan masukkan pula pada Transceiver yang ada Jak CW di belakang transceiver anda
3. Kemudian klik Configure Ports, telnet address,other,….
4. Klik Hardware (pada kiri atas), lalu Klik/Contreng LPT1 kemudian Klik OK (LP1 biasanya digunaka juga pada printer)
5. Selesai set up CW maka anda dapat mengoperasikan CW mode pada transceiver anda

Perlu diingat bahwa N1MM Contest Logger yang beroperasi pada CW ini sebatas hanya dapat mengirim CW saja. Program N1MM ini tidak dapat me receive CW. Hal ini karena jikalaupun dipasang alat receive pada CW maka akan sering terjadi ERROR tulisan pada layar monitor anda, karena adanya
QRM dan Pile Up CW Contest. Oleh Karena itu N1MM contest logger tidak membuat alat receive untuk CW.

Cara SET UP RTTY pada N1MM adalah sebagai berikut :

1.Klik Windows pada menu utama N1MM (Manual A)
2.Klik DIGITAL INTERFACE,… Tunggu sebentar
3. Klik SETUP dan klik Setting,…
4.Klik MMVARI SETUP lalu, lihat tengah di bawah ada tulisan “ # MMVARI Channel” Ubah menjadi 1
5.Setelah itu lihat ke atas kanan ada tulisan MACRO SET UP, Klik Macro set up tersebut.
6.Lalu sebelah paling kanannya ada tulisan “ # Of Macros “ cari angka 8 yang berarti ada 8 kolom macro yang akan dibuat
7.Selanjutnya akan terlihat tulisan DIGITAL MACRO SET, Klik segitiga hitam kecil dan cari Soundcard RTTY, lalu klik baris pertama sebelah kiri pada kolom yang kosong (Kolom yang kosong ada 8 kolom).
8.Isi kotak kiri yang pertama dengan CQ dengan cara :
- Isi Macro Caption dengan CQ
- Isi Macro text dengan {TX} …CQ TEST DE {MYCALL} K {RX}
- Klik SAVE MACRO Demikian seterusnya…

{TX} berarti awal akan transmit/memancar
{RX} berarti akhir transmit
{MYCALL} berarti CALLSIGN anda yang akan dikirim oleh RTTY
{CALL} berarti CALLSIGN stasiun lawan yang kita kirim RTTY
{EXCH} berarti pertukaran report sinyal setelah 599, misal : 599
{EXCH}-{EXCH}, maka akan terkirim 599 001-001 dstnya
{LOG} berarti apabila telah terjadi suatu QSO maka, calsign lawan akan otomatis masuk ke log sheet anda
{LOOP} berarti mengulang secara otomatis

{TX} dan {RX} adalah wajib jika kita ingin membuat suatu macro

9.Setelah anda membuat seluruh macro, maka anda harus SAVE MACROS
lalu, ketik CALLSIGN anda pada File Name dan klik SAVE
10.Langkah terakhir adalah SAVE CONFIGURATION pada kiri bawah, hal ini berguna untuk me SAVE Macro sesuai keinginan anda

Selanjutnya OPTOCOUPLER RTTY harus anda pasang, tentunya harus merubah configurationnya dengan cara :
- Klik CONFIG pada MENU N1MM (Manual A)

- Klik CONFIGURE PORTS, TELNET ADDRESS,OTHER…
- Klik Kolom pertama COM1 DIGITAL Harus di CONTRENG
- Klik Blok SET pada DETAIL (Disebelahnya)

UBAH DTR (Pin 4) = PTT
UBAH RTS (Pin 7) = Always On

- Lalu Klik OK
- Pada blok atau kotak Radio Harus NONE jangan diisi transceiver Kenwood,Yaesu,icom dsbnya
- Selanjutnya klik DIGITAL MODES (Pada kedua dari kanan atas), lalu Klik Digital Interface 1, TU Type = MMTTY/PSK
- Lihat kebawah ada tulisan DI-1 MMTTY path : Klik SELECT Lalu Pilih MMTTY.EXE (MMTTY Engine)
- Setelah itu Lihat di kanan atas ada tulisan “MMTTY Window settings” Lalu CONTRENG small MMTTY window dan CONTRENG MMTTY always on top
- Setelah itu Lihat ke bawah ada tulisan “ DI-1 MMTTY Path lalu, klik SELECT dan Pilih MMTTY dan klik OPEN (Maksudnya membuka/meng associate N1MM dengan MMTTY Engine 165B)
- Setelah itu Klik OK di tengah bawah, maka MMTTY Contest Logger dapat dijalankan
- Apabila ada Tulisan “ ERROR OPENING PORT1” maka berarti Optocopler MMTTY belum terpasang di Com port 1 (Lihat di bagian belakang CPU Komputer anda apakah sudah terpasang atau belum)

Sebaiknya di restart kembali computer anda setelah anda telah me setting konfigurasi N1MM

Demikian, semoga bermanfaat. Terima kasih.

Jakarta, April 2006

N1MM Logger Use for CMARA Field Day

By Terry G. Glagowski / W1TR
updated 6/9/2010 9:48 PM
•N1MM Overview
•Software Installation
•Hardware / Software Setup
•Database Setup
•Contest Log Setup
•Band Setup
•QSO logging
•Log Consolidation and Submittal
•User Support
•Summary

N1MM Overview

- Totally FREE ! (no license fee)
- Runs on Windows 2000, XP, Vista, Win7 (32 or 64 bit)
- Does NOT run on other operating systems (MAC, Linux)
- Nearly ALL Versions are Compatible with one another (same file format)
- Supports Almost EVERY Contest
- Used by nearly ALL big-time contesters (and small timers)
- Actively Supported, User Groups
- Stand-Alone Operation (no connection to Radio)
- Automatic Computer-Aided-Transceiver (CAT) Control
- CW Keyer with PTT (keyboard window CTRL-K)
- Voice Keyer with PTT (prerecorded phonetics & messages)
- Interface to MMTTY, MMVARI, MMSSTV and other software
- Export to ADIF and Cabrillo Format, Import from ADIF

Software Installation

- N1MM Web http://n1mm.hamdocs.com/tiki-index.php
- Select “Files”
- Download and Install “N1MM Base Install” use version 10

Install by clicking on the self-installing .exe file

- Download and Install “Latest Update” use version 10.6.2

Install by clicking on the self-installing .exe file

- I have the Base and Latest Update on thumb drive
- Use the default directories for everything (unless…)
- You may need to install as ADMIN on Vista or Win7

Vista and Win7 typically use C:\N1MM Logger\ (only ADMIN can access C:\Program Files\

Win2K and WinXP use C:\Program Files\N1MM Logger\
Newer N1MM version ALWAYS uses C:\N1MM Logger\

- Read the manual! There is plenty of documentation:
- N1MM Logger Manual.pdf
- N1MM Quick Start Guide.pdf
- N1MM User Guide.pdf
- N1MM References (crib sheets)
- Help Files (some are on the Internet, you need a connection)

Hardware / Software Setup (1)

- Set the Computer Local Time / Zone (Eastern Daylight Time)

The N1MM Logger knows how to do UTC / GMT / Zulu time in the log
Listen to WWV on 2.5, 5.0, 10.0, 15.0, 20.0 MHz or CHU on 3.330, 7.850, 14.670 MHz
Extremely Important to DO !!!, Otherwise Log Data Will Be Garbage

- Config / Configure Ports, Telenet Address, Other

Select NONE for all ports if no CAT control or CW/PTT control
Use of CAT control, CW keying, Digital Voice Keyer is discussed in Extra Topics

- Config / Change Your Station Data

See following slide for information to enter here
NOTE: This information can be corrected during Log Consolidation and Submittal

Hardware / Software Setup (2) Set Computer Clock

- Click on Desktop Clock (lower right of desktop)
- Set the Date (local time)
- Set the Time (local time)
- Set the Time Zone (eastern daylight time)
- Internet Time Will Not Work (no internet)

Hardware / Software Setup (3) Set Computer Clock

Hardware / Software Setup (4) Select Config

Hardware / Software Setup (5) Select Configure Ports…

Hardware / Software Setup (6) Change Your Station Data

Database Setup (1)

- Select File / New Database

(Select File / Open Database if .MDB already exists)

- Set the Filename: “2010 ARRL FD 20m SSB W1BIM.MDB”

Note: use your particular band and mode instead of “20m SSB”
Leave the directory name as the default (N1MM Logger)

- Click the “Save” button

Database Setup (2)

Database Setup (3)

Contest Log Setup (1)

- Select File / New Log in Database
(select File / Open Log in Database if it already exists)
- Select “FD” for Log Type
- Set Start Date to “2010-06-26”
- Set Operator Category to “MULTI-MULTI”
- Set Power Category to “LOW”
- Set Sent Exchange to “6A WMA” (will be announced Sat at FD Site)
- Set Other Parameters as Shown
- Click “OK”
- Close all windows except Main Window
- Select Window / Log
- Select Window / Score Summary
- See manual for any other items you want to display

Contest Log Setup (2)

Contest Log Setup (3)

Band Setup (1)

- Set Frequency
Type Frequency in KHz (e.g. 3550) into callsign field
Extremely Important to DO !!!, Otherwise Log Data Will Be Garbage

- Set Mode
Type Mode (e.g. CW, USB, LSB, AM, FM, RTTY, PSK31) into callsign field
Extremely Important to DO !!!, Otherwise Log Data Will Be Garbage

- Very Important to Set These Two Items
Possible to correct other items except Date/Time, Freq, Mode

Band Setup (2)

Band Setup (3)

QSO Logging (1)

- Enter Callsign, Class, Section

- Dupes will be Indicated

QSO Logging (2)

QSO Logging (3)

Log Consolidation and Submittal

User Support

- N1MM Web
http://n1mm.hamdocs.com/tiki-index.php
Home source of information about N1MM, downloads, documentation, etc.

• N1MM Email User Groups

Get notification of bugs and hints & kinks on how to use N1MM
Post questions, comments, and report BUGS to the developers

Summary

- Free !! ☐ ☐
- Widely Used and Supported ☐
- Works on Microsoft Windows (only) ☐
- Supports nearly EVERY contest ☐
- Works with most radios, or stand alone ☐
- CW automatic keying
- Digital Voice Keying (uses computer sound card)
- Digital modes supported: MMTTY, MMVARI
- Easy to setup
- Easy to use
- Remember to setup Date/Time, Frequency, Mode

Extra Topics

- W1TR Go-Kit Diagram
- CAT Control
- CW Keying
- Digital Voice Keying (DVK)
- Audio Files
- Audacity Audio Editor
- Digital Modes (RTTY, PSK, Etc.)

W1TR Go-Kit Diagram

CAT Control

- USB or RS-232 to CI-V translator to Rig (ICOM)
- RS-232 directly to Rig (Kenwood)
- USB to RS-232 converter may be needed

Most USB to RS-232 converters work OK for CAT control (maybe NOT for FSK RTTY)

- CAT Control Monitors Rig Data (freq, mode)
- CAT Control Can Control Rig Data (freq, mode)
- Other items can be Monitored / Controlled

Mic Gain, CW Speed, RF Gain

CW Keying

- RS-232 or LPT used
- USB to RS-232 may be needed
- RS-232 DTR for CW Keying
- RS-232 RTS for PTT
- RS-232 TXD for RTTY FSK
- Need RS-232 (± 12 vdc) to TTL (0/+5 vdc)

Level Converter (RigBlaster Provides This)

- PFK Macros Automatically Send CW
- Ctrl-K Keyboard Window

Eliminates Need for Keyer Paddle
Most Operators Keep the Keyer Paddle Anyway, Just In Case !!

Digital Voice Keying

• Use Computer Sound Card
• Computer Mic to Rig Speaker Output
• Computer Speaker Out to Rig Mic Input
• Isolation Transformer for Both
(RigBlaster Provides This)
• All Modulation and Demodulation in Software

Digital Modes Equipment Interconnect
IC-7000 RigBlasterPnP CAT Diagram
IC-7000 RigBlasterPnP CAT Diagram.vsd Revised 6/22/2010 12:07 AM

Audio Files

• Pre-Recorded Messages (CQ, This Is…, etc)
• Letters and Numbers Phonetics
• N1MM can play back messages
as defined in macro files associated with program function keys (PFKs)
• N1MM can play back internal data items Like callsign of other station, your callsign, signal report, contest exchange, using letters and numbers phonetics
• It is possible to work a phone contest without ever saying a word into the microphone

Audacity Audio Editor

• Audacity Web Site
http://audacity.sourceforge.net/download/

Digital Modes (RTTY, PSK, Etc.)

• N1MM does NOT do Digital Modes by Itself
• N1MM works with MMTTY for RTTY (FSK)
Use of USB to Serial Device for FSK MAY need EXTFSK driver (software)
• N1MM works with MMVARI for Digital Modes
• N1MM works with MMSSTV for SSTV
• MM HamSoft WEB Site
http://mmhamsoft.amateur-radio.ca/

TATA CARA SETTING KONFIGURASI N1MM CONTEST LOGGER
Oleh : R. Prihandoyo, YBØECT [KB3LWW]

Langkah-langkah awal install N1MM Contest Logger versi 6.319 melalui step- stepnya yang harus dilakukan adalah sebagai berikut :

1. Klik pada CD Room yang ada tulisan N1MM Folder, lalu Klik pada N!MM full Installer, Tunggu beberapa saat
2. N1MM akan memberitahu “WELCOME TO THE N1MM LOGGER 5.70 FULL INSTALLER SETUP WIZARD” Lalu klik NEXT 4 Kali sampai kepada tulisan Install Lalu, klik Install…Tunggu beberapa sa’at
3. Jika anda mempunyai windows 98 maka, Gray line chart tidak akan menampakkan di layar jika anda membuka N1MM Contest Logger, karena N1MM hanya menyediakannya pada user yang mempergunakan Windows XP dsbnya. Klik OK dstnya sampai ada tulisan DONE.
4. Setelah selesai Full installer dijalankan maka, selanjutnya anda membuka N1mmnewexeV.6.319 . Ini adalah updatenya yang harus di extract atau di copy ke N1MM Folder. Dengan perintah Klik saja N1mmnewexeV.6.319 lalu, tunggu sebentar sampai ada tulisan “ WELCOME TO THE N1MM LOGGER UPDATE 6.3.19 SET UP WIZARD “ Lalu klik Next 2 kali, selanjutnya klik Install, tunggu sebentar lalu akan terlihat tulisan “The Update hasbenn installed” Lalu klik Finish.
5. Perlu juga diingat bahwa setelah anda install N1MM tentu akan terlihat di menu utama windows anda N1MM Help Menu File dan N1MM Logger manual. Berarti anda harus COPY dan PASTE file tersebut ke dalam N1MM Folder (C:\Programfile\N1MM Logger\….)
6. Setelah itu maka, selanjutnya buka Icon N1MM pada menu utama Windsows anda, dan tunggu beberapa sa’at
7. N1MM meminta anda untuk mengisi data Callsign, alamat, Grid locator, email address anda dsbnya. Setelah itu Klik OK.
8. Selanjutnya masukkan MMTTY.EXE (Engine) untuk RTTY dengan cara sebagai berikut : Buka Folder N1MM pada CD ROOM, lalu buka dengan WINZIP MMTTY engine 165 B, tunggu sebentar,…Lalu masukkan seluruh File yang ada di winzip MMTTY engine 165 B tersebut ke dalam

C:\Programfiles\N1mm Logger\… (dengan cara extract atau select all dan extract)
9. Setelah itu N1MM dapat digunakan untuk LOGGER CONTEST INTERNATIONAL
10. Jika ingin mengikuti kontes misalnya CQ WW DX SSB maka yang harus anda lakukan adalah :
a. Buka File pada N1MM Program, lalu Klik Choose which contest To Log, lalu Klik Start a new log for a contest , Lihat sebelah kiri ada tulisan Log type dan lihat sebelah kirinya ada segitiga hitam kecil, lalu klik lagi. Setelah itu anda cari tulisan CQWWSSB
b. Setelah itu lihat kebawah ada tulisan contest specifics, yang berarti anda harus mengisi category contest yang anda ikuti, Misal : Operator category : SINGLE-OP, Band Category : 80M, Power category : LOW dstnya.
c. Lalu Klik OK.
d. Sebelum contest dimulai maka, harus diketik frekwensi pada blok atau kotak kuning yang agak panjang pada manual A menu. Frekwensi yang diketik JANGAN mempergunakan TITIK atau KOMA, jadi misalnya ketik saja : 14200 atau 3820 atau 7056 dstnya
e. Setelah pengisian frekwensi maka, langkah selanjutnya isi pula MODE yang akan digunakan Misal : USB atau LSB atau CW atau RTTY pada blok/kotak yang sama. Perlu diperhatikan bahwa untuk mode SSB harus diketik USB atau LSB, sebagai contoh jika ber operasi pada band 80M atau 40M maka modenya LSB, tetapi jika pada band 20M/15M dan 10M maka, ketik USB
f. Setelah selesai semuanya maka anda sudah dapat mempergunakan N1MM Contest Logger khususnya pada mode SSB
g. Perlu diingat bahwa jam UTC di N1MM mengikuti jam di computer, jadi jam di komputer sebaiknya menggunakan jam LOCAL TIME
h. Setelah anda mengikuti contest maka selanjutnya log yang ada harus anda convert menjadi CABRILLO FILE yaitu dengan cara :
1. Buka FILE pada N1MM file lalu cari EXPORT dan cari kembali EXPORT CABRILLO TO FILE…
2. Klik OK yang berarti bahwa log sheet anda akan di rescore ulang oleh N1MM
3. Lalu ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari Cabrillo file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka Cabrillo anda akan dibuat pada desktop di menu windows utama anda.
4. Setelah selesai membuat cabrillo file anda close N1MM Contest logger dan anda kembali ke Desktop menu utama, lihat apakah ada Callsign anda pada desktop anda?
5. Cabrillo callsign anda itulah yang harus anda kirim kepada panitia contest (Biasanya panitia contest memberitahu alamat email address mengenai logs yang akan dikirim melalui email) dengan melampirkan cabrillo file anda di email
6. Selanjutnya anda akan mendapat TRACKING NUMBER dari panitia contest yang anda ikuti, yang berarti bahwa log sheet anda sudah diterima oleh panitia contest

Apabila ingin EXPORT File N1MM berupa ADIF FILE maka langkah- langkahnya sebagai berikut :
1. Setelah Contest selesai maka, cari FILE pada N1MM, kemudian cari EXPORT dan KLIK yang ada tulisan ADIF, lalu Klik kembali EXPORT ADIF TO FILE
2. Selanjutnya akan tampak tulisan WOULD YOU LIKE TO RESCORE IT ?
Klik Yes, yang berarti N1MM aka me rescore kembali file contest anda, Tunggu beberapa saat
3. Langkah selanjutnya ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari ADIF file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka ADIF FILE anda akan dibuat pada desktop di menu windows utama anda
4. ADIF FILE ini akan berguna jika anda ingin meng import data contest anda pada logger harian anda, sehingga anda tidak perlu lagi mengetik ulang Contest logsheet anda kedalam

logger harian anda. Tak dapat dibayangkan jika anda mengetik ulang sebanyak 1000 QSO bukan ??

Apabila anda ingin mengikuti CW Contest maka cara nya sama dengan SSB namun anda harus merubah MODEnya dengan mengetik Frekwensi terlebih dahulu lalu mode CW pada Manual A atau Blok/kotak kuning pada N1MM.

Namun adakalanya agar supaya lebih praktis maka anda perlu menyediakan CW Coupler. CW Coupler ini berguna sebagai pengganti KEYER, yang isinya berupa Transistor dan resistor, kabel shield/audio tape, db25 connector dan jak connector tsb adalah sebagai coupler untuk menggerakkan tone yang ada di transceiver anda atas perintah dari computer anda. Perlu diingat bahwa mode yang digunakan pada transceiver anda adalah CW

Cara SET UP CW pada N1MM dengan menggunakan CW Coupler adalah sebagai berikut :

1. Klik CONFIG pada manual A (Menu utama/logging)
2. Sebelumnya masukkan CW Coupler pada LPT1 dan masukkan pula pada Transceiver yang ada Jak CW di belakang transceiver anda
3. Kemudian klik Configure Ports, telnet address,other,….
4. Klik Hardware (pada kiri atas), lalu Klik/Contreng LPT1 kemudian Klik OK (LP1 biasanya digunaka juga pada printer)
5. Selesai set up CW maka anda dapat mengoperasikan CW mode pada transceiver anda

Perlu diingat bahwa N1MM Contest Logger yang beroperasi pada CW ini sebatas hanya dapat mengirim CW saja. Program N1MM ini tidak dapat me receive CW. Hal ini karena jikalaupun dipasang alat receive pada CW maka akan sering terjadi ERROR tulisan pada layar monitor anda, karena adanya
QRM dan Pile Up CW Contest. Oleh Karena itu N1MM contest logger tidak membuat alat receive untuk CW.

Cara SET UP RTTY pada N1MM adalah sebagai berikut :

1.Klik Windows pada menu utama N1MM (Manual A)
2.Klik DIGITAL INTERFACE,… Tunggu sebentar
3. Klik SETUP dan klik Setting,…
4.Klik MMVARI SETUP lalu, lihat tengah di bawah ada tulisan “ # MMVARI Channel” Ubah menjadi 1
5.Setelah itu lihat ke atas kanan ada tulisan MACRO SET UP, Klik Macro set up tersebut.
6.Lalu sebelah paling kanannya ada tulisan “ # Of Macros “ cari angka 8 yang berarti ada 8 kolom macro yang akan dibuat
7.Selanjutnya akan terlihat tulisan DIGITAL MACRO SET, Klik segitiga hitam kecil dan cari Soundcard RTTY, lalu klik baris pertama sebelah kiri pada kolom yang kosong (Kolom yang kosong ada 8 kolom).
8.Isi kotak kiri yang pertama dengan CQ dengan cara :
- Isi Macro Caption dengan CQ
- Isi Macro text dengan {TX} …CQ TEST DE {MYCALL} K {RX}
- Klik SAVE MACRO Demikian seterusnya…

{TX} berarti awal akan transmit/memancar
{RX} berarti akhir transmit
{MYCALL} berarti CALLSIGN anda yang akan dikirim oleh RTTY
{CALL} berarti CALLSIGN stasiun lawan yang kita kirim RTTY
{EXCH} berarti pertukaran report sinyal setelah 599, misal : 599

{EXCH}-{EXCH}, maka akan terkirim 599 001-001 dstnya
{LOG} berarti apabila telah terjadi suatu QSO maka, calsign lawan akan otomatis masuk ke log sheet anda
{LOOP} berarti mengulang secara otomatis

{TX} dan {RX} adalah wajib jika kita ingin membuat suatu macro

9.Setelah anda membuat seluruh macro, maka anda harus SAVE MACROS
lalu, ketik CALLSIGN anda pada File Name dan klik SAVE
10.Langkah terakhir adalah SAVE CONFIGURATION pada kiri bawah, hal ini berguna untuk me SAVE Macro sesuai keinginan anda

Selanjutnya OPTOCOUPLER RTTY harus anda pasang, tentunya harus merubah configurationnya dengan cara :
- Klik CONFIG pada MENU N1MM (Manual A)
- Klik CONFIGURE PORTS, TELNET ADDRESS,OTHER…
- Klik Kolom pertama COM1 DIGITAL Harus di CONTRENG
- Klik Blok SET pada DETAIL (Disebelahnya)

UBAH DTR (Pin 4) = PTT
UBAH RTS (Pin 7) = Always On

- Lalu Klik OK
- Pada blok atau kotak Radio Harus NONE jangan diisi transceiver Kenwood,Yaesu,icom dsbnya
- Selanjutnya klik DIGITAL MODES (Pada kedua dari kanan atas), lalu Klik Digital Interface 1, TU Type = MMTTY/PSK
- Lihat kebawah ada tulisan DI-1 MMTTY path : Klik SELECT Lalu Pilih MMTTY.EXE (MMTTY Engine)
- Setelah itu Lihat di kanan atas ada tulisan “MMTTY Window settings” Lalu CONTRENG small MMTTY window dan CONTRENG MMTTY always on top
- Setelah itu Lihat ke bawah ada tulisan “ DI-1 MMTTY Path lalu, klik SELECT dan Pilih MMTTY dan klik OPEN (Maksudnya membuka/meng associate N1MM dengan MMTTY Engine 165B)
- Setelah itu Klik OK di tengah bawah, maka MMTTY Contest Logger dapat dijalankan
- Apabila ada Tulisan “ ERROR OPENING PORT1” maka berarti Optocopler MMTTY belum terpasang di Com port 1 (Lihat di bagian belakang CPU Komputer anda apakah sudah terpasang atau belum)

Sebaiknya di restart kembali computer anda setelah anda telah me setting konfigurasi N1MM

Demikian, semoga bermanfaat. Terima kasih.

Communicating with the lightbeacons of the world

Special Gift From

The Lighthouse DIGEST

Amateur Radio Lighthouse Society

By special arrangement with Lighthouse Digest magazine in celebration of its 20th anniversary, and to honor the more than 1850 members of the Amateur Radio Lighthouse Society (ARLHS), we are offering two FREE GIFTS:

Offer #1: For every newone-year subscription to Lighthouse Digest, we will send to you a free issue of the magazine.

Offer #2: For every new, full ARLHS membership, or for every renewalof an existing full membership. we will send to you a free copy of Lighthouse Digest.

Complete the coupon below by indicating your offer preference. Clearly print your name, address, and other information. Enclose payment (checks in USA dllrs made payable to ARLHS); detach and mail to: ARLHS, 114 Woodbine Ave, Merchantville, NJ 08109. (Sorry – no IRC’s, PayPal payments, or credit cards.) Questions can be answered via telephone to 1-856-486-1755 or via E-mail to ARLHSOC@...

Offer #1: Please send me a one-year subscription to Lighthouse Digest and include a free additional issue at no extra charge.

Subscription rates are: USA = $35.00, Canada = $43.00, Foreign/Overseas = $55.00

I am enclosing the appropriate funds for a one-year subscription in the amount of USA $_____

Offer #2A: Please send me a NEW full active membership to the Amateur Radio Lighthouse Society and include a free issue of Lighthouse Digest magazine at no extra charge. I am enclosing in USA funds $25.00

Offer #2B: Please RENEWmy EXISTINGARLHS membership in the Amateur Radio Lighthouse Society and include a free issue of Lighthouse Digest magazine at no extra charge. My existing member number is _____ (required). I am enclosing in USA funds $20.00

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th-November, through Sunday, 11th-November there were 223 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/m, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ4, PJ7, PY, PY0S, PZ, R1FJ, S2, S5, S7, SM, SP, SU, SV, SV5, SV9, T30, T7, TA, TF, TG, TI, TJ, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VP2E, VP2M, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YJ, YL, YN, YO, YS, YU, YV, Z2, Z3, Z8, ZA, ZB, ZC4, ZD7, ZF, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO (Update). Operators Max/ON5UR and Marc/ON8AK are now active as 3A/homecall from Monaco until November 17th. Activity will be on 80-10 meters, SSB only and with one station (possibly two) on the air. QSL via M0URX. They now have a Web page online at:

http://www.united-radio.be/united-radio/en/home

3W, VIETNAM. Ukrainian operators Serge/UU5WW, Pavel/UU0JR and Serge/UT5JCW will be active as a 3W2J from Vung Tau between November 22-28th. Activity will be on 40-10 meters and an entry in the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. Also, they will be watching for openings 6 meters. QSL via K2PF, direct or by using the OQRS on the ClubLog Web page. All QSOs will be uploaded to LoTW after the DXpedition. They will send bureau QSLs for all QSOs in the log sometime after the DXpedition. Please DON'T SEND your QSLs to them via the Bureau. For more details and a survey on band needs, see the 3W2J Web page at: http://www.3w2j.com

4K, AZERBAIJAN. Alim, 4K6FO, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL via 4K6FO (see QRZ.com).

5T, MAURITANIA. Jean, ON8RA/5T0JL, at the age of 85, will once again be active from Nouakchott starting November 16th. Activity will be on 80/40/20/15/12 meters and mainly on CW. QSL via ON8RA (see QRZ.com for new QSLing practices). ADDED NOTE: Jean will also join the 5T0SP DXpedition team between November 24th and December 10th.

5X, UGANDA (2013/Update). Members of the F6KOP team expected to be active between February 6-18th, 2013, from a location some 20 Km from Entebbe airport, have announced a callsign change. Instead of being active as 5X1C as first announced, they will now be active as 5X8C. For more details see OPDX.1081. An updated list of operators mentioned are Franck/F4AJQ (Team Leader), Seb/F5UFX (Team Leader, WebMaster), Alain/F6ENO (Team Leader), Bob/N6OX, Dave/K4SV, Michel/FM5CD, Gérard/F2JD, Uwe/DL8OBF, Francois/ON4LO, Flo/F5CWU, Jean Jacques/F5NKX, Norbert/DJ7JC, Eric/ON7RN, Michel/F5EOT, John/F5VHQ, Jean Paul/F8BJI, Gerard/F2VX, Hans/DL1YFF, Valery/RG8K/UT7CR, Patrick/F2DX, Mike/UA9KGH, Jean-Marc/F8IXZ, Lars/DF1LON and Jean-Louis/ F5NHJ. Their pilot station will be Andre, V51B, from Namibia. Yann, F1NGP, will be their QSL Manager (100% OK Direct, ClobLog's OQRS, Bureau and LoTW). For more details and updates, see: http://www.5x2013.com

7P8, LESOTHO (Update to OPDX.1051/1077). An international team of operators will arrive in Lesotho on November 21st, and leave on December 4th. The operation will take place between November 23rd and December 3rd, using the callsign 7P8D. Activity will be on 160-10 meters using CW, SSB and RTTY with a minimum of three stations (possibly 5 stations) on the air 24/7. Suggested frequencies are in OPDX.1077. It was announced this past week on their Web that "Well all the bags are packed and we are ready to go. We are proud to welcome as a late joiner to the group Bill, VE7XS. We are very excited and looking forward to getting the show on the road." QSL ONLY direct via: LESOTHO DXPEDITION 2012, P.O. Box 29169, Sunridge Park, 6008, SOUTH AFRICA (w/2 USDs - Please no IRC as it is difficult to convert at the post office). They state, "NO BUREAU QSLS will reach us!!" A OQRS system (PayPal) will also be implemented just before the expedition. Logs will be uploaded to LoTW within 6 months after the DXpedition has ended. For more details, visit: http://www.zs2dl.co.za/7P8D.html

A3, TONGA. Members of the Yamato Amateur Radio Club will be active from Tonga with their own individual callsign until November 15th. Operators are Shigeo/JA1JQY (A31JY), Kaoru/JA3MCA (A31MA), Kunio/JA8VE (A31VE) and Nakayama/JA1KJW (A31KJ). This is bascially the same group that operated from Bhutan in June. Activity will be on 160-10 using CW, SSB and RTTY. QSL via their home callsigns.

A5, BHUTAN (Update). By the time you read this, Zorro, JH1AJT, should be active as A5A until November 15th. OPDX was informed that before Zorro left for Bhutan, he cracked a bone in his left wrist while he was packing the equipment. This may cause some limitations to his antenna construction while in Bhutan. Activity will be on 40-10 meters but with limited spare time operations. QSL via his home callsign, direct or by the Bureau.

A641, UNITED ARAB EMIRATES. Look for special event station A641ND to be on the air to celebrate the 41st anniversary of independence (December 2nd, 1971) and National Day of the United Arab Emirates. QSL via IZ8CLM.

C5, The GAMBIA. Pedro, ON7WP/AA9HX, will be active as C5WP from The Gambia between November 11-18th. He is part of a locally managed tourist organization there. Activity will be on 40-6 meters SSB with a an IC-706 running 50 watts into dipoles or an MP1 vertical located close to the Atlantic Ocean. Suggested frequencies are: 7145, 14345, 18145, 21345, 24945 and 28445 kHz. He is planning future operations. QSL direct only via ON7WP.

D3, ANGOLA. After a two week vacation in the Maldives, Mike, UA1QV, will be heading back to work in Vila de Catoca (LOC KI00dn), about 30 km from Saurimo, the capital of the province Lunda Sul, Angola, starting November 15th. He will once again be active as D3AA until he leaves on February 15th (2013) for another vacation. Reports indicate that he is taking with him on this trip a two element 40 meter rotatable quad and a fixed two element 80 meter quad antenna. QSL via UA1QV.

DXCC NEWS. Bill Moore, NC1L, ARRL Awards Branch Manager, reports that the following operations are approved for DXCC credit:

  5X1EME -Uganda; 2012 Operation
  TT8TT – Chad; 2012 Operation. Also, a certificate for LoTW has been approved.
  VU7M – Lakshadweep Islands; August 2012 Operation
  ZD9UW – Tristan Da Cunha & Gough; 2012 Operation

E5, SOUTH COOK ISLANDS (Reminder). By the time you read this, Rudi, ZL2KBR, will be active as E51KBR from Rarotonga Island (OC-013) until November 19th. Activity will be holiday style on 20-10 meters using SSB, RTTY and PSK31. QSL via ZL2KBR.

E5, SOUTH COOK ISLANDS (Reminder). By the time you read this, operators Frank/HB9BXU, Bruno/HB9ABS, Albert/HB9BZD and Peter/HB9CHX will be active as E51C, E51ABS, E51BZD and E51CHX, respectively from Aitutaki Island (OC-083) until November 30th. Activity will be holiday style on 80-10 meters including the 30/17/12 meter bands, between 1900-1200z, using CW, SSB and PSK31. Suggested frequencies were in OPDX.1081. QSL via HB9BXU.

GU, GUERNSEY (EU-114). Dick, GU4CHY, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (10m)/High-Power entry. QSL via his home callsign, direct (preferred) or by the Bureau (long QRX).

H40 & H44, TEMOTU AND SOLOMON ISLANDS (Update). Sigi, DL7DF, will once again lead a group of operators on a 2013 DXpedition which is being called a "Two Entities DXpedition - Solomon 2013". Sigi states on his Web page that they have chosen two destinations. The first destination will be the Guadalcandal (OC-047), Solomon Islands (H44), where the team will sign H44G between March 8-25th, 2013. During the time between March 12-23rd, part of the group will be active as H40T from Nendo (OC-100), Temotu Island (H40). Activity will be on 160-6 meters using CW and SSB. They will have several stations on the air. One station on each destination will be exclusively dedicated to RTTY, PSK31 and SSTV. Their station equipment on each destination consists of 4 transceivers (3 x K2, 1 x FT857D), 3 power amplifiers, a lowband vertical for 160/80m, a deltaloop for 40, a deltaloop for 30, a Spiderbeam for 20/17/15/12/10, a 5 element Yagi for 6m, some Beverage antennas as well as some laptop computers. Operators mentioned are Manfred/DK1BT, Georg/DK7LX, Wolf/DL4WK, Reiner/DL7KL, Sigi/DL7DF, Juergen/DL7UFN, Frank/DL7UFR, Jan/SP3CYY and Leszek/SP3DOI. Pilot station is Bernd, DF3CB. QSL route is via DL7DF, direct or by the Bureau. For more details and updates, visit:
http://www.dl7df.com/h4/index.php

IOTA NEWS.....

EU-016. Sergio, IZ3NXC, will be active as 9A/IZ3NXC from Lastovo Island (IOCA CI-051) between November 11-12th, weather permitting. QSL via IZ3NXC, direct, by the Bureau or LoTW. No eQSL.

OC-248. Hide, JM1LJS, plans to be active as T80W from the rare Sonsorol Islands during mid-April 2013 (possibly April 11-15th). For more details, see: http://blog.rental-shack.com/?eid=224

SA-096. (Update/NEW IOTA) Operators Cezar/VE3LYC, Johan/PA3EXX, Alex/LU5WW and possibly more Argentinian operators will be active as LU6W (pending) fom Escondida Island in the Chubut Province North IOTA Group early January 2013. Activity will be for four days using two stations. Activity will be on 40-10 meters using CW and SSB. QSL via VE3LYC, direct or by the Bureau. See their Web page below for more details. There is now a Web page available at: http://lu6w.yolasite.com

JW, SVALBARD. Operators Jorn/LA1U, Borge/LA4KQ and Olav/LA9OI will be active as JW1U, JW4KQ and JW9OI, respectively, from the JW5E club station in Longyearbyen on Spitsbergen Island (EU-026) between November 22-26th. Activity will include the CQWW DX CW Contest (November 24-25th) using the callsign JW5E as a Multi-Single entry. QSL the operator's individual callsigns via their home callsigns and JW5E by the Bureau or direct. To see the JW5E station, visit: http://jw5e.com

KH2, GUAM. Yoshi, JK2VOC, will be active as KH2/JK2VOC from Guam (OC-026) between November 23-27th. Activity will include the CQWW DX CW Contest

(November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via JK2VOC direct.

KH6BZF PROPAGATION FORECAST/REPORT (November 12-18th)....
Nov/12th AN Nov/15th AN Nov/17th AN
Nov/13th AN Nov/16th AN Nov/18th AN
Nov/14th AN

KH0, MARIANA ISLANDS. Akira, JR1VAY/AH2J, is now active as AH2J/KH0 from the Saipan Rental Shack, Northern Mariana Islands (OC-086, USI NI002S, WLOTA 1333), between now and November 12th. He was expected to be in the JIDX-SSB and WAEDC RTTY Contests this past weekend. QSL via JR1VAY, by the Bureau.

LOTW UPDATE. Some may have noticed that the "Logbook of The World" (LoTW) went off-line early last week. The ARRL Letter explains, "ARRL Information Technology Manager Michael Keane, K1MK, is reporting that while Logbook of The World (LoTW) system is currently down, it is expected to be back up by 9 AM EST (1400 UTC) on Friday, November 9. 'While the system is temporarily down, radio amateurs are not able to access LoTW or upload their logs,' Keane explained. 'No data has been lost, and everyone's records are intact. We understand the problem and we are in the process of restoring service to LoTW. Since both the Logbook of The World service and the Online DXCC service are connected to the ARRL Awards System, radio amateurs are not able to access either service until the system is restored. We apologize for any inconvenience this may cause, and want to assure the amateur community that the ARRL is working diligently to restore service to these popular programs.'"

P4, ARUBA. Andy, AE6Y, will once again be active as P49Y from Aruba (SA-036) during the CQWW DX CW Contest (November 24-25th). His operating class is TBD. QSL via AE6Y or LoTW.

PJ5, ST. EUSTATIUS (Update OPDX.1085). A team of JA operators will be active as PJ5J from St. Eustatius (NA-145) between December 1-12th. Activity will be on 160-10 meters using CW, SSB and the Digital modes. The group now has a Web page available for more details and updates at: http://www.ndxa.net/pj5j

PT0S, ST. PETER AND ST. PAUL ROCKS (Update). Look for the PT0S team to be active in the CQWW DX CW Contest (November 24-25th) as a Multi-Single

entry. QSL via HA7RY. For updates, visit their Web page at:
http://pt0s.com
LATEST PT0S UPDATE FROM THEIR WEB PAGE:
PT0S Team on the Rocks, One Station QRV (11-11-2012 from AA7JV)

Nov 11, 2012, St. Peter and St. Paul
"We landed on SPSP yesterday morning. After many difficulties we have raised our main antenna and have one station operational. Spent last night on 160 with mixed results. Local noise on the main TX antenna is S9+10 dB and we can only work stations with signals above that. It is like listening to the output of a switching power supply. Will try to build RX antenna today. Conditions are too rough to build the planned remote RX antenna. We must wait for calmer conditions to swim to the remote rock called Cabral. We have very limited Internet access so updates will be kept short..... AA7JV"

PY0F, FERNANDO DE NORONHA. Renner, PY7RP, will be active from Fernando de Noronha (SA-003) between December 6-10th. He informs OPDX that he has requested the callsign PY0FRP which is still pending. His activity will include the ARRL 10M Contest (December 8-9th) as a Single-Op/Mixed-Mode/ Low-Power entry. Outside of the contest, he will be on 40-10 meters using FT450D w/100w into 4 element OWA yagi and a G5RV. QSL via his home callsign, direct or via his OQRS (see QRZ.com).

E73Y QSL INFO. It has been confirmed that Boris, E73Y, will QSL direct and by the Bureau. He also states, "I accept Bureau QSL requests with full QSO data sent to my E-mail, and that postage payment (2.00 USD) can be done by Paypal." Address and E-mail is "OK" on QRZ.com.

IRCS TO BE DISCONTINUED IN THE U.S.? It seems that the United States Postal Service (USPS) will (or try to) follow what the U.K. is going

to do with IRCs. The USPS has proposed to discontinue the sale of International Reply Coupons (IRCs) due to the "low quantity demand by customers" but will "continue to exchange (redeem) international reply coupons purchased in foreign countries and presented at U.S. Post Office facilities". You can read more in the Federal Register at:

https://www.federalregister.gov/articles/2012/10/23/2012-25992/international-mailing-services-proposed-product-and-price-changes#h-13

Comments on this proposed change will be accepted through November 23rd, and can be voiced/filed at:

http://www.regulations.gov/#!submitComment;D=USPS-2012-0101-0001

It has been suggested that the amateur radio operators should try to make a the case for retaining IRCs on the <usps.com> store only. IRCs are currently available at <usps.com> so there is no need to have them stocked or ordered at a local post office. It costs literally nothing to have them in the online store. If the sale of IRCs are discontinued here in the U.S., you will have to buy them from another country.

NEW QSL ROUTE. Sergey, D2HD, has selected Buzz, NI5DX, as his QSL Manager. A card must be designed and printed. Please allow 4-6 weeks for the cards to arrive from the printer. Sergey will provide Buzz with the log every week, so there will be very little wait for the cards to be processed and mailed.

NEW QSL ROUTE. Tim, M0URX, is now the QSL Manager for JX5O. Tim states, "I have now received the log. OQRS will soon be opened." For more details, especially on old QSL request, see Tim's Web page at:

http://www.m0urx.com

POSTAL RATE WEB SITE. Here's a helpful site regarding Postage Rates worldwide: http://www.k4hb.com/postage.html

QSL RECEIVED VIA LoTW: NONE REPORTED THIS WEEK! See "LOTW UPDATE" above for details.

QSLS RECEIVED VIA MAIL: 1A0C, 3C6A, 5C13IG, 5C13KD, 5C13YR, 5U8NK, 7O6T, 8Q7OE, A51PN, ER1LW, J28NC, PJ5/K3TRM, RI1FJ, VP5/WA2VYA, VK9CS, VK9XS, VU7M, YY4DNN and ZD9UW

QSLS RECEIVED VIA THE BUREAU: NONE REPORTED THIS WEEK!

SILENT KEYS.....

* Marjoke (Mary), ZS5V, the XYL of Joost, ZS5S, informs OPDX that her husband became a Silent Key (SK) on October 29th after a 3 month battle with metastase malignant melanoma. He died peacefully at home.

* It has been reported that Pieter Botha, ZS4PB, at the age of 86, became a Silent Key (SK) on November 7th. ZS4PB was known for his topband activities, also widely known as "The African Cowboy", and was one of Africa's best known DXers in the last 60 years.

OPDX and its readers would like to send out our deepest sympathy to the family and friends of the above mentioned.

T6, AFGHANISTAN. Mike, KI4MRH, is now active as T6MH from Afghanistan. He tells OPDX that he expects to be there until October 2013. Activity will be on 80-10 meters (no 30m) using SSB and the Digital modes (PSK-31/ PSK-63/JT-65). He will use 100 watts (SSB) and 30 watts (Digital) into a 40 meter Inverted Vee and a 20 meter vertical. Current QSL is via eQSL. He is currently setting up an account for LoTW and has made his own QSL cards that he will be filling out and sending to E-mail and through postal service.

T8, PALAU. Ryosei, JH0IXE, will once again be active as T8CW from the "VIP Guest Hotel (Free Radio Room) on Koro Island, Palau (OC-009), between December 24th and January 6th (2013). Activity will be on 160-6 meters with operations this time mainly on the Digital modes (RTTY, PSK31, JT65A). QSL via JA0FOX. Visit his Web page at:
http://jh0ixe.idou.net/t8cw

TF, ICELAND. Operators Phil/G3SWH, Tom/N3ZZ, Andrew/UA3AB, Mike/WA6O, Oskar/TF3DC, Yngvi/TF3Y and Thorvaldur/TF4M will activate the TF4M Rhombic Farm club station in Otradalur, using the callsign TF4X during the CQWW DX CW Contest (November 24-25) as a Multi-2 entry. QSL via G3SWH. For more on the TF4M station, see: http://www.tf4m.com

TJ, CAMEROON. Nicolas, F8FQX (ex-5T5SN and ex-TN5SN) is now in Yaounde (Grid JJ53SU), Cameroon, and he will be there for about 3-4 years. He is currently waiting for his permission to operate and has requested the callsign TJ3SN. No other details were provided. Stay tuned!

TX5, CLIPPERTON ISLAND (Update). Reports indicate that Lance, W7GJ, has been invited to be a 6 meter operator for the TX5Q 2013 Cordell Expedition to Clipperton Island - provided he can pay the standard personal participation fee of 6500 USDs before November 26th. He is asking the 6m community if you are interested in having Clipperton activated on 6m to please help fund his trip. Complete details are available at: http://www.bigskyspaces.com/w7gj/TX5K.htm

UNIQUE SPECIAL EVENT FROM ALASKA AND THE YUKON! "Yukon John", KL7JR, informs OPDX: "Time frame is June or July, 2013. If you were planning a trip to Alaska or the Yukon, bring the family and make a vacation out of it. Special event will be 2 or 3 days long with other operating locations available (VE8RST etc.)... spend a day or as long as you wish! Callsigns used will be KL7RST and VY1RST. Several ways to get there: fly up to (Anchorage, Juneau or Whitehorse) and rent a car, drive up, ferry up from Bellingham, WA....etc. etc. I especially need a ham with CW or digital experience (prefer PSK-31) to man his own station. There is a hotel nearby so that's another possibility. I may come up solo in a motor home...not sure yet but could have room for someone to share expenses. One thing for sure, we will have an exciting time and I promise this will be UNIQUE!!! This could just be that mini-DXpedition you always dreamed of!!! Please pass on to anyone who may be interested. Specific details will be released later. Contact Yukon John, KL7JR if interested (kl7jrATyahoo.com)."

V8, BRUNEI (Reminder/Update). By the time you read this, members of the Gemilang Amamteur Radio Club (GEMILANG Radio) and the Mediterraneo DX Club will should be active as V84SMD from Brunei (OC-088, WLOTA 1628) until November 23rd. Activity will be on 160-6 meters, including the 30/17/12 meter bands, using CW, SSB and RTTY. There will be 23 operators with 4 to 5 stations on the air 24 hours. Team members include Norbert/ DJ7JC, Heye/DJ9RR, Andy/DL3GA, Henri/F1HRE, Gerard/F2JD, Michel/F5EOT, Jean-Luc F6BIV, Marco/HB9OCR, Gabriele/I2VGW (Co-Team Leader), Pino/I8YGZ, Fabio/IK2LTR, Dario/IT9ZZO, Paolo/IW2ETR, Marco/IZ2GNQ, Stefano/IZ5GST, Antonio/IZ8CCW (Team Leader), Karl/OE3JAG, Eric/ON7RN, UZ2HKC, Lan/V85AVE, Nizam/V85AX, Ayub/V85TX, Adhi/YB3MM, Feri/YO5OED and Ovidiu/YO9XC. QSL via IK2VUC, direct, by the bureau or the OQRS. Logs will be uploaded to LoTW 4-5 months after the activity. Further information can be found on their website at: http://www.mdxc.org/v84smd

VP8/S. SOUTH GEORGIA. Mike, GM0HCQ/MM, onboard the "Royal Research Ship James Clark Ross, is scheduled to possibly be active again as VP8SGK from King Edward Point Base station, South Georgia (AN-007), on November 18th. Activity will only be a few hours and SSB only. QSLing is only direct for all contacts. All contacts will be on e-QSL or LoTW. Full details on QSLing is available at: http://www.gm0hcq.com/qsl.htm
Details about Mike and the "James Clark Ross" are avaialble at:
http://www.gm0hcq.com

YN, NICARAGUA. Mike, AJ9C, will once again be active as YN2CC from Granada, Nicaragua, between November 20-29th. Activity will be on 160-6 meters using CW, SSB and RTTY. Also, Mike will be in the CQWW DX CW Contest (November 24-25th) as a Sinlge-Op/All-Band/Low-Power entry. QSL via LoTW or direct to his home callsign.

ZL9, CAMPBELL ISLAND (Press Release #10). Ed, VK2ARE, Australian publicity Officer for ZL9HR, sent out the following on November 8th: "One of the most important DX'peditions of the year is about to start.

ZL9HR will be active from the UNESCO World Heritage Campbell Island which is 650Km south of New Zealand in the Great Southern Ocean. This Sub-Antarctic island is sought after not only for DXCC and IOTA (OC-037) awards but I have been informed by August, HB9TZA, also for the World Flora and Fauna radio award where the island has the reference ZLFF-019. Please checkout <www.wff44.org> for details of that competition.

I am glad to report all plans are still on schedule and ZL9HR will be active on all bands from 160m to 6m from November 28th to December 9th from Campbell Island. Here's hoping for mild weather and good propagation for the event.

As always please refer to the DX'Pedition's website <zl9hr.com> for all details and latest updates."

ZS7, ANTARCTICA. Adam, ZS7V, will be the new operator at the SANAE Base (South African National Antarctic Expedition) as a Radio Technician and Team Leader starting at the end of December 2012. Activity will not start until the end of February 2013 once the supply ship departs for Cape Town. He will remain at the SANAE Base until February 2014. His activity will be SSB only. His QSL Manager is ZS1HF. Look for more details

to be posted to QRZ.com.

TATA CARA SETTING KONFIGURASI N1MM CONTEST LOGGER
Oleh : R. Prihandoyo, YBØECT [KB3LWW]

Langkah-langkah awal install N1MM Contest Logger versi 6.319 melalui step- stepnya yang harus dilakukan adalah sebagai berikut :

1. Klik pada CD Room yang ada tulisan N1MM Folder, lalu Klik pada N!MM full Installer, Tunggu beberapa saat
2. N1MM akan memberitahu “WELCOME TO THE N1MM LOGGER 5.70 FULL INSTALLER SETUP WIZARD” Lalu klik NEXT 4 Kali sampai kepada tulisan Install Lalu, klik Install…Tunggu beberapa sa’at

3. Jika anda mempunyai windows 98 maka, Gray line chart tidak akan menampakkan di layar jika anda membuka N1MM Contest Logger, karena N1MM hanya menyediakannya pada user yang mempergunakan Windows XP dsbnya. Klik OK dstnya sampai ada tulisan DONE.
4. Setelah selesai Full installer dijalankan maka, selanjutnya anda membuka N1mmnewexeV.6.319 . Ini adalah updatenya yang harus di extract atau di copy ke N1MM Folder. Dengan perintah Klik saja N1mmnewexeV.6.319 lalu, tunggu sebentar sampai ada tulisan " WELCOME TO THE N1MM LOGGER UPDATE 6.3.19 SET UP WIZARD " Lalu klik Next 2 kali, selanjutnya klik Install, tunggu sebentar lalu akan terlihat tulisan "The Update hasbenn installed" Lalu klik Finish.
5. Perlu juga diingat bahwa setelah anda install N1MM tentu akan terlihat di menu utama windows anda N1MM Help Menu File dan N1MM Logger manual. Berarti anda harus COPY dan PASTE file tersebut ke dalam N1MM Folder (C:\Programfile\N1MM Logger\….)
6. Setelah itu maka, selanjutnya buka Icon N1MM pada menu utama Windsows anda, dan tunggu beberapa sa'at
7. N1MM meminta anda untuk mengisi data Callsign, alamat, Grid locator, email address anda dsbnya. Setelah itu Klik OK.
8. Selanjutnya masukkan MMTTY.EXE (Engine) untuk RTTY dengan cara sebagai berikut : Buka Folder N1MM pada CD ROOM, lalu buka dengan WINZIP MMTTY engine 165 B, tunggu sebentar,…Lalu masukkan seluruh File yang ada di winzip MMTTY engine 165 B tersebut ke dalam C:\Programfiles\N1mm Logger\… (dengan cara extract atau select all dan extract)
9. Setelah itu N1MM dapat digunakan untuk LOGGER CONTEST INTERNATIONAL
10. Jika ingin mengikuti kontes misalnya CQ WW DX SSB maka yang harus anda lakukan adalah :
a. Buka File pada N1MM Program, lalu Klik Choose which contest To Log, lalu Klik Start a new log for a contest , Lihat sebelah kiri ada tulisan Log type dan lihat sebelah kirinya ada segitiga hitam kecil, lalu klik lagi. Setelah itu anda cari tulisan CQWWSSB
b. Setelah itu lihat kebawah ada tulisan contest specifics, yang berarti anda harus mengisi category contest yang anda ikuti, Misal : Operator category : SINGLE-OP, Band Category : 80M, Power category : LOW dstnya.
c. Lalu Klik OK.
d. Sebelum contest dimulai maka, harus diketik frekwensi pada blok atau kotak kuning yang agak panjang pada manual A menu. Frekwensi yang diketik JANGAN mempergunakan TITIK atau KOMA, jadi misalnya ketik saja : 14200 atau 3820 atau 7056 dstnya
e. Setelah pengisian frekwensi maka, langkah selanjutnya isi pula MODE yang akan digunakan Misal : USB atau LSB atau CW atau RTTY pada blok/kotak yang sama. Perlu diperhatikan bahwa untuk mode SSB harus diketik USB atau LSB, sebagai contoh jika ber operasi pada band 80M atau 40M maka modenya LSB, tetapi jika pada band 20M/15M dan 10M maka, ketik USB
f. Setelah selesai semuanya maka anda sudah dapat mempergunakan N1MM Contest Logger khususnya pada mode SSB
g. Perlu diingat bahwa jam UTC di N1MM mengikuti jam di computer, jadi jam di komputer sebaiknya menggunakan jam LOCAL TIME
h. Setelah anda mengikuti contest maka selanjutnya log yang ada harus anda convert menjadi CABRILLO FILE yaitu dengan cara :
1. Buka FILE pada N1MM file lalu cari EXPORT dan cari kembali EXPORT CABRILLO TO FILE…
2. Klik OK yang berarti bahwa log sheet anda akan di rescore ulang oleh N1MM
3. Lalu ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari Cabrillo file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka Cabrillo anda akan dibuat pada desktop di menu windows utama anda.

4. Setelah selesai membuat cabrillo file anda close N1MM Contest logger dan anda kembali ke Desktop menu utama, lihat apakah ada Callsign anda pada desktop anda?
5. Cabrillo callsign anda itulah yang harus anda kirim kepada panitia contest (Biasanya panitia contest memberitahu alamat email address mengenai logs yang akan dikirim melalui email) dengan melampirkan cabrillo file anda di email
6. Selanjutnya anda akan mendapat TRACKING NUMBER dari panitia contest yang anda ikuti, yang berarti bahwa log sheet anda sudah diterima oleh panitia contest

Apabila ingin EXPORT File N1MM berupa ADIF FILE maka langkah- langkahnya sebagai berikut :
1. Setelah Contest selesai maka, cari FILE pada N1MM, kemudian cari EXPORT dan KLIK yang ada tulisan ADIF, lalu Klik kembali EXPORT ADIF TO FILE
2. Selanjutnya akan tampak tulisan WOULD YOU LIKE TO RESCORE IT ?
Klik Yes, yang berarti N1MM aka me rescore kembali file contest anda, Tunggu beberapa saat
3. Langkah selanjutnya ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari ADIF file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka ADIF FILE anda akan dibuat pada desktop di menu windows utama anda
4. ADIF FILE ini akan berguna jika anda ingin meng import data contest anda pada logger harian anda, sehingga anda tidak perlu lagi mengetik ulang Contest logsheet anda kedalam logger harian anda. Tak dapat dibayangkan jika anda mengetik ulang sebanyak 1000 QSO bukan ??

Apabila anda ingin mengikuti CW Contest maka cara nya sama dengan SSB namun anda harus merubah MODEnya dengan mengetik Frekwensi terlebih dahulu lalu mode CW pada Manual A atau Blok/kotak kuning pada N1MM.

Namun adakalanya agar supaya lebih praktis maka anda perlu menyediakan CW Coupler. CW Coupler ini berguna sebagai pengganti KEYER, yang isinya berupa Transistor dan resistor, kabel shield/audio tape, db25 connector dan jak connector tsb adalah sebagai coupler untuk menggerakkan tone yang ada di transceiver anda atas perintah dari computer anda. Perlu diingat bahwa mode yang digunakan pada transceiver anda adalah CW

Cara SET UP CW pada N1MM dengan menggunakan CW Coupler adalah sebagai berikut :

1. Klik CONFIG pada manual A (Menu utama/logging)
2. Sebelumnya masukkan CW Coupler pada LPT1 dan masukkan pula pada
Transceiver yang ada Jak CW di belakang transceiver anda
3. Kemudian klik Configure Ports, telnet address,other,….
4. Klik Hardware (pada kiri atas), lalu Klik/Contreng LPT1 kemudian Klik OK (LP1 biasanya digunaka juga pada printer)
5. Selesai set up CW maka anda dapat mengoperasikan CW mode pada transceiver anda

Perlu diingat bahwa N1MM Contest Logger yang beroperasi pada CW ini sebatas hanya dapat mengirim CW saja. Program N1MM ini tidak dapat me receive CW. Hal ini karena jikalaupun dipasang alat receive pada CW maka akan sering terjadi ERROR tulisan pada layar monitor anda, karena adanya
QRM dan Pile Up CW Contest. Oleh Karena itu N1MM contest logger tidak membuat alat receive untuk CW.

Cara SET UP RTTY pada N1MM adalah sebagai berikut :

1.Klik Windows pada menu utama N1MM (Manual A)
2.Klik DIGITAL INTERFACE,… Tunggu sebentar
3. Klik SETUP dan klik Setting,…
4.Klik MMVARI SETUP lalu, lihat tengah di bawah ada tulisan " # MMVARI Channel" Ubah menjadi 1
5.Setelah itu lihat ke atas kanan ada tulisan MACRO SET UP, Klik Macro set up tersebut.
6.Lalu sebelah paling kanannya ada tulisan " # Of Macros " cari angka 8 yang berarti ada 8 kolom macro yang akan dibuat
7.Selanjutnya akan terlihat tulisan DIGITAL MACRO SET, Klik segitiga hitam kecil dan cari Soundcard RTTY, lalu klik baris pertama sebelah kiri pada kolom yang kosong (Kolom yang kosong ada 8 kolom).
8.Isi kotak kiri yang pertama dengan CQ dengan cara :
- Isi Macro Caption dengan CQ
- Isi Macro text dengan {TX} …CQ TEST DE {MYCALL} K {RX}
- Klik SAVE MACRO Demikian seterusnya…

{TX} berarti awal akan transmit/memancar
{RX} berarti akhir transmit
{MYCALL} berarti CALLSIGN anda yang akan dikirim oleh RTTY
{CALL} berarti CALLSIGN stasiun lawan yang kita kirim RTTY
{EXCH} berarti pertukaran report sinyal setelah 599, misal : 599
{EXCH}-{EXCH}, maka akan terkirim 599 001-001 dstnya
{LOG} berarti apabila telah terjadi suatu QSO maka, calsign lawan akan otomatis masuk ke log sheet anda
{LOOP} berarti mengulang secara otomatis

{TX} dan {RX} adalah wajib jika kita ingin membuat suatu macro

9.Setelah anda membuat seluruh macro, maka anda harus SAVE MACROS
lalu, ketik CALLSIGN anda pada File Name dan klik SAVE
10.Langkah terakhir adalah SAVE CONFIGURATION pada kiri bawah, hal ini berguna untuk me SAVE Macro sesuai keinginan anda

Selanjutnya OPTOCOUPLER RTTY harus anda pasang, tentunya harus merubah configurationnya dengan cara :
- Klik CONFIG pada MENU N1MM (Manual A)
- Klik CONFIGURE PORTS, TELNET ADDRESS,OTHER…
- Klik Kolom pertama COM1 DIGITAL Harus di CONTRENG
- Klik Blok SET pada DETAIL (Disebelahnya)

UBAH DTR (Pin 4) = PTT
UBAH RTS (Pin 7) = Always On

- Lalu Klik OK
- Pada blok atau kotak Radio Harus NONE jangan diisi transceiver Kenwood,Yaesu,icom dsbnya
- Selanjutnya klik DIGITAL MODES (Pada kedua dari kanan atas), lalu Klik Digital Interface 1, TU Type = MMTTY/PSK
- Lihat kebawah ada tulisan DI-1 MMTTY path : Klik SELECT Lalu Pilih MMTTY.EXE (MMTTY Engine)
- Setelah itu Lihat di kanan atas ada tulisan "MMTTY Window settings" Lalu CONTRENG small MMTTY window dan CONTRENG MMTTY always on top
- Setelah itu Lihat ke bawah ada tulisan " DI-1 MMTTY Path lalu, klik SELECT dan Pilih MMTTY dan klik OPEN (Maksudnya membuka/meng associate N1MM dengan MMTTY Engine 165B)

- Setelah itu Klik OK di tengah bawah, maka MMTTY Contest Logger dapat dijalankan
- Apabila ada Tulisan " ERROR OPENING PORT1" maka berarti Optocopler MMTTY belum terpasang di Com port 1 (Lihat di bagian belakang CPU Komputer anda apakah sudah terpasang atau belum)

Sebaiknya di restart kembali computer anda setelah anda telah me setting konfigurasi N1MM

Demikian, semoga bermanfaat. Terima kasih.

Jakarta, April 2006

V63XG, Yap Island, OC-012, December 5-12,2012

I will be active as V63XG from 5th to 12th December 2012.

YAP Island

Yap, also known as Wa'ab by locals, is an island in the Caroline Islands of the western Pacific Ocean. It is located in Yap State of the Federated States of Micronesia. The island of Yap actually consists of four continental islands (hence the alternative name of the Yap Islands). Yap's indigenous cultures and traditions are still strong compared to other neighboring islands. The four are very close together and joined within a common coral reef and entirely formed from an uplift of the Philippine Sea Plate. The land is mostly rolling hills densely covered with vegetation. Mangrove swamps line much of the shore. An outer barrier reef surrounds the islands, enclosing a lagoon between the fringing barrier reef. Colonia is the capital of the State of Yap.
2000 population was 11,241 in both Colonia and ten other municipalities. The state has a total land area of 102 km2 (39 sq mi)

TATA CARA SETTING KONFIGURASI N1MM CONTEST LOGGER
Oleh : R. Prihandoyo, YBØECT [KB3LWW]

Langkah-langkah awal install N1MM Contest Logger versi 6.319 melalui step- stepnya yang harus dilakukan adalah sebagai berikut :

1. Klik pada CD Room yang ada tulisan N1MM Folder, lalu Klik pada N!MM full Installer, Tunggu beberapa saat
2. N1MM akan memberitahu “WELCOME TO THE N1MM LOGGER 5.70 FULL INSTALLER SETUP WIZARD” Lalu klik NEXT 4 Kali sampai kepada tulisan Install Lalu, klik Install…Tunggu beberapa sa’at
3. Jika anda mempunyai windows 98 maka, Gray line chart tidak akan menampakkan di layar jika anda membuka N1MM Contest Logger, karena N1MM hanya menyediakannya pada user yang mempergunakan Windows XP dsbnya. Klik OK dstnya sampai ada tulisan DONE.
4. Setelah selesai Full installer dijalankan maka, selanjutnya anda membuka N1mmnewexeV.6.319 . Ini adalah updatenya yang harus di extract atau di copy ke N1MM Folder. Dengan perintah Klik saja N1mmnewexeV.6.319 lalu, tunggu sebentar sampai ada tulisan “ WELCOME TO THE N1MM LOGGER UPDATE 6.3.19 SET UP WIZARD “ Lalu klik Next 2 kali, selanjutnya klik Install, tunggu sebentar lalu akan terlihat tulisan “The Update hasbenn installed” Lalu klik Finish.
5. Perlu juga diingat bahwa setelah anda install N1MM tentu akan terlihat di menu utama windows anda N1MM Help Menu File dan N1MM Logger manual. Berarti anda harus COPY dan PASTE file tersebut ke dalam N1MM Folder (C:\Programfile\N1MM Logger\….)
6. Setelah itu maka, selanjutnya buka Icon N1MM pada menu utama Windsows anda, dan tunggu beberapa sa’at
7. N1MM meminta anda untuk mengisi data Callsign, alamat, Grid locator, email address anda dsbnya. Setelah itu Klik OK.
8. Selanjutnya masukkan MMTTY.EXE (Engine) untuk RTTY dengan cara sebagai berikut : Buka Folder N1MM pada CD ROOM, lalu buka dengan WINZIP MMTTY engine 165 B, tunggu sebentar,…Lalu masukkan seluruh File yang ada di winzip MMTTY engine 165 B tersebut ke dalam C:\Programfiles\N1mm Logger\… (dengan cara extract atau select all dan extract)
9. Setelah itu N1MM dapat digunakan untuk LOGGER CONTEST INTERNATIONAL
10. Jika ingin mengikuti kontes misalnya CQ WW DX SSB maka yang harus anda lakukan adalah :

a. Buka File pada N1MM Program, lalu Klik Choose which contest To Log, lalu Klik Start a new log for a contest , Lihat sebelah kiri ada tulisan Log type dan lihat sebelah kirinya ada segitiga hitam kecil, lalu klik lagi. Setelah itu anda cari tulisan CQWWSSB
b. Setelah itu lihat kebawah ada tulisan contest specifics, yang berarti anda harus mengisi category contest yang anda ikuti, Misal : Operator category : SINGLE-OP, Band Category : 80M, Power category : LOW dstnya.
c. Lalu Klik OK.
d. Sebelum contest dimulai maka, harus diketik frekwensi pada blok atau kotak kuning yang agak panjang pada manual A menu. Frekwensi yang diketik JANGAN mempergunakan TITIK atau KOMA, jadi misalnya ketik saja : 14200 atau 3820 atau 7056 dstnya
e. Setelah pengisian frekwensi maka, langkah selanjutnya isi pula MODE yang akan digunakan Misal : USB atau LSB atau CW atau RTTY pada blok/kotak yang sama. Perlu diperhatikan bahwa untuk mode SSB harus diketik USB atau LSB, sebagai contoh jika ber operasi pada band 80M atau 40M maka modenya LSB, tetapi jika pada band 20M/15M dan 10M maka, ketik USB
f. Setelah selesai semuanya maka anda sudah dapat mempergunakan N1MM Contest

Logger khususnya pada mode SSB
g. Perlu diingat bahwa jam UTC di N1MM mengikuti jam di computer, jadi jam di komputer sebaiknya menggunakan jam LOCAL
TIME
h. Setelah anda mengikuti contest maka selanjutnya log yang ada harus anda convert menjadi CABRILLO FILE yaitu dengan cara :
1. Buka FILE pada N1MM file lalu cari EXPORT dan cari kembali EXPORT CABRILLO TO FILE…
2. Klik OK yang berarti bahwa log sheet anda akan di rescore ulang oleh N1MM
3. Lalu ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari Cabrillo file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka Cabrillo anda akan dibuat pada desktop di menu windows utama anda.
4. Setelah selesai membuat cabrillo file anda close N1MM Contest logger dan anda kembali ke Desktop menu utama, lihat apakah ada Callsign anda pada desktop anda?
5. Cabrillo callsign anda itulah yang harus anda kirim kepada panitia contest (Biasanya panitia contest memberitahu alamat email address mengenai logs yang akan dikirim melalui email) dengan melampirkan cabrillo file anda di email
6. Selanjutnya anda akan mendapat TRACKING NUMBER dari panitia contest yang anda ikuti, yang berarti bahwa log sheet anda sudah diterima oleh panitia contest

Apabila ingin EXPORT File N1MM berupa ADIF FILE maka langkah- langkahnya sebagai berikut :
1. Setelah Contest selesai maka, cari FILE pada N1MM, kemudian cari EXPORT dan KLIK yang ada tulisan ADIF, lalu Klik kembali EXPORT ADIF TO FILE
2. Selanjutnya akan tampak tulisan WOULD YOU LIKE TO RESCORE IT ?
Klik Yes, yang berarti N1MM aka me rescore kembali file contest anda, Tunggu beberapa saat
3. Langkah selanjutnya ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari ADIF file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka ADIF FILE anda akan dibuat pada desktop di menu windows utama anda
4. ADIF FILE ini akan berguna jika anda ingin meng import data contest anda pada logger harian anda, sehingga anda tidak perlu lagi mengetik ulang Contest logsheet anda kedalam logger harian anda. Tak dapat dibayangkan jika anda mengetik ulang sebanyak 1000 QSO bukan ??

Apabila anda ingin mengikuti CW Contest maka cara nya sama dengan SSB namun anda harus merubah MODEnya dengan mengetik Frekwensi terlebih dahulu lalu mode CW pada Manual A atau Blok/kotak kuning pada N1MM.

Namun adakalanya agar supaya lebih praktis maka anda perlu menyediakan CW Coupler. CW Coupler ini berguna sebagai pengganti KEYER, yang isinya berupa Transistor dan resistor, kabel shield/audio tape, db25 connector dan jak connector tsb adalah sebagai coupler untuk menggerakkan tone yang ada di transceiver anda atas perintah dari computer anda. Perlu diingat bahwa mode yang digunakan pada transceiver anda adalah CW

Cara SET UP CW pada N1MM dengan menggunakan CW Coupler adalah sebagai berikut :

1. Klik CONFIG pada manual A (Menu utama/logging)
2. Sebelumnya masukkan CW Coupler pada LPT1 dan masukkan pula pada
Transceiver yang ada Jak CW di belakang transceiver anda
3. Kemudian klik Configure Ports, telnet address,other,….
4. Klik Hardware (pada kiri atas), lalu Klik/Contreng LPT1 kemudian Klik OK (LP1 biasanya

digunaka juga pada printer)
5. Selesai set up CW maka anda dapat mengoperasikan CW mode pada transceiver anda

Perlu diingat bahwa N1MM Contest Logger yang beroperasi pada CW ini sebatas hanya dapat mengirim CW saja. Program N1MM ini tidak dapat me receive CW. Hal ini karena jikalaupun dipasang alat receive pada CW maka akan sering terjadi ERROR tulisan pada layar monitor anda, karena adanya
QRM dan Pile Up CW Contest. Oleh Karena itu N1MM contest logger tidak membuat alat receive untuk CW.

Cara SET UP RTTY pada N1MM adalah sebagai berikut :

1.Klik Windows pada menu utama N1MM (Manual A)
2.Klik DIGITAL INTERFACE,… Tunggu sebentar
3. Klik SETUP dan klik Setting,…
4.Klik MMVARI SETUP lalu, lihat tengah di bawah ada tulisan “ # MMVARI Channel” Ubah menjadi 1
5.Setelah itu lihat ke atas kanan ada tulisan MACRO SET UP, Klik Macro set up tersebut.
6.Lalu sebelah paling kanannya ada tulisan “ # Of Macros “ cari angka 8 yang berarti ada 8 kolom macro yang akan dibuat
7.Selanjutnya akan terlihat tulisan DIGITAL MACRO SET, Klik segitiga hitam kecil dan cari Soundcard RTTY, lalu klik baris pertama sebelah kiri pada kolom yang kosong (Kolom yang kosong ada 8 kolom).
8.Isi kotak kiri yang pertama dengan CQ dengan cara :
- Isi Macro Caption dengan CQ
- Isi Macro text dengan {TX} …CQ TEST DE {MYCALL} K {RX}
- Klik SAVE MACRO Demikian seterusnya…

{TX}   berarti awal akan transmit/memancar
{RX}   berarti akhir transmit
{MYCALL}   berarti CALLSIGN anda yang akan dikirim oleh RTTY
{CALL}   berarti CALLSIGN stasiun lawan yang kita kirim RTTY
{EXCH}   berarti pertukaran report sinyal setelah 599, misal : 599
{EXCH}-{EXCH}, maka akan terkirim 599 001-001 dstnya
{LOG}   berarti apabila telah terjadi suatu QSO maka, calsign lawan akan otomatis masuk ke log sheet anda
{LOOP}   berarti mengulang secara otomatis

{TX} dan {RX} adalah wajib jika kita ingin membuat suatu macro

9.Setelah anda membuat seluruh macro, maka anda harus SAVE MACROS
lalu, ketik CALLSIGN anda pada File Name dan klik SAVE
10.Langkah terakhir adalah SAVE CONFIGURATION pada kiri bawah, hal ini berguna untuk me SAVE Macro sesuai keinginan anda

Selanjutnya OPTOCOUPLER RTTY harus anda pasang, tentunya harus merubah configurationnya dengan cara :
-    Klik CONFIG pada MENU N1MM (Manual A)
-    Klik CONFIGURE PORTS, TELNET ADDRESS,OTHER…
-    Klik Kolom pertama COM1 DIGITAL Harus di CONTRENG
-    Klik Blok SET pada DETAIL (Disebelahnya)
UBAH DTR (Pin 4) = PTT
UBAH RTS (Pin 7) = Always On

- Lalu Klik OK
- Pada blok atau kotak Radio Harus NONE jangan diisi transceiver Kenwood,Yaesu,icom dsbnya
- Selanjutnya klik DIGITAL MODES (Pada kedua dari kanan atas), lalu Klik Digital Interface 1, TU Type = MMTTY/PSK
- Lihat kebawah ada tulisan DI-1 MMTTY path : Klik SELECT Lalu Pilih MMTTY.EXE (MMTTY Engine)
- Setelah itu Lihat di kanan atas ada tulisan “MMTTY Window settings” Lalu CONTRENG small MMTTY window dan CONTRENG MMTTY always on top
- Setelah itu Lihat ke bawah ada tulisan “ DI-1 MMTTY Path lalu, klik SELECT dan Pilih MMTTY dan klik OPEN (Maksudnya membuka/meng associate N1MM dengan MMTTY Engine 165B)
- Setelah itu Klik OK di tengah bawah, maka MMTTY Contest Logger dapat dijalankan
- Apabila ada Tulisan “ ERROR OPENING PORT1” maka berarti Optocopler MMTTY belum terpasang di Com port 1 (Lihat di bagian belakang CPU Komputer anda apakah sudah terpasang atau belum)

Sebaiknya di restart kembali computer anda setelah anda telah me setting konfigurasi N1MM

Demikian, semoga bermanfaat. Terima kasih.

Jakarta, April 2006

TATA CARA SETTING KONFIGURASI N1MM CONTEST LOGGER
Oleh : R. Prihandoyo, YBØECT [KB3LWW]

Langkah-langkah awal install N1MM Contest Logger versi 6.319 melalui step- stepnya yang harus dilakukan adalah sebagai berikut :

1. Klik pada CD Room yang ada tulisan N1MM Folder, lalu Klik pada N!MM full Installer, Tunggu beberapa saat
2. N1MM akan memberitahu “WELCOME TO THE N1MM LOGGER 5.70 FULL INSTALLER SETUP WIZARD” Lalu klik NEXT 4 Kali sampai kepada tulisan Install Lalu, klik Install…Tunggu beberapa sa’at
3. Jika anda mempunyai windows 98 maka, Gray line chart tidak akan menampakkan di layar jika anda membuka N1MM Contest Logger, karena N1MM hanya menyediakannya pada user yang mempergunakan Windows XP dsbnya. Klik OK dstnya sampai ada tulisan DONE.
4. Setelah selesai Full installer dijalankan maka, selanjutnya anda membuka N1mmnewexeV.6.319 . Ini adalah updatenya yang harus di extract atau di copy ke N1MM Folder. Dengan perintah Klik saja N1mmnewexeV.6.319 lalu, tunggu sebentar sampai ada tulisan “ WELCOME TO THE N1MM LOGGER UPDATE 6.3.19 SET UP WIZARD “ Lalu klik Next 2 kali, selanjutnya klik Install, tunggu sebentar lalu akan terlihat tulisan “The Update hasbenn installed” Lalu klik Finish.
5. Perlu juga diingat bahwa setelah anda install N1MM tentu akan terlihat di menu utama windows anda N1MM Help Menu File dan N1MM Logger manual. Berarti anda harus COPY dan PASTE file tersebut ke dalam N1MM Folder (C:\Programfile\N1MM Logger\….)
6. Setelah itu maka, selanjutnya buka Icon N1MM pada menu utama Windsows anda, dan tunggu beberapa sa’at
7. N1MM meminta anda untuk mengisi data Callsign, alamat, Grid locator, email address anda dsbnya. Setelah itu Klik OK.
8. Selanjutnya masukkan MMTTY.EXE (Engine) untuk RTTY dengan cara sebagai berikut : Buka Folder N1MM pada CD ROOM, lalu buka dengan WINZIP MMTTY engine 165 B, tunggu sebentar,…Lalu masukkan seluruh File yang ada di winzip MMTTY engine 165 B tersebut ke dalam C:\Programfiles\N1mm Logger\… (dengan cara extract atau select all dan extract)

9. Setelah itu N1MM dapat digunakan untuk LOGGER CONTEST INTERNATIONAL
10. Jika ingin mengikuti kontes misalnya CQ WW DX SSB maka yang harus anda lakukan adalah :
a. Buka File pada N1MM Program, lalu Klik Choose which contest To Log, lalu Klik Start a new log for a contest , Lihat sebelah kiri ada tulisan Log type dan lihat sebelah kirinya ada segitiga hitam kecil, lalu klik lagi. Setelah itu anda cari tulisan CQWWSSB
b. Setelah itu lihat kebawah ada tulisan contest specifics, yang berarti anda harus mengisi category contest yang anda ikuti, Misal : Operator category : SINGLE-OP, Band Category : 80M, Power category : LOW dstnya.
c. Lalu Klik OK.
d. Sebelum contest dimulai maka, harus diketik frekwensi pada blok atau kotak kuning yang agak panjang pada manual A menu. Frekwensi yang diketik JANGAN mempergunakan TITIK atau KOMA, jadi misalnya ketik saja : 14200 atau 3820 atau 7056 dstnya
e. Setelah pengisian frekwensi maka, langkah selanjutnya isi pula MODE yang akan digunakan Misal : USB atau LSB atau CW atau RTTY pada blok/kotak yang sama. Perlu diperhatikan bahwa untuk mode SSB harus diketik USB atau LSB, sebagai contoh jika ber operasi pada band 80M atau 40M maka modenya LSB, tetapi jika pada band 20M/15M dan 10M maka, ketik USB
f. Setelah selesai semuanya maka anda sudah dapat mempergunakan N1MM Contest Logger khususnya pada mode SSB
g. Perlu diingat bahwa jam UTC di N1MM mengikuti jam di computer, jadi jam di komputer sebaiknya menggunakan jam LOCAL
TIME
h. Setelah anda mengikuti contest maka selanjutnya log yang ada harus anda convert menjadi CABRILLO FILE yaitu dengan cara :
1. Buka FILE pada N1MM file lalu cari EXPORT dan cari kembali EXPORT CABRILLO TO FILE…
2. Klik OK yang berarti bahwa log sheet anda akan di rescore ulang oleh N1MM
3. Lalu ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari Cabrillo file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka Cabrillo anda akan dibuat pada desktop di menu windows utama anda.
4. Setelah selesai membuat cabrillo file anda close N1MM Contest logger dan anda kembali ke Desktop menu utama, lihat apakah ada Callsign anda pada desktop anda?
5. Cabrillo callsign anda itulah yang harus anda kirim kepada panitia contest (Biasanya panitia contest memberitahu alamat email address mengenai logs yang akan dikirim melalui email) dengan melampirkan cabrillo file anda di email
6. Selanjutnya anda akan mendapat TRACKING NUMBER dari panitia contest yang anda ikuti, yang berarti bahwa log sheet anda sudah diterima oleh panitia contest

Apabila ingin EXPORT File N1MM berupa ADIF FILE maka langkah- langkahnya sebagai berikut :
1. Setelah Contest selesai maka, cari FILE pada N1MM, kemudian cari EXPORT dan KLIK yang ada tulisan ADIF, lalu Klik kembali EXPORT ADIF TO FILE
2. Selanjutnya akan tampak tulisan WOULD YOU LIKE TO RESCORE IT ?
Klik Yes, yang berarti N1MM aka me rescore kembali file contest anda, Tunggu beberapa saat
3. Langkah selanjutnya ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari ADIF file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka ADIF FILE anda akan dibuat pada desktop di menu windows utama anda
4. ADIF FILE ini akan berguna jika anda ingin meng import data contest anda pada logger harian anda, sehingga anda tidak perlu lagi mengetik ulang Contest logsheet anda kedalam

logger harian anda. Tak dapat dibayangkan jika anda mengetik ulang sebanyak 1000 QSO bukan ??

Apabila anda ingin mengikuti CW Contest maka cara nya sama dengan SSB namun anda harus merubah MODEnya dengan mengetik Frekwensi terlebih dahulu lalu mode CW pada Manual A atau Blok/kotak kuning pada N1MM.

Namun adakalanya agar supaya lebih praktis maka anda perlu menyediakan CW Coupler. CW Coupler ini berguna sebagai pengganti KEYER, yang isinya berupa Transistor dan resistor, kabel shield/audio tape, db25 connector dan jak connector tsb adalah sebagai coupler untuk menggerakkan tone yang ada di transceiver anda atas perintah dari computer anda. Perlu diingat bahwa mode yang digunakan pada transceiver anda adalah CW

Cara SET UP CW pada N1MM dengan menggunakan CW Coupler adalah sebagai berikut :

1. Klik CONFIG pada manual A (Menu utama/logging)
2. Sebelumnya masukkan CW Coupler pada LPT1 dan masukkan pula pada Transceiver yang ada Jak CW di belakang transceiver anda
3. Kemudian klik Configure Ports, telnet address,other,….
4. Klik Hardware (pada kiri atas), lalu Klik/Contreng LPT1 kemudian Klik OK (LP1 biasanya digunaka juga pada printer)
5. Selesai set up CW maka anda dapat mengoperasikan CW mode pada transceiver anda

Perlu diingat bahwa N1MM Contest Logger yang beroperasi pada CW ini sebatas hanya dapat mengirim CW saja. Program N1MM ini tidak dapat me receive CW. Hal ini karena jikalaupun dipasang alat receive pada CW maka akan sering terjadi ERROR tulisan pada layar monitor anda, karena adanya
QRM dan Pile Up CW Contest. Oleh Karena itu N1MM contest logger tidak membuat alat receive untuk CW.

Cara SET UP RTTY pada N1MM adalah sebagai berikut :

1.Klik Windows pada menu utama N1MM (Manual A)
2.Klik DIGITAL INTERFACE,… Tunggu sebentar
3. Klik SETUP dan klik Setting,…
4.Klik MMVARI SETUP lalu, lihat tengah di bawah ada tulisan “ # MMVARI Channel” Ubah menjadi 1
5.Setelah itu lihat ke atas kanan ada tulisan MACRO SET UP, Klik Macro set up tersebut.
6.Lalu sebelah paling kanannya ada tulisan “ # Of Macros “ cari angka 8 yang berarti ada 8 kolom macro yang akan dibuat
7.Selanjutnya akan terlihat tulisan DIGITAL MACRO SET, Klik segitiga hitam kecil dan cari Soundcard RTTY, lalu klik baris pertama sebelah kiri pada kolom yang kosong (Kolom yang kosong ada 8 kolom).
8.Isi kotak kiri yang pertama dengan CQ dengan cara :
- Isi Macro Caption dengan CQ
- Isi Macro text dengan {TX} …CQ TEST DE {MYCALL} K {RX}
- Klik SAVE MACRO Demikian seterusnya…

{TX} berarti awal akan transmit/memancar
{RX} berarti akhir transmit
{MYCALL} berarti CALLSIGN anda yang akan dikirim oleh RTTY
{CALL} berarti CALLSIGN stasiun lawan yang kita kirim RTTY
{EXCH} berarti pertukaran report sinyal setelah 599, misal : 599

{EXCH}-{EXCH}, maka akan terkirim 599 001-001 dstnya
{LOG} berarti apabila telah terjadi suatu QSO maka, calsign lawan akan otomatis masuk ke log sheet anda
{LOOP} berarti mengulang secara otomatis

{TX} dan {RX} adalah wajib jika kita ingin membuat suatu macro

9.Setelah anda membuat seluruh macro, maka anda harus SAVE MACROS
lalu, ketik CALLSIGN anda pada File Name dan klik SAVE
10.Langkah terakhir adalah SAVE CONFIGURATION pada kiri bawah, hal ini berguna untuk me SAVE Macro sesuai keinginan anda

Selanjutnya OPTOCOUPLER RTTY harus anda pasang, tentunya harus merubah configurationnya dengan cara :
- Klik CONFIG pada MENU N1MM (Manual A)
- Klik CONFIGURE PORTS, TELNET ADDRESS,OTHER…
- Klik Kolom pertama COM1 DIGITAL Harus di CONTRENG
- Klik Blok SET pada DETAIL (Disebelahnya)

UBAH DTR (Pin 4) = PTT
UBAH RTS (Pin 7) = Always On

- Lalu Klik OK
- Pada blok atau kotak Radio Harus NONE jangan diisi transceiver Kenwood,Yaesu,icom dsbnya
- Selanjutnya klik DIGITAL MODES (Pada kedua dari kanan atas), lalu Klik Digital Interface 1, TU Type = MMTTY/PSK
- Lihat kebawah ada tulisan DI-1 MMTTY path : Klik SELECT Lalu Pilih MMTTY.EXE (MMTTY Engine)
- Setelah itu Lihat di kanan atas ada tulisan “MMTTY Window settings” Lalu CONTRENG small MMTTY window dan CONTRENG MMTTY always on top
- Setelah itu Lihat ke bawah ada tulisan “ DI-1 MMTTY Path lalu, klik SELECT dan Pilih MMTTY dan klik OPEN (Maksudnya membuka/meng associate N1MM dengan MMTTY Engine 165B)
- Setelah itu Klik OK di tengah bawah, maka MMTTY Contest Logger dapat dijalankan
- Apabila ada Tulisan “ ERROR OPENING PORT1” maka berarti Optocopler MMTTY belum terpasang di Com port 1 (Lihat di bagian belakang CPU Komputer anda apakah sudah terpasang atau belum)

Sebaiknya di restart kembali computer anda setelah anda telah me setting konfigurasi N1MM

Demikian, semoga bermanfaat. Terima kasih.

Dear All,

silahkan ke www.ybdxc.net kemudian pojok kiri atas ada search box, ketik n1mm akan banyak artikel yg telah diupload sebelumnya tentang N1MM dan silahkan kalau ada pertanyaan diposting di forum, akan banyak rekan ybdxc milis dengan senang hati akan berbagi pengalaman

Regards,

TATA CARA SETTING KONFIGURASI N1MM CONTEST LOGGER
Oleh : R. Prihandoyo, YBØECT [KB3LWW]

Langkah-langkah awal install N1MM Contest Logger versi 6.319 melalui step- stepnya yang harus dilakukan adalah sebagai berikut :

1. Klik pada CD Room yang ada tulisan N1MM Folder, lalu Klik pada N!MM full Installer, Tunggu beberapa saat
2. N1MM akan memberitahu “WELCOME TO THE N1MM LOGGER 5.70 FULL INSTALLER SETUP WIZARD” Lalu klik NEXT 4 Kali sampai kepada tulisan Install Lalu, klik Install…Tunggu beberapa sa’at
3. Jika anda mempunyai windows 98 maka, Gray line chart tidak akan menampakkan di layar jika anda membuka N1MM Contest Logger, karena N1MM hanya menyediakannya pada user yang mempergunakan Windows XP dsbnya. Klik OK dstnya sampai ada tulisan DONE.

4. Setelah selesai Full installer dijalankan maka, selanjutnya anda membuka N1mmnewexeV.6.319 . Ini adalah updatenya yang harus di extract atau di copy ke N1MM Folder. Dengan perintah Klik saja N1mmnewexeV.6.319 lalu, tunggu sebentar sampai ada tulisan " WELCOME TO THE N1MM LOGGER UPDATE 6.3.19 SET UP WIZARD " Lalu klik Next 2 kali, selanjutnya klik Install, tunggu sebentar lalu akan terlihat tulisan "The Update hasbenn installed" Lalu klik Finish.
5. Perlu juga diingat bahwa setelah anda install N1MM tentu akan terlihat di menu utama windows anda N1MM Help Menu File dan N1MM Logger manual. Berarti anda harus COPY dan PASTE file tersebut ke dalam N1MM Folder (C:\Programfile\N1MM Logger\….)
6. Setelah itu maka, selanjutnya buka Icon N1MM pada menu utama Windsows anda, dan tunggu beberapa sa'at
7. N1MM meminta anda untuk mengisi data Callsign, alamat, Grid locator, email address anda dsbnya. Setelah itu Klik OK.
8. Selanjutnya masukkan MMTTY.EXE (Engine) untuk RTTY dengan cara sebagai berikut : Buka Folder N1MM pada CD ROOM, lalu buka dengan WINZIP MMTTY engine 165 B, tunggu sebentar,…Lalu masukkan seluruh File yang ada di winzip MMTTY engine 165 B tersebut ke dalam C:\Programfiles\N1mm Logger\… (dengan cara extract atau select all dan extract)
9. Setelah itu N1MM dapat digunakan untuk LOGGER CONTEST INTERNATIONAL
10. Jika ingin mengikuti kontes misalnya CQ WW DX SSB maka yang harus anda lakukan adalah :

a. Buka File pada N1MM Program, lalu Klik Choose which contest To Log, lalu Klik Start a new log for a contest , Lihat sebelah kiri ada tulisan Log type dan lihat sebelah kirinya ada segitiga hitam kecil, lalu klik lagi. Setelah itu anda cari tulisan CQWWSSB
b. Setelah itu lihat kebawah ada tulisan contest specifics, yang berarti anda harus mengisi category contest yang anda ikuti, Misal : Operator category : SINGLE-OP, Band Category : 80M, Power category : LOW dstnya.
c. Lalu Klik OK.
d. Sebelum contest dimulai maka, harus diketik frekwensi pada blok atau kotak kuning yang agak panjang pada manual A menu. Frekwensi yang diketik JANGAN mempergunakan TITIK atau KOMA, jadi misalnya ketik saja : 14200 atau 3820 atau 7056 dstnya
e. Setelah pengisian frekwensi maka, langkah selanjutnya isi pula MODE yang akan digunakan Misal : USB atau LSB atau CW atau RTTY pada blok/kotak yang sama. Perlu diperhatikan bahwa untuk mode SSB harus diketik USB atau LSB, sebagai contoh jika ber operasi pada band 80M atau 40M maka modenya LSB, tetapi jika pada band 20M/15M dan 10M maka, ketik USB
f. Setelah selesai semuanya maka anda sudah dapat mempergunakan N1MM Contest Logger khususnya pada mode SSB
g. Perlu diingat bahwa jam UTC di N1MM mengikuti jam di computer, jadi jam di komputer sebaiknya menggunakan jam LOCAL TIME
h. Setelah anda mengikuti contest maka selanjutnya log yang ada harus anda convert menjadi CABRILLO FILE yaitu dengan cara :

1. Buka FILE pada N1MM file lalu cari EXPORT dan cari kembali EXPORT CABRILLO TO FILE…
2. Klik OK yang berarti bahwa log sheet anda akan di rescore ulang oleh N1MM
3. Lalu ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari Cabrillo file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka Cabrillo anda akan dibuat pada desktop di menu windows utama anda.
4. Setelah selesai membuat cabrillo file anda close N1MM Contest logger dan anda kembali ke Desktop menu utama, lihat apakah ada Callsign anda pada desktop anda?
5. Cabrillo callsign anda itulah yang harus anda kirim kepada panitia contest (Biasanya

panitia contest memberitahu alamat email address mengenai logs yang akan dikirim melalui email) dengan melampirkan cabrillo file anda di email
6. Selanjutnya anda akan mendapat TRACKING NUMBER dari panitia contest yang anda ikuti, yang berarti bahwa log sheet anda sudah diterima oleh panitia contest

Apabila ingin EXPORT File N1MM berupa ADIF FILE maka langkah- langkahnya sebagai berikut :
1. Setelah Contest selesai maka, cari FILE pada N1MM, kemudian cari EXPORT dan KLIK yang ada tulisan ADIF, lalu Klik kembali EXPORT ADIF TO FILE
2. Selanjutnya akan tampak tulisan WOULD YOU LIKE TO RESCORE IT ?
Klik Yes, yang berarti N1MM aka me rescore kembali file contest anda, Tunggu beberapa saat
3. Langkah selanjutnya ketik CALLSIGN anda misal : YB0ECT , tapi sebelumnya anda harus masukkan callsign anda tersebut pada DESKTOP, agar mudah mencari ADIF file anda. Berarti pada choose in file (Save In : Desktop) lalu klik SAVE. Maka ADIF FILE anda akan dibuat pada desktop di menu windows utama anda
4. ADIF FILE ini akan berguna jika anda ingin meng import data contest anda pada logger harian anda, sehingga anda tidak perlu lagi mengetik ulang Contest logsheet anda kedalam logger harian anda. Tak dapat dibayangkan jika anda mengetik ulang sebanyak 1000 QSO bukan ??

Apabila anda ingin mengikuti CW Contest maka cara nya sama dengan SSB namun anda harus merubah MODEnya dengan mengetik Frekwensi terlebih dahulu lalu mode CW pada Manual A atau Blok/kotak kuning pada N1MM.

Namun adakalanya agar supaya lebih praktis maka anda perlu menyediakan CW Coupler. CW Coupler ini berguna sebagai pengganti KEYER, yang isinya berupa Transistor dan resistor, kabel shield/audio tape, db25 connector dan jak connector tsb adalah sebagai coupler untuk menggerakkan tone yang ada di transceiver anda atas perintah dari computer anda. Perlu diingat bahwa mode yang digunakan pada transceiver anda adalah CW

Cara SET UP CW pada N1MM dengan menggunakan CW Coupler adalah sebagai berikut :

1. Klik CONFIG pada manual A (Menu utama/logging)
2. Sebelumnya masukkan CW Coupler pada LPT1 dan masukkan pula pada Transceiver yang ada Jak CW di belakang transceiver anda
3. Kemudian klik Configure Ports, telnet address,other,….
4. Klik Hardware (pada kiri atas), lalu Klik/Contreng LPT1 kemudian Klik OK (LP1 biasanya digunaka juga pada printer)
5. Selesai set up CW maka anda dapat mengoperasikan CW mode pada transceiver anda

Perlu diingat bahwa N1MM Contest Logger yang beroperasi pada CW ini sebatas hanya dapat mengirim CW saja. Program N1MM ini tidak dapat me receive CW. Hal ini karena jikalaupun dipasang alat receive pada CW maka akan sering terjadi ERROR tulisan pada layar monitor anda, karena adanya
QRM dan Pile Up CW Contest. Oleh Karena itu N1MM contest logger tidak membuat alat receive untuk CW.

Cara SET UP RTTY pada N1MM adalah sebagai berikut :

1.Klik Windows pada menu utama N1MM (Manual A)
2.Klik DIGITAL INTERFACE,… Tunggu sebentar
3. Klik SETUP dan klik Setting,…
4.Klik MMVARI SETUP lalu, lihat tengah di bawah ada tulisan “ # MMVARI Channel” Ubah

menjadi 1
5.Setelah itu lihat ke atas kanan ada tulisan MACRO SET UP, Klik Macro set up tersebut.
6.Lalu sebelah paling kanannya ada tulisan " # Of Macros " cari angka 8 yang berarti ada 8 kolom macro yang akan dibuat
7.Selanjutnya akan terlihat tulisan DIGITAL MACRO SET, Klik segitiga hitam kecil dan cari Soundcard RTTY, lalu klik baris pertama sebelah kiri pada kolom yang kosong (Kolom yang kosong ada 8 kolom).
8.Isi kotak kiri yang pertama dengan CQ dengan cara :
- Isi Macro Caption dengan CQ
- Isi Macro text dengan {TX} …CQ TEST DE {MYCALL} K {RX}
- Klik SAVE MACRO Demikian seterusnya…

{TX} berarti awal akan transmit/memancar
{RX} berarti akhir transmit
{MYCALL} berarti CALLSIGN anda yang akan dikirim oleh RTTY
{CALL} berarti CALLSIGN stasiun lawan yang kita kirim RTTY
{EXCH} berarti pertukaran report sinyal setelah 599, misal : 599
{EXCH}-{EXCH}, maka akan terkirim 599 001-001 dstnya
{LOG} berarti apabila telah terjadi suatu QSO maka, calsign lawan akan otomatis masuk ke log sheet anda
{LOOP} berarti mengulang secara otomatis

{TX} dan {RX} adalah wajib jika kita ingin membuat suatu macro

9.Setelah anda membuat seluruh macro, maka anda harus SAVE MACROS
lalu, ketik CALLSIGN anda pada File Name dan klik SAVE
10.Langkah terakhir adalah SAVE CONFIGURATION pada kiri bawah, hal ini berguna untuk me SAVE Macro sesuai keinginan anda

Selanjutnya OPTOCOUPLER RTTY harus anda pasang, tentunya harus merubah configurationnya dengan cara :
- Klik CONFIG pada MENU N1MM (Manual A)
- Klik CONFIGURE PORTS, TELNET ADDRESS,OTHER…
- Klik Kolom pertama COM1 DIGITAL Harus di CONTRENG
- Klik Blok SET pada DETAIL (Disebelahnya)

UBAH DTR (Pin 4) = PTT
UBAH RTS (Pin 7) = Always On

- Lalu Klik OK
- Pada blok atau kotak Radio Harus NONE jangan diisi transceiver Kenwood,Yaesu,icom dsbnya
- Selanjutnya klik DIGITAL MODES (Pada kedua dari kanan atas), lalu Klik Digital Interface 1, TU Type = MMTTY/PSK
- Lihat kebawah ada tulisan DI-1 MMTTY path : Klik SELECT Lalu Pilih MMTTY.EXE (MMTTY Engine)
- Setelah itu Lihat di kanan atas ada tulisan "MMTTY Window settings" Lalu CONTRENG small MMTTY window dan CONTRENG MMTTY always on top
- Setelah itu Lihat ke bawah ada tulisan " DI-1 MMTTY Path lalu, klik SELECT dan Pilih MMTTY dan klik OPEN (Maksudnya membuka/meng associate N1MM dengan MMTTY Engine 165B)
- Setelah itu Klik OK di tengah bawah, maka MMTTY Contest Logger dapat dijalankan
- Apabila ada Tulisan " ERROR OPENING PORT1" maka berarti Optocopler MMTTY belum terpasang di Com port 1 (Lihat di bagian belakang CPU Komputer anda apakah sudah terpasang atau belum)

Sebaiknya di restart kembali computer anda setelah anda telah me setting konfigurasi N1MM

Demikian, semoga bermanfaat. Terima kasih.

BS7H, THE APRIL 2007 EXPEDITION TO SCARBOROUGH REEF

THE APRIL 2007 EXPEDITION TO SCARBOROUGH REEF

DXCC ENTITY: BS7H

Latitude: 15° 07' N.

Longitude: 117° 45' E.

.

BS7H IS NOW QRT AFTER 45,830 QSOS

The Four Rocks, Photos from the 2007 Scarborough Reef DXpedition

Rock 1, ND2T

Rock 2, K4UJ

Rock 3, OH2BH and BA4RF

Rock 4, W6RGG

9V1YC and BA4RF on first landing, Sunday morning April 29: "You mean THIS is a DXCC entity? We'd better measure it just to make sure it meets the minimum size rule"

Rock 4 under the moonlight as seen by Joe, AA4NN from Rock 1. This photo exemplifies the loneliness and isolation one felt while operating during night time shifts.

James, 9V1YC on 20 mtrs 4 May just before working N1DG :-)

The low-tide well before sunset made approaching the rocks very difficult and caused operating shifts up to 15 hours! Here is safe area, but walking on the reef for most part was soft with sharp coral masses and hidden empty pockets that made you suddenly drop to your waist and call for help from others. It was very dangerous! Here Paul, K4UJ is making his impossible way to a shift change toward the edge of the reef belt.

The Phillippine fisherman visiting OH2BH on Rock #2. This was the first real encounter with the fishermen, they apparently were looking for water and gasoline rations. After they left the rock, they proceeded to the boat where they were prevented from boarding the boat by N6MZ and "Little Sister" the boat cook, where she stood by with a large butcher knife in case they tried to board the ship. Needless to say everyone was quite uncomfortable with this episode. Notice they were carrying fishing spears. They were forced to leave by the boat crew.

ND2T on rock #2

Max, I8NHJ, at sunset

BA4RC running them

BA1AAX, Wang, at the mike

BA1RB, Fan, at the mike

Mike K9AJ (left) and Joe AA4NN changing shifts.

Rock #3, Christian was the only guy smart enough to bring an air mattress. So if you spent the night on the rocks with him you had the most comfortable sleeping arrangements. Everyone else slept on the wood platform. You can see that you slept between the operators feet and the generator.

No mattress, no problem. When Martti wants a nap, he takes a nap.

What did you think?

9V1YC, BV6HJ, BA4RC and BA4RF on May 6, after clearing off the last of the equipment from Rock 1

Logistics Scenes from the 2007 Scarborough Reef DXpedition

Deep Blue, our transport

http://www.dx-code.org/

DX Code Of Conduct

I will listen, and listen, and then listen again before calling.
I will only call if I can copy the DX station properly.
I will not trust the DX cluster and will be sure of the DX station's call sign before calling.
I will not interfere with the DX station nor anyone calling and will never tune up on the DX frequency or in the QSX slot.
I will wait for the DX station to end a contact before I call.
I will always send my full call sign.
I will call and then listen for a reasonable interval. I will not call continuously.
I will not transmit when the DX operator calls another call sign, not mine.
I will not transmit when the DX operator queries a call sign not like mine.
I will not transmit when the DX station requests geographic areas other than mine.
When the DX operator calls me, I will not repeat my call sign unless I think he has copied it incorrectly.
I will be thankful if and when I do make a contact.
I will respect my fellow hams and conduct myself so as to earn their respect.

#1 I will listen, and listen and then listen again before calling.
  This seems so obvious but it is the most vital thing to do. Careful listening rather than rushing to transmit will get the DX into your log. You must listen to find out whether the DX is working split and if so, where is he listening? Then you need to listen to the calling stations in order to determine what the DX station is doing. For example, he may be working gradually up or down the pile-up frequency range – and you need to find the best spot to call. And it may be time to ask yourself: “Do I really need to work this bit of DX, right now? Can I wait a while for the pile-up to subside?”

#2 I will only call if I can copy the DX station properly.
   You also need to listen carefully to determine how well you can hear the DX station to be sure you will hear his reply to your call and to avoid causing interference by transmitting at the wrong time. It is extremely frustrating for a DX station to return a call to a station that is unable to hear him, thereby causing incessant QRM.

#3 I will not trust the Cluster and will be sure of the DX station’s callsign before calling.
   Cluster spots often show the wrong call sign. Before you log a station, you should hear the station’s callsign on the air – don’t trust spotting networks. The DX operator should send his call sign at regular intervals. Unfortunately, not all operators do this!

#4 I will not interfere with the DX station or anyone calling and will never tune up on the DX frequency or in the QSX slot.
   Sadly, this covers a multitude of operators, employing poor operating practices. We are frequently afflicted with “Policemen,” people who repeatedly jump in to tell callers that

“the DX is listening up” – often adding a gratuitous insult. The rule is quite simple: never, ever transmit on the DX frequency for any purpose whatsoever.

#5 I will wait for the DX station to end a contact before calling.

If you transmit before a QSO is over, you are likely to interfere with the exchange of information, lengthening the QSO and slowing the process. It may seem clever to “nip in” as the previous contact is ending but many DX stations don’t like it, as such operating may break the pattern of the operator, which is what helps everyone to know when to transmit.

#6 I will always send my full call sign.

This is essential for CW and SSB, because incomplete calls lead to an extra transmission, slowing the operator’s progress with the pileup. If the operator is responding to partial call signs, it may appear that you should call with only several letters. Generally, this is not the case. Always use your full call sign.

#7 I will call and then listen for a reasonable interval. I will not call continuously.

Continuous calling is selfish and arrogant. With a computer or memory keyer, it is easy to send continuously. Unfortunately, it prevents you from listening and knowing what is taking place. In addition, it raises the QRM floor greatly, making life difficult for the DX station and everyone else.

#8 I will not transmit when the DX operator calls another callsign, not mine.

Perhaps this is intuitively obvious, but it is a common occurrence. If it is clear that the station is not calling you, do not transmit.

#9 I will not transmit when the DX Operator queries a call sign, not like mine.

In life outside amateur radio it would simply be considered rude to answer when someone else is asked a question! How do you know if the station is calling you? Perhaps the DX operator has a partial version of your call. Is it me? “The timing is right!” Yes, the timing may seem right, but it may also be “right” for many other stations. If the DX is actually calling you and hears nothing, he will call you again. Then you can call. Only one letter from your call sign is NOT enough, however. Calling when not being addressed raises the floor level of QRM and slows progress dramatically.

#10 I will not transmit when the DX operator requests geographic areas other than mine.

You must recognise and accept that when an operator is calling for a specific geographic area (e.g. NA for North America, AS for Asia), you must not call until the operator’s instructions change. Even if his choice appears incorrect, you must follow his instructions. The DX operator is in control. Here’s an important point: If a DX operator is working, some area, perhaps North America , and he fails to say so between QSOs, do not begin calling immediately. Call only when it is clear that the operator’s instructions have changed. To do otherwise is impolite and simply slows the process.

#11 When the DX operator calls me, I will not repeat my callsign unless I think he has copied it incorrectly.

If you repeat your call sign, the DX station may think that he has your call sign wrong. He might then listen very carefully – again – thus slowing the process. A DX operator will generally log what he has if you say nothing further.

#12 I will be thankful if and when I do make a contact.

There should certainly be a pride of accomplishment when you get a QSO with a guy in a far-away entity. But before you start basking in the glow of accomplishment, think about the help you received from your partners, perhaps Mr. Icom, Mr. Alpha, and Mr. Force 12. If

your ego still feels a need to take ALL the credit, try again. But this time turn off your amplifier and connect your rig barefoot to a dipole. If you get through the pile up this time, then YOU, as the operator, can take more of the credit.

You should also acknowledge that you would not have had the contact without the skill of the operator at the other end who undoubtedly made sacrifices to be there for you. So be thankful for all this help you received.

#13 I will respect my fellow hams and conduct myself so as to earn their respect.

Respect is about behaving well toward others. DXing is very competitive. If you operate otherwise, you may acquire a bad reputation. DXing will be the most fun for everyone if we all behave with politeness, mutual respect and even a bit of humility!

DXpeditioners' Code of Conduct

This DXpeditioners' Code is to help maximize the fun for all participants. As the DX operator, you play a critical role in pileups: you are "in charge". Dealing with an unruly pileup of discourteous operators who have forgotten about ethical behavior is NOT fun. So it makes sense to plan and train ahead of time on how best to deal with the situation.

Good operators at the DX end and courteous behavior at the other end of the QSO can greatly increase the total number of QSOs logged. It has been demonstrated that pileups can be kept reasonably under control if the DX operator follows certain 'rules'. Luckily, some top operators have given us the benefit of their experience. Please peruse these suggestions.

It is also important that you tell the thousands of hams who want a QSO that you expect them to operate ethically in accordance with the DX Code of Conduct. If your DXpedition has a website or just a page at QRZ.com, please consider posting a notice on your website.

As a starter, consider posting our mascot with a link to this site. You may be as creative as you like. You might consider posting the Code itself on your website, just copy and paste . Whatever suits you. For further assistance, click here. For an example of how this might look, click here.

We also hope that you will tell us that you have linked to us so and we can publish your DXpedition and website at this site. More important, we hope that this initiative will play a positive role in making sure that you enjoy your trip.

NOTE: This page is organized as a Table of Contents. Click on each topic to go to a section of the document that explains it further. Some sections have links to a third page with even more details and links to various resources we think may help. Enjoy!

Do your Homework
Keep the DX community informed
Check TX frequency AND the RX range before starting up
You are the Boss and You are in Charge
Announce Your Callsign Frequently
Use Split Operation
Establish and Maintain a Rhythm
Work and log dupes, it's quicker
Give QSY/QRT information before leaving the pile-up
Establish a "Friendship" with the Pileup
Avoid working by numbers, continents are OK

Repeat corrected callsigns so everyone is sure of being safely logged
Be a role model

#1 Do your homework
Edison famously said, "Genius is one percent inspiration and ninety-nine percent perspiration. In DXpeditioning, success is ninety percent preparation.

Before traveling, read "DXpeditioning Basics ” by N7NG.This freely available publication is a must read for every DXpeditioner. Another good resource is "DX-peditioning Behind the Scenes" by Neville Cheadle, G3NUG & Steve Telenius-Lowe, G4JVG. You can order directly from the author by clicking on the title.

Study the propagation before you travel. There are three important population centers in the world: Europe, North America and Asia . From wherever you are, two are likely to be easy. The third one is the most difficult to work from your destination location so it becomes your “target area.” Make sure that you work the target area any time any band is open to that area.

Practice your QSO technique. Pick out the weaker stations. Provide training to your less-experienced operators in the finer points of both SSB and CW operating.

#2 Keep the DX community informed
The DX community appreciates a well organized website, some of which are works of art. If your operation is smaller and you do not plan to have a "full service" website, at least set up a QRZ.com page that states your location, dates of operation, and QSL information. Even with a complete website, a QRZ.com page with a link to your main website makes you easier to find.

#3 Check TX frequency AND the RX range before starting up
Always check for a clear TX frequency and find a clear RX range before starting up on a band. As a DXpeditioner, you have powerful tools to control the frequencies you use. If you have previously announced your frequencies, try to stick with them. However, conditions might demand a change. You may have to select your pileup RX place in a spot other than the busiest part of the band.

#4 You are the Boss and You are in Charge
In order to maintain control of the pileup you must operate in such a manner as to make control possible. It is easy to lose control of a pileup, and if you do, it may be your fault. Maintain good QSO mechanics. Use the same general pattern for every QSO. Select a callsign from the pile and stay with it until a satisfactory QSO results. If it is not possible to finish a QSO, solicit QSOs again. NEVER select another callsign without soliciting QSOs – QRZ, CQ, etc.

Issue clear instructions to the pileup and stick to them – always. For example, if you catch only part of someone’s call and give the partial out, do not work anyone else until you have completed with that station. If you call “NO EU,” DO NOT work any European callers. Ignore rude callers. Breaking your own rules just creates chaos. Stay in charge, but never shout to nor lecture the crowd.

#5 Announce Your Callsign Frequently, like (almost) every QSO
You should give you callsign often enough so that no one has to ask. If you don't give your call often enough, some callers will just log whatever callsign was last spotted on a

DXcluster (right or wrong) and some will ask for your call. That wastes time, interrupts your flow, and energizes the ever present frequency cops. Once per QSO is not too often.

If you are blessed with a real long callsign such as SV9/ON4ZZZZ/P, that's a lot to mention after every QSO so just be alert. If you hear someone asking “QRZ” or “What’s the DX?” on your TX frequency, you have waited too long.

#6 Use Split Operation

Assuming that you have gone to some relatively rare entity, you can start out by assuming that you will be dealing with a pileup. Don't wait until you have a large number of callers. Start out by operating split immediately. As soon as you are spotted on a DXcluster, the whole world will descend on you and you might as well be ready.

#7 Establish and Maintain a Rhythm

Standardize your transmitted messages as much as possible. For instance send a QSL or TU message at the end of every QSO and maintain a consistent pattern to help callers synchronize with you. That reduces the amount of out-of-turn calling. This is a well established technique for controlling a pileup. It gives the callers solid guidance in determining when and when not to call.

#8 Work and log dupes, it’s quicker

Work and log dupes: it is quicker than telling the duplicate callers that they are dupes, and it may be that they were unsure of a previous QSO. Use your website to announce your policy on duplicates, for example “Please work us only once on each band/mode slot to give others a chance for a new one.”

#9 Give QSY/QRT information before leaving the pileup

When you are about to leave the pileup, say what you are doing. Announce if you will QSY to another band/mode, perhaps giving out your new TX frequency. If you are going QRT for a while, give out your QSL information and website address. Don’t say, “QRX 5” unless you definitely are going to come back within 5 minutes as this just extends the band pollution unnecessarily.

if you don’t know how long you will be, it is better to say, “QRT,” but then come back on later when you are ready. When you get tired, slow down and take extra care over accuracy. If you start making too many mistakes, take a break and maybe a short sleep, whatever suits your body’s natural rhythm.

#10 Establish a “Friendship” with the Pileup

This is called the conversational style of pileup operating. This is perhaps one step beyond being friendly and not lecturing. It helps control the nature of the situation. Rather than have a group of antagonistic hounds, you put the callers at ease, and in the end give them confidence that you are fully interested in making a QSO with each of them. This style of operating is NOT a substitute for poor operating procedure, however.

Also remember the many operators who are not regular CW operators. They want a QSO too but may be able to copy code at, say, 20 wpm. DXpedition operators are sometimes whizzing along at 40 wpm. So keep an ear out for the guy who is calling at 20 wpm and respond to him at a speed he can copy easily. You will make another grateful friend.

Also remember that many operators have 100 watts and wire antennas. After the big guns all have their QSOs, work these guys because they are the backbone of the amateur radio community.

#11 Avoid working by numbers, continents are OK

When possible, try to avoid subdividing a pileup by numbers. Depending on propagation, try working a whole continent or several continents, or NOT working a particular continent. At times only working by numbers will work, however. Whatever method you choose, be sure to inform the pileup after every QSO.

Don't break your own rule by working your pals in NA if you are asking for "Eu."

#12 Repeat corrected callsigns so everyone is sure of being correctly logged

A valid QSO is when both stations have copied content and have logged it correctly. It is unrealistic to think that you will copy 100% of all callsigns the first time. On CW do not send a “question mark,” as in “ABC?” when returning to a partial callsign. For some obscure reason many (undisciplined) pileup callers take a 'question mark' as the sign to start transmitting again, although the partial callsign does not resemble their callsign.

So when you respond to a call with a partial as “ABC 5nn” and W5ABC responds, “W5ABC W5ABC 5nn TU,” it is proper that you respond “W5ABC QSL TU” That way W5ABC knows he is in the log and does not have to call again later to make sure.

If you made a mistake with someone’s call, he may keep calling you. Repeat his call or work them again, using “TU”, “QSL”, “CFM” or “You’re in the log” to let them know for sure that they are safely logged. This is even more important if you do not have an online log with daily updates.

#13 Be a role model

Standardize your transmitted messages as much as possible. For instance send a QSL or TU message at the end of every QSO and maintain a consistent pattern to help callers synchronize with you. That reduces the amount of out-of-turn calling. This is a well established technique for controlling a pileup. It gives the callers solid guidance in determining when and when not to call.

Conclusion

A number of people contributed to this document. It is thus a compendium of the work of others, here presented in a format that hopefully has included the best of what experienced DXpeditioners have had to say about this topic.

In the end, if DXpeditioners are better prepared, insist on good operating behavior from those calling them, and if those at the other end adhere to the DX Code of Conduct, everyone will have more fun. And that’s what it’s about.

Contesters' Code of Conduct

• The primary aim of a contest QSO is to exchange only the essential QSO information (normally callsigns, reports and contest-specific information such as zones number, state or serial number) as efficiently (meaning quickly and yet accurately) as possible. In most contests, anything further (greetings, QTH or station details etc.) is superfluous, slows down the QSO rate and reduces the achievable score

• If you hear a contest in progress and want to join in, look up the contest rules to find out what information to
send and whether you are eligible to participate. Check out the contest calendar and links to contest websites at http://www.hornucopia.com/contestcal/weeklycont.php

• Listen carefully before calling a contest station, ensuring that you have their callsign correct and haven’t already worked them. There are good logging programs that will help eliminate duplicate QSOs that waste valuable time.

• Consciously avoid causing interference, for example by transmitting an over modulated signal or CQing on a
frequency that is already in use Remember, listen first and listen hard and try calling "QRL?" before operating.
Don’t operate ‘split’ unless it is absolutely necessary.

• Call a contest station that is CQing at just the right instant, giving your full callsign once. That is usually enough. Most stations leave only a few brief seconds between their CQ calls so it is important to synchronize your call with their listening periods. Good stations get a rhythm going and it will help if you get in tune with that rhythm.

• Stand by for a moment if they go back to someone else. You shouldn’t have to wait very long. If they are really busy, make a note of their frequency and spend a few minutes hunting for other stations to work, then come back for another call.

• If they send your correct callsign plus a report and contest information, respond with just a report and contest information. However, if they send your callsign incorrectly, hesitate briefly just in case they are working someone else, but if you are certain they are working you, respond by sending just your full callsign again, once or twice but with no report until they get your callsign correctly.

• Do your level best to log their callsign and exchange information accurately, and to ensure they have all your
information correct (e.g. - repeating the essential information if conditions are marginal). Sometimes several
repeats are needed to complete the QSO but this is necessary to claim the points and avoid penalties.

• Having met the primary aim, you will both be grateful for the efficient QSO and points. It is polite for the CQ station to send “Thank you“ or “TU” to confirm the QSO has been logged. This reduces unnecessary duplicate QSOs due to not knowing whether the QSO was complete, and is the cue to move on to the next QSO.

• Remain courteous at all times, even when you are stressed or tired. If another station encroaches onto the
frequency you are using, use your filters, turn your antenna, ask them politely to move a little HF or LF as
appropriate and/or shift your frequency a little to reduce mutual interference, or take this as an opportunity to go searching for new QSOs on the same or another band.

• Respect other amateurs who are not in the contest, for instance by obeying ‘contest-preferred' frequencies and avoiding frequencies used by beacons, nets, DXpeditions and other modes. Keep the WARC bands a contest-free safe haven for those who do not enjoy contests.

• If you are using a club or another amateur’s station for the contest, be a good guest, for example by being
careful with the equipment, tidying up afterwards and not annoying other people in the house.

• Play fair. For example, if you are using DX Cluster to find new multipliers, spot multipliers for other contestants too.

• Comply fully with the rules of the contest both in letter and in spirit. Don’t even bend them.

• Take as much pride in your station and operating techniques as in the contest certificates and plaques hanging on your shack wall. Learn to take advantage of the propagation and make the effort to listen for weak callers.

Most of all, be polite, efficient and friendly and stick to the rules to earn the respect of your fellow amateurs.

The Code of Conduct for Using the DXcluster

• The clue is in the name. Only ‘spot’ genuine DX, ie relatively rare or exotic calls on that band, mode and time.

• ‘Spot’ DX stations that are ‘lonely’ but don’t ‘spot’ those who have been found the "proper" way, by operators who actually listen for DX. Give them a chance to get their QSO because the mob will decend on them as soon as they are spotted.

• Dont 'spot' stations that are already very busy or struggling to control their pile-ups – give them a break! Real DXers will probably be in the pile-up, if not in the log already. Repeatedly spotting’ huge pile-ups is showing off and merely encourages yet more QRM from those who are too lazy or incompetent to find DX for themselves.

• Avoid ‘spotting’ stations that have just been ‘spotted’ by someone else, unless you have useful additional information to pass on. Definitely don’t ‘spot’ a station that has just been ‘spotted’ by a million others, no matter how excited you are.

• It is impolite to ‘self-spot’ (‘spot’ your own callsign) unless you are desperately trying to start activity on an open but quiet band – and even then it is preferable to ‘spot’ a real DX station with a comment to the effect that the band is open.

• Never ‘self-spot’ in a contest; that is definitely cheating. Posting the ‘spot’ under a friend’s callsign or a fake call doesn’t make it any more ethical.

• Please do not ‘spot’ the exact QSX frequency for DX stations operating split – it just makes the pile-up on that frequency even more difficult for them to handle. It is also unnecessary; “Up” or “Down” is reminder enough because real DXers will of course listen first!

• Get the DX call and frequency right, double-check the information before ‘spotting’ and treblecheck
after ‘spotting’. Correct your mistakes promptly and apologetically, and learn the lesson.

• Respect the DX station’s wishes regarding ‘spotting’ if they indicate (whether on the air or on their QRZ page or website) that they do, or do not, want to be ‘spotted’.

• Use your own call (remembering that your IP address is logged automatically) and be polite.

• Never insult anyone via DXcluster; it is only a hobby – and we know your IP address.

• Do not post pseudo-spots begging for QSOs, QSYs, new modes or whatever. DXcluster is not e-mail. Assume the DX is either not monitoring the cluster, or is too busy to respond.

• Do not post lame ‘non-spots’ saying you cannot hear someone. Nobody but you really cares. (Telling us that you cannot hear the DX on your 18 element 160 metre yagi at 600 feet is fine though because we will all be laughing at you for playing ‘chequebook radio’.)

• Do not post brag spots (“Worked with 3mW!”, “Yipeee!!”, “Easy on my 24 ele quad” and “Thanks for DXCC#678”).

• Do not create and ‘spot’ fake callsigns just to test your software; ‘spot’ the station TE1ST as the DXcluster network doesn’t circulate spots with that call. (Definitely avoid ‘spotting’ fake calls starting with exotic prefixes (such as P5) as that is guaranteed to excite those who have DXcluster alarms set for their last few DXCC countries.)

• Do not try to make, complete or arrange DX QSOs via DXcluster. It is unsporting, cheating even.

• Do post helpful comments eg IOTA reference, QSL information etc.

• Configure the DXcluster filters appropriately. If you get annoyed at VHF spots, ANN/ALL announcements or beacon spots, just cut out the QRM using the DXcluster filtering facilities.

• Hint: while you may enjoy the challenge of mastering the DXcluster’s somewhat obscure and limited filtering commands, software such as VE7CC’s CC User and logging programs such as Logger32 make spot filtering much easier and more flexible. Another excellent program is DX Monitor at http://ve3sun.com/

> #6 I will always send my full call sign.Â
> Â Â This is essential for CW and SSB, because incomplete calls
lead to an extra transmission, slowing the operatorâ☐☐s progress
with the pileup. If the operator is responding to partial call signs, it
may appear that you should call with only several letters. Generally,
this is not the case. Always use your full call sign.
>
...Snip...

This point #6 also need to be in BOLD ... still hearing a lot of people yelling prefix Yankee Bravo only ....

Don't put DX Code of Conduct logo on your QSL card and/or website if you're not going to adhere to it.

Have a good DX es 73,
Iwan - W7NZ

http://www.gardenbeam.com/

The GardenBeam

A revolutionary new beam antenna by the TX3A DXpedtion Team!

If you ever wanted a beam but could not put up a tower, the GardenBeam is your solution.

Finally there is a beam antenna for amateurs who live in suburbs or restricted areas where they can not raise a tower. Or just for those who like to keep the peace with their wives or neighbors, many of who do not believe that a 25 meter tall tower enhances the looks of their neighborhood. Whatever the reason, the GB is a beam that will seriously enhance your ability to do DX without a tower or the space required by a vertical array.

The GardenBeam is a vertically polarized 20/15/10 meter, rotatable parasitic beam that performs well from low heights. Unlike a horizontally polarized Yagi, which must be mounted at least 1/2 wavelength above ground to have low enough radiation angle for DX (which is 10 meters at 14 MHz), the GB's vertical polarization gives it low angle radiation from as low as 3 meters (10 feet). The GB has gain, good front-to-back ratio and rejection from the sides. Everything you expect from a Yagi; all without the tower!

GB will not outperform a high quality Yagi mounted on a 30 meter tall tower. But it will be 4 to 6 dB better than a vertical mounted at ground level. Its sharp front-to-back (F/B) will allow you to null out QRM or QRN, and its inherently low angle of radiation will let you reach the DX with authority.

Background

The GardenBeam was born out of the DXpedition efforts of Tomi, HA7RY, and George, AA7JV. We have become well known to put big signals on all bands from difficult locations, such as Chesterfield Reef, Mellish Reef and Willis Islets, despite our modest set up. It was during their TX3A DXpedition to Chesterfield Reefs that we first started experimenting with vertical beam antennas.

1.
we have gotten good ideas

This work was continued at C6AGU in the Bahamas, where we constructed a floating parasitic vertical array for the 2011 ARRL DX CW contest
This work was continued at C6AGU in the Bahamas, where we constructed a floating parasitic vertical array for the 2011 ARRL DX CW contest. This antenna worked so well that we immediately started to think about creating a ground mounted version. The QTH of AA7JV, although located on the water's edge, is seriously space limited, so it was here that the first prototype of the GB was built. AA7JV's GardenBeam prototype has worked exceptionally well form a height of 2 meters (6 feet)! He was able to work on 20 meters from Florida into Europe with 1 watt on a regular basis. Some of that good performance was due to the proximity to the salt-water. Still, comparison tests with identically located verticals

quickly showed a 4 to 6 dB improvement. The GardenBeam was working and we decided to make it available to other amateurs who are hampered by space and height restrictions

The second one in Budapest. In height of 3.4m (10.3 feet)

GB 3 bander. The shortened version
In height of 9 feet (3 m)
At night
The tribander 20/15/10m
With the GB SW-5 (remote antenna switch)
In Friedrichshafen Camp of HAMRADIO
Vista with GB

Technology

The GardenBeam is a tri-band vertically polarized parasitic array that has been derived from a Yagi. Although a vertically oriented Yagi would perform well from low heights, it is not practical at frequencies below 50 MHz, as it must be mounted in front of the mast or tower, i.e. it must be mounted by the end of its boom.

The GardenBeam uses a set of vertical elements and a set of horizontal dipole elements, which are sized similarly to the elements of a Yagi. This results in a vertically polarized beam antenna that is well balanced and can be mounted at the center of its boom. This makes mounting on a rotator easy.

The antenna works well from modest heights. The minimum mounting height recommended is 3 meters (10 feet), as that puts the antenna above head (and eye) level. Performance improves only slightly when the antenna is mounted higher. The antenna is not totally independent of ground quality. Unlike with a ground mounted vertical, the effects of the ground immediately below the antenna are not large. Good quality ground will effect tuning some extent Poor quality ground, however, will not cause large losses and low efficiency. Ground in front of the antenna, however, just like with any vertical, will have a large effect on the far field gain.

Height (m) Poor Medium Good

3 4.2 4.1 5.3
4 4.6 4.4 5.3
5 4.8 4.5 5.2
6 4.9 4.5 4.88

Gain in dBi vs. height above Ground and soil quality.
GND: Poor .002 S and 12, Med .005 S and 13, Good .03 S and 20 (Diel Const)

The above table shows that there is almost no improvement when mounting the antenna higher. Indeed, over the good ground, the best performance is at 3 meters. Over salt-water, or up to 15 meters from the shore, the gain jumps to 10 dBi. This makes this antenna excellent for DXpedtions where the antenna can be mounted near the water. Indeed, not only does the GB eliminate the need for a tower, but from near the sea shore, it will perform better than almost any practical horizontal Yagi and tower combination.

http://pt0s.com/equipment.html

EQUIPMENT

Transport: We will travel from the city of Natal aboard a Brazilian fishing vessel. The distance is 550 nautical miles (990 km) which is a four day trip. Cargo capacity is limited and these fishing vessels are not overly comfortable.

TX Antennas: There will be three TX antennas: Two SpiderPole based verticals, each fed by an antenna coupler, and the newly developed Garden Beam, a rotatable tri-band vertical parasitic array. Conditions on Belmont do not allow for the installation of antennas with large footprints and we must be sensitive to the environmentally critical nature of the rocks, therefore the use of simple and light antennas. The main TX antenna, intended for 160, 80 and 40 meters, will be an inverted L, mounted on the edge of the rocks on the northernmost tip of Belmont, about 3 meters above the water's edge. Grounding will mostly be through the salt-water. The antenna will be fed via a high power automatic antenna coupler, similar to the one used on our previous DXpedition. A second vertical, to be used on 80, 40 and 30 meters, will be located on the east side of Belmont, approximately 50 meters from the main TX antenna.

The new 3 Element Tri-Band Garden Beam is undergoing testing at AA7JV's QTH.
This antenna will give us beam performance without the need for a tower. The antenna covers 20, 15 and 10 meters.

The Garden Beam, which covers 20, 15 and 10 meters, will be located on a small stand 2 meters above the rocks. The GB is a unique vertically polarized antenna that provides substantial gain and front-to-back even when mounted low above the ground. Unlike a regular Yagi, which must be mounted high above the ground for low angle radiation, the GB achieves low angles even when mounted very close to the ground. This eliminates the need for a tower or mast. For details go to : http://gardenbeam.com/
Predicted 20 m horizontal radiation pattern of the GB mounted 2.5 m above the rocks. Note the low take-off angle -- thanks to the salt water around. Test results at AA7JV's QTH, with the antenna mounted 7 meters from the water's edge, closely follow the predictions.

RX Antennas: Because of the lack of space on Belmonte, we will install two remotely controlled small DHDL antennas, and their associated filters and pre-amplifiers, on a rock named Cabral, about 70 meters north of the main TX antenna. The coax and control cables will run underwater to Belmont. We hope that this arrangement will allow us to operate simultaneously on two bands, especially on 160 and 80 meters, without compromising our low-band RX capability. A description of the DOUBLE HALF DELTA LOOP antenna used by TX3A can be downloaded from the following
URL: http://tx3a.com/docs/TX3A_DOUBLE_HALF_DELTA_LOOP.ZIP

Transceivers and Amplifiers:
We will have two stations. Both stations will use K3 transceivers. The main station will have two combined SG-500 amplifiers for an output of 1000 W, while the other station will have a single SG-500 amplifier for an output of 500 watts.

AC Power:
Two 240 V, 1.5 kW Honda generators will provide AC power. All radios and amplifiers will run on 12 V DC. There will be two battery banks: two paralleled 12 Volt 60 Ahr car batteries for the transceivers and six paralleled batteries for the power amplifiers. The batteries will be continuously replenished via two 80 A battery chargers. This arrangement, which we have tested and refined on VK9GMW and TX3A, provides the most efficient use of the generators, as the batteries act as buffers, allowing the generators to run in their Eco mode most of the time. This will be critical, as our allowable fuel load is only 400 liters, which works out to around 28 liters (or 7 gallons) per day, for a 14 day operation. Fuel efficiency will be key to being able to use full power during the entire operation. Also, by being very fuel efficient, we will be complying with the mandate to be extremely environmentally friendly, and bring a minimum impact to this sensitive area.

OM,
Bagimana kalo stasiun radio Brazil PP5BS ditulis pada DX Cluster VP5BS ?

Big pileup - dan karena dalam QSO terutama kondisi pileup seperti itu tidak ada konfirmasi callsign, maka yg baru QSO dg stasiun itu dan spotting berikutnya juga menulis VP5BS.

Pileup semakin seru, rame - belakangan kecewa karena ternyata stasiun Brazil, bukan dari Turks & Caicos.

OM,
Sedih ya kalo stasiun EU selalu gak disiplin - sangat gak disiplin.
Saya spot di DXwatch minta kesempatan utk OC - walaupun katanya cara ini juga gak bagus utk satu cluster yg bukan utk request2 begini.

Entah mengapresiasi request ini atau memang mereka kasih kesempatan, operator PT0S mempersilahkan OC/AS utk panggil di + 5kc, tapi isinya frequency itu tetap saja ramai gak keruan dari stasiun2 EU.
Berulangkali diminta mereka kecuali OC/AS utk standby - gak mempan.

OM Dani,
Masalah nyampe or tidaknya signal kita belum tahu deh, masalahnya banyak stasiun EU yang tumpuk2an di frequency monitornya PT0S buat kita (OC/AS).
Walaupun op. PT0S sdh minta EU standby dulu karna dia khususkan utk OC/AS tetap aja mereka gak peduli.
Waktu di 15M, saya juga sempat spot (request) "Pacific area pse..!!" - alhamdulillah beberapa menit kemudian dia panggil OC/AS dan malahan terakhir dia panggil "Any other frm Indonesia ??"
Kalo gak salah monitor saat itu juga ada OM Zen-YB0MZI/4.

OM Dani,
Masalah nyampe or tidaknya signal kita belum tahu deh, masalahnya banyak stasiun EU yang tumpuk2an di frequency monitornya PT0S buat kita (OC/AS).
Walaupun op. PT0S sdh minta EU standby dulu karna dia khususkan utk OC/AS tetap aja mereka gak peduli.
Waktu di 15M, saya juga sempat spot (request) "Pacific area pse..!!" - alhamdulillah beberapa menit kemudian dia panggil OC/AS dan malahan terakhir dia panggil "Any other frm Indonesia ??"
Kalo gak salah monitor saat itu juga ada OM Zen-YB0MZI/4.

OM,
Bagimana kalo stasiun radio Brazil PP5BS ditulis pada DX Cluster VP5BS ?

Big pileup - dan karena dalam QSO terutama kondisi pileup seperti itu tidak ada konfirmasi callsign, maka yg baru QSO dg stasiun itu dan spotting berikutnya juga menulis VP5BS.

Pileup semakin seru, rame - belakangan kecewa karena ternyata stasiun Brazil, bukan dari Turks & Caicos.

Iya, setuju 100% untuk tidak 100% percaya DX Clusters.
Sudah banyak kejadian "kecelakaan beruntun" - satu salah, lainnya ikutan salah.

Tapi kenapa ya posting saya ini semalam, koq baru muncul di milis sekarang ya ?

J6 St Lucia DXpedition

The “Buddies in the Caribbean” suitcase mini-DXpedition group which specializes in 100 watt or less low power radios and Buddipole portable antenna systems is back again to St Lucia (J6) on Dec 2– 11, 2012.
The north shore villa location was magnificent on our first visit in Feb 2010 and subsequent visits in December of the following years with a new group of operators. Our goal is to demonstrate “ultralite” DXpeditioning into magnificent “vista” locations, operating a field portable battery-only radio with backpackable, lightweight antennas and most of all “having fun” with a new group of operators who have never experienced the “other side of a pileup!”
The eight operators this Dec 2012 are: Everett/W6ABM, Robert/N7QT, Hugh/W4VAB, Bryan/WB8ISG, Scott/KA9P, and Jerry/W5TDY, Budd/W3FF, and Guy/N7UN. There will be 3 villa stations in operation on 160-10m using CW, SSB, and RTTY or PSK. At the same time, several teams will be battery-only, field portable either from St Lucia beaches or scenic mountain tops and will sign call/p. They group will participate in the ARRL 10m contest (callsign: J68UN) on Dec 8-9th.
QSL via LoTW, eQSL or mail to the operator’s home callsign (SASE required).

DXNL 1806 - Nov 14, 2012
DX Newsletter

5T, MAURITANIA
Jean,ON8RA, will be active as 5T0JL from Nouakchott on Nov 16. He will be part of the 5T0SP DXpedition (Nov 24-Dec 10). QSL via ON8RA.

9M2, WEST MALAYSIA
Before going to VK9 (see below) Seppo,OH1VR, and Henri,OH3JR, will be QRV as 9M2/homecalls in CW, SSB and RTTY on 160m-6m until Nov 15.
QSLs via homecalls, unfortunately only direct (SAE + IRC or 2 USD).

A3, TONGA
Mat,JA1JQY (A31JY), Sasi,JA1KJW (A31KJ), Karl,JA3MCA (A31MA), and Kuni,JA8VE (A31VE), are working in SSB, CW and RTTY on 160m-10m until Nov 15. QSLs via homecalls.

C5, GAMBIA
Pedro,ON7WP/AA9HX, is active as C5WP from Sami (Loc IK13uj) until Nov 18. Due to his QRL (installing a local tourism organization) he is only sporadically QRV from his QTH with a free view over the Atlantic.
He uses an IC706 with 50 watts, dipoles or MP1 on 40m-10m especially on 7145, 14345, 18145, 21345, 24945 and 28445 kHz.
QSL via ON7WP, unfortunately only direct, donations are welcome for:
http://www.africajeepsafari.com/

D2, ANGOLA
After a two week vacation in the Maldives, Mike,UA1QV, will be heading back to work in Vila de Catoca (LOC KI00dn) about 30 km from Saurimo.
Once again he will be active as D3AA from Nov 15 until Feb 15.
Reports indicate that he is taking with him a 2 ele 40m rotatable quad and a fixed 2 ele 80m quad antenna. QSL via UA1QV.

E5, SOUTH COOK ISLANDS, OC-013
Henrik,OZ6TL, will be active in holiday style signing E51TLA from Rarotonga (OC-013) in CW and RTTY between Nov 18 and Dec 8.
QSL via OZ6TL, LoTW.

EL, LIBERIA
the VooDoo Contest Group is active again from the capital Monrovia for the 24th time from Nov 17-27. They plan to join the WWDX CW Contest in the M/M category as EL2A. Outside of the contest the operators will use their own personal callsigns Ned,AA7A (EL2ES), Roger,G3SXW (EL2A), Fred,G4BWP (EL2WP), John,G4IRN (EL2RN), Mike,KC7V (EL2MF), Lee,KY7M (EL2LF), and Bud,N7CW (EL2CW). Logs will be uploaded to LoTW and ClubLog (with OQRS) as soon as possible.
QSLs for EL2WP via G5LP, all others via their homecalls.

F, FRANCE
Rodrigue,F8DFO, and Jeremy,F4DVJ, are going to activate the special event station TM2VD until Nov 18, from Dec 7-12 and from Jan 2-4, 2013, in memory of Robert Delrue, F3VD. Operations will take place in CW, SSB and digital modes on 80m-10m. QSL via F8DFO.

I, ITALY
The special event station II5TNA remembers the 10th anniversary of the death of Roberto,I5TNA, until Nov 30. QSL via IZ5JLW.
See also: http://www.ariversilia.it

JT, MONGOLIA
Mongolian HAMs are celebrating the 850th birthday of Chinggis Khan with several special event stations using the special prefix JU850 from Nov 14-21. They have also a special award.
See: http://www.mrsf.mn/index.php?option=com_content&view=article&id=85&Itemid=101&lang=en

P4, ARUBA, SA-036
John,W2GD, is active as P40W from Nov 18-29, incl. the WWDX CW Contest. He will be QRV in SSB on 30m/17m/12m before and after the contest.
QSL via N2MM, LoTW.

PJ4, BONAIRE, SA-006
Kelly,N0VD, Scott,W4PA, and maybe also other OPs will show up as PJ4D in all modes on all bands from Bonaire (SA-006, WLOTA 1279, Loc FK52nc, WFF PAFF-024) from Nov 18 until Dec 1. PJ4D was activated during the "New DXCC Entity Activation" with almost 36.000 QSOs in Oct 2010.
They plan to join the WWDX CW Contest as well.
QSL via W3HNK, unfortunately only direct. See also: http://www.n0vd.com
---
John,PJ4/K4BAI, Jeff,PJ4/KU8E, Paul,PJ4/K1XM, and Al,PJ4/W1FJ, will be QRV from Ricon on Bonaire (SA-006, WLOTA 1279, WFF PAFF-024) from Nov 20-27. Listen for PJ4A in the WWDX CW Contest.
QSLs for PJ4A, PJ4/K4BAI and PJ4/KU8E via K4BAI;
PJ4/K1XM and PJ4/W1FJ via homecalls, both unfortunately only direct.
See also: http://www.pj4g.com

PJ7, SINT MAARTEN, NA-105
Kazu,7L4XDT (PJ7XK), and Masa,JN3NFQ (PJ7I), are going to visit Sint Maarten (NA-105) from Nov 18-24 and will be QRV with two stations in CW, SSB and digital modes on HF and 6m.
QSLs for PJ7XK via 7L4XDT, QSLs for PJ7I via JG2BRI.
Logsearch available at ClubLog. See also: http://www.qsl.net/pj7i

PY, BRAZIL
Several Brazilian HAMs will activate the special event station ZV7O from the FLIPORTO 2012 (Festa Literaria Internacional de Pernambuco) on Nov 17/18. They have issued a special award as well. QSL via PY7JN.
See also: http://www.fliporto.net/fliporto2012/en/fliporto-2012 and http://labre-pe.spaceblog.com.br/

PZ, SURINAME
Yuri,VE3DZ, will be QRV as PZ5T from Nov 20-27 and in the WWDX Contest.
He will work in CW, SSB and RTTY before and after the contest.
QSL via homecall.

SV, GREECE
All licensees in Greece are allowed to work on HF now, CW knowledge is
not necessary anymore. The current SW prefixes of the former VHF/UHF
HAMs are changed to SV while keeping the suffix, SW1XYZ is SV1XYZ then.
The J4 special callsigns will expire at the end of the year and will
not be issued anymore. Instead they will use SW prefixes, SW9C was QRV
already. One fo the last chances to work J43J (most likely on 10m)
will be during the WWDX CW Contest. QSL for J43J via DJ5JH.

TJ, CAMEROON
Nicolas,F8FQX (ex-5T5SN, ex-TN5SN), will stay in Yaounde (Loc JJ53su)
for the next three or four years. At the moment he is waiting for his
licence, he has applied for TJ3SN. Details are not known. Stay tuned!

VK9/LH, LORD HOWE ISLAND, OC-004
Seppo,VK9/OH1VR, and Henri,VK9/OH3JR, are planning to activate
Lord Howe Island (OC-004, VKFF-295, Loc QF98) in CW/SSB/RTTY on 160m-6m
from Nov 17-27, including the WWDX CW Contest.
QSLs via homecall, unfortunately only direct (SAE + IRC or 2 USD).
See: http://personal.inet.fi/private/oh3jr and http://www.oh1vr.net

YA, AFGHANISTAN
Mike,KI4MRH, is working as T6MH on 80m-10m (not on 30m) in SSB and
digital modes (PSK-31/PSK-63/JT-65) until Oct 2013. He runs 100 watts
in SSB and 30 watts in digital modes with 40m Inverted Vee and
20m vertical. Only eQSLs available at the moment but Mike wants to
create a LoTW account as well. Paper QSLs only direct via homecall.

YN, NICARAGUA
Mike,AJ9C, announced to be QRV as YN2CC from Grenada in Nicaragua
(Loc EK71au) from Nov 20-28, incl. the SOLP category of the WWDX CW.
He works in CW, SSB and RTTY (with 3 ele Quad for 6m @ 65') on 160m-6m.
QSL via homecall (QRZ.com).

STAMPS: Those who think US Dollars are too unsafe and IRCs are too expensive
should consider the use of a SASE. Stamps can be obtained from a stamp
dealer or at the following webshops: http://herrickstamp.com
http://www.arvelo.net/N2MZZ/N2MZZ-V02/nomenu-w-plum-site.html
http://www.briefmarken-schneider.ch

CW OPs wanted: Two CW op's are needed for D4C during the ARRL 10m Contest.
If you are interested please contact Fabio,I4UFH. See: http://d4c.cc

DXCC: Following DXpeditions of 2012 were approved for DXCC credit:
5X1EME, TT8TT, VU7M, ZD9UW

LoTW: After some maintenance the LoTW is now back online since Nov 9.
No data was lost.

SILENT KEYS: Frank Scotland, ZF1GC, passed away at the age of 94.
Marjoke (Mary),ZS5V, XYL of Joost,ZS5S, informs us that her husband became a silent key on Oct 29 after a 3 month battle with cancer.
He died peacefully at home.
Pieter Botha ("The African Cowboy"),ZS4PB, passed away on November 7, aged 86. Pieter was a Topband DXer and one of the best known African DXers of the past 60 years.
Our condolences and sympathy are with their families and friends.
We do not want to be sad that we lost them, but grateful that we could get to know them as a radio friend. We will always keep them in memory.

LINKS: Current SOTA activities (mountain summits) are announced at:
http://www.sotawatch.org

Detailed information about current VHF activities can be found on the VHF DX portal "Make More Miles on VHF" at: http://www.MMMonVHF.de

UPCOMING CONTESTS

Nov 16 UFT-YL-CW Contest (80m)
Nov 17 South America SSB Contest
Nov 17 UFT-YL-CW Contest (40m)
Nov 17/18 RSGB 1.8 MHz Contest
Nov 17/18 LZ DX Contest
Nov 17/18 All Austrian 160m Contest 2012
Nov 18 HOT Party
Nov 24/25 CQ WWDX Contest, CW

IOTA compiled by Klaus, DL7UXG (e-mail: iota@...)

Island activities:
AF-003, ZD8, Ascension Island: Oliver,W6NV, will be QRV as ZD8W on all HF bands from Ascension Island (WLOTA 1491) from Nov 18-30, incl. WWDX CW.
QSL only direct via W6NV.

AF-014, CT3, Madeira Archipelago: Arno,DL1CW, Ulf,DL5AXX, Frank,DL8WAA, Uli,DJ2YA, Falk,DK7YY, Gena,UA9MA, Mike,UA9PM, and Ruslan,UA9ONJ, plan to show up as CT9/homecalls from Santana on Madeira (AF-014, DIP MA-001, PIP MD-001, DPRN FF-101, WFF CTFF-030, WLOTA 0053) from Nov 20-27. They will sign CR3L in the M2 class of the WWDX CW Contest.
QSLs via homecalls, CR3L via DJ6QT.

AN-007, VP8/SG, South Georgia Islands: Like announced before Mike,GM0HCQ/mm, is active from onboard the Royal Research Ship "James Clark Ross" from the South Atlantic. Whilst in Antarctic and Falkland Islands waters he uses the call VP8CMH/mm, at all other times he uses GM0HCQ/mm. The ship will stop at the base "M" (WAP GBR-24/WFF GFF-023) at King Edward Point on South Georgia (AN-007) on Nov 18/19. Mike hopes this will be an overnight stop which would increase the time of being active as VP8SGK.
He works only in SSB. QSLs for all calls only direct via GM0HCQ.
See also: http://www.gm0hcq.com

EU-026, JW, Spitsbergen Island: Jorn,LA1U, Borge,LA4KQ, and Olav,LA9OI, are going to hit the airwaves from the QTH of JW5E on Svalbard signing JW1U (Jorn), JW4KQ (Borge) and JW9OI (Olav) from Nov 22-26.
Nevertheless they will join the WWDX CW Contest as JW5E.
Their own QSLs via homecalls. QSLs for JW5E direct (see QRZ.com).
See also: http://www.jw5e.com

NA-002, VP5, Caicos Islands: Dave,W5CW, will again be QRV from the VP5JM "Hamlet" on Providenciales Island (NA-002, Loc FL31vs) signing VP5/W5CW in CW and SSB on 160m-6m from Nov 20 until Dec 11. Dave's main focus will be the upcoming WWDX CW Contest (Nov 24/25), using the call VP5CW. On 6m he will monitor 50.125 MHz USB.
QSLs for VP5/W5CW and VP5CW only direct via W5CW.

NA-018, OX, Greenland: Henning,OZ1BII, will sign XP2I from Kangerlussuaq (Sondrestromfjord, WLOTA 0072, WFF OZFF-006, Loc GP47pa) on Nov 17/18, during the LZ DX CW (SOABLP). He plans to show up in CW on 80m and the Top Band on Nov 18 around 2200 UTC and on Nov 19. QSL via OZ1BII.

NA-021, 8P, Barbados: Dave,WJ2O, will be QRV as 8P9DF mainly in Cw on the HF bands from the Surfsong Resort on Barbados (WLOTA 0999, Loc GK03gd) from Nov 20-28, including the WWDX CW. Before and after the contest he prefers to work on the WARC bands. QSL via WJ2O (d).
See also: http://www.wj2o.com

NA-080, C6, Little Bahama Bank group: Bob,N4BP (C6AKQ), Tim,N4UM (C6ARU), and Mike,K4RUM (C6AUM), want to hand out a few IOTA points from Grand Bahama Island (WLOTA 0527, Loc FL06pm) between Nov 20 and Dec 11. This operation includes activities during the WWDX CW, ARRL 160m and ARRL 10m Contests. Before and after the contests Tim,C6ARU, will focus on the digital modes (e.g. PSK31, Olivia and RTTY) and Bob,C6AKQ, will be active in CW on 160m-6m.
QSLs for C6AKQ via N4BP (d), C6ARU via N4UM (bureau/direct) and C6AUM via K4RUM (bureau/direct).

NA-101, J7, Dominica: Thomas,K7ZZ, is staying on Dominica again for 14 days starting on Nov 14. Listen for J75Z on the HF bands including the WWDX CW Contest. QSL direct via K7ZZ. Logs will be uploaded to LoTW.

NA-105, FS, St. Martin: John,FS/K9EL, and Nick,FS/K9NB, will be QRV from St. Martin (DIFO FS-001, WLOTA 0383) in CW/SSB/RTTY on 80m-10m from Nov 20-28, including the WWDX CW Contest. Logs will be uploaded to LoTW and Clublog after his return home. QSLs via homecalls.
See also: http://www.k9el.com

NA-107, FM, Martinique: Dimitry,UT5UGR, is going to visit again Ducos on Martinique (DIFO FM-001, WLOTA 1041) and plans to become active as FM/KL7WA from Nov 19-26. He will join the WWDX CW as TO7A.
QSLs for both calls via UT5UGR (d). See also: http://www.ut5ugr.com

SA-014, PY0/S, St. Peter and St. Paul Rocks: The PT0S DXpedition announced in last DXNL extended its stay to join the WWDX CW Contest as well.

SA-036, P4, Aruba Island: Valery,R5GA, will be QRV again from the QTH of
    P49V on Aruba (WLOTA 0033, Loc FK52am) signing P4/R5GA from Nov 18-26.
    He will sign P40F in the WWDX CW Contest.
    QSLs for both calls via UA3DX (bureau/direct).

OM Dani,
Masalah nyampe or tidaknya signal kita belum tahu deh, masalahnya banyak stasiun EU yang tumpuk2an di frequency monitornya PT0S buat kita (OC/AS).
Walaupun op. PT0S sdh minta EU standby dulu karna dia khususkan utk OC/AS tetap aja mereka gak peduli.
Waktu di 15M, saya juga sempat spot (request) "Pacific area pse..!!" - alhamdulillah beberapa menit kemudian dia panggil OC/AS dan malahan terakhir dia panggil "Any other frm Indonesia ??"
Kalo gak salah monitor saat itu juga ada OM Zen-YB0MZI/4.

M6 Solar Flare Heading Towards Earth

Image Caption: Visible in the lower left corner, the sun emitted an M6 solar flare on Nov. 13, 2012, which peaked at 9:04 p.m. EST. This image is a blend of two images captured by NASA's Solar Dynamics Observatory (SDO), one showing the sun in the 304 Angstrom wavelength and one in the 193 Angstrom wavelength. Credit: NASA/SDO
Lee Rannals for redOrbit.com – Your Universe Online

NASA said that the sun emitted a mid-level solar flare on Tuesday that has the potential of causing some radio blackouts.
The solar flare reached a classification of M6, which falls into the weakest flares that are still able to cause some space weather effects near Earth.
According to the National Oceanic and Atmospheric Association’s Space Weather Scales, this M-class flare can cause a radio blackout categorized as R2, or moderate.
The sun is entering a new cycle, heading towards solar maximum, which is expected to peak in 2013. This cycle will see increased solar activity.
Humans have been tracking this solar cycle continuously since it was first discovered in 1843, and it is normal for there to be many flares a day during this activity.
Tuesday’s flare was not associated with a coronal mass ejection (CME), which is another solar phenomenon that can send solar particles into space and reach Earth one to three days later.
The M6 flare was captured by NASA’s Solar Dynamics Observatory (SDO). By observing the sun in a number of different wavelengths, NASA telescopes are able to help tease out different aspects of events on the sun.
Harmful radiation from solar flares cannot pass through Earth’s atmosphere to physically affect humans on the ground, but they can disturb the atmosphere in the layer where Global Position System (GPS) and communication signals travel.
The radio signals from these satellites lay in an area that could be disrupted anywhere from just a few minutes, to a few hours.
NASA will be providing updates as needed with this solar flare heading Earth’s way, and redOrbit will be keeping you informed of any danger it may pose to Earth’s satellites.

PENGUMUMAN
Nomor : UM.04.01/27/LOKA.17/11/2012

UJIAN NEGARA AMATIR RADIO TAHUN 2012

Diberitahukan kepada masyarakat pengguna frekuensi radio bahwa Ujian
Negara Amatir Radio
untuk Wilayah Propinsi Bengkulu akan dilaksanakan pada :

Hari/Tanggal : Minggu 25 Nopember 2012
Jam : 09.00 sd selesai
Tempat Pelaksanaan : Kantor Loka Monitor Spektrum Frekuensi Radio
Jl. Bhakti Husada No.89 Lingkar
Barat Bengkulu
Telp : 0736 20963

Pendaftaran dapat dilakukan langsung melalui ORARI Lokal
Kota/Kabupaten sepropinsi Bengkulu
dan dihimbau kepada anggota ORARI yang masa laku IAR akan/kadaluwarsa,
segera mengurus perpanjangan.

Bengkulu, Nopember 2012

Thanks OM Busan.

Beberapa hari yll saya terima peringatan dari "Yahoo" - menurutnya ada seseorang yg sedang membuka/berusaha membuka account yahoo saya dari tempat lain (IP address gak spt biasanya).

Saya curiga, walaupun mereka pakai logo Yahoo!, saya coba klik utk cek seperti sarannya, maka selanjutnya saya masuk ke halaman seperti kalo kita mau masuk/sign in.
Saya perhatikan URLnya ternyata bukan yg biasa Yahoo punya - tapi tertulis "glorykkk.....".

Iseng saja saya seolah sign in tapi account & password sengaja saya tulis ngawur/asal - ternyata bukan ditolak seperti biasa kalo kita sign in salah tulis tapi langsung "dimasukkan" ke webnya yahoo!.

Phissing - trik utk mendapatkan password kita.
Berhati2lah bila kita dapat peringatan serupa.

OM,
Bagimana kalo stasiun radio Brazil PP5BS ditulis pada DX Cluster VP5BS ?

Big pileup - dan karena dalam QSO terutama kondisi pileup seperti itu tidak ada konfirmasi callsign, maka yg baru QSO dg stasiun itu dan spotting berikutnya juga menulis VP5BS.

Pileup semakin seru, rame - belakangan kecewa karena ternyata stasiun Brazil, bukan dari Turks & Caicos.

Ada Om Hen,

Malam hari saya selalu Syand By Om, Kalau di 40M (7045 MHz), di 20M (14200 MHz } dan kalau di 15M saya Stand By kan di 21200 MHz juga, hanya tidak bersamaan, kalau nggak ada di 20M berarti saya ada di 15M,
kecuali di 40M saya tetap Stand By di 7045 MHz.
Hanya beberapa hari kemaren saya tidak On Air Om.
kebetulan ada pekerjaan yang harus di selesaikan selama 8 hari di JKT.
baru tadi malam saya mulai On Air lagi, dan begitu Checkin di Borneo Net, eh Langsung di suruh lanjutkan sampai selesai. hehehe

Sueb.

SB DX ARL ARLD047
ARLD047 DX news

This week's bulletin was made possible with information provided by KX9X, NC1L, RW6HS, YF1AR, QRZ DX, The Weekly DX, the OPDX Bulletin, 425 DX News, The Daily DX, DXNL, Contest Corral from QST and the ARRL Contest Calendar and WA7BNM web sites. Thanks to all.

LESOTHO, 7P. Gerry is QRV as 7P8CC and has been active using CW on 10 meters around 1300z and then 1730z. QSL via EI7CC.

MOROCCO, CN. Special event station 5G12ITD is QRV until December 16 for International Tolerance Day. Activity is on all bands and modes. QSL via RW6HS.

ANGOLA, D2. Mike, UA1QV is QRV as D3AA from Vila de Catoca until February 15, 2013. QSL to home call.

SOUTH COOK ISLANDS, E5. Henrik, OZ6TL will be QRV as E51TLA from Rarotonga, IOTA OC-013, from November 18 to December 8. Activity is holiday style on the HF bands using CW and RTTY. QSL to home call.

LIBERIA, EL. Operators AA7A, G3SXW, G4BWP, G4IRN, KC7V, KY7M and N7CW will be QRV as EL2ES, EL2A, EL2WP, EL2RN, EL2MF, EL2LF and EL2CW, respectively, from Monrovia from November 17 to 27. Activity will be on the HF bands. This includes being an Multi/Multi entry in the upcoming CQ WW DX CW contest as EL2A. QSL EL2WP via G5LP and all others via home calls.

DOMINICA, J7. Thomas, K7ZZ is QRV as J75Z until November 28. Activity is on the HF bands. This includes an entry in the upcoming CQ WW DX CW contest. QSL direct to home call.

MONGOLIA, JT. In celebration of the 850th birthday of Genghis Khan several special event stations are using the special prefix JU850 until November 21.

GREENLAND, OX. Henning, OZ1BII will be QRV as XP2I from Kangerlussuaq on November 17 and 18. He plans to be a Single Op/All Band/Low Power entry in the LZ DX CW contest. QSL to home call.

BONAIRE, PJ4. A group of operators will be QRV as PJ4D from November 18 to December 1. Activity will be on all bands and modes. This includes an entry in the upcoming CQ WW DX CW contest. QSL direct via W3HNK.

ST. MAARTEN, PJ7. Kazu, 7L4XDT and Masa, JN3NFQ will be QRV as PJ7XK and PJ7I, respectively, from November 18 to 24. Activity will be on the HF bands and 6 meters using CW, SSB and various digital modes with two stations active. QSL PJ7XK via 7L4XDT and PJ7I via JG2BRI.

ST. PETER AND ST. PAUL ROCKS, PY0S. A group of operators are QRV as PT0S until November 25. Activity is on 160 to 10 meters, and possibly 6 meters conditions permitting, with three stations using CW, SSB and RTTY. This includes being an entry in the upcoming CQ WW DX CW contest. QSL via HA7RY.

SURINAME, PZ. Yuri, VE3DZ will be QRV as PZ5T from November 20 to 27. This includes an entry in the upcoming CQ WW DX CW contest. Before and after the contest he will be active using CW, SSB and RTTY on the HF bands. QSL to home call.

LORD HOWE ISLAND, VK9L. Seppo, OH1VR and Henri, OH3JR will be QRV as VK9/homecalls from November 17 to 27. Activity will be on 160 to 6 meters using CW, SSB and RTTY. This includes an entry in the upcoming CQ WW DX CW contest. QSL direct to home calls.

NICARAGUA, YN. Mike, AJ9C will be QRV as YN2CC from Granada from November 20 to 29. Activity will be on 160 to 6 meters using CW, SSB and RTTY. This includes an entry in the upcoming CQ WW DX CW contest. QSL direct to home call.

ASCENSION ISLAND, ZD8. Oliver, W6NV will be QRV as ZD8W from November 18 to 30. Activity will be on all bands. This includes an entry in the upcoming CQ WW DX CW contest. QSL direct to home call.

OPERATION APPROVED FOR DXCC CREDIT. The following operation is approved for DXCC credit: Uganda, 5X1EME, 2012 operation.

OUTDATED INFORMATION. As reported in DX News ARLD046, special event station YB26SEAG was actually QRV during 2011. This station is currently not active.

THIS WEEKEND ON THE RADIO. The ARRL SSB Sweepstakes Contest, All Austrian 160-Meter CW Contest, RSGB 2nd 1.8 MHz CW Contest, QRP CW Fox Hunt, NCCC Sprint, YO International PSK31 Contest, CQ SA SSB

Contest, SARL Field Day Contest, LZ DX Contest, Feld Hell Sprint, NA Collegiate ARC SSB Championship, EPC PSK63 QSO Party and the Homebrew and Oldtime Equipment CW Party will certainly keep contesters busy this upcoming weekend. The Run for the Bacon QRP CW Contest is scheduled for November 19. The QRP CW Fox Hunt is scheduled for November 21. Please see November QST, page 91 and the ARRL and WA7BNM Contest websites for details.

Om Hendro,

Kalau kita worked ama dia dikasih duit gak ya?
Udah berapa band dengan PT0S om hendro?
Aku sebenarnya 2 band, cuma yg di 17m ga ada di log dia, jangan2 pirate
yang jawab ya om..
Kalau ga pakai CLUB LOG susah ngeceknya, biasanya kalau salah tulis
callsign gampang ngeceknya di Club Log.

OM Zen,
Baru satu di 15M kalo gak salah yg barengan OM Zen dan OM Sueb/YB7BIM tengah malam itu. Masih berusaha di 10M, tapi susah walaupun sdh dikhususkan OC/AS. karena masih ditutup EU. Malahan ada spot yg mengatakan "lebih mudah menang jackpot daripada wkd dg PT0S", saya juga gak tahu tuh dengan melebarkan range QSXnya - apakah memudahkan kita utk berhasil atau justru malahan lebih sulit.

Kontak OM Zen yg di 17M mungkin belum di upload, jadi blm muncul sabar saja sambil juga mengulang kalo kebetulan muncul lagi di 17M.

Kalo OM Zen sudah dapat Falkland/VP8LP atau St Helena/ZD7FT belum ?

Ini stasiun radio cuma bisa dibaca dimonitor di cluster, di radio/freq. gak dengar sama sekali.

OM Zen,
Seneng dong ya, saya sama sekali belum.
Dengar suaranya aja juga belum sama sekali apalagi nyoba panggil, apalagi bisa worked. :-(

Saat ini 14.41Z sayup2 terdengar PT0S di 28.495MHz - tapi saya blm berani panggil karena blm jelas meyakinkan.

Om Hendro,
Kesempatan memang pada waktu contest aja, selain dia pakai power gede dah
gitu ga pakai split.
Aku dapat tambahan entity baru 15 pada waktu contest terutama negara bagian
america sana.

Om Hendro,
Ini email dari PT0S Team, kemaren aku kirim email bahwa QSO dengan
PT0S tidak/belum tercatat di log dia waktu aku cek.
Sebab QSO aku tgl 15 Nop jam 02:09 UTC sedangkan update data dia di
log sdh sampai tgl 15 Nop jam 09:45, harusnya sdh masuk dalam log
menurut aku.
Bener kata om hendro musti sabar ya...Rupanya baru update semalam baru
masuk.

Hi Zen,

Thanks for writing to PT0S regarding your LOG-related question.

This is Chris WW1WWW / HA5X, webmaster/pilot of the PT0S expedition. This
e-mail is to confirm receipt of your e-mail.

Please note that due to conditions on the rocks make it very difficult to
have a full and up-to-date log to be online. Updates came in very small
parts if the team can send them using their 2.4 kbps (yes, kilobits!) slow,
expensive but before all: unreliable satellite phone.

I cannot find any 17m QSO around the time you mention. I cannot tell you if
it is because your worked a slim/pirate, or that we simply have a gap in
the logs, or any other reason. I will try to investigate.

Below are some things to remember:

a) Logs might not be full and up-to-date.

b) The team has no resources (ie. no space, time or internet) to deal with
log corrections. It is alway up to the operators to decide if they make
corrections in case or a typo. Such decisions will only be made once they
are back from the expedition.

c) If you do not find yourself in the log, we suggest you try to work the
station again. It will not be a dupe.

d) LoTW has a little backlog while processing files, therefore even if we
upload to LoTW in the same pace as to the website, your LoTW credits may
only appear a few days later. This is beyond our control.

73, Chris

OM Zen,
Kasihan mereka di tempat sulit - kalo di film jadul judulnya Cintaku Jauh di Pulau (Karang).
Kesempatan untuk upload agak sulit karena keterbatasan akses internet & waktu.
Sekarang khan lebih enak, mereka masih disana kita bisa cek, bisa ulang QSO - sedangkan jaman seblm digunakan internet, kita gak tahu apa2 - tahunya QSL card kita dipulangin dg catatan "not in the log" dan mereka anggota tim sudah di rumahnya masing2.

Yg penting khan dari email terakhir - YB0MZI/4 sudah on their log.
Selamat, tinggal kejar/isi slots lainnya. HI

OM Zen,
Dia pakai power besar, kita bisa monitor tapi ada yg masih harus kita lakukan :
- Berdoa agar signal/panggilan kita sampai dan terdengar disana.
- Berdoa agar dia menjawab panggilan kita.

OM Zen,
Masalah EU besar/kuat signalnya sih - no problemo, asalkan mereka disiplin dan mau mengikuti arahan operator PT0S.
Khan DXped juga mengharapkan sebanyak mungkin bisa QSO, padahal kalo crowded sangat sulit utk memperoleh QSO yg banyak.

Mbok kalo dibilang "outside EU, only OC/AS/NA/SA" semua stasiun radio dari EU tiarap dulu - ini khan gak begitu. Mereka tetap teriak2 dan sayangnya kadang operator DXped yg mungkin juga karna agak putus asa akhirnya menerima EU juga, walaupun sebelumnya dia bilang "outside EU".

OM Seno,
Saya tuh curhat - bukan curang... HI
Belum dapat PT0S tapi khan WAS sudah ditangan, WAZ sudah,DXCC/DDXCC wis, Korut sampun....!!

Apa (lagi) yang kau cari Palupi..?? (ini lagi2 judul film jadul).

gk salah neh...undangannya 2,6 jt, akomodasi & transport ditanggung
sendiri, makan, jalan2, oleh2 belum dihitung.....
jd hrs brp juta nih hanya utk urusan kumpul2 amatir radio..

maap yeee, ane kagak nyanggup dweh...alias absen aja dulu....

waktu Malaysian Ham Fest di KL Tower 2,5 juta dah tiket bolak balik n hotel
2 malem, lokasi tinggal jalan kaki dr hotel...gk pake biaya lainnya tuh...

OM Zen,
Walaupun mereka asal EU juga tapi mereka merasakan juga "kenakalan2" sebagian AR dari EU itu.
Karna sebagian oknum yg nakal itu, dunia AR juga udah gebyah-uyah aja nyebut EU yg nakal.
HI.

Padahal kadang kita nakal juga, seperti saya ketika DX memanggil Asia, saya ikutan panggil karna Indonesia masuk Asia, (ASEAN) HI.
Kemarin seingat saya PT0S juga nyebutnya India, yg saya jadi ragu mungkin dia khusus panggil VU - ternyata maksudnya Asia & Indonesia.
Kadang ada DX yg panggil khusus OC tapi nyebutnya VK/ZL saja.

Gimana 5X1NH/Uganda sudah terdengar belum, di QTH saya masih lumayan kuat signalnya walaupun kadang melemah.

http://dx-world.net/2012/an-appeal/

By Col, MM0NDX
I don’t class myself as an avid DX Cluster user, but when I do view I see the usual suspects moaning or generally behaving badly, using an instant global outlet to express their feelings about a certain DX station or DXpedition. In truth, it’s got steadily worse and is now likely to be the root cause of deliberate QRM.
Let’s take the current PT0S St Peter & St Paul island DXpedition as a prime example:
To the normal, unselfish operator, these four guys – on those dangerous rocks – are doing a great job. They have barely slept for days, are pounded by waves which in-turn wreck antennas / radials, they have constant high noise levels (not least on LF bands), very limited internet (via sat phone) to upload logs (to the “Deserving”), are operating round the clock, have spent a fortune to go there – YET this is still not enough for some armchair operators who clearly lack patience, class and have limited, if any, knowledge on operating, particularly when it comes to Dxpeditions.
I have two questions:
1) If I were to collate the numerous, sometimes derogatory, comments via the Cluster and list them, with callsigns, I wonder if this form of blacklisting would make them think again?
2) Is the DX Code of Conduct working, when in reality D-QRM is now at an all-time high?
Your comments are most welcome, constructively. Like Cluster users I appeal you think before you type.

SB PROP @ ARL $ARLP046
ARLP046 Propagation de K7RA

ZCZC AP47
QST de W1AW
Propagation Forecast Bulletin 46 ARLP046
From Tad Cook, K7RA
Seattle, WA November 16, 2012
To all radio amateurs

SB PROP ARL ARLP046
ARLP046 Propagation de K7RA

Suddenly this week we see an exciting and dramatic rise in sunspot activity. The daily sunspot number was 188 on Monday, November 12, higher than it has been in over a year. The last time the daily sunspot number was as high was on November 9, 2011, when it was 208. Prior to last November, we have to go back nine years into the previous solar cycle, November 26, 2003, to find a number this large. Back then the daily sunspot number was 209.

The average daily sunspot number from November 8-14 was 104.9, over twice the previous week's average of 49.7. Average daily solar flux was 129.5, more than 32 points above the previous week's average.

A coronal mass ejection on November 13 caused a geomagnetic storm on November 13-14, which drove the planetary A index to 33 on November 14. Aurora was visible across the Northern United States. NASA estimates a 40% chance of M-class solar flares today, and if any come from sunspot group 1614, they would be Earth-directed.

The NOAA/USAF prediction on November 15 shows solar flux at 145 on November 16-19, 140 on November 20-21, 135, 125 and 105 on November 22-24, 100 on November 25-26, 95 on November 27, and 90 on November 28 through December 1. Then they predict 95, 100 and 105 on December 2-4, 110 on December 5-7, and 115 on December 8-11

Predicted planetary A index is 8 on November 16-17, 5 on November 18 through December 4, 10 on December 5-8, 5 on December 9, 8 on December 10, and 5 on December 11-15.

OK1HH from the Czech Republic expects quiet conditions November 16-18, quiet to unsettled November 19, quiet November 20, mostly quiet November 21, quiet to unsettled November 22, mostly quiet November 23-24, quiet November 25-26, quiet to unsettled November 27, active to disturbed November 28, mostly quiet November 29 through December 2, quiet to unsettled December 3, quiet to active

December 4, and quiet December 5-8.

Conditions should be good for this weekend's ARRL SSB Sweepstakes. This is a domestic contest which counts ARRL Sections as multipliers, and you can find details at http://www.arrl.org/sweepstakes. Even if you aren't competing, it is fun to get on and just casually operate. If you do this toward the end of the contest, you will make some operators happy who are trying to squeeze out a few more points. Toward the end they have been at it for more than a day (the contest lasts 30 hours), while searching for new contacts they've heard the same calls over and over, and you joining in during the last few hours will generate fresh excitement.

Max White, M0VNG of Worcester, UK calls our attention to an amateur astronomer in Bangladesh who runs a web page for monitoring Sudden Ionospheric Disturbances at http://radioastronomybd.com/onlinesid.html. Fortunately, I have not witnessed any SID events on this page.

Check http://www.wunderground.com/blog/MAweatherboy1/comment.html?entrynum=53 for a frequently updated blog about space weather.

Stu Phillips, K6TU has a fascinating and powerful new online tool that uses VOACAP, but automates the whole process and generates useful graphics. You can read a description of it at http://1vc.typepad.com/ethergeist/. VOACAP uses the predicted smoothed sunspot number for the month, and will generate the same prediction for the whole month. So there is no variation from day to day. With Stu's service you set up your location, select the month and year, decide if you want all HF bands or just the five bands contests use, select either a worldwide map or just North America, select typical antenna and transmit power configurations, and shortly you will receive an email with a link to PDF images for each hour for each band. It's fun to step through the hours and watch the propagation change.

If you would like to make a comment or have a tip for our readers, email the author at, k7ra@....

For more information concerning radio propagation, see the ARRL Technical Information Service web page at http://arrl.org/propagation-of-rf-signals. For an explanation of the numbers used in this bulletin, see http://arrl.org/the-sun-the-Earth-the-ionosphere. An archive of past propagation bulletins is at http://arrl.org/w1aw-bulletins-archive-propagation. Find more good information and tutorials on propagation at http://myplace.frontier.com/~k9la/.

Monthly propagation charts between four USA regions and twelve overseas locations are at http://arrl.org/propagation.

Instructions for starting or ending email distribution of ARRL bulletins are at http://arrl.org/bulletins.

Sunspot numbers for November 8 through 14 were 71, 65, 68, 106, 188, 108, and 128, with a mean of 104.9. 10.7 cm flux was 104.1, 115.1, 122.2, 133.3, 143.8, 146.2, and 142.1, with a mean of 129.5. Estimated planetary A indices were 3, 2, 2, 3, 5, 15, and 33, with a mean of 9. Estimated mid-latitude A indices were 2, 1, 1, 2, 4, 10 and 21, with a mean of 5.9.

SSB 1850 3790 7070/7165 - 14145 18125 21273 24980 28440 50115
RTTY - - 7048 - 10138 14080 18100 21080 24915 28080
QSL via SP6FXY, direct or bureau (OQRS on Club Log). All QSOs will be uploaded to LoTW "after reasonable time". Further information can be found at http://5t0sp.dxing.pl/

7P - Announced frequencies for the 7P8D expedition to Lesotho (23 November-3 December) [425DXN 1087] are:
CW 1820 3520 7026 10105 14020 18075 21020 24895 28015
SSB 1840 3780 7160 - 14185 18150 21220 24945 28480
RTTY - - 7038 10138 14085 18102 21085 24922 28080
Ten operators (DJ3CQ, DL2MDU, DL8JJ, K5LBU, VA7DX, VE7MID, VE7XS, ZS2DK, ZS2DL and ZS6RJ) will be running four stations; they will also participate in the CQ WW DX CW Contest. QSL direct to ZS2DL. An OQRS will be available after the expedition. Logs will be Uploaded to LoTW "within 6 months after the expedition has been completed". Further information at www.zs2dl.co.za/7P8D.html

9M2 - Special event station 9M4SEA will be activated for the 40th SEANET Convention, to be held in Kulua Lumpur, West Malaysia on 23-27 November. QSL via 9W2TKK. [TNX The Daily DX]

C6 - Brian, ND3F will be active as C6AQQ from New Providence Island (NA-001), Bahamas on 22-28 November, CQ WW DX CW Contest included. Outside the contest he plans to focus on 12, 17, 80 and 160 metres. QSL via home call. [TNX The Daily DX]

CT9 - DL1CW, DL5AXX, DL8WAA, DJ2YA, DK7YY, UA9MA, UA9PM and UA9ONJ will be active as CT9/homecall from Madeira (AF-014) from 20-27 November. QSL via home calls. They will participate in the CQ WW DX CW Contest as CR3L (QSL via DJ6QT). [TNX NG3K]

FS, PJ7- Pete, VE3IKV will be active as FS/VA3RA from St. Martin (NA-105) on 23-28 November. He will operate CW and SSB on 10 and 6 metres, and will participate in the CQ WW CW Contest as PJ7/VA3RA from St. Maarten. QSL direct to VE3IKV. [TNX NG3K]

I - Emilio, IZ1GAR will be active from Pantelleria Island (AF-018) on 22-26 November. He will participate in the CQ WW DX CW Contest as

IH9R on 40 metres; outside the contest he will operate as IH9/IZIGAR with a focus on the low bands. QSL via home call. [TNX IK1QBT]

JX - Svein, JX9JKA has extended his stay on Jan Mayen (EU-022) until 11 April 2013. He is active on all bands SSB and dogital modes. QSL via LA9JKA, direct only: Svein Rabbevag, Brendlia 12, 6013 Alesund, Norway. [TNX NG3K]

KH2 - Yoshi, JK2VOC will be active as KH2/JK2VOC from Guam (OC-026) on 23-27 November, including an entry in the CQ WW DX CW Contest. QSL via home call. [TNX NG3K]

P4 - Valery, R5GA will be active as P4/R5GA from Aruba (SA-036) on 22-28 November, including an entry in the CQ WW DX CW Contest as P40F. Outside the contest he will focus on 30, 17 and 12 metres. QSL via UA3DX. [TNX OPDX Bulletin]

TF - N3ZZ, UA3AB, WA6O, G3SWH, TF3DC, TF3Y and TF4M will be QRV as M/2 from TF4X during the CQ WW DX CW Contest. QSL via G3SWH (direct only, OQRS at www.g3swh.org.uk); the logs will be uploaded to LoTW a few days after the contest. [TNX G3SWH]

TG - Martin, DL5RMH will be active as TG9/KF9LSG from Guatemala until the CQ WW DX CW Contest, and as TG9IDX from the contest until 13 January 2013. He operates holiday style on CW and RTTY. QSLs via DL5RMH. [TNX NG3K]

V2 - Bud, AA3B will be active as V26K from Antigua (NA-100) on 22-26 November, including an entry in the CQ WW DX CW Contest. This will be an all CW operation on the contest HF bands only. QSL via AA3B. [TNX NG3K]

V4 - Andy, N2NT plans to be active as V47NT from St. Kitts (NA-104) on 19-26 November, including an entry in the CQ WW DX CW Contest. "The operation is dependent on getting the station back together", he says, as "there is a lot of work to be done there". QSL via W2RQ. [TNX NG3K]

V6 - Look for JA7HMZ as V63DX and JA7EPO as V63EPO to be active from Pohnpei (OC-010), Micronesia on 23-28 November. QSL via home calls. JA7HMZ will participate in the CQ WW DX CW Contest as V6A (QSL via home call and LoTW). [TNX NG3K]

VK - Nick, VK4FMAG is the only amateur radio operator resident on Magnetic Island (OC-171). He runs low power into a rotary dipole 4m above the ground. Look for him around 21250 kHz. QSL direct to his home address. [TNX VK2DX]

VP2V - AA7V and N3DXX will be active as VP2V/AA7V from the British Virgin Islands (NA-023) from 21 November to 3 December, including an entry in the CQ WW DX CW Contest and possibily in the ARRL 160 Meters Contest. QSL via AA7V and LoTW. [TNX NG3K]

VP5 - Dave, W5CW will be active as VP5/W5CW from 20 November to 11 December. He will operate CW and SSB on 160-6 metres, and will participate in the CQ WW DX CW Contest as VP5CW. QSL direct to W5CW. [TNX DX World]

VP8_sg - "At the moment I can only confirm that I am due at Bird Island on the 17th November where the intention is to carry out the base relief", Mike VP8CMH [425DXN 1121] reported on 15 November. "As

soon as that is complete we will steam to King Edward Point. I should be able to post details of arrival the night before we get to KEP. I will not be taking sked requests and will only be operating SSB". Mike's callsign from King Edward Point, South Georgia is VP8SGK. QSL for via GM0HCQ (direct only), LoTW and eQSL. Please visit www.gm0hcq.com for updates.

YN - Mike, AJ9C will be active as YN2CC from Nicaragua on 20-28 November. He will operate CW, SSB and RRTY on 160-6 metres, and will take part in the CQ WW DX CW Contest. QSL via home call and LoTW. [TNX NG3K]

http://www.qslnet.de/member/dl7bc/en_TO7BC.htm

TO7BC, Mayotte Island, AF 027

Update 09/2012: around end of March / beginning of April 2013 I have planned another activity from Mayotte, and will especially look forward to improve my 2012 CQ WPX result. The flights have been booked, the licence application for TO7BC is on the way. I hope that this time I will be able to run RTTY and PSK QSOs as well. Cuagn in 2013...

QSL-Info: via DARC bureau or direct.

Because of many cards returned in the past, I only will answer incoming QSLs (direct or via bureau). The conditions regarding QSLs can be found here: QSL-Policy

Mayotte,
 located between Mosambik and Madagaskar, is a French overseas department since March 31st, 2011 - like Guadeloupe (FG), Martinique (FM), French Guyana (FG), St. Pierre et Miquelon (FP) and Réunion (FR). The island is about 375 km² big and had in 2007 about 187.000 inhabitants. The capital Mamoudzou is located on the biggest island Grande Terre, whereas the international airport Dzaoudzi is located on the smaller island Petite Terre.

My friend DH1BL Bruno of Freiburg has taken over in 2010 a 4 years' assignment at a school on Mayotte and is active under his call FH4VOS. He invited me to visit him on the island, which of course I appreciated very much.

The QTH of Bruno is located in the center of the main island about 120m asl. Of course I wanted to use my stay on the island also for amateur radio - sitting one more time on the other side of the pile-up. The station of Bruno consists of a 5-band-Spiderbeam for 10 to 20m.
I intented to use my travel-equipment IC7000, linked to HamRadioDeluxe and DigitalMaster 780 as I wanted to be QRV in DigiModes as well. To build up a 40m Triple Leg, I took with me a 10m aluminium mast with a Spiderbeam 12m fiberglass mast as extension.

After a long and tiring journey from Basel over Amsterdam and Nairobi I reached Mayotte on March 20th - without any luggage - this one was heading on to the next stop of the aircraft in Moroni, Comores. So I stood there without any clothes and radio equipment... By luck my 3 luggages were sent back to Mayotte the same evening by another airline and I was "complete".

In the first night I tried ot for the first time PSK31 - FH/DL7BC was on the air. After 11 QSOs however my IC7000 started to act funny - switching off and on again automatically. All trials with a different power supply and other stuff didn't help, so I gave up. By luck I was host of a radio amateur, so I continued with Bruno's FT920 - but without connection to my laptop DigiModes were not possible any more. After my return to DL I found out, that in the original Icom power supply cable the fuse holder was melting and caused a voltage loss. If I just would have discovered this earlier...

On March 21st I set up the 40m Triple Leg, first trials were successful. All in all however just a few QSOs, even though e.g. one VK station was answering my CQ call.

With just 100W it was quite difficult to work simplex, espcially after being spotted on the cluster. As soon as the pile-up got to big, I started to work split to keep my calling frequency clear of QRM.

From March 23rd on I used the special call TO7BC which had been assigned to me for 14 days. Expectedly a lot of questions "what country" were asked - many OM turned their antennas first to the Carribeans, as most of TO calls are operating from there only.

It's contest-time - on March 24th/25th the CQ-WPX was on. I was very disappointed about my result on 20m, just 88 QSOs on this band. Even stations which I could copy with S9+20dB didn't come back to my call. On the other side the conditions on 10m were great on my side - 1.212 QSOs were in the log at the end. All in all 1.504 QSOs and about 3.300.000 claimed points were the final result - I had expected something more than that however.

For March 28th Bruno had initiated a practical demonstration of amateur radio at his school. A W3DZZ was hung up for this purpose. As in the morning hours the conditions for DX were very poor already during the previous days, we contacted some hams on FR (Réunion) island ans asked them to be on the air for the big event. It then worked out very fine, and some of the students could ask their questions to a few FRs and even one 3B8 station. Team member at the school was Phill, FH8NX. Around noon time, a small team of the local TV statioin dropped in and turned a short film about the activity. Bruno gave an interview about the project, and I was asked about my ham activity on Mayotte. In the evening we were on the air - in the TV news ;-)

As I wanted to see a little bit of the island, I was not QRV each and every day Some pictures taken during my sightseeing tours can be seen further down.

The last station in the log was RX6CC on April 4th at 09:00 UTC. The same afternoon we went back to the neighbouring island Petite Terre, were we met Phill FH8NX for a nice dinner and overnight stay at his home. On March 7th the nice time on Mayotte island was over, and back home I went via Nairobi and Paris to DL.

Some statistics:
total 5.865 QSOs, thereof....
... 2.737 on 10m
... 795 on 12m
... 1.278 on 15m
... 561 on 17m
... 473 on 20m
... 21 on 40m
... 5.854 QSOs in SSB
... 11 QSOs in PSK31
... 142 DXCC-countries
> 803 QSOs - K
> 768 QSOs - IK
> 723 QSOs - DL
> 410 QSOs - UA3
> 281 QSOs - EA
. > 257 QSOs - F
> 223 QSOs - UT

> 206 QSOs - SP
> .... (unfortunately only 14 JA stations, here I hoped for much more)
... 4.381 QSOs - Europe
... 902 QSOs - Northamerica
... 166 QSOs - Central and South America
... 286 QSOs - Asia
... 119 QSOs - Africa
... 25 QSOs - Australia/Oceania

Some impressions from my stay on Mayotte:

Baobab trees on the beach

Mount Choungui in the south of the island Sunset in Tsingoni

geckos can be found everywhere .... and lizzards, too

maki in the garden... ... and on Bruno

hanging around all day long, or flying

Flying Foxes

traces of turtles on the beach

ham-radio activity in the school of Bruno - the local TV-station is there...

the dream of every island-operator - the call in the sand ;-)

FH8NX Phill, Bruno FH4VOS and me FH/DL7BC and TO7BC

me with my luggage prior departure

Mbak Hani,

2 juta yang mana...?

Pendaftaran 199 RM, dana ini untuk makan selama Event disana, Rekreasi, dll, dikelola oleh Panitia.

Kecali Transfort kita untuk kesana dan Penginapan kita tanggung sendiri,

Sueb

loh yg 2 jt apaan tuh registrasinya?
jd aku harus siapin brp kira2 kl mau datang?
bisa tlg check hotel yg dkt lokasi per night nya brp, trus transportnya gmna?
ui gk mo tersesat di negara org om.... :)

rgds,

2012/11/17 Sueb Thair <yb7b1m@...>

Om Seno,

Saya ikut nyawer dikit yaa...
Besok saya Transfer Rp. 500.000,-
Semoga bisa buat Nambah-nambah Ongkos Perbaikan PA, hehe

Sueb.

Dari: "yb2lsr@..." <yb2lsr@...>
Kepada: YBDXC_News@yahoogroups.com
Dikirim: Senin, 5 November 2012 12:42
Judul: Re: [YBDXC_News] YE2R

Ha ha ha ....
Bisa aja nih Mbak Endang

iya nih ...
Ada 2 PA yg jebol, entah kena ongkos brpa tuh, barang pinjem lagi ....
Yah siapa tahu ada orang yang budiman berkenan sawer lewat rekening

BCA
423-024-8848
HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Heheheh,

Ga papa Mbak Endang,
Semua juga bala dewe.
mungkin ya pada bingung, yang dikometari bagian mana gitu, hi.....
Terus ...
Ahhh yg paling selamet ngucapin selamet pada Mas Nur yg mau ke YB.

Coba klo ngomentari,
Ehh Pak Seno, kemarin saweranmu kurang ga?
Atau ....
Ehhh Mas Seno, besok klo kontes lagi aku support radio / PA ya
Nah itu memang blm terdengar hehehehe

Everything is ok ya Mbak Endang,
Salam dari Solo

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo

bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.

14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

BCA
423-024-8848
HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next

year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan

dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....

BCA
423-024-8848
HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo

bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.

14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......

HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....

5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau,

sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan

dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX

Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif

di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo

bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu

satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....

18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang. Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????

Subject: [YBDXC_News] YE2R

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran
* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R

4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak
juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Special thanks to :
1. Ketua Orda Jateng, YB2AA
2. Wakil Ketua ORDA Jateng, YB2JNZ
3. XYL-YB2DX
4. YB1PR
5. Orari Pusat
6. Rekan-rekan yang telah membantu dan doa restunya kepada tim kami YE2R yang belum sempat kami sebut satu -persatu.

Ha ha ha ....
Bisa aja nih Mbak Endang

iya nih ...
Ada 2 PA yg jebol, entah kena ongkos brpa tuh, barang pinjem lagi .....
Yah siapa tahu ada orang yang budiman berkenan sawer lewat rekening

BCA
423-024-8848
HALIM DANI HIDAYAT
(Bendahara YE2R)

Rencana kami YE2R akan mengudara paling tidak setahun sekali di kontes CQWW dgn anggota tim yang tetap.
Karena ijin IAR YE2R juga sdh 5 tahun (khusus kontes) dan usul dari para anggota next year QTH nya kalo bisa di suatu tempat yg lain supaya mempunyai suasana baru, ya tentu saja ini pasti akan membutuhkan budget yg tidak sedikit, semoga aja ada AR kita yang budiman berkenan menjadi sponsor utk tim kami.
Sehingga kreatifitas atau pembelajaran ttg amatir radio tidak berhenti, dan tentunya perjuangan demi sang Dwi Warna (seperti kata Pak Kadek BU)

Salam
Seno

Dear All,

Telah lewat seminggu CQWW-SSB 2012 berlangsung sudah, dan hasil pembukuan qso oleh para kontestan sudah di-upload ke panitia batas waktu 2 Nov 2012 2359 utc kemarin, sekarang tinggal menunggu hasil dari panitia CQ untuk mengkaji siapa diantara kontestan yang mendapatkan nomor teratas dikatagorynya masing-masing.

Terima kasih kepada temen-temen yang telah memberikan ucapan selamat dan semangat kepada tim YE2R,
Namun sebenarnya masih terlalu dini untuk memastikan siapa yang memiliki score tertinggi di antara para kontestan sedunia, karena masih diperiksa dan di cross-check oleh panitianya.
Pada kesempatan ini kami juga mengucapkan selamat kepada tim YEØX tim sejawat yang sama sama running di katagori yang sama.
dan semoga harapannya INDONESIA dx-contester main maju dan makin semangat.

Pada hari pertama kontes, YE2R dikejutkan oleh Power Amplifer homebrew (dapat pinjaman dari rekan) di radio 15m kami berasap, tidak bisa running untuk sesaat akhirnya bisa running kembali setelah diganti Power Amplifier homebrew (lagi lagi dapat pinjaman dari rekan) cadangan.
Hari yang kedua terjadi lagi hal yang diluar dugaan kami yaitu PLN black-out pada siang hari untuk beberapa saat, namun kami masih bisa mengatasi ketegangan itu dengan photo bersama.
lagi-lagi cobaan datang melanda kejadian serupa di radio band 15m Power Amplifier kami berdetak keras (mungkin tanda protes), akhirnya YB2DX sang tuan rumah mengeluarkan senjata andalannya Alpha 8410 dari hamshacknya.
sungguh kontes tahun ini merupakan pengalaman yang luar biasa bagi tim YE2R, namun yang patut kami syukuri adalah masih tetap solidnya dan semangatnya untuk terus berjuang.
Kemenangan memang merupakan cita-cita kami, namun itu bukan merupakan tujuan kami satu satunya, kami harus tetap solid, saling berbagi saling melengkapi.

Tim YE2R hanya memiliki dana yang sangat terbatas, dalam meng-akomodasi (konsumsi) seluruh anggota adalah swa-dana/saweran diantara anggota-anggota tim dan ada juga dukungan saweran dari Club YBDXC.

Untuk tempat tidur didukung sepenuhnya oleh tuan rumah YB2DX.

Rincian dari perlengkapan dan akomodasi :

* Seluruh Antenna : YB2DX
* Radio : YB2DX, YB2TJV, YB2LSR, YB3MM

* Power Amplifier : YB2DX, YB3BIY, YB3KM, YB3MM
* Konsumsi : Saweran

* Penginapan : di rumah YB2DX

Operator :

1. YB3PXF, Pak Boentoro, jauh-jauh dari Mojokerto begitu perhatiannya membawakan makanan penuh gizi " Botok Tawon " utk para operator, beliau sangat concern sekali terhadap stamina para operator.
2. YB2TJV, Pak Dani, disamping seorang aktifis AR ternyata beliau juga seorang yang aktif di bidang organisasi sosial lainnya.
3. W7NZ, Pak Iwan, datang dari Bandung sudah menyatakan diri dari dulu ingin bergabung memperkuat tim YE2R
4. YB4IR, President YBDXC mengorbankan acara keluarga di Palembang dan di Jakarta berkenaan dengan hari Idul Adha demi ingin memperkuat tim YE2R
5 KR7O, Pak Robert, jauh jauh dari CA-Amrik datang ke Indo bela-bela in mau gabung di YE2R, ongkosnya berapa ya ..... ????
6. YF1AR, Pak Bu-San, Bapak satu ini ga capek2nya ya, pokoknya semangat terus deh , salut .....!
7. YB2DX, Pak
Budi , Ohhhhhh besar sekali pengorbananmu my Brother, besar sekali pahalamu di surga ..., hi ....
8. YB3KM, Pak Thomas, sedikit bicara namun high speed , hmmmm ....
9. YB2WB, Pak Bagus, 26 Okt siang beliau ini habis pulang dari 9V1 tengok Ibu beliau, sorenya berangkat lagi ke Grobogan, bukan main rasa solidaritas luar biasa Pak Bagus.
10. YBØNSI, Pak Joy, Specialist Ten Meter, High Speed , namun gara-gara makan pecel asam-uratnya naik, tobatttttttt !
11. YB2BBY, Pak Bobby, kalo tidak ada beliau, pasti ijin siaran YE2R ga ada yang ngurus deh ....
12. YB1TJ, Pak Djoko, baru sembuh dari sakit tenggorokan, di bela belain sabtu siang sampai ke Grobogan
13. YC2WBF, Pak Nur, habis layat Bu Dhe dan menyelesaikan tugas beliau langsung gabung dengan YB2WB ke Grobogan.
14. YB2VTO, Mbak Deta , renyah suaranya, di pile up dari segala Zone, lumayan untuk tambah2 score. hi ......
15. YB2TET, Mbak Tety, sebagai operator ehh ternyata jago masak
juga lho ..
16. YB3MM, Pak Adhi, specialist high speed 15m, the last minute kebut 400 qso, salut ...!
17. YB2ECG, Pak Jon, Walau beliau tidak bisa ikut dalam operator namun beliau orang penting di YE2R, nasib YE2R pada akhirnya bergantung pada beliau, sekarang sudah di up load lho ....
18. YB2LSR, Seno, penulis artikel ini
hi .....
19. YC2KME, Pak Rudi, di 80m ikut dalam pengambilan score, sekaligus teknisi handal YE2R

Teknisi :
20. YC2PQW, Pak Ipud, mulai dari kebutuhan tugas rumah tangga sampai naik tower beliau kerjakan sampai tuntas, luar biasa.
21. YD3LKL, Pak Luluk , orangnya kalem, ringan tangan, low profile, pinter soal QRO.

Supporter :
22. YB3BIY, Pak Agus, 1 unit Pwer Amplifier beliau ber-asap, waduh gimana ni ya......?

Online Maximum & Lowest Observed Frequency (MOF & LOF) HF Propagation Prediction Tool
* For 3,000 kilometer radio signal single hop paths (original tool Courtesy of K1TTT)
* N0NBH Tool enhancements include a different global map, resolution & auto population of your location, and obtaining & auto population of current SFI, A-Index, and K-Index conditions
* Just click "NOW" as all settings (including location) are auto-populated using the current NOAA solar data indices.
* I resolve and populate your coordinates using your IP address. If not correct, just click your QTH location on map then click "NOW".
* Select desired mode/map/overlays. Key shows bands.
* Click "Next Hour" to advance, or enter desired UTC Date & Time, estimated SF/K/A Index, then click "Compute" for future predictions.
MOF & LOF HF Propagation Prediction Tool Tutorial
* Single image tutorial on how to interpret and use the online prediction tool

http://www.hamqsl.com/solar2.html

Understanding/Using the Data and Images from the Sun
Understanding/Using Solar-Terrestrial Data from the Solar Data Panel(s)
* Most of us understand the impacts of Solar Flux/Sun Spots have on HF communications, but some are unsure about the remaining data provided in the panel.
* I have created an easy to understand abbreviated table below that provides HF Propagation conditions based on the current Solar-Terrestrial Data. Factors provided include background X-Ray, Proton Flux, and K index (including the nT measurement), Solar Flux Index (SFI), Sunspots (SN), Electron Flux, and Aurora (includes Normalization factor (n) less than 2.0 = high confidence, greater than 2.0 = low confidence).
* Because some items are better when high, and others low, I have color coded the blocks. Green is best contitions, yellow marginal, red unacceptable.
* A printable page (best using landscape) is also provided for ease of use in the shack. This single page easy to understand table is a must for any HAM operator (with a memory as bad as mine has gotten).
* Note that I will be adding how to use the 304A data to the page in the near future.
* I added Solar Wind and Bz component to the table.
Click for printable Solar events page

HF & VHF Propagation Conditions based on Current Solar-Terrestrial and other Data
Current Solar-Terrestrial Data Category Radio Blackouts
Use X-Ray Solar Radiation Storms
Use Proton Flux Geomagnetic Storms
Use K-Index/K-nT/ Aurora/Solar Wind/Bz Band Openings
Use Solar Flux (SN) Electron Alert
Use Electron Flux
Extreme X20 (1 per cycle)
Complete HF blackout on entire sunlit side lasting hours 1000000 (1 per cycle)
Complete HF blackout in polar regions K=9 (nT=>500) [Aur=10++] (SW=>800) [Bz=-40 -50] (4 per cycle)
HF impossible. Aurora to 40°. Noise S30+. 200-300 (SN=160-250)
Reliable communications all bands up through 6m >1000 Alert
Partial to complete HF blackout in polar regions
Severe X10 (8 per cycle)
HF blackout on most of sunlit side for 1 to 2 hours 100000 (3 per cycle)
Partial HF blackout in polar regions K=8 (nT=330-500) [Aur=10+] (SW=700-800) [Bz=-30 -40] (100 per cycle)
HF sporadic. Aurora to 45°. Noise S20-S30.
Strong X1 (175 per cycle)
Wide area HF blackout for about an hour on sunlit side 10000 (10 per cycle)
Degraded HF propagation in polar regions K=7 (nT=200-330) [Aur=10] (SW=600-700) [Bz=-20 -30]
(200 per cycle)

HF intermittent. Aurora to 50°. Noise S9-S20. 150-200 (SN=105-160)
Excellent conditions all bands up through 10m w/6m openings
Moderate M5 (350 per cycle)
Limited HF blackout on sunlit side for tens of minutes 1000 (25 per cycle)
Small effects on HF in polar regions K=6 (nT=120-200) [Aur=9] (SW=500-600) [Bz=-10 -20] (600 per cycle)
HF fade higher lats. Aurora to 55°. Noise S6-S9. 120-150 (SN=70-105)
Fair to good conditions all bands up through 10m <1000 Active
Degraded HF propagation in polar regions
Minor M1 (2000 per cycle)
Occasional loss of radio contact on sunlit side 100 (50 per cycle)
Minor impacts on HF in polar regions K=5 (nT=70-120) [Aur=8] (SW=400-500) [Bz=0 -10] (1700 per cycle)
HF fade higher lats. Aurora to 56°. Noise S4-S6. 90-120 (SN=35-70)
Fair conditions all bands up through 15m <100 Active
Minor impacts on HF in polar regions
Active C1 Moderate Flare
Low absorption of HF signals 10 Active
Very minor impacts on HF in polar regions K=3-4 (nT=20-70) [Aur=6-7] (SW=200-400) [Bz=0-+50]Unsettled/Active
Minor HF fade higher lats. Aurora 60-58°. Noise S2-S3. 70-90 (SN=10-35)
Poor to fair conditions all bands up through 20m <10 Normal
No impacts on HF
Normal A1-B9 No/Small Flare
No or very minor impact to HF signals 1 Normal
No impacts on HF K=0-2 (nT=0-20) [Aur=<5] (SW=200-400) [Bz=0-+50]Inactive/Quiet
No impacts on HF. Aurora 67-62°. Noise S0-S2. 64-70 (SN=0-10)
Bands above 40m unusable <1 Normal
No impacts on HF
VHF Conditions Aur Lat (Auroral Latitude): Indicates lowest latitude from the current Aurora Activity measurement. Text color coded for low activity, hi-latitude, & mid-latitude.
Aurora (Northern Auroral Activity): Band Closed = No/Low Auroral activity. High LAT AUR = Auroral activity >60°N. MID LAT AUR = Auroral activity 60° to 30°N.
EsEU (Sporadic E - Europe): Band Closed = No Sporadic E (ES) activity. High MUF (2M only) = Cond support 2M ES 50/70/144MHz ES = Respective band open
EsNA (Sporadic E - North America): Band Closed = No Sporadic E (ES) activity. High MUF = Cond support 2M ES 144MHz ES = ES reported @ 2M
EME (Earth-Moon-Earth): Current EME degradation. Very Poor (>5.5dB), Poor (4dB), Moderate (2.5dB), Good (1.5dB), Very Good (1dB), Excellent (<1dB).
MUF (Max Usable Frequency Bar Color): No Sporadic E (ES) activity / ES reported @ 6M / ES reported @ 4M / Cond support 2M ES / ES reported @ 2M
MS (Meteor Scatter Bar): Use color code below bar to determine relative activity.

©N0NBH Paul L Herrman 2011

Glossary of terms for the data available in the N0NBH solar banners
Item Element Description
SFI Solar Flux Index DRAO Penticton reported value from 62.5 to 300. Intensity of solar radiation measured at 2800MHz (10.7cm). Good indication of the F layer ionization (layer that gives us most of our DX on HF). The higher the number, the greater the level of

ionization is, and the higher the frequency. Measured three times daily, and the last received value is reported.
SN Sunspot Number NOAA reported value from 0 to 250. Daily Sunspot Number provided by NOAA is computed using a formula [R=k (10g+s)] by Rudolph Wolf in 1848, where R is the sunspot number; g is the number of sunspot groups on the solar disk; s is the total number of individual spots in all the groups; and k is a variable scaling factor (usually <1) that accounts for observing conditions and the type of observing device. SN does loosely correlate to SFI. Updated once daily.
A Planetary A Index NOAA reported value from 0 to 400. Provides a daily average level for geomagnetic activity. Uses the average of eight 3 hour K-Index values (magnetic value measured in nanotesla or nT) to provide the level of instability in the earth's geomagnetic field. When used with K-Index: Both high indicates geomagnetic field is unstable, and HF signals are prone to sudden fades, and some paths may close while others open up abruptly and with little warning. High K index/Low A indicates a sudden, abrupt disturbance in the geomagnetic field, which can cause an intense but brief disruption in HF propagation, but can cause an auroral event. Updated once daily.
K Planetary K Index NOAA reported value from 0 to 9. Measures disturbances in the horizontal component of earth's magnetic field. Value in nT is measured using a magnetometer during a three-hour interval, and then converted to a factor. Use with A-Index – sees above to determine HF conditions. Updated eight times daily.
X-Ray or XRY Hard X-Rays NOAA reported value from A0.0 to X9.9. Intensity of hard x-rays hitting the earth's ionosphere. Impacts primarily the D-layer (HF absorption). The letter indicates the order of magnitude of the X-rays (A, B, C, M and X), where A is the lowest. The number further defines the level of radiation. Updated eight times daily.
304A 304 Angstroms NOAA reported value from 0 to unknown. Relative strength of total solar radiation at a wavelength of 304 angstroms (or 30.4 nm), emitted primarily by ionized helium in the sun's photosphere. Two measurements are available for this parameter, one measured by the Solar Dynamics Observatory, using the EVE instrument, and the other, using data from the SOHO satellite, using its SEM instrument. Responsible for about half of all the ionization of the F layer in the ionosphere. 304A does loosely correlate to SFI. Updated hourly.
Pnt Flx or PF Proton Flux NOAA reported value from 0 to unknown. Density of charged protons in the solar wind. The higher the numbers, the more the impact the ionosphere. Primarily impacts the E-Layer of the ionosphere. Updated hourly.
Elc Flx or EF Electron Flux NOAA reported value from 0 to unknown. Density of charged electrons in the solar wind. The higher the numbers (>1000), the more the impact the ionosphere. Primarily impacts the E-Layer of the ionosphere. Updated hourly.
Aur Aurora NOAA reported value from 0 to 10++. Indicates how strong the F-Layer ionization is in the polar regions. Higher values cause auroral events (including northern/southern lights) to move to lower latitude. Updated hourly.
n Normalization NOAA reported value from 0 to 5. When <2.0, high confidence in Aurora measurement. When >2, low confidence. Updated hourly.
Bz Bz Component NOAA reported value from +50 to -50. Strength and direction of the interplanetary magnetic field as impacted by solar activity. Positive is same direction as the earth's magnetic field, and negative is the opposite magnetic polarity. Cancels out earth's magnetic field when negative, which increases the impact of solar particles in the ionosphere. Updated hourly.
SW Solar Wind NOAA reported value from 0 to 1000. Speed (kilometers per second) of the charged particles as they pass earth. The higher the speed, the greater the pressure is exerted on the ionosphere. Values greater than 500 km/sec have impact on HF communications. Updated hourly.

Aur Lat Aurora Latitude Calculated value from 67.5 to <45.0. Calculation from NOAA utilizes the current Aurora measurement. Used to estimate the lowest latitude impacted by the auroral event. Updated hourly.
Aur Aurora DX-Robot reported event (used with permission). Reports Band Closed for No/Low Auroral activity, High LAT AUR for Auroral activity >60°N, or MID LAT AUR for Auroral activity from 60° to 30°N. Updated every ½ hour.
EsEU Sporadic E Europe DX-Robot reported event (used with permission). Reports Band Closed, High MUF when 2M only is open, or 50/70/144MHz ES when the respective band is reported open. Updated every ½ hour.
EsNA Sporadic E North America DX-Robot reported event (used with permission). Reports Band Closed, High MUF when conditions support Es, and 144MHz ES when the band is reported open. Updated every ½ hour.
EME Deg Earth-Moon-Earth Degradation Make More Miles reported value (used with permission). Reports EME path attenuation as Very Poor (>5.5dB), Poor (4dB), Moderate (2.5dB), Good (1.5dB), Very Good (1dB), Excellent (<1dB). Updated every ½ hour.
MUF Maximum Usable Frequency Make More Miles reported value (used with permission). Provides the Maximum Usable Frequency in a colored bar. Gray indicates No Sporadic E (ES) activity , blue indicates ES reported @ 6M, green indicates ES reported @ 4M, yellow indicates conditions support 2M ES, and red indicates reported @ 2M. Updated every ½ hour.
MS Meteor Scatter Make More Miles reported value (used with permission). Provides the Meteor Scatter activity, blue (low), green, yellow, orange, to red (high) activity in a colored bar. Updated every ½ hour.
GeoMag Fld Geomagnetic Field Calculated value. Indicates how quiet or active the earth's magnetic field is based on the K-Index value. Reports as Inactive, Very Quite, Quiet, Unsettled, Active, Minor Storm, Major Storm, Severe Storm, or Extreme Storm. Higher indications can cause HF blackouts and auroral events. Updated every three hours.
Sig Noise Lvl Signal Noise Level Calculated value. Indicates how much noise (in S-units) is being generated by interaction between the solar wind and the geomagnetic activity. A more active and disturbed solar wind, the greater the noise. Updated every ½ hour.
MUF Maximum Usable Frequency NOAA reported value from 0 to 100MHz. Provides the maximum usable frequency in MHz at one of 11 locations worldwide. Updated every 15 minutes.
CME Coronal Mass Ejection NOAA/SWPC predicted date and time (in UTC). Provides the date and time of a predicted earth bound CME event. Color coded for severity, where green is minor, yellow is moderate, and red is severe. Updated when predictions are received from NOAA/SWPC.

http://www.g4ilo.com/voaprop.html
VOAProp

VOAProp was written to satisfy my need for a program that would show me what HF band propagation should be like on a particular day on a particular band. It was the successor to my popular propagation program HFProp, which used a fast, but not very accurate propagation modelling algorithm. VOAProp uses the well-regarded VOACAP forecasting software, and provides a simplified graphical interface for it so that you can get an overall idea of how propagation should be at a given time and date without getting bogged down in detail.
Description
VOAProp shows you typical propagation for a given hour of the day during a given month. The propagation is shown as expected signal strengths to be received from different parts of the world, plotted on a world map. VOAProp can also display daily point-to-point propagation charts showing the best frequency and time of day for communication with a particular location.
VOAProp includes a table of smoothed sunspot number (SSN) data going back to the year 1900. This data is used by VOACAP to produce a plot of average expected propagation for the time of day. VOAProp can also obtain real-time solar data from WWV, which it uses to give a qualitative assessment of conditions. This can show whether conditions are likely to be better or worse than predicted.
VOAProp can also be used as an IARU amateur bands beacon monitor. If your computer clock is accurate, the program displays icons on the map which show which beacon is currently transmitting, together with the expected received signal strength according to the predicted conditions.
VOAProp includes a built-in updater which can download the WWV solar data, and update the SSN table and beacon status data, via an Internet connection.
For more information about VOAProp see the VOAProp online help.
Version information
Version 1.1 is the last version of the software. There were no known bugs at the time of release, but updates to external files or new versions of Windows may cause problems and will eventually make this program obsolete. There will be no further development of VOAProp for both personal and technical reasons.
Important notice
Because of a change in the format of the WWV solar information file updates now fail with an error. Thanks to Mirek, OK1DUB a fixed version of the file has been made available. You must change the URL in the Solar Data window to http://ok1dub.cz/wwv/wwv.txt. See this blog post for more information.
Thanks to Gianni, IS0VSG for the updated locations data file that is included in the download. Please note that the locations data is based on a very old file and may well contain inaccuracies. The file provided with the program was never intended to be a 100% accurate or up to date list of DX locations. Please make your own changes to the file if you are unhappy with any of the entries.
Requirements
* PC running Windows 98, Me, 2000 or XP.

* VOACAP for Windows.
*
Running under Windows Vista and Windows 7
Windows Vista and Windows 7 have security restrictions that prevent the modification of files stored in Program Files\... This affects programs such as VOAProp that store settings in an INI file in the same folder as the program itself.
A workaround suggested by another ham radio developer is to install the program in a folder directly off C:\ for example C:\VOAProp. You could also install it under My Documents.
An alternative suggestion is to use compatibility mode and set it to Windows XP SP2. Compatibility mode is only present in the Professional version of Windows 7 and actually involves running a separate copy of Windows XP so the first suggestion is probably the better of the two.
Linux users: VOAProp will run under Linux using wine.
Terms and Conditions
Please note: I have completely given up all software development activities. The programs on this site, including this one, are provided with absolutely no support and there will be no further updates of any of them. Bug reports and feature requests are not required. For help with any known issues seeTroubleshooting.
The source code of this program is not available.
DownloadsDownload VOAProp 1.1 Setup (1Mb)
Trojan warning! Some third rate virus scanners claim the installer used by my programs is a virus or a trojan. It is not a trojan it is a false alarm. If you choose to believe your scanner rather than me that is up to you. But please don't tell me about it, because I already know. See this blog post for more information.
The source code for this project is not available.
If you wish to provide a link to this program from your own web pages please link to this page, not directly to the download file.VOAProp for Linux (5.8Mb)
This is a copy of VOAProp together with an installation of VOACAP, packaged as a .tar.gz archive for installation on Linux. It is not a native Linux binary so it must be run under wine, which is available for just about any Linux distribution.
You will need to extract the software to a convenient folder in your wine installation, preferably one without spaces in the name, such as ../Ham/VOAProp. After that, you must set write permissions, since VOACAP needs to be able to write to files in its folders. Open a console window, change to the directory where you installed the software, and execute the command chmod -R u+w. Now start VOAProp and set the location of VOACAP using the dialog that appears. If you receive an error message from VOACAP, close it, then right-click the map and set your home location. Close VOAProp to save your location. It should work normally after that.
You will probably also want to create a link to the VOAProp online help.
German language help file (450Kb)

http://www.dxatlas.com/hamcap/

Ham CAP 1.8

HF propagation prediction tool for Amateur Radio

FREEWARE

System RequirementsHardware:
* 600 MHz Pentium II CPU;
* 64 Mb RAM;
* 16-bit or 32-bit color video card.Software:
* Windows 95/98/ME/NT4/2000/XP/7;
* VOACAP (a.k.a. itshfbc, a.k.a. hfwin32).

Installation and Configuration

* Download HamCAP.zip from the Downloads section of this web site, unzip and run Setup.exe. Follow the on-screen instructions;

* download VOACAP from this web site: www.greg-hand.com

* install VOACAP. You will not have to run VOACAP directly, Ham CAP will use it behind the scenes;

* run Ham CAP from the Windows Start menu, click on the Settings tab, and enter your latitude and longitude;

* click on the Ant tab, select the appropriate antennas, verify the antenna patterns. You are now ready to use Ham CAP.

Screenshots

Area coverage map

Area coverage map in pseudo-colors

Signal-to-Noise Ratio vs. time and frequency

Antenna selection page

On-line Interactive Maps

If you are planning on a DXpedition, consider adding an interactive propagation map to your web site (see example). To create the map:

* configure HamCap (set your QTH, year, month, SSN, antenna types, etc.);

* right-click on the map and click on Pre-Compute Maps in the popup menu;

* wait until all maps are computed. Depending on your CPU speed, this may take from 10 to 40 min.;

* right-click on the map holding the Ctrl button down to open the popup menu with advanced commands, and click on Generate GIF's. HamCap will create a set of GIF files, with hourly propagation maps for each band. The maps will be stored in the \Gifs subdirectory of the HamCap directory;

* download the HTML script for map browsing, and modify it to match the style of your web site;

* upload the script and the images to the web server and place them in the same directory.

After the expedition, please search your logs for "VE3NEA" and send me your QSL if I worked you ;-)

Integration
 If you have IonoProbe installed on your system, go to the Settings tab in Ham CAP and press the IonoProbe button. IonoProbe will provide real time ionospheric indices to Ham CAP, and the prediction will be automatically updated when the indices change.

 DX Atlas adds even more power to Ham CAP. Make sure you have DX Atlas installed, then press the DX Atlas button on the Settings tab. The area prediction data will be superimposed on the DX Atlas map, and you will be able to magnify and scroll the map, and view it in the Azimuthal and 3D projections.

(click to enlarge)

 Ham CAP provides a COM/OLE Automation interface that 3-rd party programs can use to start Ham CAP, set prediction parameters, and run predictions. In a typical application integrated with Ham CAP, the user will right-click on a callsign, and Ham CAP will pop up and display the point-to-point propagation chart. A sample automation code is provided in the Programmer's Corner section.

by Jari Perkiömäki, OH6BG/OG6GThis is a work-in-progress guide to using VOACAP (Voice of America Coverage Analysis Program) - free professional HF propagation prediction software from NTIA/ITS, originally developed for Voice of America (VOA). This guide should get you well started with VOACAP. A more comprehensive discussion about the finer details of using the software can be found in George Lane's book Signal-to-Noise Predictions Using VOACAP. A User's Guide. The book is now available on CD-ROM.
VOACAP Online Prediction Services

VOACAP Online Point-to-Point PredictionsVOACAP Online 11M Point-to-Point Predictions
VOACAP Online Coverage Area Map PredictionsVOACAP Online 11M Coverage Area Map Predictions
Nordic Real-Time HF Propagation Monitoring
The 24/7 real-time HF propagation monitoring cluster has been established to cover the entire HF spectrum from 1.8 MHz to 28 MHz, based on Skimmer and Skimmer Server.
What's New?
* Current International Smoothed Sunspot Numbers, Ri, to be used in VOACAP, from NOAA/NGDC (updated until 2018)
* Current Space Weather: Solar Wind, Magnetogram, X-Rays, Protons
* QTH Locator - find coordinates and Maidenhead locators on Google Maps
* How to Run VOACAP under Apple Macintosh OS X? - a quick guide to making text-based VOACAP predictions
* Elevation-Angle Analyzer - generate statistical elevation-angle data for HFTA
* Statistical elevation-angle distribution - a case study
* Graphical User Interface for VOACAP for Linux
* Rockwell Collins offers VOACAP User's Guide on CD-ROM for free (shipping charges apply)
* World Radio Broadcasting Stations - explore various BC transmitting sites on Google Maps
* My blog in Finnish: VOACAP ja optimaalinen antennikorkeus
* Sunrise and sunset times around the world
* Today's Sunrise and Sunset Times by DXCC country
* Today's Ionospheric Grayline by DXCC country
* Today's Sunrise and Sunset at Global HF BC Transmitting Sites
1. Downloading VOACAP
* Download from Greg Hand's site, all new updates of the ITSHFBC package are available here
* Alternative direct download, 8 Dec 2009 version (3.1 MB)
* Download from the home of VOACAP, NTIA/ITS, this ITSHFBC page has not been updated for

long
* The 8 Dec 2009 version
* The 26 Mar 2009 version
* Download the Fortran source codes of the VOACAP Propagation Prediction Engine, in a special directory as ZIP files.
* VOACAP for Linux by J.A.Watson (M0DNS), an exciting project to make VOACAP available for Linux users. Please contribute!
* Release 3 is out! Download the new VOACAP Linux GUI, Release 3! (1.5 MB gzipped file). Now supports Area Coverage Maps with Jim Watson's VoaAreaPlot! This software is supplied 'as is' without any warranty, implied or otherwise. right-click and save the target. All users of Release 1 are strongly encouraged to upgrade, due to the bugs in R1.
* VOACAP for Linux Software
* The voacapl application: voacapl-0.5.7.tar.gz
* The itshfbc directory: itshfbcFiles18Apr08.tar.gz
* The python scripts to display the output
2. VOACAP - Backgrounds & Running the Prediction
General
* VOACAP Overview
* Screenshots of VOACAP
* Modelling the real-life HF communication system into VOACAP
* Setting VOACAP input parameters
* Textual circuit prediction (Run > Circuit)
* Graphical circuit prediction (Run > Graph)
* Area coverage prediction (VOAAREA)
The calculation engine, VOACAPW
* An introduction to VOACAPW.EXE
* The FREQUENCY card in VOACAPX.DAT
Graphs & Colours
* VOACAP & VOAAREA contours
* VOACAP & VOAAREA plot colors
* Y-axis scaling for VOACAP Time & Distance graphs
3. VOACAP - Understanding the Prediction
General
* Ten Common Mistakes in Using VOACAP
* Field Strength vs. Signal-to-Noise
* Choosing the correct Sunspot Number
* VOACAP Predictions at Low Frequencies
* Comparing VOACAP, ICEPAC and REC533
* Method 25: Ionospheric Parameters and Semi-thickness
MUF, SNR and REL
* The MUF and SNR Distribution: Choosing the Best Frequency
* Understanding Above-the-MUF Predictions
* Calculating the MUFdays
* Maintaining the Required Grade of Service: Calculating the Circuit Reliability for a Given Hour
Signal Power & Noise Power
* Summing Signal Power from Multiple Modes
* Calculating the Received RF Noise Power
Antennas & Radiation Angles
* Method 15, or Transmitter & Receiver AntennaPatterns
* VOACAP Angle Predictions

* Minimum Angle in VOACAP
* Predicting the Takeoff Angle Parameter TANGLE
Conversions
* S DBW to S Meter Correlation Table
* The Z Tables
4. VOACAP - Case Studies
* VOACAP Case: Make your beacon predictions
* VOAAREA Case: RUV Gufunes

Downloadables
Software
* MAKEVOA.EXE for creating VOACAP-compatible antenna models from HFTA, courtesy of R. Dean Straw N6BV (zipped, 34 kB)
* Elevation-Angle Analyzer for VOACAP, v1.0
* Windows program (zipped, 830 kB) for conversion of on-line CTY.DAT to CTY.GEO [9 Dec 07]. Mac and Linux versions available upon request!
* Perl source code for conversion of WL_CTY.DAT to CTY.GEO
Coordinate files
Save the coordinate files (*.GEO) at C:\ITSHFBC\GEOCITY\
* New country coordinate list from CTY.DAT by AD1C. [9 Dec 07]
* GEO file for all Zones (WAZ). Courtesy of Peter Ackermann DL3NAA.
* Latest Global HF Transmitter Site List. [5 Aug 06]
* Latest country coordinate list by OH6BG. [30 Jul 06]
* Latest NCDXF beacon coordinate list [30 Jul 06]
* Finland city coordinate list
Antenna and configuration files
* A collection of antennas for use with VOACAP is available. If you wish to contribute, please let me know.
* Fine-tuned VOACAP Point-to-Point parameter auto scaling settings, English. Save as C:\ITSHFBC\DATABASE\Voacap.gph
* Fine-tuned VOACAP Point-to-Point parameter auto scaling settings, Finnish. Tallenna nimellä C:\ITSHFBC\DATABASE\Voacap.gph
* Fine-tuned Y-axis scaling for VOACAP Time & Distance graphs. Save as C:\ITSHFBC\DATABASE\voadist.gph

* Fine-tuned colors for auto-contour shading for Point-to-Point plots. Save as C:\ITSHFBC\DATABASE\Colors.gph

---

Special Thanks
I wish to thank Mr George Lane for his friendship, invaluable comments and guidance - and his patience in this project. A special thank-you to Greg Hand who still maintains the code.

Communicating with the lightbeacons of the world Special Gift From
The Lighthouse DIGEST Amateur Radio Lighthouse Society By special arrangement withLighthouse Digest magazine in celebration of its 20th anniversary, and to honor the more than 1850 members of the Amateur Radio Lighthouse Society (ARLHS), we are offering two FREE GIFTS:

Offer #1: For every new one-year subscription to Lighthouse Digest, we will send to you a free issue of the magazine.

Offer #2: For every new, full ARLHS membership, or for everyrenewal of an existing full membership. we will send to you a free copy of Lighthouse Digest. Complete the coupon below by indicating your offer preference. Clearly print your name, address, and other information. Enclose payment (checks in USA dllrs made payable to ARLHS); detach and mail to: ARLHS, 114 Woodbine Ave, Merchantville, NJ 08109. (Sorry — no IRC's, PayPal payments, or credit cards.) Questions can be answered via telephone to 1-856-486-1755 or via E-mail toARLHSOC@... Offer #1: Please send me a one-year subscription to Lighthouse Digest and include a free additional issue at no extra charge.
Subscription rates are: USA = $35.00, Canada = $43.00, Foreign/Overseas = $55.00
I am enclosing the appropriate funds for a one-year subscription in the amount of USA $_____ Offer #2A: Please send me a NEW full active membership to the Amateur Radio Lighthouse Society and include a free issue of Lighthouse Digest magazine at no extra charge. I am enclosing in USA funds $25.00 Offer #2B: Please RENEW my EXISTING ARLHS membership in the Amateur Radio Lighthouse Society and include a free issue of Lighthouse Digest magazine at no extra charge. My existing member number is _____ (required). I am enclosing in USA funds $20.00 Name = _____ Call = _____ Existing Member # _____

http://www.dxlabsuite.com/propview/

PropView
Rate this program @ The DXZone
PropView uses the included VOACAP, ICEPAC, and IONCAP propagation prediction engines to forecast the minimum and maximum useable frequencies between two locations over a specified 24 hour period. Results are rendered in an easy-to-understand color-graphic display. You can specify locations via direct latitude/longitude entry. Alternatively, PropView interoperates with DXView to allow location selection via DXCC prefix entry or by clicking on locations on a world map.
PropView can also monitor the NCDXF/IARU International Beacon Network to assess actual propagation and compare it with forecast propagation. Beacon schedules can be assembled by band, by location, or by bearing from your QTH. PropView interoperates
with Commander and DXView to automatically QSY your transceiver to hear each beacon in your schedule, and to display the location of the current beacon.
A PC running Windows 95 (v4.00.950 B or v4.00.950 C), 98, 2000, NT, XP, Vista, 7, or 8 with an SVGA or better display is required; both 32-bit and 64-bit flavors of Windows are supported. PropView is free, and contains no advertising. Commercial use is expressly forbidden.
Provides an easy-to-understand forecast of band openings for any UTC day
* The thicker the line, the more likely the opening
* Only bands with openings are displayed
Access to PropView
* Download and install
* Automatic
* Manual
* Access to development releases
* Join the DXLab reflector
Information about PropView
* Version history
* Defects
* Enhancement requests
Comprehensive Online Help

Optionally displays the factors behind the forecast
* Maximum useable frequency
* 90% confidence (blue)
* 50% confidence (green)
* 10% confidence (red)
* Minimum useable frequency (black)
* Solar position (black, yellow, grey)
* Open bands (purple)

Easy to configure
* the Solar Flux Index (SFI) is automatically provided by SpotCollector if running
* the DX Station's latitude and longitude are automatically set when you

* enter a callsign or prefix in DXView
* click on a location on DXView's world map
* select a spot database entry in SpotCollector

Lets you specify takeoff-angle and transmit power parameters for each band
* Automatically chooses the correct parameters based on transceiver frequency
ifCommander is running

Monitors the NCDXF/IARU International Beacon Network
* Monitors specified beacons
* Monitors all beacons on a specified band
* Monitors all beacons near a specified bearing
* QSYs your transceiver to the current beacon's frequency if desired and Commanderis
running
* Display the current beacon's location on a world map if desired and DXView is running
* Rotates your antenna to each beacon's bearing if desired and DXView is running

If you have questions or suggestions, please send them via email to the DXLab reflector.

>Other members of the DXLab suite of free amateur radio software:
> * Commander - control your Elecraft, FlexRadio, Icom, TenTec, Kenwood, or Yaesu radio
from your PC
> * Pathfinder - locate QSL information from web-accessible sources
> * WinWarbler - conduct QSOs using PSK31 or PSK63 (decodes the entire band
simultaneously) or RTTY mode (decodes 2 QSOs simultaneously)
> * DXKeeper - record and manage QSOs, track progress towards DXing objectives, and print
QSL cards and labels, synchronize with eQSL.cc or LotW
> * DXView - display DXCC info and country maps, and plot spots, beam headings, solar
position, and the solar terminator on a world map
> * SpotCollector - collects and aggregates DX spots from multiple sources -- including
packet, Telnet, and IRC -- to create a local database that you can display, sort, and
filter in real time

OPDX Bulletin 1087 November 19, 2012
The Ohio/Penn Dx PacketCluster
DX Bulletin No. 1087
BID: $OPDX.1087
November 19, 2012
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)
Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, NJ1Q & W1AW, W2GR, W2NK, NG3K & ADXO, W3UR & The Daily DX, N4AA & QRZ DX, KF5EYY, KH6BZF, K7EUG, N7UN, K8GI, K8YSE, W8BBQ, W8GEX & 60m News, W8KVK, W9ILY, 9A6AA, AT International, CO2TK/HK3TK, DK8JB & The DX News Letter, DL1SBF, DxCoffee.com, DX-World.Net, ES1CW, F5NQL, F6AJA & Les Nouvelles DX, G3SWH, I1HYW, I1JQJ/IK1ADH & 425 DX News, I2MQP & DX Italia News, OZ6OM & 50 MHz DX News, Pete's DX- Newsdesk, RSGB IOTA Web Site, Sixitalia Weekly, VA3RJ & ICPO and the VHF-DX-Portal (MMMonVHF) for the following DX information.
DXCC COUNTRY/ENTITY REPORT
According to the AR-Cluster Network for the week of Sunday, 11th-November, through Sunday, 18th-November there were 231 countries active. Countries available: 3A, 3B8, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/m, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ4, PJ5, PJ7, PY, PY0S, PZ, R1FJ, S2, S5, S7, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T30, T5, T7, T8, TA, TF, TG, TI, TK, TN, TR, TT, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7,
V8, VE, VK, VK9L, VP2E, VP2M, VP5, VP8, VP8/h, VP9, VR, VU, XE, XT, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, Z8, ZA, ZB, ZC4, ZD7, ZF, ZL, ZL7, ZP, ZS
* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).
3B, MAURITIUS
There is a newly licensed ham on the beautiful island of Mauritius. His name/callign is Achmed, 3B8BAE, and his 'Elmer' (and father) is a well-known operator Rachid, 3B8FQ. Currently, you may find Achmed active almost daily on 28491 kHz SSB, at 1400z, as HF propagation allows. He also plans to be active on CW in the future. Achmed requests, "If you hear me on any mode, please spot 3B8BAE on the DX PacketCluster system, and of course, give me a call. I enjoy meeting new friends!" QSL via his QSL Manager Ron, K5XK, who also handles cards for his Dad, 3B8FQ. Please QSL direct to K5XK with 2 USDs, preferred, although IRCs are also OK. See details on QRZ.com/db/k5xk for more info. Do not QSL via the Bureau because there is NO BUREAU in Mauritius. Also, he does not do LoTW or eQSL at this time.
3V, TUNISIA
SWL Ashraf "Ash", 3V4-002 (KF5EYY), will be active as 3V8BB from the "Institute Superieur de L'Animation Pour la Jeunesse et la Culture" in Bir El Bay, Tunis, during the CQWW DX CW

Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via LoTW or to LX1NO. Read about Ashraf on the following Web page at:
http://www.qsl.net/3v4-002
5G, MOROCCO (Special Event)
Special event station 5G12ITD is now active until December 16th. Activity is to celebrate "International Tolerance Day" by UN members on November 16th. Operations will be on all bands and modes. QSL via RW6HS.
5W, SAMOA
Ralph, H44RK, has announced that he will be active from Samoa for a while as of early December. More details will be forthcoming.
5W, SAMOA
A team of 15 German operators will be active as 5W0M from Le Lagoto between April 4-18th (2013). Activity will be on 80-6 meters using CW, SSB and RTTY plus 2 meter EME. They plan to have four stations active simultaneously on the air with amp and various antennas. Suggested frequencies are:
CW - 3526, 7026, 10116, 14026, 18086, 21026, 24906 and 28026 kHz SSB - 3805, 7095, 14210, 18120, 21255, 24945 and 28440 kHz RTTY - 3580, 7041, 10137, 14077, 18104, 21098, 24924 and 28098 kHz 6m - 50107/CW and 50115/SSBOperators mentioned are Yl Heidi/DK1MA, Sid/DM2AYO, Rolf/DL7VEE (Team Leader), Franz/DL9GFB, Klaus/DK1AX, Joe/DF1AL, Heye/DJ9RR, Dietmar/ DL2HWA, Uwe/DJ9HX, Martin/DL3KMS, Rudolf/DK3CG, Georg/DL4SVA, Norbert/ DL2RNS, Ernst/DK7AN and Joachim/DL9MS. QSL via DL4SVA, direct or by the Bureau. QSL EME QSOs via DL9MS. A OQRS will be available for QSL requests for Bureau QSLs or direct cards. A Web page is available are:http://5w0m.hkmann.de
5X, UGANDA (2013/Frequency Change)
Members of the F6KOP team expected to be active as 5X8C between February 6-18th, 2013, from a location some 20 Km from Entebbe airport, have announced they will comply to the last IARU bandplan on 40m for the region, the frequencies of the PSK and RTTY modes have been moved to 7040 and 7042 kHz. For more details see OPDX.1081 or see:
http://www.5x2013.com
6W, SENEGAL
Jeff, N1SNB, will be active prior to the contest next weekend as 6W7/N1SNB. QSL (non-contest only) via N0TG.
8Q, MALDIVES
Max, HB9TUZ, will be active as 8Q7MS from Gangehi Island (AS-013) between December 26th and January 3rd (2013). Activity will be on 80-10 meters using SSB only. QSL via eQSL only.
9J, ZAMBIA
Niko, S53A, will be active as 9J3A from the Kafue National Park (WFF-9JFF-003, WWL KH35) between November 21-26th. This is his fifth operation from Zambia. Activity will be mostly during the CQWW DX CW Contest (November 24-25th) as a Single-Op, possibly as a Single-Band (10m) or All-Band (depending on conditions)/Low-Power entry. He will operate from the rain forest, under the tent, with a generator. There is no electricity, nor a Cell-Phone signal. This could be a very dangerous operation with a lot of poisonous insects, snakes, crocodiles, wild pigs or even lions could visit a tent in the middle of the night. He will be running 100w into SpiderBeam and some fixed loops. QSL via S57S (not S53A, not S57A), directly or by the Bureau (a very long wait, see details on QRZ.com). LoTW will be updated a few months after his return home.
AFRICAN TOUR (Western)
Peter, HA3AUI, is once again heading to Western Africa in early 2013. Look for him to be active as 6W2SC from Senegal and J5UAP from Guinea-Bissau sometime between January 17th and March 10th (tentative dates). Peter has used these callsigns before. His stays in Cabrousse, Senegal (6W), will be very near to the border of Varela, Guinea-Bissau (J5), and

he plans to make regular trips to J5-land for the beautiful beaches there (plans to also operate from there). Using his Elecraft K3 with 500w into a 5-Band Spiderbeam and verticals, Peter's activity will be on 40-10 meters, mainly on CW and the Digital modes, but he may use the other modes possibly on request. He will also try to activate some IOTAs and WFF references. QSL direct via HA3AUI or use his OQRS (available after his return). Visit his Web site at: 8
http://cqafrica.net
AH2, GUAM
Members of the Guam Contest Club will be active as AH2R from Tumon (OC-026, USI GU003S, WLOTA L-0064) during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. Operators mentioned are: Toshinobu/JI3ERV, Mikiawa/JR7OMD, Hiroyuki/JG7PSJ and Nozomu/JE8KKX. QSL via JH7QXJ, direct, by the Bureau (not the KH2 Bureau) or LoTW.
BY, CHINA
Look for the YinZhou Middle School Amateur Radio Club Station, located in NingBo City, Zhejiang Province, to be active as BY5CD during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. Their station consists of 2x Yaesu FT-2000 with stacked antennas for 40m and above. They also have 80m 4 SQ, 160m full size Slope with Beverage, and will use legal limit power. QSL via BD4HF, direct or by the Bureau (May take a long time!). The operator will be Jack, BA4ALC.
DAYTON HAMVENTION NEWS
The Dayton Hamvention® has announced it theme for 2013. When the Hamvention opens on May 17th, 2013, at Hara Arena, the 2013 theme will be DX Hamvention. Read all about it in this week's November 15th ARRL Letter at:
http://www.arrl.org/arrlletter?issue=2012-11-15
EF8, CANARY ISLANDS
Mauri, EA8CMX/OHBYS, will be active as EF8S during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/Low-Power entry. He states that he will trying a 3-element wire- Yagis and Beverages. QSL via OH2BYS.
EU, BELARUS
Valentin, EU1AA, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/QRP entry. He has operated the last 60 years in the CQWW DX Contests and is 76 years old. QSL via his home callsign or W3HNK.
FK, NEW CALEDONIA
Mirek, VK6DXI (aka SP5IXI, 9M8DX, 9V1XE etc.), is now active as FK/VK6DXI from New Caledonia (OC-032) until mid-December. He was heard early Sunday morning on 28485 kHz around 0720z. QSL via his home callsign.
HQ, HONDURAS
Hiro, JA6WFM, will be active as HQ2N from San Pedro Sula during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single- Band (10m) entry. QSL via EA5GL or LoTW. Hiro will be here until January 2014.
IOTA NEWS
AS-077. Look for special event station 8J6HAM to be active from the Island of Kyushu (WLOTA 0963), Japan, between December 10th and March 3rd (2013). Activity is in celebration of the 12th West Japan Ham Fair. Operations will be on all bands and modes. QSL via the JARL Bureau.
EU-025. Members of the Arcibessi DX & Contest Group will be active as II9P from Sicily Island during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via IT9CHU or LoTW. Operators mentioned are Francesco/IK8TEO, Antonello/IT9EQO, Carmelo/IT9AUG, Vincenzo/IT9CHU, Alfio/IT9EJW, Fabio/IT9GSF, Marcello/IT9CJC, and Robert/S53R (ST2AR). The team reports that this M/S operation is from a new Sicilian contest station. They state, "Good low band antennas, Beverage's on RX, MULT STATIONS QRV

on low bands at DX's sunrise/sunset (Sunrise ZL, VK, JA, BY, JT, VU - Sunset VY, PY, VE2, W7, KL, Carribean). Call and we will answer your CQ...! 1850, 3550, 7050 ± Pass QRGs."
Visit the II9P Web page at: http://ii9p.com
NA-134. Graham, G4MFX, will be visiting Aasiaat Island, Greenland, this week between November 20-26th. Since he is there because of his job, activity will be limited to his spare time. He expects most of his activity will be on November 24th (around 2100z). His callsign will be OX/G4MFX. Operations will be SSB only using his FT817ND with 5 watts into Zepp antennas for 17m and 20m (no other bands). QSL via his home callsign, by the Bureau or direct (see details on (QRZ.com)).
J3, GRENADA
Tom, VE3RSA, will be active as J34K during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/QRP entry. QSL via LoTW.
J6, ST. LUCIA
The "Buddies in the Caribbean" suitcase mini-DXpedition group which specializes in 100 watt or less low power radios and Buddipole portable antenna systems is going back to St. Lucia (NA-108, WLOTA L-1336) again between December 2-11th. They state,
"The north shore villa location was magnificent on our first visit in Feb 2010 and subsequent visits in December of the following years with a new group of operators. Our goal is to demonstrate 'ultralite' DXpeditioning into magnificent 'vista' locations, operating a field portable battery-only radio with backpackable, lightweight antennas and most of all 'having fun' with a new group of operators who have never experienced the 'other side of a pileup!'
>The eight operators this Dec 2012 are: Everett/W6ABM, Robert/N7QT, Hugh/W4VAB, Bryan/WB8ISG, Scott/KA9P, Jerry/W5TDY, Budd/W3FF (J68FF), and Guy/N7UN (J68UN). There will be 3 villa stations in operation on 160-10m using CW, SSB, and RTTY or PSK. At the same time, several teams will be battery-only, field portable either from St. Lucia beaches or scenic mountain tops and will sign call/p. They group will participate in the ARRL 10m Contest (callsign: J68UN) on Dec 8-9th. QSL via LoTW, eQSL or mail to the operator's home callsign (SASE required)."JX, JAN MAYEN
Svein, LA9JKA, continues to be active as JX9JKA from Jan Mayen (EU-022) until approx. April 11th, 2013. He operates on SSB and the Digital modes on 160-4 meters (also 60m). QSL via his home callsign direct only (see (QRZ.com)).
KG6, GUAM (OC-026)
Joel, KG6DX, will be active as KG6DX in the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (10m)/High-Power entry. QSL via KG6DX, CBA or (QRZ.com) address. Also LoTW.
KH6BZF PROPAGATION FORECAST/REPORT (November 19-25th)
Nov/19th AN Nov/22nd AN Nov/24th AN Nov/20th AN Nov/23rd AN Nov/25th AN Nov/21st AN SOLAR REFERENCE KEYS/INDEXES AND GEOMAGNETIC REFERENCE
========== NORMALITY GEOMAG K Values Alpha ---------- ------ -------- ------ AN - Above Normal Quiet K=0-1 0-7 HN - High Normal Unsettled K=2 8-15 LN - Low Normal Active K=3 16-29 BN - Below Normal Minor Storm K=4 30-49 DIS - Disturbed Major Storm K=5 50-99 VRY DIS - Very Disturbed Severe Storm K=6-9 100-400ADDED NOTE (TNX to W8KVK): New Experimental Products Coming - On December 11th (tentative), SWPC (Space Weather Prediction Center) will introduce two new forecast products titled the 3-Day Forecast and the Forecast Discussion. These new products will: be available twice a day at 0030 and 1230 UTC;
provide space weather information in two separate formats, abbreviated and detailed; and use NOAA Space Weather Scale information. Examples of these new products are available to familiarize our users at http://www.swpc.noaa.gov/info/3-Day.pdf (the concise, 1-page summary) and http://www.swpc.noaa.gov/info/Discussion.pdf (the in-depth space weather

analysis for the technical user). These two products will supplement the existing product suite and no current products will be discontinued.
KH0, MARIANA ISLANDS (Update/Change)
Operators Jussi-Pekka/OH6RX and Esa/OH7WV will be active from Saipan Island (OC-086) during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. Callsign will be AH0DX and QSL via WX8C. Time permitting, some operating outside of contest one day before and one day after may take place. Operators will be on Saipan between November 22-27th, and will probably use the callsigns KH0/homecall outside of the contest.
LX, LUXEMBOURG
A team of operators will be active as LX7I during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via LX2A. Operators mentioned are YL Sandy/DL1QQ, Helmut/DK6WL, Gerd/DF9TS, Mike/DF3VM, Frank/PA4N, Philippe/LX2A and possibly others. Also, visit the following Web page at:
http://www.lx2a.com
NH7, HAWAII
Al, NH7A/F5VHJ, will be active as NH7A from Keaau during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High- Power entry. QSL via F5VHJ, by the REF Bureau or LoTW.
NP2, U.S. VIRGIN ISLANDS
Brad, K7EUG, will be active as K7EUG/NP2 from St. Croix (NA-106) between November 19-27th. Activity will be on 40-10 meters, definitely be on SSB and possibly digital. QSL via his home callsign, direct or by the Bureau.
NP3, PUERTO RICO
Jaime, WP3A, will be active as NP3X from the Coamo Contest Club station during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/Low-Power/Assisted entry. QSL via NP3O. Visit the following Web page at:
http://kp2b.net
OY, FAROE ISLANDS
Carsten, OY1CT, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/High-Power entry. This will be a part time operation; no 160m. QSL via OY1CT.
P3, CYPRUS
Jack, R2AA (ex-RW3QC), will be active as P3N during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High- Power entry. QSL via RW3RN.
PACIFIC TOUR
Bob, 5B4AGN, is planning a lightweight Pacific trip for February 2013. Look for him to be active as KH2/G3ZEM from Guam (OC-026) between February 9-13th (2013) and as V63ZM from Micronesia between February 13-23rd. Activity will be on 80-10 meters but may include 160m if a useful antenna arrangements can be made. He will use his K3 radio and KPA-500. QSL via M0URX.
PG100, THE NETHERLANDS
Fred, PA0FAW (ISWL Member), will be operating as PG100NOM between December 1-28th. Activity will be mostly on CW and SSB with some Digital. Operations will be in WFF-PA-005 (For the World Fauna and Flora Award). Fred will use a 3 element beam for 10, 15 and 20. QSL is 100 percent and SWL reports are very welcome. See (QRZ.com) for details.
PT0S, ST. PETER AND ST. PAUL ROCKS (Update)
Just a reminder that the PT0S team has extended their operation to cover the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via HA7RY. The team has three stations on the air CW, SSB and RTTY. The latest updates are available at their Web page. Also the PT0S's log is now on their Web page and ClubLog at:
http://pt0s.comhttps://secure.clublog.org/logsearch/PT0SAs of 1045z, November 18th, PT0S has made a total of 25251 QSOs with 9283 Unique callsigns (14760/CW, 9789/SSB and

704/RTTY). Breakdown by continent is: 514/AF, 0/AN, 1510/AS, 11292/EU, 9497/NA, 278/OC and 2160/SA.
QSL INFO AND NEWS
QSL-INFO from DB0SDX (dated November 18th)

QSLS RECEIVED VIA THE BUREAU: 3G1TUW, 4U1WRC, 4Z13AR, AH0J, C31LJ, C5YK, D2AM, DS4DRE, EM15UCRF, H40FN, HK1R, HL5BLF, J37T, J45PO, J73CCM, JA7DOT, JA7ODY, JG7MFN, JH0JDV/0, JH4UYB, JI1LET, JR1MAF, JT1RF, JY4NE, KH0/KH2F, KP4KE, LZ907SKB, NY8A/KH2, PJ7/K5SL, R0/KE5JA, RG50F, RJ3AA, S56P, S550ACP, SP100MSC, V31MD, V5/DJ2HD and VP2MWG
RI1, FRANZ JOSEF LAND
Eugene, UA4RX, will be active as RI1FJ from Franz Josef Land (EU-019) during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (15m)/Low-Power entry. QSL via UA2FM direct, an OQRS is available on ClubLog.
T40, CUBA
Cuban operators Carlos/CO2CW, Winston/CO2WF, Juan-Carlos/CO2JD and Manuel/CO2MS will be active as T40C during the CQWW DX CW Contest (November 24-25th) as a Multi-Op/Single-Transmitter entry on 80/40/20/15/10 meters. QSL direct to address on (QRZ.com).
T6, AFGHANISTAN (Update)
As reported alst week, Mike, KI4MRH, is now active as T6MH from Afghanistan, and expects to be there until October 2013. Activity will be on 80-10 meters (no 30m) using SSB and the Digital modes (PSK-31/PSK-63/JT-65). He will use 100 watts (SSB) and 30 watts (Digital) into a 40 meter Inverted Vee and a 20 meter vertical. This past week Mike has be real active on 20/17/15 meters using the Digital modes. Also, OPDX was informed that he now has a QSL Manager, so QSL via W2GR direct w/GSs or IRC and SASE.
T8, PALAU

Naotsugu, JA1MML, will be active as T8NS from Palau (OC-009) between November 21-26th. Activity will include the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL route TBA.
TC2, TURKEY
Members of the Bulgarian Elecraft Contest Team will be active as TC2M during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via LZ1NK. Operators mentioned are Stanislav/LZ1GC, Stoyan/LZ1SDR, Krasimir/LZ2UW, Mike/LZ2NW, Vesko/LZ2JE, Darin/LZ2NG, Chrsito/LZ3FN and Veselin/LZ5VK. There will be activity outside of the contest using the callsign TC2W. Visit the group's Web page at:
http://tc3a.alle.bg
TF, ICELAND (Update)
Operators Phil/G3SWH, Tom/N3ZZ, Andrew/UA3AB, Mike/WA6O, Oskar/TF3DC, Yngvi/TF3Y and Thorvaldur/TF4M will activate the TF4M Rhombic Farm club station in Otradalur, using the callsign TF4X during the CQWW DX CW Contest (November 24-25) as a Multi-2 entry. QSL via G3SWH, direct only or the OQRS. For more on the TF4M station, see:
http://www.tf4m.comAlso for a log search, see:http://www.g3swh.org.uk/tf4x.html
TG, GUATEMALA
Martin, DL5RMH, is now active as TG9/KF5LSG until January 13th, 2013. Activity will be holiday style on CW and RTTY, using an Icom IC-706 MKII into a Cushcraft R7. Martin will also be in the CQWW DX CW Contest using the callsign TG9IDX as a Single-Op/All-Band/Low-Power entry. QSL via DL5RMH, by the Bureau, direct or LoTW.
V4, ST. KITTS (NA-104)
Andy, N2NT, will be active as V47NT from the QTH of V47KP between November 19-26th. Activity will include the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via W2RQ. Andy adds, "The operation is dependent on getting the station back together :) There is a lot of work to be done there."
V8, BRUNEI (Update)
The members of the Gemilang Amamteur Radio Club (GEMILANG Radio) and the Mediterraneo DX Club continue to be active as V84SMD from Brunei (OC-088, WLOTA 1628) until November 23rd. An interesting log search is available at:
http://www.maxlaconca.com/logv84smdQSL via IK2VUC, direct, by the bureau or the OQRS. Logs will be uploaded to LoTW 4-5 months after the activity. Further information can be found on their website at:http://www.mdxc.org/v84smdAs of 1724z, November 18th, V84SMD has made a total of 27568 QSOs with 10210 Unique callsigns (38%/CW, 43%/SSB and 19%/Digi). Breakdown by continent is: 1%/AF, 50%/AS, 38%/EU, 8%/NA, 2%/OC and 1%/SA.
VE2, CANADA (Zone 2)
Victor, VA2WDQ, will be active as VE2EKA from Sept-Iles in Zone 2 during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power/Assisted entry. Victor will be in Zone 2 between November 22-26th. QSL via VA2WDQ.
VK6, AUSTRALIA
Bernd, VK2IA, will be active as VK6AA during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via his new QSL Manager Uli, DK2BJ. ADDED NOTE: QSL all of the following - VK2IA, VK6AA, VK8VJ, VK9AA and VK9AA/9 via DK2BJ. Bernd reports that his old manager Peter, DL8YR, passed away earlier this year and Uli has kindly offered his help and support. Uli's postal address is (for those who wish to send QSLs direct): Uli Hacker, Karl-Marx-Allee 155, 52066 Aachen, Germany. Bernd states, "I will upload all my VK logs to LotW before the end of the year."
VK8, AUSTRALIA
Tom, OZ1AA, will be active as VK8GM (from Gregory's QTH) during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All- Band/High-Power entry. QSL via VK8GM, direct or by

the Bureau.
VP2M, MONTSERRAT
Will, AA4NC, will be acvtive as VP2ME from Montserrat (NA-103, WLOTA 1475) between February 13-20th (2013). Activity will be on the 30/17/12 meter bands using CW, SSB and RTTY. He will also be in the ARRL DX CW Contest (February 16-17th). QSL via LoTW.
VP8/S. SOUTH GEORGIA (Update)
Mike, GM0HCQ/MM, onboard the "Royal Research Ship James Clark Ross, is scheduled to possibly be active again as VP8SGK from King Edward Point Base station, South Georgia (AN-007). According to his latest update [edited]:
"The current plan has the ship working cargo at Bird Island on Sunday, 18th November. If the cargo work is not completed and the weather remains good then the ship may well remain here for a further day, which means that at present the proposed arrival dates for King Edward Pont, South Georgia, are either Monday 19th or Tuesday 20th. The ship is likely to arrive by 1200z. If the ship does arrive at 1200z, then I am likely to have work to carry out for most of the morning and part of the afternoon. I do have to visit the base to look over the radio equipment and once I have done this I would hope to be able to operate as VP8SGK. .
>I anticipate this to be after 1700 or 1800z. Proposed frequencies: As it is likely to be an afternoon of operating I suspect that ideally I would be best working on 15m. However, there may be an issue with the antenna and the transceiver not loading on this band. If so I will then have to drop down to 17m and perhaps 20m. I propose to use the following frequencies: 21187kHz, 18157kHz or 14187kHz. All operations will be on SSB, which is not by choice but due to not wanting to carry a whole pile of kit ashore with me. The transceiver is a commercial unit, a Skanti TRP800 (I think) and does not have any fancy filters. Hopefully, I will be able to plug in a set of headphones from the ship."QSLing is only direct for all contacts. All contacts will be on e-QSL or LoTW. NO BUREAU QSLS. Full details on QSLing are available at:http://www.gm0hcq.com/qsl.htmDetails about Mike and the "James Clark Ross" are avaialble at:http://www.gm0hcq.com
VU2, INDIA
Prasad, VU2PTT, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via the LoTW, by the Bureau or direct using the info on (QRZ.com).
XV, VIETNAM
Retu, OH4MDY (OX3RZ/XU7MDY/XV2MDY), will once again be active as XV2RZ from Southeast Vietnam between November 23rd and December 10th. Activity will be on 20-6 meters using the "normal modes" (CW and SSB). QSL only direct via OH4MDY with a SASE and 2 USDs. His log will be available online at: http://www.clublog.org
XW, LAOS
By the time you read this, Naim, OD5LN, who was just active as XU7HRN from Sihanoukville, Cambodia, is expected to be active from Laos until November 24th. As of press time callsign is unknown. QSL via OD5LN.
YI, IRAQ
The "Iraq Amateur Radio Society" (IARS) club station YI1IRQ is once again back on the air as of November 14th. The last legitimate airing of YI1IRQ was in August 2008. Visit the IARS Web page at:
http://www.iraqi-ars.org
Z6, KOSOVO
Marijan, S56A, will be active as Z6/S56A from south of Pristina, close to the Serbian monastery of Gracanica, during the CQWW DX CW Contest (November 24-25th) as a multiplier for the contest. He will operate as a Single-Op/All-Band/Low-Power entry. Marijan will be in Kosovo between November 22-26th. Activity outside of the contest will be on all bands

using CW, SSB and RTTY. His equipment: TS-480 and a homemade coaxial multiband vertical antenna. QSL via S56A.
ZM4, NEW ZEALAND
Members of the East Coast Contesters ZM4T/ZM2M Team will be active using the callsign, ZM4T, in the CQWW DX CW Contest (November 24-25th) as a Multi-Multi entry. Operators mentioned are: Lee/ZL2AL, Gary/ZL2IFB, Holger/ZL3IO, Peter/ZL2LF, Tom/ZL2MY and John/ZL1BYZ. QSL via ZL2AL, only direct or LoTW with in 30 days or OQRS via the ZM4T Web page at:

5W0M ... Talofa ... Afio mai !

We are pleased to announce that from
April 4th to 18th 2013 a german team will activate Samoa, IOTA OC-097
from Le Lagoto on Savaii in the northern part of the island - grid AH36TN

We will be qrv from 80m to 6m in CW, SSB and RTTY - including 60m - and on 2m EME.
Planned are 4 simultaneous short wave stations with solid state amplifiers with various antennas...

We will be happy to see you in the pileups...

The 5W0M-Team

Equipment considerations, subject to availability:

Elecraft K3, Tokyo Hy Power, Elecraft KPA 500, microham MK-II
5-band Spiderbeam, 60ft vertical, 35ft vertical
Wintest network logging, W3NQN filters
All the equipment is private property by the team members.

Our 6m policy

We will monitoring 50.110 MHz and call CQ regularly.

... call us ...

Please spread out and .... listen ... (!)
Follow the instructions of the operators !!

CW
SSB
RTTY
80m 3,526 up 3,805 down 3,580 up
40m 7,026 up 7,095 up&dwn 7,041 up&dwn
30m 10,116 up - 10,137 up
20m 14,026 up 14,210 up 14,077 up
17m 18,086 up 18,120 up 18,104 up
15m 21,026 up 21,255 up 21,098 up
12m 24,906 up 24,945 up 24,924 up
10m 28,026 up 28,440 up 28,098 up
6m 50,107 up 50,115 up -
This are the planned operating frequencies.
Depending of local situation, we may change this frequencies.
Please listen!
We will work always SPLIT

!! Please avoid dupes !!

QSL-Info

Only for QSOs with 5W0M between april 4rd, 2013 and april 18th, 2013.

* Bureau: via DL4SVA
* Direct: SAE and postage return
(cash only - US$ or EUR - PLEASE NO IRCs) to

Georg Tretow
DL4SVA
P. O. BOX 1114
D-23931 GREVESMUEHLEN
GERMANY ONLY FOR EME - QSOs
Joachim Werner
DL9MS
Kastanienstr. 21

GERMANY

One word regarding postage return
Postage for a standard envelope (maximal 20 grams)
* to DL
   - SAE with 0,58 EUR
* to all others countries worldwide
   - SAE with 0,75 EUR or 1 EUR or 2 US $

Please use our OQRS-system!

QSL requests with insufficent postage return go back to the sender via QSL bureau.

Infos about Samoa
DXCC: 5W
CQ ZONE:32
ITU ZONE: 62
IOTA: OC-097
WW Loc. AH36TN   Samoa ...

A lot of water arround ....

Samoa, officially the Independent State of Samoa (Samoan: Malo Sa'oloto Tuto'atasi o Samoa), formerly known as Western Samoa, is a country encompassing the western part of the Samoan Islands in the South Pacific Ocean. It became independent from New Zealand in 1962. The two main islands of Samoa are Upolu and one of the biggest islands in Polynesia, Savai'i. The capital city, Apia, and Faleolo International Airport are situated on the island of Upolu.
Samoa was admitted to the United Nations on 15 December 1976. The entire island group, inclusive of American Samoa, was called “Navigators Islands” by European explorers before the 20th century because of the Samoans' seafaring skills. (Text and pictures by Wikipedia)

Alhamdulillah walaupun baru (cuma) berhasil di 15M saja, PT0S sudah confirmed melalui LoTW pagi ini.
Pagi ini cuma mendengar CQnya di 15M lagi padahal mengharap di 10M.

Semoga masih ada kesempatan dan masih bisa work di 10M.
Amin

Alhamdulillah walaupun baru (cuma) berhasil di 15M saja, PT0S sudah confirmed melalui LoTW pagi ini.

Pagi ini cuma mendengar CQnya di 15M lagi padahal mengharap di 10M.

Semoga masih ada kesempatan dan masih bisa work di 10M.
Amin

OM Zen,
Kita khan tanggalnya QSO dg PT0S barengan, jadi mungkin log OM Zen yang belum terproses di LoTW - sepertinya justru lognya PT0S sudah sebagian terproses di LoTW.

Khan kita bisa lihat juga di LoTW log yg kita upload ke LoTW yg sudah diproses sampai dengan tgl. berapa dan QSO dg. siapa. Saya satu file/log yg blm masuk.

Subject: News at HamQTH.com - Free hamradio callbook

Hello,

I'm very happy that I can inform you about recent news at HamQTH.com

What's new?

* XML access to callsign's recent activity added, more in developers section
(http://hamqth.com/developers.php#xml_activity)
* real-time QSO upload interface added, more in developers section
(http://hamqth.com/developers.php#log_realtime)
* send email to searched station function added (in Contact tab, just next to email itself)
* list of applications supporting HamQTH added (http://hamqth.com/app_support.php)
* HamQTH has new shortcut icon designed by Junghard, DF1IAV
* thanks to Yousef, 7Z2YR we have HamQTH translated to Arabic (it looks really awesome!)

Small statistic:
1 343 209 callsigns in database
11 883 registered users
7 018 773 queries to XML search
6 521 517 QSO in the log from 953 different callsigns

Did you know that DX cluster at HamQTH can colour the spots according to QSO you have in
the log?

We have almost 50 times more users using XML search than web visitors
every day. It's fine, but please encourage others to register at
HamQTH and update their profiles. Without that, XML search won't be
accurate. Thank you!

Please look at your profile http://hamqth.com/YF1AR - keep it
up-to-date and let others to know that HamQTH exists!

73 Petr, OK2CQR
HamQTH.com owner

OM. Hendro,
Kalau aku amati memang agak lambat upload ke LOTW mungkin masuk antrian
atau mesinnya pusing sebab seluruh dunia upload semua, apalagi habis
contest kemarin sempet DOWN.

OM Zen,
Setelah kontes banyak yg upload, tapi waktu sempat "mogok" khan berarti banyak yang blm berhasil upload sehingga tambah banyak antrian log, karena sementara itu juga QSO tetap berlanjut.

Karna banyak antrian, maka ada yang mengira blm berhasil upload - maka dicoba sekali lagi upload dan mungkin akhirnya lebih dari dua kali upload utk log yg sama, sehingga menambah berat kerja server LoTW.

Semoga pelan2 akhirnya normal kembali, seperti kemacetan di jalan ibukota bila ada pohon tumbang yg nutup jalan. Setelah pohon tumbang berhasil di singkirkan, pelan tapi pasti akhirnya lancar lagi asal pengendara semuanya disiplin mengikuti pengatur lalu lintas. xixixi

Alhamdulillah, saya dapat 2 QSO sesuai target aja. HI
Targetnya gak tinggi tapi susah juga diperolehnya - kalo OM Arief sudah 4-5 QSO ya ?
PF juga.

OM. Hendro,
Kalau aku amati memang agak lambat upload ke LOTW mungkin masuk antrian
atau mesinnya pusing sebab seluruh dunia upload semua, apalagi habis
contest kemarin sempet DOWN.

Yth Pengurus YB land DX Club,
Terima kasih atas e mail 2 nya, tapi saya merasa keberatan kalau seluruh e mail 2 tsb di cc kan kepada saya.
Saya usul e mail yang dikirim ke saya tidak semuanya tapi hanya yang seperti kegiatan ORARI dan atau berita Internasional yang sesuai dengan kegiatan radio amatir saja tapi tidak surat menyurat antar anggota.
Saya merasa terlalu banyak e mail yang saya terima seharinya kadang2 melebihi 40 email sehingga kalau ada e mail penting untuk saya menjadi terdesak kebawah dan sulit dicarinya.
Atas perhatian dan pengertiannya saya ucapkan terima kasih.
Hormat saya,

Hendarman Sumantri - YC1LA

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B, MAURITIUSThere is a newly licensed ham on the beautiful island of Mauritius. His name/callign is Achmed, 3B8BAE, and his 'Elmer' (and father) is a well-known operator Rachid, 3B8FQ. Currently, you may find Achmed active almost daily on 28491 kHz SSB, at 1400z, as HF propagation allows. He also plans to be active on CW in the future. Achmed requests, "If you hear me on any mode, please spot 3B8BAE on the DX PacketCluster system, and of course, give me a call. I enjoy meeting new friends!" QSL via his QSL Manager Ron, K5XK, who also handles cards for his Dad, 3B8FQ. Please QSL direct to K5XK with 2 USDs, preferred, although IRCs are also OK. See details on QRZ.com/db/k5xk for more info. Do not QSL via the Bureau because there is NO BUREAU in Mauritius. Also, he does not do LoTW or eQSL at this time.
3V, TUNISIASWL Ashraf "Ash", 3V4-002 (KF5EYY), will be active as 3V8BB from the "Institute Superieur de L'Animation Pour la Jeunesse et la Culture" in Bir El Bay, Tunis, during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via LoTW or to LX1NO. Read about Ashraf on the following Web page at:
http://www.qsl.net/3v4-002
5G, MOROCCO (Special Event)
Special event station 5G12ITD is now active until December 16th. Activity is to celebrate "International Tolerance Day" by UN members on November 16th.
Operations will be on all bands and modes. QSL via RW6HS.
5W, SAMOA
Ralph, H44RK, has announced that he will be active from Samoa for a while as of early December. More details will be forthcoming.
5W, SAMOA
A team of 15 German operators will be active as 5W0M from Le Lagoto between April 4-18th (2013). Activity will be on 80-6 meters using CW, SSB and RTTY plus 2 meter EME. They plan to have four stations active simultaneously on the air with amp and various antennas. Suggested frequencies are:
CW - 3526, 7026, 10116, 14026, 18086, 21026, 24906 and 28026 kHz SSB - 3805, 7095, 14210, 18120, 21255, 24945 and 28440 kHz RTTY - 3580, 7041, 10137, 14077, 18104, 21098, 24924 and 28098 kHz 6m - 50107/CW and 50115/SSBOperators mentioned are Yl Heidi/DK1MA, Sid/DM2AYO, Rolf/DL7VEE (Team Leader), Franz/DL9GFB, Klaus/DK1AX, Joe/DF1AL, Heye/DJ9RR, Dietmar/ DL2HWA, Uwe/DJ9HX, Martin/DL3KMS, Rudolf/DK3CG, Georg/DL4SVA, Norbert/ DL2RNS, Ernst/DK7AN and Joachim/DL9MS. QSL via DL4SVA, direct or by the Bureau. QSL EME QSOs via DL9MS. A OQRS will be available for QSL requests for Bureau QSLs or direct cards. A Web page is available are:http://5w0m.hkmann.de/
5X, UGANDA (2013/Frequency Change)Members of the F6KOP team expected to be active as 5X8C between February 6-18th, 2013, from a location some 20 Km from Entebbe airport, have announced they will comply to the last IARU bandplan on 40m for the region, the frequencies of the PSK and RTTY modes have been moved to 7040 and 7042 kHz. For more details see OPDX.1081 or see:
http://www.5x2013.com/
6W, SENEGAL
Jeff, N1SNB, will be active prior to the contest next weekend as 6W7/N1SNB. QSL (non-contest only) via N0TG.
8Q, MALDIVESMax, HB9TUZ, will be active as 8Q7MS from Gangehi Island (AS-013) between December 26th and January 3rd (2013). Activity will be on 80-10 meters using SSB only. QSL via eQSL only.
9J, ZAMBIA
Niko, S53A, will be active as 9J3A from the Kafue National Park (WFF-9JFF-003, WWL KH35) between November 21-26th. This is his fifth operation from Zambia. Activity will be mostly

during the CQWW DX CW Contest (November 24-25th) as a Single-Op, possibly as a Single-Band (10m) or All-Band (depending on conditions)/Low-Power entry. He will operate from the rain forest, under the tent, with a generator. There is no electricity, nor a Cell-Phone signal. This could be a very dangerous operation with a lot of poisonous insects, snakes, crocodiles, wild pigs or even
lions could visit a tent in the middle of the night. He will be running 100w into SpiderBeam and some fixed loops. QSL via S57S (not S53A, not S57A), directly or by the Bureau (a very long wait, see details on QRZ.com). LoTW will be updated a few months after his return home.
AFRICAN TOUR (Western)Peter, HA3AUI, is once again heading to Western Africa in early 2013. Look for him to be active as 6W2SC from Senegal and J5UAP from Guinea-Bissau sometime between January 17th and March 10th (tentative dates). Peter has used these callsigns before. His stays in Cabrousse, Senegal (6W), will be very near to the border of Varela, Guinea-Bissau (J5), and he plans to make regular trips to J5-land for the beautiful beaches there (plans to also operate from there). Using his Elecraft K3 with 500w into a 5-Band Spiderbeam and verticals, Peter's activity will be on 40-10 meters, mainly on CW and the Digital modes, but he may use the other modes possibly on request. He will also try to activate some IOTAs and WFF references. QSL direct via HA3AUI or use his OQRS (available after his return). Visit his Web site at: 8
http://cqafrica.net/
AH2, GUAMMembers of the Guam Contest Club will be active as AH2R from Tumon (OC-026, USI GU003S, WLOTA L-0064) during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. Operators mentioned are: Toshinobu/JI3ERV, Mikiawa/JR7OMD, Hiroyuki/JG7PSJ and Nozomu/JE8KKX. QSL via JH7QXJ, direct, by the Bureau (not the KH2 Bureau) or LoTW.
BY, CHINA
Look for the YinZhou Middle School Amateur Radio Club Station, located in NingBo City, Zhejiang Province, to be active as BY5CD during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. Their station consists of 2x Yaesu FT-2000 with stacked antennas for 40m and above. They also have 80m 4 SQ, 160m full size Slope with Beverage, and will use legal limit power. QSL via BD4HF, direct or by the Bureau (May take a long time!). The operator will be Jack, BA4ALC.
DAYTON HAMVENTION NEWSThe Dayton Hamvention® has announced it theme for 2013. When the Hamvention opens on May 17th, 2013, at Hara Arena, the 2013 theme will be DX Hamvention. Read all about it in this week's November 15th ARRL Letter at:
http://www.arrl.org/arrlletter?issue=2012-11-15
EF8, CANARY ISLANDS
Mauri, EA8CMX/OHBYS, will be active as EF8S during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/Low-Power entry. He states that he will trying a 3-element wire- Yagis and Beverages. QSL via OH2BYS.
EU, BELARUS
Valentin, EU1AA, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/QRP entry. He has operated the last 60 years in the CQWW DX Contests and is 76 years old. QSL via his home callsign or
W3HNK.
FK, NEW CALEDONIAMirek, VK6DXI (aka SP5IXI, 9M8DX, 9V1XE etc.), is now active as FK/VK6DXI from New Caledonia (OC-032) until mid-December. He was heard early Sunday morning on 28485 kHz around 0720z. QSL via his home callsign.
HQ, HONDURAS
Hiro, JA6WFM, will be active as HQ2N from San Pedro Sula during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single- Band (10m) entry. QSL via EA5GL or LoTW. Hiro will be here until January 2014.

IOTA NEWSAS-077. Look for special event station 8J6HAM to be active from the Island of Kyushu (WLOTA 0963), Japan, between December 10th and March 3rd (2013). Activity is in celebration of the 12th West Japan Ham Fair. Operations will be on all bands and modes. QSL via the JARL Bureau.
EU-025. Members of the Arcibessi DX & Contest Group will be active as II9P from Sicily Island during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via IT9CHU or LoTW. Operators mentioned are Francesco/IK8TEO, Antonello/IT9EQO, Carmelo/IT9AUG, Vincenzo/IT9CHU, Alfio/IT9EJW, Fabio/IT9GSF, Marcello/IT9CJC, and Robert/S53R (ST2AR). The team reports that this M/S operation is from a new Sicilian contest station. They state, "Good low band antennas, Beverage's on RX, MULT STATIONS QRV on low bands at DX's sunrise/sunset (Sunrise ZL, VK, JA, BY, JT, VU - Sunset VY, PY, VE2, W7, KL, Carribean). Call and we will answer your CQ...! 1850, 3550, 7050 ± Pass QRGs." Visit the II9P Web page at: http://ii9p.com/
NA-134. Graham, G4MFX, will be visiting Aasiaat Island, Greenland, this week between November 20-26th. Since he is there because of his job, activity will be limited to his spare time. He expects most of his activity will be on November 24th (around 2100z). His callsign will be OX/G4MFX. Operations will be SSB only using his FT817ND with 5 watts into Zepp antennas for 17m and 20m (no other bands). QSL via his home callsign, by the Bureau or direct (see details on (QRZ.com)).
J3, GRENADA
Tom, VE3RSA, will be active as J34K during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/QRP entry. QSL via LoTW.
J6, ST. LUCIAThe "Buddies in the Caribbean" suitcase mini-DXpedition group which specializes in 100 watt or less low power radios and Buddipole portable antenna systems is going back to St. Lucia (NA-108, WLOTA L-1336) again between December 2-11th. They state, "The north shore villa location was magnificent on our first visit in Feb 2010 and subsequent visits in December of the following years with a new group of operators. Our goal is to demonstrate 'ultralite' DXpeditioning into magnificent 'vista' locations, operating a field portable battery-only radio with backpackable, lightweight antennas and most of all 'having fun' with a new group of operators who have never experienced the 'other side of a pileup!'
>The eight operators this Dec 2012 are: Everett/W6ABM, Robert/N7QT, Hugh/W4VAB, Bryan/WB8ISG, Scott/KA9P, Jerry/W5TDY, Budd/W3FF (J68FF), and Guy/N7UN (J68UN). There will be 3 villa stations in operation on 160-10m using CW, SSB, and RTTY or PSK. At the same time, several teams will be battery-only, field portable either from St. Lucia beaches or scenic mountain tops and will sign call/p. They group will participate in the ARRL 10m Contest (callsign: J68UN) on Dec 8-9th. QSL via LoTW, eQSL or mail to the operator's home callsign (SASE required)."JX, JAN MAYENSvein, LA9JKA, continues to be active as JX9JKA from Jan Mayen (EU-022) until approx. April 11th, 2013. He operates on SSB and the Digital modes on 160-4 meters (also 60m). QSL via his home callsign direct only (see (QRZ.com)).
KG6, GUAM (OC-026)Joel, KG6DX, will be active as KG6DX in the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (10m)/High-Power entry. QSL via KG6DX, CBA or (QRZ.com) address. Also LoTW.
KH6BZF PROPAGATION FORECAST/REPORT (November 19-25th)

100-400ADDED NOTE (TNX to W8KVK): New Experimental Products Coming - On December 11th (tentative), SWPC (Space Weather Prediction Center) will introduce two new forecast products titled the 3-Day Forecast and the Forecast Discussion. These new products will: be available twice a day at 0030 and 1230 UTC;
provide space weather information in two separate formats, abbreviated and detailed; and use NOAA Space Weather Scale information. Examples of these new products are available to familiarize our users at http://www.swpc.noaa.gov/info/3-Day.pdf (the concise, 1-page summary) and http://www.swpc.noaa.gov/info/Discussion.pdf (the in-depth space weather analysis for the technical user). These two products will supplement the existing product suite and no current products will be discontinued.
KH0, MARIANA ISLANDS (Update/Change)
Operators Jussi-Pekka/OH6RX and Esa/OH7WV will be active from Saipan Island (OC-086) during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. Callsign will be AH0DX and QSL via WX8C. Time permitting, some operating outside of
contest one day before and one day after may take place. Operators will be on Saipan between November 22-27th, and will probably use the callsigns KH0/homecall outside of the contest.
LX, LUXEMBOURGA team of operators will be active as LX7I during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via LX2A. Operators mentioned are YL Sandy/DL1QQ, Helmut/DK6WL, Gerd/DF9TS, Mike/DF3VM, Frank/PA4N, Philippe/LX2A and possibly others. Also, visit the following Web page at:
http://www.lx2a.com/
NH7, HAWAII
Al, NH7A/F5VHJ, will be active as NH7A from Keaau during
the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High- Power entry. QSL via F5VHJ, by the REF Bureau or LoTW.
NP2, U.S. VIRGIN ISLANDSBrad, K7EUG, will be active as K7EUG/NP2 from St. Croix (NA-106) between November 19-27th. Activity will be on 40-10 meters, definitely be on SSB and possibly digital. QSL via his home callsign, direct or by the Bureau.
NP3, PUERTO RICOJaime, WP3A, will be active as NP3X from the Coamo Contest Club station during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/Low-Power/Assisted entry. QSL via NP3O. Visit the following Web page at:
http://kp2b.net/
OY, FAROE ISLANDS
Carsten, OY1CT, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/High-Power entry. This will be a part time operation; no 160m. QSL via OY1CT.
P3, CYPRUS
Jack, R2AA (ex-RW3QC), will be active as P3N during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High- Power entry. QSL via RW3RN.
PACIFIC TOUR
Bob, 5B4AGN, is planning a lightweight Pacific trip for February 2013. Look for him to be active as KH2/G3ZEM
from Guam (OC-026) between February 9-13th (2013) and as V63ZM from Micronesia between February 13-23rd. Activity will be on 80-10 meters but may include 160m if a useful antenna arrangements can be made. He will use his K3 radio and KPA-500. QSL via M0URX.
PG100, THE NETHERLANDSFred, PA0FAW (ISWL Member), will be operating as PG100NOM between December 1-28th. Activity will be mostly on CW and SSB with some Digital. Operations will be in WFF-PA-005 (For the World Fauna and Flora Award). Fred will use a 3 element beam for 10, 15 and 20. QSL is 100 percent and SWL reports are very welcome. See (QRZ.com) for details.
PT0S, ST. PETER AND ST. PAUL ROCKS (Update)Just a reminder that the PT0S team has extended

their operation to cover the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via HA7RY. The team has three stations on the air CW, SSB and RTTY. The latest updates are available at their Web page. Also the PT0S's log is now on their Web page and ClubLog at:
http://pt0s.com/https://secure.clublog.org/logsearch/PT0SAs of 1045z, November 18th, PT0S has made a total of 25251 QSOs with 9283 Unique callsigns (14760/CW, 9789/SSB and 704/RTTY). Breakdown by continent is: 514/AF, 0/AN, 1510/AS, 11292/EU, 9497/NA, 278/OC and 2160/SA.

RI1, FRANZ JOSEF LANDEugene, UA4RX, will be active as RI1FJ from Franz Josef Land (EU-019) during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (15m)/Low-Power entry. QSL via UA2FM direct, an OQRS is available on ClubLog.
T40, CUBACuban operators Carlos/CO2CW, Winston/CO2WF, Juan-Carlos/CO2JD and Manuel/CO2MS will be active as T40C during the CQWW DX CW Contest (November 24-25th) as a Multi-Op/Single-Transmitter entry on 80/40/20/15/10 meters. QSL direct to address on (QRZ.com).
T6, AFGHANISTAN (Update)
As reported alst week, Mike, KI4MRH, is now active as T6MH from Afghanistan, and expects to be there until October 2013. Activity will be on 80-10 meters (no 30m) using SSB and the Digital modes (PSK-31/PSK-63/JT-65). He will use 100 watts (SSB) and 30 watts (Digital)

into a 40 meter Inverted Vee and a 20 meter vertical. This past week Mike has be real active on 20/17/15 meters using the Digital modes. Also, OPDX was informed that he now has a QSL Manager, so QSL via W2GR direct w/GSs or IRC and SASE.
T8, PALAU
Naotsugu, JA1MML, will be active as T8NS from
Palau (OC-009) between November 21-26th. Activity will include the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL route TBA.
TC2, TURKEYMembers of the Bulgarian Elecraft Contest Team will be active as TC2M during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via LZ1NK. Operators mentioned are Stanislav/LZ1GC, Stoyan/LZ1SDR, Krasimir/LZ2UW, Mike/LZ2NW, Vesko/LZ2JE, Darin/LZ2NG, Chrsito/LZ3FN and Veselin/LZ5VK. There will be activity outside of the contest using the callsign TC2W. Visit the group's Web page at:
http://tc3a.alle.bg/
TF, ICELAND (Update)Operators Phil/G3SWH, Tom/N3ZZ, Andrew/UA3AB, Mike/WA6O, Oskar/TF3DC, Yngvi/TF3Y and Thorvaldur/TF4M will activate the TF4M Rhombic Farm club station in Otradalur, using the callsign TF4X during the CQWW DX CW Contest (November 24-25) as a Multi-2 entry. QSL via G3SWH, direct only or the OQRS. For more on the TF4M station, see:
http://www.tf4m.com/Also for a log search, see:http://www.g3swh.org.uk/tf4x.html
TG, GUATEMALA
Martin, DL5RMH, is now
active as TG9/KF5LSG until January 13th, 2013. Activity will be holiday style on CW and RTTY, using an Icom IC-706 MKII into a Cushcraft R7. Martin will also be in the CQWW DX CW Contest using the callsign TG9IDX as a Single-Op/All-Band/Low-Power entry. QSL via DL5RMH, by the Bureau, direct or LoTW.
V4, ST. KITTS (NA-104)
Andy, N2NT, will be active as V47NT from the QTH of V47KP between November 19-26th. Activity will include the CQWW DX CW Contest (November 24-25th) as a
Single-Op/All-Band/High-Power entry. QSL via W2RQ. Andy adds, "The operation is dependent on getting the station back together :) There is a lot of work to be done there."
V8, BRUNEI (Update)The members of the Gemilang Amamteur Radio Club (GEMILANG Radio) and the Mediterraneo DX Club continue to be active as V84SMD from Brunei (OC-088, WLOTA 1628) until November 23rd. An interesting log search is available at:
http://www.maxlaconca.com/logv84smdQSL via IK2VUC, direct, by the bureau or the OQRS. Logs will be uploaded to LoTW 4-5 months after the activity. Further information can be found on their website at:http://www.mdxc.org/v84smdAs of 1724z, November 18th, V84SMD has made a total of 27568 QSOs with 10210 Unique callsigns (38%/CW, 43%/SSB and 19%/Digi). Breakdown by continent is: 1%/AF, 50%/AS, 38%/EU, 8%/NA, 2%/OC and 1%/SA.
VE2, CANADA (Zone 2)
Victor, VA2WDQ, will be active as VE2EKA from Sept-Iles in Zone 2 during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power/Assisted entry. Victor will be in Zone 2 between November 22-26th. QSL via VA2WDQ.
VK6, AUSTRALIABernd, VK2IA, will be active as VK6AA during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via his new QSL Manager Uli,
DK2BJ. ADDED NOTE: QSL all of the following - VK2IA, VK6AA, VK8VJ, VK9AA and VK9AA/9 via DK2BJ. Bernd reports that his old manager Peter, DL8YR, passed away earlier this year and Uli has kindly offered his help and support. Uli's postal address is (for those who wish to send QSLs direct): Uli Hacker, Karl-Marx-Allee 155, 52066 Aachen, Germany. Bernd states, "I will upload all my VK logs to LotW before the end of the year."
VK8, AUSTRALIA
Tom, OZ1AA, will be active as VK8GM (from Gregory's QTH) during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All- Band/High-Power entry. QSL via VK8GM, direct or by

the Bureau.
VP2M, MONTSERRATWill, AA4NC, will be acvtive as VP2ME from Montserrat (NA-103, WLOTA 1475) between February 13-20th (2013). Activity will be on the 30/17/12 meter bands using CW, SSB and RTTY. He will also be in the ARRL DX CW Contest (February 16-17th). QSL via LoTW.
VP8/S. SOUTH GEORGIA (Update)
Mike, GM0HCQ/MM, onboard the "Royal Research Ship James Clark Ross, is scheduled to possibly be active again as VP8SGK from King Edward Point Base station, South Georgia (AN-007). According to his latest update [edited]:
"The current plan has the ship working cargo at Bird Island on Sunday, 18th November. If the cargo work is not completed and the weather remains good then the ship may well remain here for a further day, which means that at present the proposed arrival dates for King Edward Pont, South Georgia, are either Monday 19th or Tuesday 20th. The ship is likely to arrive by 1200z. If the ship does arrive at 1200z, then I am likely to have work to carry out for most of the morning and part of the afternoon. I do have to visit the base to look over the radio equipment and once I have done this I would hope to be able to operate as VP8SGK. .
>I anticipate this to be after 1700 or 1800z. Proposed frequencies: As it is likely to be an afternoon of operating I suspect that ideally I would be best working on 15m. However, there may be an issue with the antenna and the transceiver not loading on this band. If so I will then have to drop down to 17m and perhaps 20m. I propose to use the following frequencies: 21187kHz, 18157kHz or 14187kHz. All operations will be on SSB, which is not by choice but due to not wanting to carry a whole pile of kit ashore with me. The transceiver is a commercial unit, a Skanti TRP800 (I think) and does not have any fancy filters. Hopefully, I will be able to plug in a set of headphones from the ship."QSLing is only direct for all contacts. All contacts will be on e-QSL or LoTW. NO BUREAU QSLS. Full details on QSLing are available at:http://www.gm0hcq.com/qsl.htmDetails about Mike and the "James Clark Ross" are avaialble at:http://www.gm0hcq.com/
VU2, INDIAPrasad, VU2PTT, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via the LoTW, by the Bureau or direct using the info on (QRZ.com).
XV, VIETNAMRetu, OH4MDY (OX3RZ/XU7MDY/XV2MDY), will once again be active as XV2RZ from Southeast Vietnam between November 23rd and December 10th. Activity will be on 20-6 meters using the "normal modes" (CW and SSB). QSL only direct via OH4MDY with a SASE and 2 USDs. His log will be available online at: http://www.clublog.org/
XW, LAOS
By the time you read this, Naim, OD5LN, who was
just active as XU7HRN from Sihanoukville, Cambodia, is expected to be active from Laos until November 24th. As of press time callsign is unknown. QSL via OD5LN.
YI, IRAQThe "Iraq Amateur Radio Society" (IARS) club station YI1IRQ is once again back on the air as of November 14th. The last legitimate airing of YI1IRQ was in August 2008. Visit the IARS Web page at:
http://www.iraqi-ars.org/
Z6, KOSOVO
Marijan, S56A, will be active as Z6/S56A from south of Pristina, close to the Serbian monastery of Gracanica, during the CQWW DX CW Contest (November 24-25th) as a multiplier for the contest. He will operate as a Single-Op/All-Band/Low-Power entry. Marijan will be in Kosovo between November 22-26th. Activity outside of the contest will be on all bands using CW, SSB and RTTY. His equipment: TS-480 and a homemade coaxial multiband vertical antenna. QSL via S56A.
ZM4, NEW ZEALANDMembers of the East Coast Contesters ZM4T/ZM2M Team will be active using the callsign, ZM4T, in the CQWW DX CW Contest (November 24-25th) as a Multi-Multi entry.

Operators mentioned are: Lee/ZL2AL, Gary/ZL2IFB, Holger/ZL3IO, Peter/ZL2LF, Tom/ZL2MY and John/ ZL1BYZ. QSL via ZL2AL, only direct or LoTW with in 30 days or OQRS via the ZM4T Web page at:

The MDXC on “The Brunei Times”
November 18th, 2012 written by Admin
Tuesday, November 13, 2012GEMILANG Radio Club under the Gemilang Association Tutong from Brunei Darussalam and MediterraneoDX Club (MDX Club) from Italy launched the Amateur Radio DXing activity (DXpedition) yesterday morning.
Yang Berhormat Hj Ramli Hj Lahit (R), Legislative Council member
and penghulu of Mukim Telisai was present as the guest of honour at the ceremony which took place at Pantai Seri Kenangan, Tutong. The activity will carry on until November 23, 2012.
The 24-hour operation gathered nine countries such as France, Germany, Belgium, Romania, Switzerland, Indonesia and Austria including Italy and Brunei through amatuer radio hobby.
Twenty-five amatuer radio operators will take turns by shift of six teams.
There will be two concurrent operations where the radio station will be set up, one at Pantai SeriKenangan and another one at Halim Plaza Hotel, Tutong.
>The operation had been sanctioned by The Authority for Info-Communications Technology Industry (AITI) and was issued with a special call sign V84SMD.
>The team targeted to make 60, 000 radio contacts during the 12-day operation which will cover all Amateur Radio Frenquencies six to 160 Metreband including the World Administrative Radio Conference (WARC) bands of 12, 17 and 30 Metreband.
>It will utilise the mode of phone (voice), Morse Code (continuous wave) and radio teletype (Digital) to establish contacts with other Radio Amateur Stations from all over the world.
>MDX club chose Brunei as their destination because the Sultanate, according to them, is a mix of historical, cultural, tourism and friendship land that they dream to visit and discover.
>It is also an opportunity to meet the locals and learn their tradition apart from meeting new friends.
>The American operators are still hunting for a precious QSL cards (for two way radio contact) from Brunei to WARC and Low Bands (40, 80 and 150 Metreband) and also the digital mode contact.
>This operation will give those operators a chance to make rare contact with Brunei-operated Amateur Radio.
>In conjunction with the event and as part of their contributions to promote the hobby, an ‘Open Day’ will be held for the public to visit on Sunday, November 18, 2012 starting at 9am until 5pm.
>Anyone who is interested to get a closer look at the operation may contact the Chairman of GemilangRadio to arrange a special visit.
>Gemilang Association Tutong was registered to the Registrar of Society, the Royal Brunei Police Force on November 4, 2004 (Ref: BPD 25/1160).
>Its aim is to facilitate and promote the development of leadership, management skill and individual’s potential by running interest-based activities in support of our nation’s objective in shaping Brunei’s youth into excellence.
>The association’s core activities are Amateur Radio (Gemilang Radio); four wheel drive (Gemilang 4×4); Photography (Gemilang Photo) and Agriculture (Gemilang Tani). Other

activities include religious, social, economic, sport, cultural, traditional and a lot more.
>As one of the core activities, Gemilang Radio or Gemilang Amateur Radio Club was formed in line with the aspiration of the association.
>With a humble start of a few members of the association itself, shaping the club direction and strategy since 2004, Gemilang Radio has now been established as of the main player of Amateur Radio in Brunei.
>Meanwhile, the MDX Club was formed to promote and support DX operations in countries and islands having limited or no amateur radio activity.
>Now MDX is the oldest Italian active Club with over 700 members and more than 150 supported DXpeditions.The Brunei Times

SV8SMD:Swimming, Crocodiles and CQDX
November 20th, 2012 written by Admin
From the official V84SMD:
News coming from the boys in V8-land are also today interesting and rich of feshness. Hospitality and friendship of Gemilang OMs continue surprising everyone of the team. Official meetings continued also during the week-end and on Sunday all people from Tutong District has been invited to visit all stations of the DXpedition. Five operators showed shacks and explained to groups of intrigued people how amateur radios contact people all over the world.
>Saturday, the Leader and co-Leader visited the Capital Bandar for some meetings with Government officials. Good occasion to lay the fundations for future collaborations.
>Week end in the sign of relax also for the other boys. Good WX coditions and the wonderful South China Sea, attracted everybody to go swimming. A little less “attracting” the Sangai Tutong river, where they risked to swim with some un-hospital crocodiles, living in that waters.
>From Monday, all operators, in turn, will be free to go out for shopping.
>The DX-pedition log reached today 30,000 QSOs. Their efforts are focused mainly towards bands and locations where propagation conditions are enough prohibitive. Low bands and digi modes are actually the most wanted QSOs.

Thank you OM Djoko, OM Hans, OM hen and Mr. Robert ... :)

Sebetulnya sudah keluar dari October 2011 callsign nya, but harus ikut ujian naik tingkat dulu, etc ... dan IAR nya yg masih belon keluar hehehe
Atas permintaan/persetujuan(sejak awal October 2012) ORDA Jabar dan ORLOK Cibeunying maka saya start pakai call baru nya.
Ini juga baru di pakai sekitar 2-3 hari callsign YE1NZ nya, sudah mendapatkan 30 DDXCC, saya mau coba seminggu bisa dapet DDXCC fullnya ngga tuh :)

Callsign W7NZ saya juga sebetul kemaren sudah mau expired (1/28/2013), ya jadi sekalian aja pake YE1NZ nya.
Callsign W7NZ juga sudah di renew for another 10 years, submitted on 11/05/2012, granted on 11/07/2012 and by 11/10/2012 IAR baru nya sudah masuk ke PO Box saya di Midvale, Utah.
Di YB land? 3 days = 3 months or 3 years?

Thanks sekali lagi y'all, c u guys on the air, except Bob, c u soon in ur neck of the woods :)

Iwan - W7NZ/YE1NZ

4495. A news from ARRL

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-11-22 04:38:58 UTC
From: hendro s.joedho
Topic: 4495 Message: 4495

On the Air:
Top Off the Year on Top Band in the ARRL 160 Meter
Contest

While Solar Cycle 24 is making the high bands the focal point
for HF operators, 160 meters -- Top Band -- is still chock full of DX.
There's no better time to get on 160 meters than the ARRL 160 Meter Contest, November
30-December 2.
The
ARRL 160 Meter Contest is an all-CW event, with ARRL/RAC Sections and DXCC
entities used as multipliers. If you live in a rare Section -- such as
North Dakota, Nebraska or any of the rare Sections from the November
Sweepstakes contests -- everyone will be seeking you. Hams in Ontario (VE3)
will have a new role in this year's contest: The split of Ontario into four
new sections -- Ontario East (ONE), Ontario North (ONN), Ontario South (ONS)
and the Greater Toronto Area (GTA) -- will give everybody a few new
multipliers to hunt for on Top Band.
Gene Shea, KB7Q, of Bozeman, Montana, logged more than 830 contacts and
earned his Worked All States Award by the time the Sun rose on Saturday
morning during the 2009 ARRL 160 Meter Contest. But being in Montana in December
definitely means snow, and Shea had to clear the white stuff away from the
base of the insulated 80 foot tower to make sure the 66 radials were still
connected and ready to go. Read more about Shea's experience here.
In this contest, Alaska (KL7) and Hawaii (KH6) can be
worked by both DX and US/Canadian stations, as can the Caribbean US
possessions (KP1-KP5) and all of the Pacific Ocean territories (KH0-KH9). No
antennas for 160? Don't be discouraged! According to ARRL Contest Branch Manager
Sean Kutzko, KX9X, if you don't have an antenna for 160, put up a temporary
length of wire or try to load up whatever you have through an antenna
tuner; even a 40 meter dipole through a tuner will make some QSOs.
Since ARRL
and RAC Sections are worth 2 points each and count as multipliers,
the ARRL 160 Meter Contest is a good way to begin working -- or finishing
up! -- your Worked All States Award (WAS). But don't forget about those DX stations -- each
DXCC entity is a
multiplier and is worth 5 points.The 2012 ARRL 160 Meter Contest runs from 2200 UTC Friday,
November 30
through 1559 UTC Sunday, December 2. Complete rules and entry forms may be
found here. Logs must be e-mailed or postmarked no later than
1600 UTC Tuesday, January 1, 2013. Paper logs should be sent to ARRL 160
Meter Contest, 225 Main St, Newington, CT 06111.

From the LOTW web page:

"Nov 19, 2012: LoTW Log Processing is About 6 Days Behind -- The system is processing log data a little slower than usual, but is working. There is a very large number of logs in the queue -- thanks for your patience and for using LoTW, and we will continue to work to streamline the system."

OM Djoko & OM Zen,
Sudah 2 kali saya upload dan berhasil masuk - masing2 perlu waktu 4 hari dan 5-6 hari dari sejak upload.
I - upload tgl. 10.11.12 sehari setelah LoTW OK dan tgl. 14.11.12 masuk
II - upload tgl. 14.11.12 kalo gak salah sekitar tgl. 20.11.12 sudah masuk
III - upload tgl. 18.11.12 sampai saat ini belum ada tanda2.

Sekali upload saya gak banyak, paling sekitar 15-20 QSOs saja.

73 es be patient

DXNL 1807 - Nov 21, 2012
DX Newsletter

3V, TUNISIA
Ashraf,KF5EYY, will join the WWDX CW Contest as SOABLP from the clubstation 3V8BB of the "Institute Superieur de L'Animation Pour la Jeunesse et la Culture". QSL via LX1NO, LoTW.
See also: http://www.justin.tv/kf5eyy and http://www.qsl.net/3v4-002

3W, VIETNAM
A group of Ukrainian HAMs (Serge,UU5WW, Paul,UU0JR, Serge,UT5JCW) will be QRV as 3W2J from Vung Tau from Nov 22-28, incl. WWDX CW on 7-28 MHz.
QSL via K2PF.

4K, AZERBAIJAN
Alim,4K6FO, will start in the SOAB class of the WWDX CW Contest.

5T, MAURITANIA
SP2EBG, SP3CYY, SP3GEM, SP6EQZ, SP6FXY, SP6IXF and 5T0JL will show up as 5T0SP in CW/SSB/digital modes on 160m-6m between Nov 24 and Dec 10.
The log will be uploaded to ClubLog. QSL via SP6FXY, LoTW.
See also: http://5t0sp.dxing.pl

5Z, KENYA
Sig,NV7E, be QRV as 5Z4EE from Nairobi in the WWDX CW Contest (SOABHP).
QSL via homecall, direct preferred but via bureau is ok as well.

6W, SENEGAL
Jeff,6W7/N1SNB, will be active prior to the contest next weekend.
QSL via N0TG.

7P, LESOTHO
The team of 7P8D meets at the airport in Johannesburg on the morning of Nov 21 and travels from there to Lesotho by car. They hope to arrive there at the same evening to have Nov 22/23 available for setting up their M/2 or M/M station ready for the WWDX CW Contest. They will work also on the WARC bands already during contest time and will be active with 4 stations through Sunday, Dec 2. Their main focus is on CW, but they will be QRV also in RTTY and occasionally in SSB. The OPs are: DJ3CQ, DL2MDU, DL8JJ, K5LBU, VA7DX, VE7MID, VE7XS, ZS2DL, ZS2DK, ZS6RJ.
Preferred frequencies:
CW: 1820, 3520, 7026, 10105, 14020, 18075, 21020, 24895, 28015 kHz
SSB: 1840, 3780, 7160, 14185, 18150, 21220, 24945, 28480 kHz
RTTY: 7038, 10138, 14085, 18102, 21085, 24922, 28080 kHz
QSL via ZS2DL, LotW, Clublog, OQRS.
See also: http://www.zs2dl.co.za/7P8D.html and
http://dl4maq.wordpress.com/category/7p8d-2012/

Gerry,EI7CC, has been spotted as 7P8CC in CW on 10m around 1300 UTC and 1730 UTC. Nothing is known about the length of his stay. QSL via EI7CC.

9J, ZAMBIA

During his 5th visit to Zambia Niko,S53A, will be QRV as 9J3A from the Kafue National Park (WFF-9JFF-003, WWL KH35) from Nov 21-26 mainly in the WWDX CW Contest running 100 watts into a SpiderBeam and Loops. QSL via S57S, LoTW.

9M2, WEST MALAYSIA

Champ,9M2/E21EIC, is going to be active from Nov 23-27 incl. the WWDX. QSL via E21EIC, unfortunately only direct; JAs via JR5XPG, no eQSLs. See also: http://www.e21eic.net

---

The special event station 9M4SEA will be activated during the 40th SEANET Convention in Kuala Lumpur from Nov 23-27. QSL via 9W2TKK. See also: http://2012sea.net

BY, CHINA

Jack,BA4ALC, plans to use the clubstation BY5CD during the WWDX CW in the SOABHP category. QSL via BD4HF.

C5, GAMBIA

The "Radio Syd Contest Group" will join the M/M category of the WWDX CW as C5A from Banjul for the third time. This time they are supported by Jiri,OK1DO, Zdenek,OK1DSZ, Petr,OK1FFU, Martin,OK1HGM, Karel,OK1JKT, Vlada,OK1NY, Jiri,OK1RI, Vita,OK5MM, Joe,OM5AW, and Norbert,OM6NM. QSL preferably direct via OM2FY, bureau is ok.

CN, MOROCCO

The special event station 5G12ITD is working in all modes on all bands until Dec 16 to celebrate the International Day of Tolerance (Nov 16). QSL via RW6HS, unfortunately only direct (best with registered mail).

CO, CUBA, NA-015

Carlos,CO2CW, Winston,CO2WF, Juan-Carlos,CO2JD, and Manuel,CO2MS, will use the special call T40C on 80m-10m in der M/S category of the upcoming WWDX CW Contest. QSL unfortunately only direct, see QRZ.com.

EA, SPAIN

Miguel,EA5ZD, will join the WWDX CW Contest as SOSB/LP on 10m.

EA9, CEUTA AND MELILLA

Con,DF4SA, Frank,DL2CC, Zoli,HA1AG, Lacy,HA3NU, and Mark,N5OT, will be a wanted multiplier as ED9Z. They will sign EA9/homecall outside of the contest. QSLs for ED9Z via HA1AG, all others via homecalls.

EU, BELARUS

Valentin,EU1AA, is working in WWDX Contests since 1952. QSLs direct to himself or direct via W3HNK.

EY, TAJIKISTAN
Nodir,EY8MM, will work on 10m single band in the WWDX.
QSL via K1BV, no eQSL. See also: http://www.ey8mm.com

FK, NEW CALEDONIA, OC-032
Mirek,FK/VK6DXI (aka SP5IXI, 9M8DX, 9V1XE...), is active on the bands
until mid December. QSL via homecall.

HI, DOMINICAN REPUBLIC
Sergey,R4WAA/HI7, is working on 40m-10m from Nov 21-30 including the
WWDX CW Contest. QSL via homecall.

HR, HONDURAS
Hiro,JA6WFM, will be QRV again as HQ2N (SOSB 10m) from San Pedro Sula.
QSL direct via EA5GL, LoTW.

J3, GRENADA, NA-024
Tom,VE3RSA, hopes to make many QSOs as J34K in the WWDX. QSL via LoTW.

JA, JAPAN
The special event station 8J5SSS is working until March 31, 2013, from
the 55th Saijo-shi Sangyo Sai Industry Festival in the Ehime prefecture
on Shikoku Island (AS-075, JCC 3806). QSL via bureau.

The special event station 8N1CJ marks 40 years of diplomatic relations
between Japan and China until Dec 31. QSL via bureau.

JX, JAN MAYEN, EU-022
Svein,LA9JKA, is on Olonkin Base on Jan Mayen (EU-022, WLOTA 1454,
Loc IQ50rx) since Mar 21 and is working as JX9JKA until April 11, 2013.
QSL direct via LA9JKA, LoTW, no eQSL!

KH2, GUAM, OC-026
The Guam Contest Club members Toshinobu,JI3ERV, Hiroyuki,JG7PSJ,
Mikiawa,JR7OMD, and Nozomu,JE8KKX, will join the WWDX CW Contest
as AH2R from Tumon (OC-026, USI GU003S, WLOTA L-0064).
QSL via JH7QXJ, bureau is ok (not via KH2 bureau), LoTW.

KH6, HAWAII, OC-019
Al,NH7A/F5VHJ, will be QRV as NH7A (SOAB HP).
QSL via bureau to F5VHJ or LoTW.

KP2, US VIRGIN ISLANDS, NA-106
Brad,K7EUG/NP2, is working in SSB and digital modes on 40m-10m from
St. Croix (NA-106) until Nov 27. QSL via homecall.

LX, LUXEMBURG
Sandy,DL1QQ, Helmut,DK6WL, Gerd,DF9TS, Mike,DF3VM, Frank,PA4N,
Philippe,LX2A, and maybe some more will take part in the WWDX CW with
a new antenna setup at LX7I. Reports to compare with other EU stations
are welcome via lx2a@.... QSL via LX2A.
See also: http://www.lx2a.com/net

OY, FAROE ISLANDS, EU-018
Carsten,OY1CT, will join the WWDX CW Contest as SOHP (without 160m).
QSL via bureau.

PA, THE NETHERLANDS
Fred,PA0FAW, will be QRV as PG100NOM in CW, SSB and some digital from
the "De Hoge Veluwe National Park" (WFF-PA-005) from Dec 1-28 using
a 3 ele yagi for 10m/15m/20m. QSL via homecall, SWL reports welcome.

T8, PALAU, OC-009
Naotsugu,JA1MML, is working as T88NS from Palau (OC-009) from Nov 21-26
including the WWDX CW Contest (SOAB).

TA, TURKEY
A Bulgarian group with LZ1GC, LZ1SDR, LZ2UW, LZ2NW, LZ2JE, LZ2NG,
LZ3FN and LZ5VK will be QRV as TC2M from Turkey in the WWDX CW.
They will sign TC2W before and after the contest. QSLs via LZ1NK.
See also: http://tc3a.alle.bg

TG, GUATEMALA
Martin,DL5RMH, is working in holiday style from Guatemala City signing
TG9/KF9LSG in CW and RTTY on HF until Jan 13. He uses an Icom 706 MKII,
a Cushcraft R7 and will join the WWDX CW Contest (SOABLP) as TG9IDX.
QSLs via DL5RMH. See also: http://www.dl5rmh.de

TI, COSTA RICA
Alan,K0AV, uses TI5A in the WWDX CW Contest. QSL via TI5KD or LoTW.

V4, ST KITTS AND NEVIS, NA-104
Andy,N2NT, will join the WWDX as V47NT if he gets the station up again.
QSL via W2RQ.

VE, CANADA
Victor,VA2WDQ, will sign VE2EKA as SOAB-LP assisted. QSL via VA2WDQ.

VK, AUSTRALIA
Thomas,OZ1AA, announced to join the WWDX as VK8GM. QSL via VK8GM.

Nick,VK4FMAG, is the only HAM on Magnetic Island (OC-171). He uses only
little power and a rotary dipole 4m high. He can be found at 21250 kHz.
QSL unfortunately only direct.

VU, INDIA
WPX hunters can look forward to a full series of the rare AU prefix.
Following special stations will be activated from Nov 23 until Dec 7
to celebrate the 152th birthday of the Indian scientist Acharya
Jagadish Chandra Bose:

Call	OP	QSL via
AU1JCB	VU2UR	VU2SMNS

Dear ALL,

TANPA banyak kilah selain ☐karena satu dan lain hal☐, mohon maaf kalau e-QSP Vol. II.03 edisi OCTOBER 2012 terlampir baru di akhir minggu ke 3 November 2012 ini bisa ☐naik tayang☐.

Buat yang baru pertama kali ini menerima kiriman e-QSP, sebelum membuka atau mengunduhnya berikut COPAS-an ☐Sekapur sirih☐nya:

BTW, seperti sudah bbrp kali diberitahukan sebelumnya mulai edisi Tahun ke II Vol.II.1 (Agustus 2012) yll. selain melalui milis-milis ☐langganan☐, para nara sumber (kalau ada) dan beberapa ☐Hub-subscribers☐, distribusi e-QSP melalui japri HANYA ditujukan kepada mereka yang setidaknya sudah 3x QSL-ing kiriman e-QSP sebelumnya, dengan TIDAK LEBIH dari 10 alamat japri per ☐batch☐ pengiriman.

Karenanya -- untuk sekedar meyakinkan -- begitu anda menerima kiriman e-QSP Vol. II-3 edisi OCTOBER 2012 ini, PSE PSE PSE QSL, TNX ..

73,

[bam]

e-QSP Ed.

PS: Bagi rekans yang tidak bisa menerima surel dengan Lampiran, e-QSP edisi ini (dan Back numbers/edisi lawas) bisa diunduh sendiri (atau sekedar buat dibaca-baca) dari/di http://issuu.com/e-qsp

Subject: [YBDXC_News] e-QQSP Vol. II-03 OCT 2012

Dear ALL,
TANPA banyak kilah
selain “karena satu dan lain hal”, mohon maaf kalau e-QSP Vol. II.03 edisi OCTOBER 2012 terlampir baru di akhir minggu ke 3 November 2012 ini bisa “naik tayang”.
Buat yang baru
pertama kali ini menerima kiriman e-QSP, sebelum membuka atau mengunduhnya berikut COPAS-an “Sekapur sirih”nya:

BTW,
seperti sudah bbrp kali diberitahukan sebelumnya mulai edisi Tahun ke II Vol.II.1 (Agustus 2012) yll. selain melalui milis-milis “langganan”, para nara sumber (kalau ada) dan beberapa “Hub-subscribers”, distribusie-QSP melalui japri HANYA ditujukan kepada mereka yang setidaknya sudah 3x QSL-ing kiriman e-QSP sebelumnya, denganTIDAK LEBIH dari10 alamat japri per “batch” pengiriman.
Karenanya
-- untuk sekedar meyakinkan -- begitu anda menerima kiriman e-QSP Vol. II-3 edisi OCTOBER 2012 ini, PSE
PSE PSE QSL, TNX ..

73,
[bam]
e-QSP Ed.
PS: Bagi
rekans yang tidak bisa menerima surel dengan Lampiran, e-QSP edisi ini (dan Back numbers/edisi lawas)bisa diunduh sendiri (atau sekedar buat dibaca-baca) dari/di http://issuu.com/e-qsp

Om Seno.. Bedanya itu begini :

Christ the Dragon Jon juara Dunia.
Dragon DX Club msh juara Country..

Klo saweran saya percaya YE2R bisa. Wong di sana banyak juragan. Hahhahahahhahhaa..

Btw selamat buat dragon dx club.

Subject: e-QQSP Vol. II-03 OCT 2012

Dear ALL,

TANPA banyak kilah selain “karena satu dan lain hal”, mohon maaf kalau e-QSP
Vol. II.03 edisi OCTOBER 2012 terlampir baru di akhir minggu ke 3 November
2012 ini bisa “naik tayang”.

Buat yang baru pertama kali ini menerima kiriman e-QSP, sebelum membuka atau
mengunduhnya berikut COPAS-an “Sekapur sirih”nya:

BTW, seperti sudah bbrp kali diberitahukan sebelumnya mulai edisi Tahun ke
II Vol.II.1 (Agustus 2012) yll. selain melalui milis-milis “langganan”,
para nara sumber (kalau ada) dan beberapa “Hub-subscribers”, distribusi
e-QSP melalui japri HANYA ditujukan kepada mereka yang setidaknya sudah 3x
QSL-ing kiriman e-QSP sebelumnya, dengan TIDAK LEBIH dari 10 alamat japri
per “batch” pengiriman.

Karenanya -- untuk sekedar meyakinkan -- begitu anda menerima kiriman e-QSP
Vol. II-3 edisi OCTOBER 2012 ini, PSE PSE PSE QSL, TNX ..

73,

[bam]

e-QSP Ed.

PS: Bagi rekans yang tidak bisa menerima surel dengan Lampiran, e-QSP edisi
ini (dan Back numbers/edisi lawas) bisa diunduh sendiri (atau sekedar buat
dibaca-baca) dari/di http://issuu.com/e-qsp

24 November 2012 A.R.I. DX Bulletin

No 1125

==========

*** 4 2 5 D X N E W S ***

**** DX INFORMATION ****

==========

Edited by I1JQJ & IK1ADH

Direttore Responsabile I2VGW

3B8 - Jacques, F1BCS will be active as 3B8/F1BCS from Mauritius Island (AF-049) from 27 November to 14 December. He will operate SSB, RTTY and PSK mainly on 20 and 15 metres. [TNX F8REF]

3W - Once again Retu, OH4MDY will be active as XV2RZ from Vietnam from 23 November to 10 December. He will be QRV on 20-6 metres with a focus on digital modes. QSL via home call, direct only.

5W - A large team of German operators (namely DF1AL, DJ9HX, DJ9RR, DK1AX, DK1MA, DK3CG, DK7AN, DL2HWA, DL2RNS, DL3KMS, DL4SVA, DL7VEE, DL9GFB, DL9MS and DM2AYO) will be active as 5W0M from Savaii, Samoa (OC-097) on 4-18 April 2013. They will have four stations QRV on 80-6 metres CW, SSB and RTTY plus 2m EME. QSL via DL4SVA, direct or bureau; QSL for EME QSOs via DL9MS. Logsearch, OQRS for direct/bureau cards and further information can be found at http://5w0m.hkmann.de/

8Q - Claudio, HB9OAU will be active as 8Q7AU from the Maldives (AS-013) from 26 November to 11 December. He will operate SSB on 80-10 metres. QSL via home call, direct or bureau.

9Y - Gerd, DL7VOG (www.dl7vog.de) is currently active as 9Y4/DL7VOG from Tobago (SA-009) until 3 December. His preferred modes are CW and RTTY, and can operate on 160-6 metres. He will participate in the CQ WW DX CW Contest. QSL via home call, bureau preferred.

C6 - Gil, N2GG will be active holiday style as C6AGG from Grand Bahama (NA-080) on 1-13 December. He will operate SSB and some CW on 80-10 metres. QSL via N2GG. [TNX The Daily DX]

CN - Special callsign 5G12ITD will be in use from Morocco until 16 December for the United Nations' International Day for Tolerance. QSL via RW6HS. [TNX RW6HS]

F - Celebrating the French scientific research vessel Tara's expeditions, F8DVD and F8IJV will be active as TM1TARA on 8-10 December. They will be QRV on 20-10 metres SSB. QSL via F8DVD, direct or bureau. [TNX F8DVD]

H40 - Sigi, DK9FN will be active again as H40FN (CW) from Nendo (OC-100), Temotu Province between 22 December and 7 January. His target frequencies will be 1825, 3505, 7005, 14005, 18075, 21005, 24905, 28005 and 52000 kHz. All of the QSOs will be confirmed automatically via the bureau; the QSL route for direct cards is

via HA8DD. Further information and operating tips (they are worth a reading) at qrz.com under H40FN.

HP - Olli, OH0XX is active as HP1WW from the QTH of HP1XX on Contadora Island (NA-072), and will participate in the CQ WW DX CW Contest on 10 metres. Gunter, HP1XX will move permanently to Panama City in early December, "so this is the last operation from his house". QSL HP1WW via OH0XX. [TNX The Daily DX]

J6 - The Buddies in the Caribbean DXpedition group, which specializes in 100 watt or less low power radios and the Buddipole portable antenna systems, will be active from St. Lucia (NA-108) on 2-11 December. There will be fixed operations from a villa and portable operations from various points on the island using CW, SSB, and RTTY or PSK on 160-10 metres. The group will participate in the ARRL 10m Contest as J68UN. The eight operators will be Everett J6/W6ABM, Robert J6/N7QT, Hugh J6/W4VAB, Bryan J6/WB8ISG, Scott J6/KA9P, Jerry J6/W5TDY, Budd W3FF (J68FF) and Guy N7UN (J68UN). QSL via home calls, LoTW and eQSL. [TNX N7UN]

KH0 - OH6RX and OH7WV will participate in the CQ WW DX CW Contest as AH0DX (QSL via WX8C) from Saipan (OC-086). Time permitting, they might be QRV one day before and one day after the contest. [TNX NG3K]

ON - Special callsigns OR200HC (QSL via ON3AIM) and OP200HC (QSL direct to ON2CYV) will be active on 1-31 December to celebrate the 200th anniversary of the birth of Belgian writer Hendrik Conscience.

OX - Graham, G4MFX is on a business trip to Aasiaat Island (NA-134), Greenland until 26 November. He plans to be QRV as OX/G4MFX in his spare time, especially on 24 November around 21 UTC, and to operate QRP SSB on 17 and 20 metres. QSL via home call, direct or bureau. [TNX DX World]

T6 - Mike,KI4MRH is active as T6MH from Afghanistan until October 2013. He operates SSB and digital modes (PSK-31/PSK-63/JT-65) on 80-10 metres (not on 30m). QSL direct to W2GR. [TNX W2GR]

V4 - Andy, N2NT/V47NT has had to cancel his 19-26 November trip to St. Kitts [425DXN 1124] as "the road to the station is out and no way to get to the hill". [TNX NG3K]

VU - Special callsign AU2JCB will be used by VU2DSI between 24 November and 10 December to celebrate the birthdate of Indian physicist and radio pioneer Jagadish Chandra Bose. Look for activity on 40, 20, 15, 12 and 10 metres SSB, plus 6m FM on 51500 kHz. QSL direct to VU2DSI. [TNX VU2DSI]

XT - Silvano, I2YSB and the Italian DXpedition Team (www.i2ysb.com/idt) will be active from Burkina Faso on all bands and modes for two weeks in February-March 2013. Further information is expected in due course. [TNX IK7JWY]

ZL9 - Announced frequencies for the ZL9HR expedition to Campbell Island (28 November-9 December) are:

CW 1825 3528 7030 10125 14035 18080 21035 24905 28035 50107
SSB 1840 3793 7185 - 14200 18145 21295 24965 28495 50145
RTTY - 3630 7035 10145 14090 18105 21090 24925 28090 -

The team (9M6XRO, HA5AO, K3EL, K5GS, KE4KY, VE7DS, VK2IR, VK3YP,

W2LK and ZL3CW) is scheduled to leave on their 40-hour voyage around 12 (local time) on 26 November. They must comply with the conditions of the landing permit issued by the New Zealand Department of Conservation. No antennas are allowed in or near the water, and the team will have to shuttle back and forth from the island as no overnight stays are allowed (unless the weather prevents return to the boat). Information about antenna placement and propagation can be found at www.campbell2012.com (click on the "Plans" tab). During the DXpedition daily traffic with the team will be handled by the designated Pilot stations (listed on the "Team" page). Plans are to upload logs by satellite phone from the island to Club Log. You will be able to request your QSLs one of four ways: OQRS Direct, OQRS Bureau, via EB7DX direct or bureau Logs will be uploaded to LoTW "shortly after the DXpedition".

*** 4 2 5 D X N E W S ***
**** GOOD TO KNOW ... ****
==========
Edited by I1JQJ & IK1ADH
Direttore Responsabile I2VGW

PT0S ---> The team was aiming to remain QRV for the CQWW contest, but they were not permitted to stay during the weekend and PT0S went QRT at 10.30 UTC on 23 November. "Most of our plans went out the window the day we landed", the team reported on the 20th. "We had to improvise because things have changed since our July survey trip. We ended up with a totally different basing, antenna and operating plan". Read about the trials and tribulations the team had to endure at http://pt0s.com/. Log updates were very difficult to send. The latest, but not final update on Club Log (22 November at 08.45 UTC) includes 40922 QSOs (23649 CW, 15676 SSB, 1597 RTTY) with 13116 unique calls. Logs are sent to LoTW at the same time as they go to the online logsearch, but there is several days of delay at ARRL processing the files. The OQRS for both direct and bureau cards is now up and running on the DXpedition's website.

QSL 4L1AN ---> As of 21 November, Buzz NI5DX, is the QSL manager for Joni 4L1AN. They will work on designing a card and getting it printed. This may take up to 6 weeks. NI5DX will not be able to answer any card requests prior to 21 November 2012. [TNX The Golist]

QSL ZL2HAM ---> Effective immediately, Buzz NI5DX, is the QSL manager for Rick ZL2HAM (including his contest callsigns ZL1G and ZM1G).Rick has forwarded his past logs, so Buzz will be able to answer any request for a card. The QSL cards should be available to send out in about a month. [TNX The Golist]

V26B ---> Team Antigua is saddened to announce that the V26B contest station was totally destroyed by fire on 18 November. Luckily, no one was seriously hurt. The station Owner, Roy V21N, received minor injuries due to smoke inhalation but is OK now. As of now, the future of the station is

uncertain. It may be possible to rebuild it, as the antennas and towers were not damaged. However the interior and all equipment, tools and spare parts were totally destroyed. Pictures of the fire can be found at http://n3oc.dyndns.org/v26b/
Also, Mike KA2AEV (QSL manager for V26B) reports that he has not "yet begun to answer any QSL requests that I have received". He does not anticipate being able to do so for "maybe another two weeks" because of his current work commitments ("Hurricane Sandy hit my area hard", he says, and "I work for the local Power Company").

VP8SGK ---> Mike, GM0HCQ (VP8CMH/mm) was able to operate as VP8SGK from King Edward Point, South Georgia on 20 November, from about 17.30 UTC until about 19 UTC. He was QRV on 10, 17 and 20 metres SSB. QSL direct to GM0HCQ (Mike Gloistein, 27 Stormont Way, Scone, Perthshire PH2 6SP, United Kingdom).

+ SILENT KEYS + Rod Newkirk, W9BRD/VA3ZBB passed away on 19 November. The editor of QST Magazine's "How's DX?" column from 1947 to 1978, he was inducted into both the CQ DX Hall of Fame (1984) and the CQ Hall of Fame (2002). He was credited with coining the term "Elmer" (meaning someone who provides personal guidance and assistance to would-be hams) back in 1971. [TNX ARRL]

EDITOR'S SPECIAL NOTICE
This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX CW Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX CW Contest participants.
DXCC COUNTRY/ENTITY REPORT
According to the AR-Cluster Network for the week of Friday, 16th-November, through Friday, 23rd-November there were 236 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A3, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, CY0, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FS, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/m, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ4, PJ7, PY, PY0S, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3,
V4, V5, V6, V7, V8, VE, VK, VK9L, VP2E, VP2M, VP2V, VP5, VP8, VP8/g, VP8/h, VP9, VR, VU, XE, XU, XW, YA, YB, YI, YJ, YL, YN, YO, YS, YU, YV, Z2, Z3, Z8, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZP, ZS
* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).
AU2, INDIA (Special Event)
Look for special event station AU2JCB to be active between November 24th and December 10th. Activity will be on 40-6 meters SSB, SSTV, PSK and FM. Suggested frequencies are (depending on the propagation): 7035, 7150, 14220, 14250, 14350, 21235, 21350, 28490, 28545, 28590 and 51500 kHz. If higher bands are open, operations will be on those bands. The operator will be Surabhi, VU2DSI. QSL direct (with 2 IRCs) to VU2DSI. Operations are to celebrate the 154th anniversary of the birth (November 30th) of Sir Jagadeesh Chandra Bose, India's great scientist and inventor, who they consider the "Father of Wireless Communication". For more details, see the following Web page at:

http://www.qsl.net/vu2msy/JCBOSE.htm
BA7, CHINA
Paul, BA7JS, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/High-Power entry. QSL via his home callsign.
C6, BAHAMAS
Brian, ND3F/N3IQ, will once again be active as C6AQQ from Nassau (FL16 - Junkanoo Beach), Providence Island (NA-001) between now and November 27th. Activity will be mostly on the lower bands, but he will also be in the CQWW DX CW Contest (November 24-25th) as a Single- Op/All-Band/Low-Power entry. QSL via ND3F, direct preferred, eQSL, LoTW, or by the Bureau (long wait).
CR3, MADEIRA ISLANDS
Jose, CT1BOH, will be using the special callsign CR3E during the CQWW DX CW Contest (November 24-25th) as a Single-Op/ All-Band entry. All QSOs will be uploaded into LoTW. QSL Manager, Joe, W3HNK. See his Web page and station at:
http://www.qsl.net/ct1boh
CX/CW, URUGUAY
Leo, CX3AL, provided OPDX with a list of Uruguayan stations to be active during the CQWW DX CW Contest (November 24-25th):
CW5W - Operator Jorge; Single-Op/All-Band/High-Power entry
>CX2DK - Operator Marcelo; Single-Op/Single-Band (20m)/Low-Power entry
>CX3AL - Operator Leonardo; Single-Op/Single-Band (15m)/High-Power entry
>CX5TR - Operator Alan; Single-Op/Single-Band (15m)/Low-Power entry
>CX7CO - Operator Carlos; Single-Op/Single-Band (10m)/High-Power entry
>CX7ACH - Operator Pablo; Single-Op/Single-Band (10m)/Low-Power entrySee QRZ.com for QSL routes for all operators.
D3, ANGOLA
Mike, UA1QV, is now active as D3AA from Vila de Catoca, about 30 km from Saurimo, the capital of the Province Lunda Sul, Angola, until he leaves on February 15th (2013) for another vacation. Look for him to be in the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL via UA1QV.
DXPEDITION VIDEOS OF THE WEEK
With more and more DXpeditions putting their videos on YouTube and other Web services, we decided to list them (possibly) each week. For this week's listings:
2012 - T30PY/T30SIX Western Kiribati: http://www.youtube.com/watch?v=4T-Sa9dn89s
2012 - David/K3LP & Paul/N6PSE visit to Mt.
Athos: http://www.intrepid-dx.com/index-images/dxpedition_video.jpg
2012 - LA/SP7IDX and LA/SP7VC to Mageroya Island
(EU-044): http://www.youtube.com/watch?v=u8bRIxgfv-A
2010 - GB2BLE Lundy Island DXpedition: http://www.youtube.com/watch?v=cdvsXY7Ayfo
If you have a DXpedition 'video' available on the Web and would like to have it listed in the OPDX, PLEASE send the URL to use, and we will publish it.
E7, BOSNIA-HERZEGOVINA
A team of operators will be active as E7DX during the CQWW DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via E77E, direct, by the Bureau or LoTW.
ER4, MOLDOVA
Serge, UT5UDX, will be active as ER4A during both the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via LoTW.
F6, FRANCE
Members of the Ville de Provins ARC will be active as F6KOP from a station located in the highs of Provins, 77 km SE of Paris, during the CQWW DX CW Contest (November 24-25th) as a

Multi/Multi entry. Operators mentioned are Ghis/F6CEL, Francis/F5QF, Didier/F5JVP, Alain/F6ENO, Bruno/ F5AGB, Mat/F5PED, Jean-Jacques/F5NKX, Stephane/F5UOW, Tony/F8ATS, Antoine/ F5RAB, Serge/F6DZS, Terry/F4TTR, Claude/F5GVA, Laurent/F6BBO, Jean-Paul/ F8BJI, Frank/ F4AJQ and Maurice/F5NQL. QSL via F6KOP, direct or by the Bureau.
FY, FRENCH GUIANA
Didier, FY5FY, will be active as FY5FY during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (possibly 20/15/10m)/Low-Power or QRP entry. QSL via FY1FL, by the Bureau or direct.
FY, FRENCH GUIANA
Larry, F6FVY, will be active as FY5FY during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (possibly 15/10m)/High-Power or QRP entry. QSL via LoTW or by the Bureau.
GU, GUERNSEY
Bob, GU4YOX, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (15m)/High-Power entry. QSL via GU4YOX, direct or by the Bureau (very slow) or LoTW.
H40 & H44, SOLOMON ISLAND AND TEMOTU PROVINCE
Ralph, H44RK, has announced that he is [edited] "planning a DXpedition in and around the Solomon Islands next year via our sailing boat Hafskip. The trip will start around April (2013) from Vella la Vella (OC-149)and continue through many Islands through to Temotu Province. From there we will be operating on many of the other islands as we head slowly back to VK4-land." In the Temotu Province, Ralph will sign H40RK. Some of the islands that he mentions (all count for DXCC as Solomon Islands) are: Solomon Islands (OC-047), Rennell Island (OC-127), New Georgia Islands (OC-149), Florida Islands (OC-158), Shortland Islands (OC-162), Russell Islands (OC-168), Ontong Java Atoll (OC-192) and Stewart Islands [aka Sikaiana Atoll] (OC-285). Ralph is interested and looking in sponsors for this trip. He can be contacted at:ralph.honiara@...
HP, PANAMA
Simon, S54ZZ, will be active as HP1/S54ZZ from Panama until November 27th. Activity will be on 80-10 meters. QSL via his home callsign.
IOTA NEWS
NA-072. Olli, OH0XX, is currently active as HP1XX from Contadora Island. The length of his stay is not known. He is expected to be in the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band entry. QSL via his home callsign.

According to one of the three Mayan Calendars, the end of the world will occur on December 21, 2012. To celebrate this once in a lifetime event, look for special event station "N0D" to be on the air for the following three days:
December 20th - To celebrate the end of the world.
>December 21st - The day of destruction. Operators will be on the air as long as possible.
>December 22nd - This day is a little iffy right now.This operation will take place from a secret undisclosed location. QSL with SASE via KK5W, the address is in QRZ.com. According to the info on QRZ.com, "If Doomsday actually does happen, we regret that a QSL will not be possible so don't mail your QSL request until it is safe." More information is available

about certificates, official N0D Doomsday apparel (T-shirts, Caps and buttons) and becoming a registered "Official Doomsday Station" [also take the Doomsday survey] on the Official N0D Web site at:http://www.nowzerodays.comYou can also E-mail the N0D team at N0D.Doomsday@... with questions or suggestions about Doomsday. "DO IT QUICK -- TIME IS RUNNING OUT"
MJ0, JERSEY
Mat, F5SHQ, will be active as MJ0ASP during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL via LoTW.
MZ, SCOTLAND
Ian, G3WVG, will be active as MZ5B from Eshaness, Shetland Island (EU-012, IOSA SH01, SCOTIA SI11, ARLHS SCO-075, BARLS A3838, WLH GM-026, WLOTA LH-0867, WAB HU27) during CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (10m) entry. QSL via LoTW or to G3TXF, direct or by the Bureau.
NP4, PUERTO RICO
Felipe, NP4Z, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/High-Power entry. QSL via N4AO.
OA, PERU
Martijn, PA3GFE, will be active as OA4/PA3GFE between December 20th and February 1st. Activity will be holiday style on 40-10 meters, mainly CW and the Digital modes. He hopes to get active on 80m too, if he can get the antenna to resonant. QSL via his home callsign, direct or by the Bureau. Log will be uploaded to LoTW.
OH0, ALAND ISLAND
Operators Franta/DJ0ZY, Maik/DJ2QV, Simon/DJ4MZ, Manfred/DK2OY, Holger/DL5KUT, Bernhard/DL6RAI, Jukka/OH6LI and Jari/OH6QU will be active as OH0V from Geta Bergen during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via OH6LI, by the Bureau or direct.
PT0S, ST. PETER AND ST. PAUL ROCKS (Update)
The PT0S team will not be in the CQWW DX CW Contest (November 24-25th) because they went QRT on November 23rd at 1030z. QSL via HA7RY. The latest updates are available at their Web page. Also the PT0S's log is now on their Web page and ClubLog at: http://pt0s.comhttps://secure.clublog.org/logsearch/PT0SAs of 0845z, November 22nd, PT0S has made a total of 40922 QSOs with 13116 Unique callsigns (23649/CW, 15676/SSB and 1597/RTTY). Breakdown by continent is: 710/AF, 1/AN, 2591/AS, 19278/EU, 15060/NA, 363/OC and 2919/SA. ADDED NOTE: The OQRS is now available on their Web page!

OPDX was informed on November 20th that QSL Manager Nick, UA3DX, reported he received the QSL cards from the printer about 4 weeks ago

((QRZ.com) states October 18th). He is now mailing about 500 direct cards weekly.
NEW QSL MANAGER As of November 21, 2012, Buzz, NI5DX, is the QSL Manager for 4L1AN. Buzz and Joni will work on designing a card and getting it printed. This may take up to 6 weeks. NI5DX will NOT be able to answer any card requests prior to November 21, 2012.
NEW QSL MANAGER. Effective immediately, Buzz, NI5DX, is the QSL Manager for ZL2HAM, Rick in Nelson, New Zealand. Rick has forwarded Buzz his past logs, so Buzz will be able to answer any request for a card from ZL2HAM. Cards will be ordered and should be available to send out in about a month. Buzz will also handle Rick's contest calls ZL1G and ZM1G.
QSL INFO UPDATE FROM VU2PAI. Pai, VU2PAI, sent the following to OPDX:
"Greetings from Mangalore ,South India,
>With a heavy heart I wish to inform the sad news about the loss my beloved father recently. He encouraged me very much in all walks of life and specially he helped me and motivated a lot for Ham Radio. The reason for my mail is to request you to publish some information that I will give in this mail in your next news bulletin.
>I have a small back log of the QSLs that I have received recently from about June-August as I was travelling to the U.S. in May-June to attend Dayton Hamfest, and I have not been active on the air for about 2 months since the death of my father. I am now QRV, and I will be sending all the pending cards soon. I once again request all DX hams not to send any green stamps with their QSL card. IRCs are fine no problem at all. I also read that it is difficult to get IRCs in many post offices in Europe and now the U.S.A also. But please do not forget to send a self addressed envelope or an address label with your QSL request.(More info on (QRZ.com) under my call VU2PAI)
>I will be very happy to send cards via direct even without IRC or green stamp, no problem, I request hams to please use 3 or 4 beautiful stamps on the envelope when they send me their card. If possible they can send me 3 or 4 mint (unused stamps) from their country or any saved envelopes that they have from exchanging QSLs from other DX contacts to me. I love collecting stamps and stamps on envelopes. I still have some photo QSL cards from my previous activations like St.Marys Island (IOTA AS-096), Sacrifice Rock Island (Iota AS-161), AT0PAI,AT2PAI,VU2PAI/50 etc.
>I DO NOT have any QSL Manager, and I handle all my QSL requests. Some databases showed a QSL Manager in Italy for me which is wrong infor- mation.
>All QSL cards only for VU7LD/VU2PAI (Laccadive Islands) is VIA W3HNK ONLY.
>I have also been appointed as the QSL manager for ALL VU stations since the last one year, and I will be happy to forward all incoming QSL cards to the members of the ARSI (Amateur Radio Society Of India which is affiliated to the IARU).
>Best wishes to all and Seasons greetings in Advance for a very Merry Christmas and happy,healthy and a prosperous 2013."VU2PAI address is: Ananth G.Pai, Bharath Beedi Works Pvt Ltd, Post Box 730, Bharath Bagh,Kadri Road, Mangalore 575 003, India.
QSL RECEIVED VIA LoTW: 5H2DK, 5U6E, EA6UN, EA8AY, EI3KD, HB9ELE, HK1NA, J68HZ, LZ1MS, MW0ZZK, PJ7DX, PT0S, RI1ANF, S50XX, SV1CQN, T30PY, VE1DHD, VK7DZ, XE2HQI, YI9EO, ZL4PW and ZL7A
QSLS RECEIVED VIA MAIL: 3D2C, 7O6T, C50C, C5A, D3AA, D64K, FG5FR, and TO2D
QSLS RECEIVED VIA THE BUREAU: NONE REPORTED THIS WEEK!
ST, SUDAN
"The Daily DX" reports that Mario, CT1FTR, has moved to the Sudan and has recently obtained his ST2FT license. He is using a FT-857 that is set up for SSB and PSK31 on the HF bands. QSL via CT2GBU direct and eQSL. PLEASE NOTE: QSLs cannot go through the REP QSL Bureau as neither CT1FTR nor his QSL Manager are members of REP.
T2, TUVALU
Operators Rob/GM3YTS, Tom/GM4FDM, Gav/GM0GAV and Clive/GM3POI will be active as T2GM from Tuvalu between March 12-23rd (2013). Activity will be focused on Europe. QSL via GM4FDM.

Hopefully, more details will be forthcoming.
T6, AFGHANISTAN
Eric, K9GY, now active as T6MO from the Helmand Province (Grid MM21), is expected to once again be in the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. Activity will be on 40/20/15/10 meters only using 100 watts into a OCF dipole at 30 feet. His sunrise is 0218z and sunset is 1240z. QSL via K8GY.
TM1, FRANCE (Special Event)
Look for special event station TM1TARA to be on air between December 8-10th. Activity is to commemorate the scientific campaigns of French polar boat "TARA". Operations will be conducted by François/F8DVD and Sebastien/F8IJV in Paris during the Tara exhibit. Look for them on 20-10 meters SSB. A special color QSL card will be printed and will be sent via the Bureau or direct (SAE with 1 IRC or 2 USD) via the QSL Manager F8DVD.
The Tara Expeditions has been organizing missions aboard the research schooner Tara for the past 9 years. The goal was to learn more about the impact of climate change on ecosystems. Tara has accomplished 8 successful expeditions - to Greenland, Antarctica, Patagonia, southern Georgia, the Arctic and all over the world with the latest expedition Tara Oceans. After stopovers in Europe this winter, the schooner will leave for a new mission in 2013 for the great North. Tara will attempt to go through the Arctic Ocean by the northwest and northeast passages, if the ice pack permits this. This will also be the occasion to add new research programs specific to the region concerning plastic particles and traces of pollution. For more info, see QRZ.com or contact F8DVD: a.pole@...
TX1, NEW CALEDONIA
Sam, FK8DD, will be using the special callsign TX1CW from Noumea, New Caledonia (OC-032), for the CQWW DX CW Contest (November 24-25th). QSL via LZ1JZ.
UA2, KALININGRAD
Dmitri, UA2FB, will be active as UA2KW (ex-UA2KK) from the Keeper Telecom LTD Club Station during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m) entry. QSL via direct to: Ulrich Mueller, 13 Kreutzacker Str, D-35041 Marburg, Germany. No German stamps please! All cards are replied from Russia. No IBRS please! Bureau QSLs go to the UA2 QSL Bureau.
V2, ANTIGUA (NA-100)
The V26B QSL Manager Mike, KA2AEV, reports: "We (Team Antigua) are currently awaiting additional information as to the status of the shack. The building was damaged and the owner, Roy Carte, injured, but he's in the hospital and as far as I know recovering nicely. We will have additional information in the days ahead.
ANOTHER UPDATE: V26B shack was totally destroyed:
http://n3oc.dyndns.org/v26bPictures here: http://n3oc.dyndns.org/v26b/fire.htmADDED NOTE FROM Mike: Also, currently due to Hurricane Sandy which hit my area HARD, I have not yet begun to answer any QSL requests that I have received and do not anticipate until maybe another 2 weeks because of my job status, (I work for the local Power Company) so PLEASE BE PATIENT. Please do not email me or Telephone me asking me if your QSLs have been received or why they haven't been answered yet....
PATIENCE PLEASE."
V3, BELIZE
Bob, K4UUK, will be active as V31RD from Belize between May 4-18th (2013). Activity will be on 80-6 meters SSB. QSL via his home callsign, direct (preferred) or by the Bureau.
V4, ST. KITTS (Cancelled)
Andy, N2NT, was expected to be active as V47NT from the QTH of V47KP between November 19-26th. However, he reports, "I had to cancel the trip to V47NT for the CQWW contest. The road to the station is out and no way to get to the hill. "
V8, BRUNEI (Update)

By the time you read this, the activity by the V84SMD DXpedition should be over. Remember, the V84SMD log search is available at:
http://www.maxlaconca.com/logv84smdQSL via IK2VUC, direct, by the bureau or the OQRS. Logs will be uploaded to LoTW 4-5 months after the activity. Further information can be found on their website at:http://www.mdxc.org/v84smdAs of 2347z, November 22nd, V84SMD has made a total of 39310 QSOs with 14102 Unique callsigns (42%/CW, 37%/SSB and 21%/Digi). Breakdown by continent is: 1%/AF, 44%/AS, 43%/EU, 10%/NA, 2%/OC and 1%/SA.
VK0H, HEARD ISLAND (Update)
A recent update, was posted on the Heard Island (The 2014 Cordell Expedition) Web page at: http://www.cordell.org/HDUnder "News" it states [edited]:
"PROJECT STATUS - We announce the appointment of Viola Krebs as liaison to IPEV, the operators of the vessel Marion Dufresne. Viola replaces Peter Casier who resigned for personal reasons. We are currently in final negotiations for the itinerary and cost for the expedition. Attempts to arrange a combined mission with TAAF to enable the team to be on Heard Island for 33 days did not succeed due to the large size of the team and inadequate space on the vessel.
>We report that that team member Damion Gildea has made preliminary arrangements for an Australian film team to make a documentary of the expedition.
>We expect that in the next news update (15 Dec), we will have specific information about the itinerary and projected costs.
>We have posted updates on the expedition website www.heardisland.org. For more information, please contact Dr. Robert Schmieder, KK6EK, Organizer and Expedition leader,Schmieder@...."VP2M, MONTSERRAT
Alan, N3AD, will once again be active as VP2MMM between now and November 27th. Activity will include the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band possibly a High or Lower Power entry. QSL via W3HNK.
XR0, EASTER ISLAND
A UK DXpedition team will be active as XR0YG from Easter Island (SA-001) between February 13-21st. Operators mentioned are Michael/G7VJR, Nigel/G3TXF, Bob/MD0CCE and Martin G3ZAY. QSL via M0OXO. There will be a log search on ClubLog at:
https://secure.clublog.org/charts/?c=XR0YGNo other details are available at this time. Stay tuned.
XT, BURKINA FASO
A team of Japanese operators will be active from Burkina Faso between February 22nd and March 2nd (2013). Activity will be on 80-10 meters using CW, SSB and the Digital modes. Look for the following operators (w/their XT callsign): Yukinori/JA3VWT (XT2VWT), Jusei/JA3IVU (XT2IVU), Junichi/JH3AEF (XT2AEF) and Kunio/JA1CJA (XT2CJA). QSL via their home callsign.
XT, BURKINA FASO
On Tuesday, members of the "Italian Dxpedition Team" announced that their next DXpedition will be to Burkina Faso between February and March 2013 (dates are approx.). This will be a 15 day operation on all bands and all modes. The pilot station is IK7JWY, and the pilot station for 6m band is IK0FTA. Software Management (real-time log online) will be by IH9GPI. The official Web site is:
http://www.i2ysb.com/idtOfficial forum is: http://www.hamradioweb.orgLook for more details to be forthcoming.
XU, CAMBODIA
Mal, VK6LC, will be on another DX vacation to Cambodia between November 23-25th. He will sign XU7AEO. Activity will be on CW and some SSB. Also, look for him to operate in the CQWW DX CW Contest. QSL ONLY DIRECT to VK6LC.

XV1, VIETNAM
Eddie, XV1X, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (10m) entry. He mentions that he may operate on other bands if 10m closes up. QSL RW6HS.
XV4, VIETNAM
Yan, XV4Y (ex-XV4TUJ), located in Mekong delta (south of Vietnam), informs OPDX this past week [edited]:
"Like last winter, I will try to be active on 80 meters around NA sunrise time (1300-1400z). I already have several good reports and even a couple of QSOs during last month, but the level of noise is still really high since the rainy season has not yet ended. I hope to have better conditions in December and January, but the stations who want to work me may need a lot of patience.
>My setup is rather simple with 100W in a low-above-ground 80m OCF Dipole for TX antenna and an homebrew coaxial-made small loop for RX antenna. I will also try to be on the air for Europe around 2200z (my sunrise), but I have not a lot of spare time for this so don't expect me to be there every morning. However, band conditions are usually better at sunrise than at sunset so the QSO rate could be better. For more details about my planned operations (when I am able to plan something) will be available on my Twitter account @XV4Y. See you on the air."QSL via OK1DOT, LoTW and eQSL. Yan's Twitter and Web page can be found at:http://twitter.com/#!/XV4Y/followershttp://xv4y.radioclub.asiaAlso, to learn more about Yan, read his (QRZ.com) page.
XW2, LAOS
Rudi, DK7PE, is now active as XW2CW from Vientiane until November 27th. Activity will be limited. Look for him to possibly be on 160 and 80 meters. QSL via his home callsign, direct or by the Bureau. Visit his Web page at:
http://www.rooody.de/index.html
YB0, INDONESIA
Pri, YB0ECT, will be active during the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (10m)/Low-Power entry. QSL via W2FB.
ZL9, CAMPBELL ISLAND
Just a reminder that members of the Hellenic Amateur Radio of Association of Australia (HARAOA) will be active as ZL9HR from Campbell Island (OC-037, WFF ZLFF-019) between November 28th and December 9th. Activity will be on 160-6 meters using all modes. QSL via EB7DX direct, LoTW or use the OQRS for Bureau and direct requests. For more information and updates, visit their Web site at:

Dear Pak Dhe Bam,

Memang sudah waktunya kita (orari khususnya) / ybdxc utk mengadakan kolaborasi dgn pos indo, apapun bentuknya yg penting win-win solution.

What do you think?

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

Om. Bam, Om Hendro,
Ditempat saya kantor pos sudah tidak jual perangko lagi. Mereka cuma
melayani pos tercatat dan pembayaran lainnya.
Jadi kalau saya kirim QSL card musti transit dulu ke Jakarta minta tolong
sama adik atau kakak.

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

Di juklak kebayoran contest 40m hanya dari jam 00:00 utc (jam 7 pagi wib) sampai jam 12:00 utc (jam 7 malam)

Tahun depan 40m nya kalau bisa waktunya malam hari .. Seru deh..ada kemungkinan station luar negeri DX Station yg ikutan... Hehehhehe

Selain Antenna dual band khusus tingkat Siaga (Thanks AI), akan ditambah 10 juara call area khusus untuk tingkat Siaga dg rincian :
1. 10 pemenang juara call area Rp. 200.000 (minimal 10 stasiun per call area yang akan diperebutkan oleh semua tingkatan)
2. 10 pemenang juara call area Rp. 100.000 khusus tingkat Siaga (tanpa pembatasan jumlah pengirim logsheet). **Thanks OM NDuT...**

Revisi/Tambahan Juklak Marathon Kebayoran Contest 2012 akan segera menyusul.

Met pagi OM Rijanto,

Nah itu dia, wong kontesnya di 3,5 / 7 Mhz kok bisa lari ke freq yg lain.
Mgkn panitia harus jeli men-sikapi hal ini, bagaimana lah caranya ....

Kasihan OM Taufan, donor hadiah cuman didapat dgn cara sharing aja.
Glodaaaghh

Om Mei, Om Taufan dan Om Ndut met pagi

Menarik sekali, ditunggu juklak susulannya ya om, nanti saya posting juga diblog biar lebih banyak yg mengetahui.

Moga sukses penyelenggaraan nantinya.

Selain Antenna dual band khusus tingkat Siaga (Thanks AI), akan ditambah 10 juara call area khusus untuk tingkat Siaga dg rincian :
1. 10 pemenang juara call area Rp. 200.000 (minimal 10 stasiun per call area yang akan diperebutkan oleh semua tingkatan)
2. 10 pemenang juara call area Rp. 100.000 khusus tingkat Siaga (tanpa pembatasan jumlah pengirim logsheet). **Thanks OM NDuT...**

Revisi/Tambahan Juklak Marathon Kebayoran Contest 2012 akan segera menyusul.

OM Seno

Kami dari panitia tentunya tidak ingin terjadi kecurangan seperti itu. Bila terjadi kecurangan dalam pelaksanaan contest, saya sudah buka email yb0zda@gmail.com sebagai kotak pengaduan. Dilembar juklak sejak 2 thn terakhir selalu kami cantumkan.
Tentunya peran dari peserta MKC 2012 akan sangat kami harapkan agar pelaksanaan contest bisa sesuai dengan yg kita harapkan.

Tp harus dimonitor juga,

Hya di 3,8 / 7 MHz aja lho kontesnya.

Klo ada yg pake 900 MHz / 1800 MHz, harus di diskualifikasi,
Lha tp monitornya gimana?

????? Hehe

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

Di juklak kebayoran contest 40m hanya dari jam 00:00 utc (jam 7 pagi wib) sampai jam 12:00 utc (jam 7 malam)

Tahun depan 40m nya kalau bisa waktunya malam hari .. Seru deh..ada kemungkinan station luar negeri DX Station yg ikutan... Hehehhehe

Tp harus dimonitor juga,

Hya di 3,8 / 7 MHz aja lho kontesnya.

Klo ada yg pake 900 MHz / 1800 MHz, harus di diskualifikasi,
Lha tp monitornya gimana?

????? Hehe

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

OM Zen,
Bagaimana kalo titip saja ke kantor pos sana - jadi minta adik/kaka kirim stock perrangko yang banyak lalu saat mau kirim QSL card, amplop tempel perangko sesuai tarif lalu tritipkan ke kantor pos.

Lebih hemat khan ?

Om. Bam, Om Hendro,
Ditempat saya kantor pos sudah tidak jual perangko lagi. Mereka cuma melayani pos tercatat dan pembayaran lainnya.
Jadi kalau saya kirim QSL card musti transit dulu ke Jakarta minta tolong sama adik atau kakak.

Om Ndut, kejujuran dan sportifitas yg diutamakan, main HP, sms bukan kontester sejati, hanya ambisi jd juara saja. Tapi penyerobotan / pinjam frek paling sering terjadi, mana monirtoring dari panitia, apakah panitia berani Dis mereka (orangnya itu2 aja kok) hahaahaahaaa

OM ndt, band ini memang baru terbuka setelah kontes selesai.... Hahaha...

Semoga panitia bisa mengantisipasi...
karena kalau masih ?terjadi... minat kontester ?partisipasi di ajang kontes nasional ini jadi menurun.... Hebatnya lagi pengguna band ini .. Bisa Jadi JAWARA test lagi... Hahaha...

Tp harus dimonitor juga,

Hya di 3,8 / 7 MHz aja lho kontesnya.

Klo ada yg pake 900 MHz / 1800 MHz, harus di diskualifikasi,
Lha tp monitornya gimana?

????? Hehe

OM ndt, band ini memang baru terbuka setelah kontes selesai.... Hahaha...

Semoga panitia bisa mengantisipasi...
karena kalau masih ?terjadi... minat kontester ?partisipasi di ajang kontes nasional ini jadi menurun.... Hebatnya lagi pengguna band ini .. Bisa Jadi JAWARA test lagi... Hahaha...

Tp harus dimonitor juga,

Hya di 3,8 / 7 MHz aja lho kontesnya.

Klo ada yg pake 900 MHz / 1800 MHz, harus di diskualifikasi,
Lha tp monitornya gimana?

????? Hehe

Mbak Endang,

Seyogianya Panitia Harus Tau,
Sebab Team Monitoring yang di bentuk tentu Sudah berpengalaman dan sangat Profesional, mereka harus berkerja Ekstra. Mungkin ada satu atau dua peserta Contest yang melakukan Pelanggaran tidak terdeteksi oleh kita, menurut saya ini hal yang biasa,
Karena Siapapun Dia...pasti mempunyai Kekurangan.
Namun paling tidak Ada tindankan dari Panitia itu sendiri bila mana melihat dan mendengar adanya pelanggaran yang di lakukan oleh Para Peserta Contest.
Demikian sedikit masukan mungkin bermanfaat untuk kedepannya.

Tnx es 73

Sueb

Tp harus dimonitor juga,

Hya di 3,8 / 7 MHz aja lho kontesnya.

Klo ada yg pake 900 MHz / 1800 MHz, harus di diskualifikasi,
Lha tp monitornya gimana?

????? Hehe

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

OM Sueb

Di lokal, panitia masang lebih dari 1 perangkat.
1 dipake u teman2 lokal kebayoran berCQ CQ (kebiasaan lokal kebayoran u kumpul2 saat MKC)
dan yang lainnya untuk monitor.

Mudah2an jari tangan kanan saya nggak keriting gara2 main gelindingan frekuensi...
Hahhahhaha

Om Mei,

Maaf ya sedikit Nyelekit nich,

Gimana Om Mei bisa Konsen kalau Om Mei sendiri ikut juga dalam Contest itu...?
yang mau di tangkap Lolos terus Om.

Hahahahaaaaaaaaaaaaaaaaaaaaa.....

Salam Untuk Keluarga, 73

Sueb

Om Ndut, kejujuran dan sportifitas yg diutamakan, main HP, sms bukan kontester sejati, hanya ambisi jd juara saja. Tapi penyerobotan / pinjam frek paling sering terjadi, mana monirtoring dari panitia, apakah panitia berani Dis mereka (orangnya itu2 aja kok) hahaahaahaaa

OM ndt, band ini memang baru terbuka setelah kontes selesai.... Hahaha...

Semoga panitia bisa mengantisipasi...
karena kalau masih terjadi... minat kontester partisipasi di ajang kontes nasional ini jadi menurun.... Hebatnya lagi pengguna band ini .. Bisa Jadi JAWARA test lagi... Hahaha...

Tp harus dimonitor juga,

Hya di 3,8 / 7 MHz aja lho kontesnya.

Klo ada yg pake 900 MHz / 1800 MHz, harus di diskualifikasi,
Lha tp monitornya gimana?

????? Hehe

OM Sueb

Di lokal, panitia masang lebih dari 1 perangkat.
1 dipake u teman2 lokal kebayoran berCQ CQ (kebiasaan lokal kebayoran u kumpul2 saat MKC)
dan yang lainnya untuk monitor.

Mudah2an jari tangan kanan saya nggak keriting gara2 main gelindingan frekuensi...
Hahhahhaha

Om Ndut, kejujuran dan sportifitas yg diutamakan, main HP, sms bukan kontester sejati, hanya ambisi jd juara saja. Tapi penyerobotan / pinjam frek paling sering terjadi, mana monirtoring dari panitia, apakah panitia berani Dis mereka (orangnya itu2 aja kok) hahaahaahaaa

Selain Antenna dual band khusus tingkat Siaga (Thanks AI), akan ditambah 10 juara call area khusus untuk tingkat Siaga dg rincian :
1. 10 pemenang juara call area Rp. 200.000 (minimal 10 stasiun per call area yang akan diperebutkan oleh semua tingkatan)
2. 10 pemenang juara call area Rp. 100.000 khusus tingkat Siaga (tanpa pembatasan jumlah pengirim logsheet). **Thanks OM NDuT...**

Revisi/Tambahan Juklak Marathon Kebayoran Contest 2012 akan segera menyusul.

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

Bukan kurang pembinaan Om,

Tapi pada baru melengkapi perangkatnya (Working Condition), selama ini mereka selalu

On The Air di 80M, selebihnya teman-teman kebanyakan di 40M.
Mudah-mudahan kedapannya Teman-teman sudah mulai mempersiapkan untuk di 15M dan kalau perlu sekalian 20MM juga.

Semoga.

Sueb.

Bukan kurang pembinaan Om,

Tapi pada baru melengkapi perangkatnya (Working Condition), selama ini mereka selalu

On The Air di 80M, selebihnya teman-teman kebanyakan di 40M.
Mudah-mudahan kedapannya Teman-teman sudah mulai mempersiapkan untuk di 15M dan kalau perlu sekalian 20MM juga.

Semoga.

Sueb.

OM Nur,
Habisnya pilih "bibit" yg sudah tua, jadi gak bisa bertunas lagi. HI

Jadi baiknya bikin persemaian bibit kontester di lokal, mungkin perlu bantuan pupuk, arahan dari ORDA, ORPUS

Waktu masa persemaian itu bibit2 dipelihara, disapih, diuji sampai bisa tumbuh dengan baik dan kalau sudah OK dlm berkontes, dicangkok lagi utk dapatkan tunas baru.

Maksudnya ybs balik membantu persemaian/pendadaran bibit baru, begitu seterusnya.

Bagi teman-2
yang ingin mencoba LOG4OM Logging software, bisa mendownload dahulu
keterangan dari developernya dalam bentuk Power Point, sebagai introduction
software ini.

download link : https://dl.dropbox.com/u/54976747/LOG4OM%20Presentation.pps

masing-2 sofwtare ada kelebihan dan kekurangannya, kita lah yag akan
menentukan mana yang terbaik utk kita sendiri.

salam

OM Djoko,
Tadi YB1TJ tuh sudah buka jalan buat AS/OC khususnya YBland utk bisa worked dengan 5T0SP di 10M, ya ?.

Oprt. 5T0SP mempersilahkan AS/OC - YB untuk memanggil 10kHz di atas frequencynya, bahkan sampai menegur rekan dari Jerman utk standby yg tetap berusaha memanggilnya.
Sayang gak ada yg memanfaatkan mungkin kebetulan gak ada yg monitor, atau juga sudah ketemu 5T0SP ini - saya juga kebetulan sudah worked sebelumnya.

Ya OM Hendro,
Wah ternyata OM Hen monitor :D

Saya td berusaha panggil tapi susah sekali tembus EU wall.
Kemudian saya spot di dx cluster dan minta kesempatan OC.
Tidak berapa lama di kasih kesempatan.
Sayang tidak ada teman2 YB/OC/AS yang ikut masuk setelah saya.

Kemudian di 12m didahului OM Yongki YB0COU, akhirnya saya bisa contact dengan Rotary dipole 40m/80m saya tunning.
Saya tidak sadar kalau pakai rotary dipole, baru setelah selesai ketika mau mengejar Madagaskar di 17m baru sadar kalau tadi mengginakan rotary dipole.

Lumayan OM Hen, dalam. Waktu singkat dapat 2 band dengan 5T0SB

Saya barusan coba panggil di 15M (21.272MHz) tapi sepertinya ada masalah, karena SWR agak tinggi 1:3 dan power menurun, jadi daripada masalah menjadi besar mendingan QSO di internet saja dg email atau FB. HI.

Saya sebenarnya sudah dapat Mauritania (5T5NU) di 15M - tapi mau coba memperbaharui saja karna kebetulan saya dengar signal 5T0SP ini cukup kuat dan 5T5NU sudah gak ada data di QRZ.com. Jadinya gak ngoyo juga. HI HI

Hahaha, ya OM
Sering kalau split kadang lupa kadang juga waktu saya hidupkan dual
monitor, freq tx nya kembali ke freq rx.

lumayan dalam beberapa jam 3 band :D

Wah kalo saya sih bukan kadang2 suka lupa pencet split button, kemaren ini saya panggil2 7P8D ngga di jawab2 padahal S9+ ...

Mungkin operator yg saya panggil sentimen sama saya, krena saya bilang budeg di cluster hehehe.
Operator yg very slow yg saya maksud, 1 qso every 30 sec - 1 minute ...

Iwan - W7NZ/YE1NZ

OM Iwan kalo bilang budeg pake bahasa Sunda aja, gak ngerti mereka. HI

Beberapa hari yll, saya nunggu giliran dari satu stasiun DX (lupa callsignya).
Dia urut by number, wolez banget (wolez = istilah ABG utk slow) dan per number juga lumayan banyak.
Akibatnya PERSIS waktunya ZERO, propagasi sangat jelek, signalnya hilang tak terdengar bersamaan dengan adzan magrib.
Terpaksa harus kuciwa DEH.

Bagusnya dia konsistensinya, kalo sudah bilang "station with number 6", gak akan terima panggilan dari nomor lain - yg panggil dengan nomor lain disebut callsignya diminta standby - gak dipanggil lagi.

*** *Public Service*: The 14th Annual SKYWARN Recognition Day Set for
December 1

The 14th Annual SKYWARN Recognition Day (SRD) Special Event will take
place Saturday, December 1, 2012. SRD is co-sponsored by the ARRL and the
National Weather Service (NWS) as a way to recognize the commitment made by

Amateur Radio operators in helping to keep their communities safe.
According to SRD Coordinator David Floyd, N5DBZ, Amateur Radio operators
can visit their local participating NWS office, working as a team to
contact other hams across the world throughout the 24-hour event on 80, 40,
20, 15, 10, 6 and 2 meters, as well as 70 centimeters. Read more
here<http://www.arrl.org/news/the-14th-annual-skywarn-recognition-day-set-for-december-1>
.
+ *Amateur Radio in Space*: Mikhail Kornienko, RN3BF, and Scott Kelly to
Spend One Year on International Space Station

NASA Astronaut Scott Kelly (left) and Russian Cosmonaut Mikhail Kornienko,
RN3BF, will spend one year aboard the International Space Station beginning
in the spring of 2015.

Russian Cosmonaut Mikhail Kornienko, RN3BF, of the Russian Federal Space
Agency and NASA Astronaut Scott Kelly have been selected for a one-year
mission aboard the International Space Station in 2015. According to NASA,
the mission will include collecting scientific data important to future
human exploration of our solar system and to understand better how the
human body reacts and adapts to the harsh environment of space as NASA
plans for missions around the Moon, an asteroid and ultimately Mars. Read
more here<http://www.arrl.org/news/mikhail-kornienko-rn3bf-and-scott-kelly-to-spend-one-ye
ar-on-international-space-station>
.
[image: Ad] <http://www.arrl.org/nladclick.php?n=al&t=i&i=2012-11-29&p=0>
+ ARRL's Logbook of The World: Bug Fix Is in Place

*ARRL Chief Executive Officer David Sumner, K1ZZ, reports on a bug fix for
Logbook of The World.*

The fix for the Logbook of The World
(LoTW<https://p1k.arrl.org/lotwuser/default>)
bug was implemented at 2103 UTC on November 28. Full credit goes to ARRL
Information Technology Manager Michael Keane, K1MK, for figuring out what
was happening and how to correct it.

There are two ways of uploading logs: via the LoTW website and by e-mail.
LoTW users should note that e-mailed logs were not affected by the bug, so
no e-mailed logs will need to be resubmitted.

At the time the fix was implemented, LoTW processing was running almost
exactly three days behind. If a user's most recent upload was made before
2100 UTC on November 25 and it has not yet been processed the file should
be resubmitted. There should be no need to resubmit logs uploaded since
2100 UTC on November 25, which would include all CQWW CW DX Contest logs
submitted after the end of the contest.

There is, however, a very slight chance that logs uploaded after this date
might have been overwritten. If you find that your logs that were uploaded
after November 25 are not appearing in your LoTW account, please wait until
after December 3 to upload them again.

Thanks to everyone who has been patient while we grappled with this bug. The issue of slow processing speed is also being addressed, but it requires a hardware upgrade that will take several weeks to implement. Your continued patience and understanding will be appreciated.
+ *Ham Radio in Hollywood*: Morse Code Plays Role in New Spielberg Movie

Producer Steven Spielberg has used Amateur Radio or Morse code in three of his last four movies: *Super 8* (2011), *The Adventures of Tin Tin*(2011) and
Lincoln (2012). Members of the Morse Telegraph Club -- an association of retired railroad and commercial telegraphers, historians, radio amateurs and others with an interest in the history and traditions of telegraphy and the telegraph industry -- played an integral part in the production of *Lincoln*.

"Nine of the 16 telegraph stations depicted in the War Department were fully operational," explained Morse Telegraph Club International President James Wade, WB8SIW. "These instruments could be operated in any combination through the use of a specialized computer program and custom-built terminal units for the process. When necessary, a hand key could be inserted in the individual telegraph loops so messages could be improvised." Read more here<http://www.arrl.org/news/morse-code-plays-role-in-new-spielberg-movie>
.
[image: Ad] <http://www.arrl.org/nladclick.php?n=al&t=i&i=2012-11-29&p=1>
+ *On the Air*: The ARRL 10 Meter Contest: The Band Is Hot!
<http://www.youtube.com/watch?v=N5xJjThOlic>

Stephen Galchutt, WG0AT -- and his goats -- of Monument, Colorado, headed up to Mt Herman for the 2011 ARRL 10 Meter Contest, running 5 W QRP and a 2-element Yagi. Unfortunately, Rooster the Goat ate Galchutt's log. See more in Galchutt's YouTube video<http://www.youtube.com/watch?v=N5xJjThOlic>
.

Will it be possible to beat the 2011 running of the ARRL 10 Meter Contest? With more than 5300 logs received and worldwide openings last year, that may be a tall order. This past weekend during the CQ WW CW Contest, 10 meters was in great shape, despite a coronal mass ejection that hit on Friday evening. But according to ARRL Contest Branch Manager Sean Kutzko, KX9X, one thing's for certain: There's going to be a ton of activity, as hams from all around the world look to work some DX on the band! Read more here <http://www.arrl.org/news/the-arrl-10-meter-contest-the-band-is-hot>.
+ *On the Air*: ARRL UHF/Microwave Band Plan Committee Seeks Input 6 and 3 Centimeter Bands

Last year, in recognition of the need to update the published band plans for our UHF and microwave bands, the ARRL Board of Directors formed the UHF/Microwave Band Plan Committee to develop revised national plans for the amateur bands between 902 MHz and 3.5 GHz. After receiving extensive user input, the committee completed its task and the resulting band plans were approved by the Board in July 2012. The committee has now received an additional assignment to conduct a similar update to the 6 and 3 centimeter bands. In order to do this effectively, the committee needs to know how

various segments of these bands are now being utilized around the country. You can help them by sharing what you know about local usage in your area and by asking other users -- both individuals and groups -- to do the same. Read more here<http://www.arrl.org/news/arrl-uhf-microwave-band-plan-committee-seeks-input-on-6-and-3-centimeter-bands>

.

Solar Update

The Sun, as seen on Thursday, November 29, 2012 from NASA's SOHO Extreme Ultraviolet Imaging Telescope<http://sohowww.nascom.nasa.gov/data/realtime/realtime-update.html>. This MDI <http://soi.stanford.edu/> (Michelson Doppler Imager) image was taken in the continuum near the Ni I 6768 Angstrom line. The most prominent features are the sunspots. This is very much how the Sun looks in the visible range of the spectrum.

Tad Cook, K7RA, reports: The average daily sunspot number for the week was down nearly 38 percent to 78.9, compared to last week's average. The average daily solar flux dropped nearly 13 percent, to 121. The seven-day reporting period for these data ran from November 22-28. The predicted solar flux for the near term is 110 on November 29, 105 on November 30-December 1, 100 on December 2-4, 105 and 115 on December 5-6, 130 on December 7-11, 135 on December 12-15, 140 on December 16-17, 135 on December 18-19, 130 on December 20-22, 120 on December 23-24, 115 on December 25, 110 on December 26-28, and rising again to 115 on December 29-30. The predicted planetary A index is 11, 15 and 8 on November 29-December 1, 5 on December 2-5, 10 on December 6-8, then 5 and 8 on December 9-10, 5 on December 11-15, 8 on December 16, and back down to 5 on December 17-31. The new year is expected to begin with slightly unsettled conditions, with a predicted planetary A index at 10 on January 1-4. Look for more on the ARRL website on Friday, November 30. For more information concerning radio propagation, visit the ARRL Technical Information Service Propagation page <http://www.arrl.org/propagation-of-rf-signals>.

This Week in Radiosport

This week:

- November 30 -- NCCC Sprint
- November 30-December 2 -- ARRL 160 Meter Contest<http://www.arrl.org/160-meter>
- December 1 -- TARA RTTY Melee; Wake-Up! QRP Sprint; TOPS Activity Contest
- December 1-2 -- ARRL EME Contest <http://www.arrl.org/eme-contest>
- December 2 -- 10 Meter RTTY Contest; SARL Digital Contest
- December 4 -- ARS Spartan Sprint

Next week:

- December 7 -- NCCC Sprint
- December 8-9 -- ARRL 10 Meter Contest <http://www.arrl.org/10-meter>; International Naval Contest

- December 9 -- SKCC Weekend Sprintathon; CQC Great Colorado Snowshoe Run
- December 12 -- NAQCC Straight Key/Bug Sprint; NAQCC-EU Monthly Sprint
- December 12-13 -- CWops Mini-CWT Test

All dates, unless otherwise stated, are UTC. See the ARRL Contest Branch page <http://www.arrl.org/contests>, the ARRL Contest Update<http://www.arrl.org/The-ARRL-Contest-Update>and the WA7BNM Contest Calendar <http://www.hornucopia.com/contestcal/index.html> for more information. Looking for a Special Event station? Be sure to check out the ARRL Special Event Stations web page <http://www.arrl.org/special-event-stations>
.
Upcoming ARRL Section, State and Division Conventions and Events

- December 1-2 -- ARRL West Central Florida Section Convention<http://www.arrl.org/hamfests/west-central-florida-section-convention-tampa-bay-hamfest-2>,
Palmetto, Florida
- January 18-19 -- ARRL North Texas Section Convention<http://www.arrl.org/hamfests/north-texas-section-convention-cowtown-hamfest-1>,
Fort Worth, Texas
- January 19 -- ARRL Southern Florida Section Convention<http://www.arrl.org/hamfests/southern-florida-section-convention-3>,
Fort Myers, Florida
- January 25-26 -- ARRL Mississippi State Convention<http://www.arrl.org/hamfests/mississippi-state-convention-capital-city-hamfest>
,

Selamat ya OM Djoko.
Sampe hari ini saya belum pernah dengar dia walaupun hanya berupa bisikan pelan saja, padahal sering lihat spotting di cluster.

Tadi sih lumayan saja dapat El Salvador - YS1/HB9KNA yg selama ini juga susah didengar, kali ini dia saya terima 57 dengan sekali panggil walaupun RS cuma 55.

Selamat OM Djoko sdh bisa kontak dengan VP8LP, saya dari tadi pagi tetap tidak bisa RX, maklum cuma pakai 1 elemen di 20m.
Buat OM Seno, YS1/HB9KNA sering muncul juga koq kalau malam hari, saya sdh 4 band QSO dengan beliau.

OM Seno,
Saya juga kebetulan saja dengar "beliau" yg biasanya gak pernah terdengar, saya pikir ke arah sana propagasi sedang membaik tapi ternyata juga tidak begitu lama.
Saya masih tetap monitor QSO YS1/HB9KNA dengan JA, sampai akhirnya hilang tanpa pamit karna propagasi langsung memburuk (nutup).

Saya logged QSO dengan YS1/HB9KNA pada jam 23.37Z dan sekitar 23.42Z hilang begitu saja. Semalam saya berusaha panggil Faroe Island OY1OF dan menunggu sampai dia terdengar jelas, tapi masih gagal. Yang berhasil semalam itu OM Hendra YB1HK, malahan beliau jadi rebutan beberapa stasiun DX lainnya. HI.

tnx OM Hen, OM Seno OM Uun,

saya tadi juga untung untungan saja karena banyak station JA yang memanggil.
syukur diterima 46
cukup terbantu dengan Noice Reduction dari radio ditambah Noice
Elimintating external.
sehingga dapat terbaca dengan baik.

OM Seno, untuk YS1/HB9KNA sering muncul saya baru contact 3 kali di tahun
2012 dan juga 3 kali di tahun 2011 tapi baru 3 band 40m, 12m dan 15m baru
tadi pagi. diterima 44 hehehe maklum barefoot

OM Uun,

Benar sih, kalo lihat di DX Watch - YS1/HB9KNA sering terbaca - tapi kalo di radio saya sih gremengannya aja gak terdengar. Seperti juga VP8LP, ZD7FT, CX, OA dll yg cuma bikin gregetan saja.

Nah, kalo malamhari YS1/HB9KNA juga sering muncul - OM Seno bilang : "Jam berapa OM Uun...? Oh jam segitu saya sudah kelonan guling". ;-)

Selamat ya OM Djoko.
Sampe hari ini saya belum pernah dengar dia walaupun hanya berupa bisikan pelan saja, padahal sering lihat spotting di cluster.

Tadi sih lumayan saja dapat El Salvador - YS1/HB9KNA yg selama ini juga susah didengar, kali ini dia saya terima 57 dengan sekali panggil walaupun RS cuma 55.

OM Hen,

Betul kata OM Hen, sampai sekarang saya juga masih gregetan dengan entity yg OM Hen sebutkan, meski antena sdh diputar sana-sini tetap saja yang terdengar hanya deraunya band HF.
Kebetulan sekali saya bisa kontak dengan YS1/HB9KNA di 10, 15 dan 20m cukup mudah. Hanya semalam di 40m saja sangat susah....
Tahun 2008 saya sdh pernah QSO dengan beliau di 40m dan sdh cfm QSL Card nya.

OM Uun,

Benar sih, kalo lihat di DX Watch - YS1/HB9KNA sering terbaca - tapi kalo di radio saya sih gremengannya aja gak terdengar. Seperti juga VP8LP, ZD7FT, CX, OA dll yg cuma bikin gregetan saja.

Nah, kalo malamhari YS1/HB9KNA juga sering muncul - OM Seno bilang : "Jam berapa OM Uun...? Oh jam segitu saya sudah kelonan guling". ;-)

Selamat OM Djoko sdh bisa kontak dengan VP8LP, saya dari tadi pagi tetap tidak bisa RX, maklum cuma pakai 1 elemen di 20m.
Buat OM Seno, YS1/HB9KNA sering muncul juga koq kalau malam hari, saya sdh 4 band QSO dengan beliau.

ALL,

Pd kolom Ham Rdo in outer space di e-QSP Vol. II.04 (edisi NOV 2012) foto Scott Kelly-nya kliatan lbh cakep deh (nggak kliatan botaknya amat spt yg di ARRL Newsletter ;-)

FYI, Scott Kelly [ki] ini trmsk astronot yg "unik", krn berdua dg Mark Kelly [ka] merupakan pasangan kembar (twins)

Mark Kelly's Space Shuttle Endeavour PatchScott Kelly's Space Shuttle Discovery PatchScott KellyMark Kelly

Just stay tuned, then ..

[bam]

e-QSP Ed.

+ Public Service: The 14th Annual SKYWARN Recognition Day Set for December 1

<http://www3.arrl.org/nl/al/image/Skywarn%20Special%20Event%20Logo.jpg>

The 14th Annual SKYWARN Recognition Day (SRD) Special Event will take place Saturday, December 1, 2012. SRD is co-sponsored by the ARRL and the National Weather Service (NWS) as a way to recognize the commitment made by Amateur Radio operators in helping to keep their communities safe. According to SRD Coordinator David Floyd, N5DBZ, Amateur Radio operators can visit their local participating NWS office, working as a team to contact other hams across the world throughout the 24-hour event on 80, 40, 20, 15, 10, 6 and 2 meters, as well as 70 centimeters. Read more here <http://www.arrl.org/news/the-14th-annual-skywarn-recognition-day-set-for-december-1> .

+ Amateur Radio in Space: Mikhail Kornienko, RN3BF, and Scott Kelly to Spend One Year on International Space Station

<http://www3.arrl.org/nl/al/image/Kelly_Kornienko.jpg>

NASA Astronaut Scott Kelly (left) and Russian Cosmonaut Mikhail Kornienko, RN3BF, will spend one year aboard the International Space Station beginning in the spring of 2015.

Russian Cosmonaut Mikhail Kornienko, RN3BF, of the Russian Federal Space Agency and NASA Astronaut Scott Kelly have been selected for a one-year mission aboard the International Space Station in 2015. According to NASA, the mission will include collecting scientific data important to future human exploration of our solar system and to understand better how the human body reacts and adapts to the harsh environment of space as NASA plans for missions around the Moon, an asteroid and ultimately Mars. Read more here <http://www.arrl.org/news/mikhail-kornienko-rn3bf-and-scott-kelly-to-spend-one-year-on-international-space-station> .

+ ARRL's Logbook of The World: Bug Fix Is in Place

ARRL Chief Executive Officer David Sumner, K1ZZ, reports on a bug fix for Logbook of The World.

The fix for the Logbook of The World (LoTW <https://p1k.arrl.org/lotwuser/default>) bug was implemented at 2103 UTC on November 28. Full credit goes to ARRL Information Technology Manager Michael Keane, K1MK, for figuring out what was happening and how to correct it.

<http://www3.arrl.org/nl/al/image/lotw-logo.jpg>

There are two ways of uploading logs: via the LoTW website and by e-mail. LoTW users should note that e-mailed logs were not affected by the bug, so no e-mailed logs will need to be resubmitted.

At the time the fix was implemented, LoTW processing was running almost exactly three days behind. If a user's most recent upload was made before 2100 UTC on November 25 and it has not yet been processed the file should be resubmitted. There should be no need to resubmit logs uploaded since 2100 UTC on November 25, which would include all CQWW CW DX Contest logs submitted after the end of the contest.

There is, however, a very slight chance that logs uploaded after this date might have been overwritten. If you find that your logs that were uploaded after November 25 are not appearing in your LoTW account, please wait until after December 3 to upload them again.

Thanks to everyone who has been patient while we grappled with this bug. The issue of slow processing speed is also being addressed, but it requires a hardware upgrade that will take several weeks to implement. Your continued patience and understanding will be appreciated.

+ Ham Radio in Hollywood: Morse Code Plays Role in New Spielberg Movie

<http://www3.arrl.org/nl/al/image/LincolnMoviePoster.jpg>

Producer Steven Spielberg has used Amateur Radio or Morse code in three of his last four movies: Super 8 (2011), The Adventures of Tin Tin (2011) and Lincoln (2012). Members of the Morse Telegraph Club -- an association of retired railroad and commercial telegraphers, historians, radio amateurs and others with an interest in the history and traditions of telegraphy and the telegraph industry -- played an integral part in the production of Lincoln.

"Nine of the 16 telegraph stations depicted in the War Department were fully operational," explained Morse Telegraph Club International President James Wade, WB8SIW. "These instruments could be operated in any combination through the use of a specialized computer program and custom-built terminal units for the process. When necessary, a hand key could be inserted in the individual telegraph loops so messages could be improvised." Read more here <http://www.arrl.org/news/morse-code-plays-role-in-new-spielberg-movie> .

<http://www.arrl.org/nladclick.php?n=al&t=i&i=2012-11-29&p=1> Ad

+ On the Air: The ARRL 10 Meter Contest: The Band Is Hot!

<http://www.youtube.com/watch?v=N5xJjThOlic>

Stephen Galchutt, WG0AT -- and his goats -- of Monument, Colorado, headed up to Mt Herman for the 2011 ARRL 10 Meter Contest, running 5 W QRP and a 2-element Yagi. Unfortunately, Rooster the Goat ate Galchutt's log. See more in Galchutt's YouTube video <http://www.youtube.com/watch?v=N5xJjThOlic> .

Will it be possible to beat the 2011 running of the ARRL 10 Meter Contest? With more than 5300 logs received and worldwide openings last year, that may be a tall order. This past weekend during the CQ WW CW Contest, 10 meters was in great shape, despite a coronal mass ejection that hit on Friday evening. But according to ARRL Contest Branch Manager Sean Kutzko, KX9X, one thing's for certain: There's going to be a ton of activity, as hams from all around the world look to work some DX on the band! Read more here <http://www.arrl.org/news/the-arrl-10-meter-contest-the-band-is-hot> .

+ On the Air: ARRL UHF/Microwave Band Plan Committee Seeks Input 6 and 3 Centimeter Bands

<http://www3.arrl.org/nl/al/image/ARRL_Flag_wavy_large.JPG>

Last year, in recognition of the need to update the published band plans for our UHF and microwave bands, the ARRL Board of Directors formed the UHF/Microwave Band Plan Committee to develop revised national plans for the amateur bands between 902 MHz and 3.5 GHz. After receiving extensive user input, the committee completed its task and the resulting band plans were approved by the Board in July 2012. The committee has now received an additional assignment to conduct a similar update to the 6 and 3 centimeter bands. In order to do this effectively, the committee needs to know how various segments of these bands are now being utilized around the country. You can help them by sharing what you know about local usage in your area and by asking other users -- both individuals and groups -- to do the same. Read more here <http://www.arrl.org/news/arrl-uhf-microwave-band-plan-committee-seeks-input-on-6-and-3-centimeter-bands> .

Solar Update

<http://www3.arrl.org/nl/al/image/latest112912.jpg>

The Sun, as seen on Thursday, November 29, 2012 from NASA's SOHO Extreme Ultraviolet Imaging Telescope <http://sohowww.nascom.nasa.gov/data/realtime/realtime-update.html> . This MDI <http://soi.stanford.edu/> (Michelson Doppler Imager) image was taken in the continuum near the Ni I 6768 Angstrom line. The most prominent features are the sunspots. This is very much how the Sun looks in the visible range of the spectrum.

Tad Cook, K7RA, reports: The average daily sunspot number for the week was down nearly 38 percent to 78.9, compared to last week's average. The average daily solar flux dropped nearly 13 percent, to 121. The seven-day reporting period for these data ran from November 22-28. The predicted solar flux for

the near term is 110 on November 29, 105 on November 30-December 1, 100 on December 2-4, 105 and 115 on December 5-6, 130 on December 7-11, 135 on December 12-15, 140 on December 16-17, 135 on December 18-19, 130 on December 20-22, 120 on December 23-24, 115 on December 25, 110 on December 26-28, and rising again to 115 on December 29-30. The predicted planetary A index is 11, 15 and 8 on November 29-December 1, 5 on December 2-5, 10 on December 6-8, then 5 and 8 on December 9-10, 5 on December 11-15, 8 on December 16, and back down to 5 on December 17-31. The new year is expected to begin with slightly unsettled conditions, with a predicted planetary A index at 10 on January 1-4. Look for more on the ARRL website on Friday, November 30. For more information concerning radio propagation, visit the ARRL <http://www.arrl.org/propagation-of-rf-signals> Technical Information Service Propagation page.

This Week in Radiosport

This week:

* November 30 -- NCCC Sprint
* November 30-December 2 -- ARRL 160 Meter <http://www.arrl.org/160-meter> Contest
* December 1 -- TARA RTTY Melee; Wake-Up! QRP Sprint; TOPS Activity Contest
* December 1-2 -- ARRL EME Contest <http://www.arrl.org/eme-contest>
* December 2 -- 10 Meter RTTY Contest; SARL Digital Contest
* December 4 -- ARS Spartan Sprint

Next week:

* December 7 -- NCCC Sprint
* December 8-9 -- ARRL 10 Meter <http://www.arrl.org/10-meter> Contest; International Naval Contest
* December 9 -- SKCC Weekend Sprintathon; CQC Great Colorado Snowshoe Run
* December 12 -- NAQCC Straight Key/Bug Sprint; NAQCC-EU Monthly Sprint
* December 12-13 -- CWops Mini-CWT Test

All dates, unless otherwise stated, are UTC. See the ARRL Contest Branch page <http://www.arrl.org/contests> , the ARRL <http://www.arrl.org/The-ARRL-Contest-Update> Contest Update and the WA7BNM <http://www.hornucopia.com/contestcal/index.html> Contest Calendar for more information. Looking for a Special Event station? Be sure to check out the ARRL <http://www.arrl.org/special-event-stations> Special Event Stations web page.

Upcoming ARRL Section, State and Division Conventions and Events

* December 1-2 -- ARRL West Central Florida Section Convention <http://www.arrl.org/hamfests/west-central-florida-section-convention-tampa-bay-hamfest-2> , Palmetto, Florida
* January 18-19 -- ARRL North Texas Section Convention

<http://www.arrl.org/hamfests/north-texas-section-convention-cowtown-hamfest
-1> , Fort Worth, Texas
* January 19 -- ARRL Southern Florida Section Convention
<http://www.arrl.org/hamfests/southern-florida-section-convention-3> , Fort
Myers, Florida
* January 25-26 -- ARRL Mississippi State Convention
<http://www.arrl.org/hamfests/mississippi-state-convention-capital-city-hamf
est> , Jackson, Mississippi
* January 26-27 -- ARRL Puerto Rico State Convention
<http://www.arrl.org/hamfests/puerto-rico-state-convention> , Hatillo,
Puerto Rico
* February 2 -- ARRL South Carolina State Convention
<http://www.arrl.org/hamfests/south-carolina-state-convention-2> , North
Charleston, South Carolina
* February 8-10 -- ARRL Southeastern Division Convention
<http://www.arrl.org/hamfests/southeastern-division-convention-orlando-hamca
tion-1> , Orlando, Florida
* February 15-16 -- ARRL Arizona State Convention
<http://www.arrl.org/hamfests/arizona-state-convention-yuma-hamfest-1> ,
Yuma, Arizona
* March 8-9 -- ARRL Oklahoma Section Convention
<http://www.arrl.org/hamfests/oklahoma-section-convention-green-country-hamf
est-1> , Claremore, Oklahoma
* March 30 -- ARRL North Carolina State Convention
<http://www.arrl.org/hamfests/north-carolina-state-convention-raleigh-hamfes
t-2> , Raleigh, North Carolina
* April 20 -- ARRL Louisiana State Convention
<http://www.arrl.org/hamfests/louisiana-state-convention-northeast-louisiana
-regional-ham-radiofest> , Monroe, Louisiana
* April 26-28 -- ARRL Idaho State Convention
<http://www.arrl.org/hamfests/idaho-state-convention-3> , Boise, Idaho

Flu itu khan cold - jadi perlu dibuat hot.
Caranya utk AR adalah justru di depan radio tabung dan booster tabung yg dibuka casingnya - lumayan hangat kena radiasi RF dan panas tabungnya.

Jangan cari panas matahari dengan naik tower.

Om Djoko,

Noise eliminating external apa yang anda gunakan? Saya terkendala juga dengan noise yang ada di sekitar saya. Qth saya berada di samping rel kereta dimana kalo ada KRL lewat noise datang membahana mengalahkan sinyal.
Saya berharap dapat menemukan alat yang dapat bantu menurunkan noise tersebut.

tnx OM Hen, OM Seno OM Uun,

saya tadi juga untung untungan saja karena banyak station JA yang memanggil.
syukur diterima 46
cukup terbantu dengan Noice Reduction dari radio ditambah Noice
Elimintating external.
sehingga dapat terbaca dengan baik.

OM Seno, untuk YS1/HB9KNA sering muncul saya baru contact 3 kali di tahun 2012 dan juga 3 kali di tahun 2011 tapi baru 3 band 40m, 12m dan 15m baru tadi pagi. diterima 44 hehehe maklum barefoot

OM Djoko,
Memang NR/DSP menolong utk lebih senyapnya RX dari noise - tapi kadang saya merelakan kuping ini dirasuki noise yg bener2 berisik dengan menonaktifkan NR/DSP supaya signal DX yg sangat lemah bisa "agak" terdengar.

tnx OM Hen, OM Seno OM Uun,

saya tadi juga untung untungan saja karena banyak station JA yang memanggil.
syukur diterima 46
cukup terbantu dengan Noice Reduction dari radio ditambah Noice Elimintating external.
sehingga dapat terbaca dengan baik.

OM Seno, untuk YS1/HB9KNA sering muncul saya baru contact 3 kali di tahun 2012 dan juga 3 kali di tahun 2011 tapi baru 3 band 40m, 12m dan 15m baru tadi pagi. diterima 44 hehehe maklum barefoot

@ OM Djoko : tq ya, nanti kalo badan rada ok ta coba didepan radio, mudah2an condx juga bagus, antena ku rendah banget

@ Om Uun : iya nih, awalmulanya sabtu kemarin baatttuuukk kekel, sambil kontes cqww-cw (untung cw) coba kalo phone pie jal? sekarang batuknya rada kurang tp masih dikit, gantian pilek sama lemes2 nih ... , tp tadi pagi habis makan soto, badnku sudah kemringet, gejala sembuh nih ...

@ Om Hen : ya kalo jam-jam segitu ya mending bobok dulu lah ......
kalo masalah ditempelin di tabung ya sdh bukan anget lagi, malah cepet garing ...
Gloodaaaagghhhhh ...... :-P

OM Zen,
Interface sudah selesai - sudah digunakan dan saya gunakan softwarenya FLDIGI.
Untuk lebih ringkasnya semua koneksi dari interface ke rig saya ambil dari jack microphone, termasuk supply 8 VDCnya.

Kalo utk macro, rasanya saya belum menemukan yg bisa pas menjawab semua macro kawan QSO jadi kadang sambil QSO suka saya tambah/revisi utk menyesuaikannya.

4635. Z81D

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-11-30 07:22:07 UTC
From: hendro s.joedho
Topic: 4635 Message: 4635

OM,
Di 21.305MHz ada Z81D kebetulan untuk 15M ini saya belum dapat, sedang dalam usaha yg cukup sulit muncul "pengganggu".
Awalnya ada signal yg tuning tapi Z81D masih tembusa bisa saya terima walaupun "kecentet" - tapi begitu signal pengganggu ini menguat menjadi +30dB - Z81Dnya juga menyerah dan QSY.

Di bawahnya di 21.273MHz ada 5T0SP walaupun signalnya masih lemah dan sedikit kena kumis "pengganggu" yg di atas tadi, saya masih bisa worked.

Saat sebelum saya send email ini si pengganggu sudah menghilang.

sekian laporannya.

Om Onny & Om Mei,

Saya ikut mendukung Program terbaru dari Panitia,
Nanti saya siapin Hadiah tambahan khusus untuk Juara Nasional Single Operator masing-masing 2 (dua) kilo Jeruk Pontianak. Hahahaha

Sueb.

Selain Antenna dual band khusus tingkat Siaga (Thanks AI), akan ditambah 10 juara call area khusus untuk tingkat Siaga dg rincian :
1. 10 pemenang juara call area Rp. 200.000 (minimal 10 stasiun per call area yang akan diperebutkan oleh semua tingkatan)
2. 10 pemenang juara call area Rp. 100.000 khusus tingkat Siaga (tanpa pembatasan jumlah pengirim logsheet). **Thanks OM NDuT...**

Revisi/Tambahan Juklak Marathon Kebayoran Contest 2012 akan segera menyusul.

OM Bambang,
Itu "kabar buruk" dari W-land ya ?
Apakah diikuti juga akhirnya oleh negara2 lain ya - berarti 2013 itu juga penerbitan terakhir.

Di kantor pos dekat rumah saja perangko kadang kehabisan, bukan karna banyak yang menggunakan/beli tapi dropping Kantor Pos Pusat terbatas.

Date: 2012-12-01 16:05:35 UTC
From: Yb land Dx club
Topic: 2113 Message: 4651

Dear All,

One of the most interesting ways to use Club Log is to join your clubs, so that you can participate in your own leagues against friends. Also, if you are interested in joining in the HF or LF challenges organised by CDXC, then you can join these contests in Club Log and have your score automatically calculated by Club Log.

Note: members must add themselves to this club. Instruct them to click 'Settings' and then go to the 'Clubs' tab to join. This method allows users to opt-out (by default) of leagues and DXpedition charts. The opt-in principle is how Club Log is intended to work.

PS: Only YBDXC registered member who got the number membership will be approved.

http://www.clublog.org/edituser.php goes to settings, goes to clubs, thick YBDXC, goes to join clubs

OM,
ZL9HR - 21.295MHz - QSX - 21.300MHz.
Signalnya lemah tapi bisa terbaca.

Yang belum mencoba silahkan.

Alhamdulillah ya, OM Iwan.

Memang QSB tadi - karna band sepi, saya panteng aja RX di 21.295MHz dan pas terdengar dia CQing saya monitor sampai agak jelas terbaca, baru saya panggil.

Sepi dari pile up sampai saat ini - YB6NE juga sudah worked.

OM Zen,
Sepertinya harus extra sabar.
Dari awalnya khan cuma ramai di cluster sedangkan di radio cuma noise.
Seperti tadi pagi saya monitor noise aja di 21.295MHz sambil beres2 buku dan lemari sampai terdengar sayup2 ZL9HR CQing.
Cuma yah susah kalo ada kerja/tugas yg jauh dari radio. HI.

Lalu saya telateni sampai bisa terbaca jelas baru saya panggil - alhamdulillah worked.

QST de W1AW
DX Bulletin 50 ARLD050
From ARRL Headquarters
Newington CT December 6, 2012
To all radio amateurs

SB DX ARL ARLD050
ARLD050 DX news

This week's bulletin was made possible with information provided by NC1L, TA3J, The Weekly DX, the OPDX Bulletin, 425 DX News, The Daily DX, DXNL, Contest Corral from QST and the ARRL Contest Calendar and WA7BNM web sites. Thanks to all.

SAMOA, 5W. John, VK2ZKY is QRV as 5W0KY until December 14. Activity is holiday style on 80 to 6 meters. QSL direct to home call.

UGANDA, 5X. Nick, 5X1NH is QRV from Fort Portal. Activity is on the HF bands. This includes a possible entry in the ARRL 10 Meter contest. QSL via G3RWF.

EAST MALAYSIA, 9M6. Steve, 9M6DXX will be QRV as a part-time Single Op/High Power/SSB entry in the ARRL 10 Meter contest. Outside the contest he will be active at various times on the HF bands depending on propagation. QSL via M0URX.

BAHAMAS, C6. Rick, K6VVA is QRV as C6AVA from the Berry Islands, IOTA NA-054, until December 11. This includes a possible entry in the ARRL 10 Meter contest. QSL via operator's instructions.

SOUTH COOK ISLANDS, E5. Norman, 5B4AIF will be QRV as E51E on Aitutaki, IOTA OC-083, from December 10 to January 5, 2013. Activity will be on 160 to 6 meters using SSB, RTTY and possibly CW. QSL via EB7DX.

CANARY ISLANDS, EA8. Andrea, IK1PMR and Claudia, PA3LEO are QRV as EA8/home calls from Tenerife, IOTA AF-004, until February 12. Activity is on the HF bands, including 6 meters, using mainly CW and RTTY, respectively. QSL to home calls.

ST. LUCIA, J6. Operators KA9P, N7QT, W4AVB, W5TDY, W6ABM, WB8ISG are QRV as J6/home calls until December 11. They are active with W3FF and N7UN who are also QRV as J68FF and J68UN, respectively. Activity is on 160 to 10 meters with three stations. This includes being active as J68UN in the ARRL 10 Meter contest. QSL to home calls.

OGASAWARA, JD1. Makoto, JI5RPT will be QRV as JD1BLY from Chichijima from December 10 to 13. Activity will be on 40 to 10 meters using CW, SSB and various digital modes. QSL to home call.

BELGIUM, ON. Berkin, TA3J is QRV as ON/TA3J from various locations until December 11, Activity is on 160 to 2 meters using SSB and FM. QSL to home call.

NETHERLANDS, PA. Fred, PA0FAW is QRV with special call sign PG100NOM from the De Hoge Veluwe National Park until December 28. Activity is on the HF bands using CW, SSB and some digital modes. QSL to home call.

SABA, ST. EUSTATIUS, PJ5. A group of operators are QRV as PJ5J from St. Eustatius, IOTA NA-145, until December 12. Activity is on the HF bands using CW, SSB and digital modes. QSL via JA1HGY.

BRAZIL, PY. Special event station PQ125GBA is QRV until December 20 in celebration of the 125th anniversary of the foundation of Guarabira City, the 21st anniversary of the 3rd Battalion Military Firefighters and the ''V Walk of Fire'' sporting event. Activity is on 80 to 10 meters using CW, SSB and various digital modes. QSL via PY7AYE.

ANTIGUA, V2. Operators W6DR and N9YS are QRV until December 10 from what is left of the V26B contest station. They will be active as V26DR in the ARRL 10 Meter contest. Outside the contest they may also be active on other bands to determine their operability. QSL via W6DR.

BELIZE, V3. Operators John, AD8J and Doug, W3NO will be QRV as V31NO in the ARRL 10 Meter contest as a Multi/Single entry. Outside the contest they will be QRV on 160 to 10 meters using CW and SSB. QSL via W3BO.

MICRONESIA, V6. Haru, JA1XGI is QRV as V63XG from Yap Island, IOTA OC-012, until December 12. He is active mainly on 30, 12 and 17 meters using CW, SSB, RTTY and JT65. QSL to home call.

NICARAGUA, YN. Scott, K7ZO is QRV as YN5ZO until December 10. Activity is on 40 to 10 meters using SSB and RTTY. This includes being a Single Op/High Power entry in the ARRL 10 Meter contest.

QSL to home call.

THIS WEEKEND ON THE RADIO. The ARRL 10-Meter Contest, QRP CW Fox Hunt, NCCC Sprint, International Naval Contest, 1600Z, SKCC Weekend CW Sprintathon and the CQC Great Colorado CW Snowshoe Run are all on tap for this weekend. The NAQCC Straight Key/Bug CW Sprint, NAQCC-EU Monthly Sprint, QRP CW Fox Hunt and CWops Mini-CWT CW Test are all scheduled for December 12. Please see December QST, page 69, and the ARRL and WA7BNM Contest websites for details.

Sampai pagi hari ini sepertinya gak ada harapan untuk berusaha memetik entity baru dari ARRL Contest di 10M tahun ini.

Semalam DX station yg kuat terdengar hanya VK6IR, sementara di DX cluster dari spot terlihat banyak juga yg aktif - tapi tidak terdengar sama sekali, saya perlu cuma 6-7 entities baru saja untuk mencukupkan sticker endorsment Diamond DXCC.
Pagi ini seperti pagi2 sebelumnya sepi.

Dari YBland yang sempat saya dengar antara lain OM Gun-YB1LZ dan YB1UUN, saya masih ikutan bahkan utk mendengar saja sulit.

Feng shui, kalo menurut perhitungan Cina.
Tower baru saja saya geser ke arah Selatan sejauh 1 meter malah mengakibatkan SWR naik menjadi 1:3 pada 21MHz, untung yang 28MHz (delta loops) masih ajeg sekitar 1:1,3/1,5.

Sebenarnya tower saya geser sedikit supaya rambatan pohon anggur yg baru saya tanam tidak terganggu dan mengganggu tower. Agak aneh, koq tower bisa dg mudah digeser - kaki tower saya adalah besi U yg dilas silang dan ditengahnya didirikan tower itu, karna di atas dak beton.

Kemungkinan berubahnya SWR adalah :

- Waktu menggeser tower ada getaran2 yg kuat yg mempengaruhi koneksi atau setting gamma match
- Sebelumnya pada posisi lama di bawah antenna terpasang scafolding yg kemungkinan besi2nya mempengaruhi tuning/setting gammamatch karna sejajar dg yagi.

v

SRI, it's only my curcol.

Feng shui, kalo menurut perhitungan Cina.
Tower baru saja saya geser ke arah Selatan sejauh 1 meter malah mengakibatkan SWR naik menjadi 1:3 pada 21MHz, untung yang 28MHz (delta loops) masih ajeg sekitar 1:1,3/1,5.

Sebenarnya tower saya geser sedikit supaya rambatan pohon anggur yg baru saya tanam tidak terganggu dan mengganggu tower. Agak aneh, koq tower bisa dg mudah digeser - kaki tower saya adalah besi U yg dilas silang dan ditengahnya didirikan tower itu, karna di atas dak beton.

Kemungkinan berubahnya SWR adalah :

- Waktu menggeser tower ada getaran2 yg kuat yg mempengaruhi koneksi atau setting gamma match
- Sebelumnya pada posisi lama di bawah antenna terpasang scafolding yg kemungkinan besi2nya mempengaruhi tuning/setting gammamatch karna sejajar dg yagi.

Sampai pagi hari ini sepertinya gak ada harapan untuk berusaha memetik entity baru dari ARRL Contest di 10M tahun ini.
Semalam DX station yg kuat terdengar hanya VK6IR, sementara di DX cluster dari spot terlihat banyak juga yg aktif - tapi tidak terdengar sama sekali, saya perlu cuma 6-7 entities baru saja untuk mencukupkan sticker endorsment Diamond DXCC.Pagi ini seperti pagi2 sebelumnya sepi.

Dari YBland yang sempat saya dengar antara lain OM Gun-YB1LZ dan YB1UUN, saya masih ikutan bahkan utk mendengar saja sulit.
Feng shui, kalo menurut perhitungan Cina.Tower baru saja saya geser ke arah Selatan sejauh 1 meter malah mengakibatkan SWR naik menjadi 1:3 pada 21MHz, untung yang 28MHz (delta loops) masih ajeg sekitar 1:1,3/1,5.

OM Zen koq gak terdengar di kontes ini ?
Tahun lalu kontes 10M yg bulan Oktober 2011 saya dapat banyak sekali entity - jadi di tahun 2012nya saya bisa klaim DXCC 10M.

Di posting tadi itu saya lampiri gambar tapi rupanya gak nampak, sekarang deh - biar lengkap.
Bagaimana pandangan di Lampung ?

OM Hans,

kemarin saya nulis di FB, contest kali ini kayak kuburan alias sepi, 36 jam dapat 21 stasiun (dikurangi seharian hadiri MUSLOK), knop dial frek untung ga lepas, diputer terus. tetangga sampai tanya, Antena pak Gun kok gerak terus? dikira rusak... itulah OM Hans sekelumit cerita ARRL 10 Meter.
yang penting partisipasi dan memeriahkan aja.
salam,

Gun - YB1LZ

oM Hen,

GPP kayaknya cuma dapet 2 qso ZL9HR. Ntu juga dikejar sampe mau QRT.

Ikutan partisifasi aja.. Ruar biasa propagas di 10m buat YBland .. :(
Lumayan dapat perwakilan dari 6 benua AF, OC,, NA, SA, AS dan EU...
Tapi di band laen dapet 9J2BO buat nambahin Diamond DXCC dan RI1ANC (LoTW)

.....

Wow, CUMA dapat dua QSO - saya malahan cuma satu di 15M saja, 10M gagal.
Untuk DDXCC saya udah ngos-ngosan karna sebenarnya banyak bisa nambah dari SA tapi gak ada yg kedengaran kecuali yg justru sudah saya dapat.
Masih butuh 6 entities lagi utk endorsement 175 yg sepertinya dengan propagasi di 10M dan 15M ini sangat sulit sekali, padahal semula saya berharap banyak dapat tambahan dari 10M di kontes bulan ini.

PF sudah dapat 9J2BO dan RI1ANC (dapat RI-1 ya ? HI)

73
hen-yc0qr

DARI:arief .

Minggu, 9 Desember 2012 22:37

oM Hen,

GPP kayaknya cuma dapet 2 qso ZL9HR. Ntu juga dikejar sampe mau QRT.

Ikutan partisifasi aja.. Ruar biasa propagas di 10m buat YBland .. :(
Lumayan dapat perwakilan dari 6 benua AF, OC,, NA, SA, AS dan EU...
Tapi di band laen dapet 9J2BO buat nambahin Diamond DXCC dan RI1ANC (LoTW)

.....

OM Hans,

kemarin saya nulis di FB, contest kali ini kayak kuburan alias sepi, 36 jam dapat 21 stasiun (dikurangi seharian hadiri MUSLOK), knop dial frek untung ga lepas, diputer terus. tetangga sampai tanya, Antena pak Gun kok gerak terus? dikira rusak... itulah OM Hans sekelumit cerita ARRL 10 Meter.
yang penting partisipasi dan memeriahkan aja.
salam,

Gun - YB1LZ

":

2013 note... IRC (International Reply Coupons) are likely discontinued,
stopped, ended, soon. Just DO NOT USE IRC.
If possible, put in USA 2 dollars. Alternative way to donate is via PayPal.
It is nearly impossible for an honest ham to make money from QSL donations;
usually the costs of receiving and replying are larger than the donations.
Check Web sites to find the few hams who take the money and never reply as
a habit. Forgive those hams with mail thieft, illness, travel, or death who
do not QSL.
GL, 73, Charly HS0ZCW

":

Jan 2013....
If sending to a QSL manager, go to the manager's Web information and follow
the instructions there.
Remember buro cards take years sometimes and some hams do not respond to
buro cards at all. Make sure that YOU have provided a way to receive your
buro cards. 73

Kebayoran Contest tinggal beberapa harilagi 15 desember
2012.....pertarungan " YD / siaga " menjadi ajang yang di tunggu2 dari
Papua hingga Banda

Aceh.....mari kita junjung tinggi sportifitas, sabar, ulet , rajin dan pantang menyerah
hingga menit2 terakhir contest, scan, hunting,

mendengar dgn seksama adalah kunci keberhasilan.....bravo kebayoran contest

Kebayoran Contest tinggal beberapa harilagi 15 desember 2012.....pertarungan " YD / siaga " menjadi ajang yang di tunggu2 dari Papua hingga Banda

Aceh.....mari kita junjung tinggi sportifitas, sabar, ulet , rajin dan pantang menyerah hingga menit2 terakhir contest, scan, hunting,

mendengar dgn seksama adalah kunci keberhasilan.....bravo kebayoran contest

Maunya gitu NDuT, gimana caranya menjaring para YL biar getol contest?
Boleh juga kita contest khusus YL.
YL station pointnya lebih tinggi.
Kalo ngga salah dulu pernah ada YL contest bukan?.

Maunya gitu NDuT, gimana caranya menjaring para YL biar getol contest?
Boleh juga kita contest khusus YL.
YL station pointnya lebih tinggi.
Kalo ngga salah dulu pernah ada YL contest bukan?.

CU on d band @Marathon Kebayoran Contest 2012... be a winner!!!!

Propagation Forecast Bulletin 50 ARLP050
From Tad Cook, K7RA
Seattle, WA December 14, 2012
To all radio amateurs

SB PROP ARL ARLP050
ARLP050 Propagation de K7RA

Average daily sunspot numbers fell 13.5 points this week from 61.1 to 47.6. Average daily solar flux was about the same this week as last, rising 1.1 points to 102.7. Geomagnetic indices were even quieter this week than last.

Predicted solar flux is 115 on December 14, 120 on December 15-16, 115 on December 17-19, 110 on December 20-21, 115 on December 22-23, 110 on December 24-27, 100 on December 28-29, 95 on December 30 through January 3, 100 on January 4-5, and 105 on January 6-8. Solar flux then jumps abruptly to 125 and 130 on January 13-14.

The predicted planetary A index is 5 on December 14-15, 8 on December 16, 10 on December 17, 5 on December 18-28, 8 on December 29, 5 on December 30 through January 5, 7 on January 6-7, 5 on January 8-9, 8 on January 10-11 and 5 on January 12-27.

OK1HH predicts the geomagnetic field will be quiet to unsettled on January 14, mostly quiet December 15, quiet to unsettled December 16, active to disturbed December 17, mostly quiet December 18, quiet December 19. A positive storm phase is expected December 20, with active to disturbed conditions December 20-21, quiet to unsettled December 22, mostly quiet December 23, quiet December 24, quiet to unsettled December 25, mostly quiet December 26, quiet December 27, quiet to active December 28, quiet December 29, quiet to unsettled December 30-31, quiet January 1-4, active to disturbed January 5-6.

Both NASA and NOAA have tweaked their predictions for the peak of the current solar cycle next year. To see the NOAA changes, go to

http://www.swpc.noaa.gov/weekly/ and select PRF 1940 and go to page 12. Then open another browser window and select PRF 1944 and go to page 16.

Notice that in the November prediction, the cycle peaks at 90 in May through July 2013, and the smoothed sunspot number for January through April is 81, 83, 85 and 88. In the December prediction, we see two instead of three peak months, June and July 2013. The numbers for January through May are 79, 81, 83, 86 and 88. This is a marginally weaker predicted peak for cycle 24.

The latest NASA prediction is at
http://solarscience.msfc.nasa.gov/predict.shtml

The change here is from 73 to 72 for a smoothed sunspot number maximum in the December 10 prediction compared to the November 2 prediction. The other change is last month when they wrote "The smoothed sunspot number (for 2012/02) is already nearly 67 due to the strong peak in late 2011 so the official maximum will be at least this high." This month the end of the line was changed to "at least this high and this late."

Seen on Bob Kile's (W7RH) Facebook page on Tuesday: "For those low band operators out there. The solar activity remains low and the solar wind is under 300km/sec. That means West Coast to EU, boys! I have six in the log last Saturday night and there have been West Coast openings since last Friday."

I believe Bob is referring to 160 meters.

Lloyd Berg, N9LB of Oregon, Wisconsin (Oregon is a town just south of Madison, Wisconsin) wrote about the 10 Meter contest:

"This year required a continuous effort on Friday evening, all day Saturday and all day Sunday, including numerous 'dead band' times of waiting and wondering if the band was going to come back or not. I can see a large chunk of the band on my FLEX - Software Defined Radio panoramic display - and when I say the band went dead, I see it happening just like somebody turned down the RF gain - only took a minute or two to extinguish all signals. I'd actually transmit just to make sure the antenna was connected. I also looked out the window many times to see if the antenna was still there (it was). Really odd.

"At the beginning of the contest, the solar numbers looked awfully low for decent 10m propagation: SFI=97, SSN=23, A=1, K=0. Conditions were very weird from my Wisconsin QTH. The band kept going dead, then we'd have a bit of garden variety E-skip 'here-and-there,' then dead again. Then it would open up real wide, going way beyond simple E-skip... North, South, East and West all at the same time.

"Worked everything East of the Mississippi in North America (E-skip). Worked Hawaii, more Alaskans than in any other single contest ever, many BC, and a NWT, but never heard most of the Rocky Mountain states. Easy to work every active station in South and Central America, and the Caribbean - day or night. Nice and strong but short-lived openings to Azores, Cape Verde and Canary Islands.

"Worked several ZSs, VKs, ZLs and an E51 during a few short precious minutes of openings on Saturday evening and again on Sunday afternoon. No Japan or Asia heard at all. Only European contacts were a couple of Spain and Portugal, again during a very brief opening (well after their sunset)."

Thanks, Lloyd!

Jeff Hartley, N8II of West Virginia wrote, also about the 10 Meter contest: "Sunday was noticeably better than Saturday in the 10M contest this past weekend. I only worked about 15 EU stations all weekend, but conditions to the west coast were extremely good and we had plenty of Es Friday night and Saturday night into MN, WI, SD, IA, MO, KS, and OK as well ME and VE1, VE9, VY2. The last hour featured Es into KP4 and NC, SC, AL, KY, TN, FL, MS, AR, LA and TX.

"Highlights were working A45 around 1630Z Saturday and a great long path Asian opening on Sunday which lasted for hours, starting around 1250Z on CW with about four JAs, BD7 at 1302Z, BV1 at 1308, XV1 at 1405, HS0 at 1414,and 9V1 at 1538, and also called on phone by HS0 at 1506. Sunday was extremely good to the west coast from 1710Z thru 2235Z, one WA station running a half watt was a solid S4 and mobiles had solid signals. All states were worked on CW and only missed AK on phone. There was propagation of some sort to all states at one time or another with only the very close states on backscatter only."

If you would like to make a comment or have a tip for our readers, email the author at, k7ra@....

For more information concerning radio propagation, see the ARRL Technical Information Service web page at http://arrl.org/propagation-of-rf-signals. For an explanation of the numbers used in this bulletin, see http://arrl.org/the-sun-the-earth-the-ionosphere. An archive of past propagation bulletins is at http://arrl.org/w1aw-bulletins-archive-propagation. Find more good information and tutorials on propagation at http://myplace.frontier.com/~k9la/.

Monthly propagation charts between four USA regions and twelve overseas locations are at http://arrl.org/propagation.

Instructions for starting or ending email distribution of ARRL bulletins are at http://arrl.org/bulletins.

Sunspot numbers for December 6 through 12 were 49, 23, 35, 40, 49, 55, and 82, with a mean of 47.6. 10.7 cm flux was 97.4, 97.1, 101.1, 103.7, 104, 103.7, and 111.9, with a mean of 102.7. Estimated planetary A indices were 1, 1, 1, 4, 3, 2, and 2, with a mean of 2. Estimated mid-latitude A indices were 2, 1, 1, 3, 3, 2 and 3, with a mean of 2.1.

InsyaAllah ngga ada acara jadi bisa ikutan ya... Kebetulan 59/umur untuk YL diumpetin alias rhs...
Biasanya YL itu kan enggan mengumbar umurnya, karena YL itu selalu always Young Lady, walaupun usianya sudah 70tahun tetep aja disebut 'YL Station'

GL n success buat panitia BOAN 2012/13

73, de yc0dqt.

To All,

Menurut saya YL tetap,
dan Umur juga tetap.......
Kalau memang yang bersangkutan umurnya 7o Tahun,
ya kenapa harus di tutup-tutupi...?
Terima aja apa adanya.
Saya senang koq berteman sama Amatir Radio YL yang umurnya 70 Tahun keatas,
apa lagi yang sudah nggak punya Gigi,
Ngumpul Bareng suguhkan Kacang Goreng sebungkus kecil aja nggak bakalan habis.
Dari pada YL yang masih muda...tapi makannya kuat...
Bisa tekor deh kita.

Sueb.

InsyaAllah ngga ada acara jadi bisa ikutan ya... Kebetulan 59/umur untuk YL diumpetin alias rhs...
Biasanya YL itu kan enggan mengumbar umurnya, karena YL itu selalu always Young Lady, walaupun usianya sudah 70tahun tetep aja disebut 'YL Station'

Mbak Endang,

Iya Dong Mbak...Hahahahahaaaaaa
Dalam Juklak BOGOR OLD NEW CONTEST Sepertinya nggak adil Mbak,
Masa untuk OM Repoortnya 59/umur,
Contoh ; OM - YB0AA 59/ 81, tapi untuk YL - YC0BPN 59/00.
Huuuuuuuuhhhhhh, Panitianya Curang, ini pasti usulan Mbak Endang ama Om Yamin ya, hahahaha.

From: Martinus Jap
Topic: 4821 Message: 4821

Dear All,

menjelang tutup tahun 2012,
ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.
semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,

perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya

sejujurnya memang saya sangat jarang dalam berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut, hanya saja saya sering monitor kegiatan ini.

1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?

ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.
kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi .....

2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,

for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.

walaupun kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.

nah kalo sudah demikian mana operating prosedur yang benar?
lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut

a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan

    for the example :

    * misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat.
    * PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa

bergerak dengan leluasa.
    * mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....

b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?

supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-D
by the way, dalam pile up seorang DX-er pun jarang menemukan panggilan yg berluang-ulang pada QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .

for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !

saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.

bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang me-manage kegiatan ini. sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.

c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.
sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,

bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.

semoga bermanfaat ...

Selamat TAHUN BARU 2013,

semoga di tahun baru mendatang berkat kesehatan / rejeki / kebahagian menyelimuti kita semua.

OM Seno,

Rasanya semua anggota yg baik akan mengharapkan demikian.
Teratur di frekwensi
Kalo kita check in di NuNet bukan berarti untuk narsis (terbaca pamer call sign), tapi untuk silaturrahim/bertemu rekan2 di seluruh nusantara melalui frekwensi.
Bukan setelah check in langsung kabur. setelah acara NuNet bisa berbincang2 /QSO, saling bertegur sapa untuk tukar menukar QSL card.
Jadi ngga langsung bubar jalan.

Selamat menyambut tahun 2013, semoga di tahun mendatang menjadi lebih baik...

Salam,
dqt.

/es

OM Seno,

sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.
akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.
usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.
Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?
Tnx de YB1LZ

4824. Kesalahan tulis pada QSL Card

Yahoo group: YBDXC_News (2012-06 — 2012-12)
Date: 2012-12-29 13:39:10 UTC
From: hendro s.joedho
Topic: 4824 Message: 4824

OM,
Saya terima balasan QSL card dari 3DA0NJ/Swaziland, tapi ada sedikit masalah.

Data QSO seharusnya :

29 December 2011 0841 UTC 28MHz/10M RS 59 SSB
30 December 2011 1537 UTC 21MHz/15M RS 58 SSB

Tapi pada QSL cardnya, Nico-3DA0NJ menulis data DATE keliru tahunnya, yaitu ditulis QSO tgl. 29 dan 30 Desember 2012 (hari ini dan besok).

Saya sudah kirim email kepada ybs, tapi tidak dijawab.
Saya juga gak berani mengubah tulisan tahun di QSL Card tsb dari 2012 menjadi 2011 karena kuatir justru bisa dianggap tidak valid lagi.

Adakah rekan2 yg pernah mengalami hal serupa/mirip - saya berencana bila akan menggunakan QSL card tsb utk klaim endorsement DXCC dengan waktu jangan di awal 2013 - karena rasanya gak mungkin juga bisa terima QSL card dari Afrika cuma dalam hitungan hari/minggu saja.
Atau adakah saran lain yang tidakl sampai "menghanguskan" QSL card ini.

73 es tnx

Subject: Re: [YBDXC_News] ONN 40M

OM Seno,

sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.
akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.
usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.
Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?
Tnx de YB1LZ

Subject: [YBDXC_News] ONN 40M

Dear All,

menjelang tutup tahun 2012,
ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.
semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,

perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya

sejujurnya memang saya sangat jarang dalam berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut, hanya saja saya sering monitor kegiatan ini.

1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?

ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.
kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi .....

2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,

for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.

walaupun kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.

nah kalo sudah demikian mana operating prosedur yang benar?
lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut

a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan

for the example :

* misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat.
* PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa bergerak dengan leluasa.
* mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....

b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?

supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-D
by the way, dalam pile up seorang DX-er pun jarang menemukan panggilan yg berluang-ulang pada QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .

for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !

saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.

bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang me-manage kegiatan ini. sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.

c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.
sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,

bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.

semoga bermanfaat ...

Selamat TAHUN BARU 2013,

semoga di tahun baru mendatang berkat kesehatan / rejeki / kebahagian menyelimuti kita semua.
dan untuk INDONESIA :
semoga aman , damai, dan sejahtera.

OM,
Kalau biasanya DX-pedition menyediakan "Online Log" supaya kita bisa cek apakah QSO kita dengan stasiun DX-pedition itu sudah masuk dalam log-nya - saya baru tahu kalau 3D2C (Conway Reef DX-pedition) juga menyediakan sarana utk kita cek - apakah QSL Card balasan sudah mereka kirimkan.
Mereka sudah mengirimkan balasan QSLnya, tapi koq belum sampai ya ?

OM Seno,
Saya pikir ini sih cuma masalah waktu saja, karena kalo gak salah baca QSL card juga belum lama mereka terima dari percetakan dan proses pengiriman QSL card baru minggu2 yll. cmiiw.

Kalo minami torishima saya pernah QSO di 15M - JD1YAA, sedangkan di 10M belum pernah berhasil menerobos JA wall. HI HI.

Kirim QSL card (plus) tanpa balas mah sering juga - iya eman2 modale - tapi yg lucu yah dari EA8MT- Dunia - karna cukup lama dia gak balas lalu saya tanya via email.
Dia bilang sudah terima QSL saya dan sudah balas, tapi karna saya gak terima maka dia akan kirim ulang. Setelah sekian lama masih blm terima saya tanya lagi - dia bilang sudah kirim ulang dan gak mungkin dia kirim lagi. Ya sudah pasrah deh - memang sih via LoTW sudah confirm, tapi khan mau juga kartu dari YL ini.

Eh, 11 bulan sejak saya kirim QSL card dulu itu akhirnya datang juga QSL card dari EA8MT 2 set dalam 2 amplop. 1 set (2 kartu) menggunakan SAE dari saya dan satunya amplop dia sendiri dg tgl stempel pos yg sama.

Om Hendro,

Apa kabar om Hen? Msh rajin saja ya mengejar stasiun2 langka ;) .

Biasanya On-line Log dilakukan update 24 jam kemudian. Tapi tuk kartu QSLnya, harus nungguin mereka "pulang kampung dulu" dari DXpedition baru mereka kirim via Pos. Biasanya bisa 3 s/d 6 bln kemudian.

Selamat ber tunggu tunggu Mr. Postman nya ya om Hen.. Jadi inget lagu jadoel dengan judul "Hello Mr. Postman" era th 1970an yg dinyanyikan oleh Group Duo Carpenters dari Amrik (alm. Karen Carpenter).

Slmat Tahun Baru tuk semua rekan2 DXer. Semoga tahun 2013 keadaan akan lebih baik tuk DXing. Buruan disiapkan Linear Amp PW-1 nya, Icom 7600 nya dan Antena 11-Elemen Hygain diatas Tower 25 meter n siap siap CQ CQ DX..hehehehe..

Salam n 73, de JOY/YB0NSI.

Hello Bli Made, YC9DEB (YB9DEB).

Apa kabar Bli?

Minggu lalu saat Natal saya di Bali liburan bersama keluarga. Saya ada sms anda tapi sepertinya anda sedang sibuk.

Dari Ayana Resort, Badung sy TX menggunakan radio kecil QRP SSB 10W made in China, aki Motor 12V merek Yuasa yg sy beli di sepanjang jalan Kuta. Tuk antena sy menggunakan kabel spiker/long wire sepanjang 8 meter yg saya cantol di atas Pohon dibelakang Villa (setinggi 3.5 meteran) n single counterpoise wire sepanjang 3 meter yg saya geletakan saja dirumput n ujung nya saya cantol di groundnya auto-tuner QRP merek LDG.

Lumayan dapat ber QSO dengan bli Ketut/YC9BCD dari Karang Asem di 40 M dengan report 5-5, dengan BG7, OM Zhong dari Beijing di 20 m dengan report 5-4 dan di 15m dengan 9V1, Koichi san yg sedang bertugas di Singapura. Sayangnya di 10M kondisi tidak bagus dan saya gagal melakukan kontak dengan sebuah stasiun VK3 di Melb, Australia.

Mudah mudahan dalam waktu dekat bisa ketemu dengan Om Made ya di Cafenya di Ground Zero, Kuta n nyantap bersama nasi goreng Bali.. Hehehe..

Slmt Tahun Baru kepada Om Made beserta Keluarga.

Salam 73, de Joy/YB0NSI.

Om Seno yth.

Cukup berharga sekali tulisan Om Seno di akhir tahun 2012 ini, dan mudah-mudahan bisa direkam dan di terapkan oleh seluruh Anggota Amatir Redio Indonesia tak terkecuali para NCS Senusantara.
Sekilas Cuplikan KRONOLOGIS Saya menjadi Anggota Amatir Radio Indonesia pada 1986 dan Lahir sebagai SIAGA (YD), kemudian ikut kenaikan Tingkat pada Tahun 1993 sebagai PENGGALANG (YC),
Selanjutnya pada Tahun 2011di sarankan oleh Rekan-rekan Senior untuk mengikuti Ujian PENEGAK (YB).

maka Lahirlah saya sebagai seorang PENEGAK yaitu YANKEE (YANKY) BRAVO. dit dit dit dit, dit dit.
Namun dalam perjalanan yang cukup panjang ini hampir tidak pernah kami mendapatkan BIM BINGAN seperti yang Om Seno tulis, Baik ditingkat Lokal. Orda, maupun Orpus.
dan bahkan selama 6 (enam) Tahun sejak 2006 sampai dengan 2011ditunjuk menjadi NCS NUSANTARA NET 40 M pun tidak pernah mendapatkan Bimbingan ataupun Petunjuk Teknis tentang bagaimana seorang NCS mengendalikan NET dengan benar,
Tidak ada pertemuan, tidak ada Kop-dar, dan tidak ada kuliner disana, kecuali secara kebetulan atas inisitif Koordinator NET yaitu Bung Dani saat itu masih YC7XC memanfaatkan Waktu yang bersamaan MUNAS 7 dilapangan IRTI MONAS 2011 JKT,
untuk membahas masalah NCS,dan itupun tidak memenuhi Standrd SOP AMATIR RADIO itu sendiri.
Mudah-mudahan di tahun 2013 ini kita semua menjadi lebih dewasa lagi, baik mengendalikan Management, Administrasi maupun Frequency.
Selamat Tahun Baru 2013, dan Semoga Organisasi Besar kita ORARI tetap Jaya.

Sueb YB7BIM

Judul: [YBDXC_News] ONN 40M

Dear All,

menjelang tutup tahun 2012,
ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.
semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,

perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya

sejujurnya memang saya sangat jarang dalam berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut, hanya saja saya sering monitor kegiatan ini.

1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?

ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.
kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi .....

2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,

for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.

walaupun kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.

nah kalo sudah demikian mana operating prosedur yang benar?
lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut

a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan

    for the example :

    * misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat.
    * PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa bergerak dengan leluasa.
    * mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....

b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?

supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-D
by the way, dalam pile up seorang DX-er pun jarang menemukan panggilan yg berluang-ulang pada QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .

for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !

saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.

bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang me-manage kegiatan ini. sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.

c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.
sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,

bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.

semoga bermanfaat ...

Selamat TAHUN BARU 2013,

semoga di tahun baru mendatang berkat kesehatan / rejeki / kebahagian menyelimuti kita semua.
dan untuk INDONESIA :
semoga aman , damai, dan sejahtera.

Thank you OM Gun
Thank you Mbak Endang
Thank you OM Sueb
.....

Mungkin sudah saatnya kita harus melakukan "perbaikan"
sana sini (not for ONN only) walaupun "ora ana duite" semua harus saling mendukung pro-aktif
Ana "duite"-pun juga harus dikelola utk hal2 yg positif, boleh kan.

Analogi :
Sperti Walikota/Wakil Walikota DKI Jakarta yg sekarang ini pun juga melaukan pembenahan sana sini,

Semoga ya .....

Saya mengutip lirik lagu dari John Lenon :

" You may say i am a dreamer,
But i am not the only one.
I hope someday you will joint us.
And the world will be the one "

Nah betulkan,
Mbahas sesuatu itu jangan pas posisi lapar, pasti mudah marah , hi .....
Mari kita sambil kuliner, sambil membahas,
Nah siapa yg mau jadi sponsor ?
Ga ada ?
Ya wes kita saweran aja.

Hikzzz ..... :-D

OM Seno,

sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.
akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.
usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.
Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?
Tnx de YB1LZ

Thank you OM Gun
Thank you Mbak Endang

Thank you OM Sueb
.....

Mungkin sudah saatnya kita harus melakukan "perbaikan"
sana sini (not for ONN only) walaupun "ora ana duite" semua harus saling mendukung pro-aktif
Ana "duite"-pun juga harus dikelola utk hal2 yg positif, boleh kan.

Analogi :
Sperti Walikota/Wakil Walikota DKI Jakarta yg sekarang ini pun juga melaukan pembenahan sana sini,

Semoga ya .....

Saya mengutip lirik lagu dari John Lenon :

" You may say i am a dreamer,
But i am not the only one.
I hope someday you will joint us.
And the world will be the one "

Nah betulkan,
Mbahas sesuatu itu jangan pas posisi lapar, pasti mudah marah , hi .....
Mari kita sambil kuliner, sambil membahas,
Nah siapa yg mau jadi sponsor ?
Ga ada ?
Ya wes kita saweran aja.

Hikzzz ..... :-D

OM Seno,

sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.
akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.

usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.
Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?
Tnx de YB1LZ

Subject: [YBDXC_News] ONN 40M

Dear All,

menjelang tutup tahun 2012,
ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.
semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,

perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya

sejujurnya memang saya sangat jarang dalam berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut, hanya saja saya sering monitor kegiatan ini.

1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?

ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.
kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi .....

2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,

for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.

walaupun kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.

nah kalo sudah demikian mana operating prosedur yang benar?
lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut

a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan

for the example :

* misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat.
* PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa bergerak dengan leluasa.
* mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....

b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?

supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-D
by the way, dalam pile up seorang DX-er pun jarang menemukan panggilan yg berluang-ulang pada QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .

for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !

saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.

bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang me-manage kegiatan ini. sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.

c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.
sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,

bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.

semoga bermanfaat ...

Om Hendro,

Apa kabar om Hen? Msh rajin saja ya mengejar stasiun2 langka ;) .

Biasanya On-line Log dilakukan update 24 jam kemudian. Tapi tuk kartu QSLnya, harus nungguin mereka "pulang kampung dulu" dari DXpedition baru mereka kirim via Pos. Biasanya bisa 3 s/d 6 bln kemudian.

Selamat ber tunggu tunggu Mr. Postman nya ya om Hen.. Jadi inget lagu jadoel dengan judul "Hello Mr. Postman" era th 1970an yg dinyanyikan oleh Group Duo Carpenters dari Amrik (alm. Karen Carpenter).

Slmat Tahun Baru tuk semua rekan2 DXer. Semoga tahun 2013 keadaan akan lebih baik tuk DXing. Buruan disiapkan Linear Amp PW-1 nya, Icom 7600 nya dan Antena 11-Elemen Hygain diatas Tower 25 meter n siap siap CQ CQ DX..hehehehe..

Salam n 73, de JOY/YB0NSI.

iPhone is Cool !

OM Joy,
Sementara ini tiarap dulu karna antenna 10M/15M masih di bawah sejak tower rubuh sedangkan deltaloop 1 element utk 20M yg sudah dirakit juga blm dinaikkan ke posisinya, insya Allah tahun depan.

Ya saya selalu tunggu Mr Postman seperti jaman pacaran jarak jauh dulu, blm ada hape, email, bbm - mau interlokal (telpon) pun harus ke kantor telpon di merdeka selatan, daftar & antri. HI.
Saya juga suka lagu2 the Carpenters yang Please Mr.Postman ini aslinya lagu the Beatles, ya ?

73 es Happy New Year

Om Hendro,

Apa kabar om Hen? Msh rajin saja ya mengejar stasiun2 langka ;) .

Biasanya On-line Log dilakukan update 24 jam kemudian. Tapi tuk kartu QSLnya, harus nungguin mereka "pulang kampung dulu" dari DXpedition baru mereka kirim via Pos. Biasanya bisa 3 s/d 6 bln kemudian.

Selamat ber tunggu tunggu Mr. Postman nya ya om Hen.. Jadi inget lagu jadoel dengan judul "Hello Mr. Postman" era th 1970an yg dinyanyikan oleh Group Duo Carpenters dari Amrik (alm. Karen Carpenter).

Slmat Tahun Baru tuk semua rekan2 DXer. Semoga tahun 2013 keadaan akan lebih baik tuk DXing. Buruan disiapkan Linear Amp PW-1 nya, Icom 7600 nya dan Antena 11-Elemen Hygain diatas Tower 25 meter n siap siap CQ CQ DX..hehehehe..

Salam n 73, de JOY/YB0NSI.

iPhone is Cool !

OM Seno,

sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.
akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.
usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.
Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?

Subject: [YBDXC_News] ONN 40M

Dear All,

menjelang tutup tahun 2012,
ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.
semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,

perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya

sejujurnya memang saya sangat jarang dalam berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut, hanya saja saya sering monitor kegiatan ini.

1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?

ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.
kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi .....

2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,

for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.

walaupun kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.

nah kalo sudah demikian mana operating prosedur yang benar?
lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut

a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan

    for the example :

* misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat.
* PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa bergerak dengan leluasa.
* mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....

b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?

supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-D
by the way, dalam pile up seorang DX-er pun jarang menemukan panggilan yg berluang-ulang pada QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .

for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !

saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.

bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang me-manage kegiatan ini. sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.

c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.
sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,

bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.

semoga bermanfaat ...

Topic: 4821 Message: 4849

Saya mengomentari ini bukan karena saya sebagai salah satu NCS di ONN 40 MB tapi terpanggil kerena merasa sangat prihatin melihat sebahagian(tidak semua lho) Stasiun AR yg Check in di ONN tsb kualitasnya sangat memprihatinkan. Ada yg tdk setuju dgn kelompok yg sering iwak2 di 7.100 tapi yg kita lihat dan dengar saat chek-in di ONN sebahagian besar tidak ada beda dgn kelompok iwak-iwak.tsb.

Apakah ini memang gambaan dari wajah anggota AR kita silahkan masing2 kita merenunginya. Kalau saya bepergian naik pesawat terbang pada saat antri menuju pesawat ramai2 saling berdesakan tanpa rasa toleransi menyalip orang yg berada dibarisan depan padahal orang yg didepan tsb patuh terhadap etika antri demikian juga pada saat pesawat akan landiig walaupun ada aba-aba dari Petugas kabin untuk tetep duduk sebelum pesawat benar-benar berhenti dan tdk menggunakan tlp genggam Eeehh sebahagian besar penumpang sdh berdiri mengeluarkan barang bawaannya dari kabin sebahagian lagi sibuk ber hp, fenomona apa ini yg dapat kita tangkap ????.

Apakah hal yg disampaikan diatas benar atau tdk saya rasa bagi yg gemar memperhatikan masalah2 sosial tentunya apa yg terlihat mungkin sama.

Jadi korelasi antara sifat2 sebahagian masyarakat dan sifat2 sebahagian komunitas AR kita tentunya tdk jauh berbeda dan diperparah lagi dgn kualitas para Amatir Radio yg sangat tdk Professional mengemban Tingkat yg diembannya baik Penggalang maupun Penegak entah bagaimana Mereka-mereka ini bisa lulus Unar hanya pembaca tulisan inilah yg tahu.

Kembali kpd substansi topik kita mengapa kalau chek-in di ONN masing-masing berebut mau jadi NO 1 YG DIPANGGIL NCS DENGAN CARA MENYEBUT CALLSIGN NYA
BERULANG-ULANG ya itu tadi karena tdk punya etika padahal Stasiun dia kalau dibandingkan dgn Stasiun lain lebih sederhana tetapi tetap ngotot mau jadi NO 1dengan kata lain (maaf) tidak tahu diri.

Salam 73

OM Seno,
sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa
Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?Tnx de YB1LZ

Subject: [YBDXC_News] ONN 40M

Dear All,
menjelang tutup tahun 2012,ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,
perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya
sejujurnya memang saya sangat jarang dalam
berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut,
hanya saja saya sering monitor kegiatan ini.
1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?
ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi
.....
2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,
for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.
walaupun
kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.
nah kalo sudah demikian mana operating prosedur yang benar?lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut
a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan
for the example :
* misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat. * PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa bergerak dengan leluasa. * mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....
b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?
supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-Dby the way, dalam pile up seorang DX-er pun jarang
menemukan panggilan yg berluang-ulang pada
QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .
for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !
saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.
bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang
me-manage kegiatan ini.

sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.
c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,
bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.
semoga bermanfaat ...
Selamat TAHUN BARU 2013,

Dear teman teman...

Kalau tidak salah masalah klasik check in nusantara net ini sudah pernah di bahas di milist orari..
Dan saya pernah bahas bahwa NCS (tidak semua lho) ada yang salah dalam memanggil.

Misalnya : disini YB0NDT memanggil station station dari nine call area ...

Apa maksudnya ??

Menurut sy: bahwa saya yb0ndt memanggil station station dari sembilan call area utk mem piled up saya.

Sekarang jika saya sebutkan begini : disini YB0NDT memanggil rekan rekan dari call area nine ...

Jelas berbeda bukan ???

Spt dua buah suku kata : "bagaimana nanti " dengan "nanti bagaimana"

Jelas berbeda artinya... Walau di bolak balik...

Apakah ini sudah di perbaiki ???

Selamat Tahun Baru teman teman semoga kita semua makin sukses dan kawan2 ybdxc semakin banyak mendapatkan prestasi di contest, dan juga mendapatkan tambahan award2 bergengsi lain nya...

Regards :

Karsono suyanto (yb0ndt)

Subject: Re: Bls: [YBDXC_News] ONN 40M

Saya mengomentari ini bukan karena saya sebagai salah satu NCS di ONN 40 MB tapi terpanggil kerena merasa sangat prihatin melihat sebahagian(tidak semua lho) Stasiun AR yg Check in di ONN tsb kualitasnya sangat memprihatinkan. Ada yg tdk setuju dgn kelompok yg sering iwak2 di 7.100 tapi yg kita lihat dan dengar saat chek-in di ONN sebahagian besar tidak ada beda dgn kelompok iwak-iwak.tsb.

Apakah ini memang gambaan dari wajah anggota AR kita silahkan masing2 kita merenunginya. Kalau saya bepergian naik pesawat terbang pada saat antri menuju pesawat ramai2 saling berdesakan tanpa rasa toleransi menyalip orang yg berada dibarisan depan padahal orang yg didepan tsb patuh terhadap etika antri demikian juga pada saat pesawat akan landiig walaupun ada aba-aba dari Petugas kabin untuk tetep duduk sebelum pesawat benar-benar berhenti dan tdk menggunakan tlp genggam Eeehh sebahagian besar penumpang sdh berdiri mengeluarkan barang bawaannya dari kabin sebahagian lagi sibuk ber hp, fenomona apa ini yg dapat kita tangkap ????.

Apakah hal yg disampaikan diatas benar atau tdk saya rasa bagi yg gemar memperhatikan masalah2 sosial tentunya apa yg terlihat mungkin sama.

Jadi korelasi antara sifat2 sebahagian masyarakat dan sifat2 sebahagian komunitas AR kita tentunya tdk jauh berbeda dan diperparah lagi dgn kualitas para Amatir Radio yg sangat tdk Professional mengemban Tingkat yg diembannya baik Penggalang maupun Penegak entah bagaimana Mereka-mereka ini bisa lulus Unar hanya pembaca tulisan inilah yg tahu.

Kembali kpd substansi topik kita mengapa kalau chek-in di ONN masing-masing berebut mau jadi NO 1 YG DIPANGGIL NCS DENGAN CARA MENYEBUT CALLSIGN NYA
BERULANG-ULANG ya itu tadi karena tdk punya etika padahal Stasiun dia kalau dibandingkan dgn Stasiun lain lebih sederhana tetapi tetap ngotot mau jadi NO 1dengan kata lain (maaf) tidak tahu diri.

Salam 73

OM Seno,
sangat bagus ulasan Anda, sudh cukup lengkap, saya sekedar menginformasikan saja, pada waktu MUNAS yang lalu di Jakarta, tepatnya di tenda Ham Fest lapangan IRTI, saya datang dan hadir sekitar 57 NCS ONN, memang tidak ada kesepakatan yang mengingat pada saat itu.akan tetapi sangat jelas disampaikan oleh OM Danny Hartono YB1XC, bahwa
Operating Procedure sebagai NCS agar dilakukan sefektif mungkin, mengingat cukup banyak Stasiun yang akan Chekc In dan 99,9 %, bahkan saran dari salah satu peserta Silaturahmi NCS

ONN, agar tidak memanggil Stasiun yang menyebutkan callsignya berulang2.usulan untuk mengadakan pertemuan secar rutin juga sudah di gulirkan waktu itu, cuman tidak banyak yang me respon, mungkin karena domisi yang cukup berjauhan, kecuali bersamaan ada event, akan tetapi ini bisa fasilitasi oleh ORPUS, sebagai pembinaan Nasional.Mudah2an akan ada follow up dari ORPUS, kalau tidka ada ya dibuat semacam Persatuan NCS ONN, gitu aja OM?Tnx de YB1LZ

Subject: [YBDXC_News] ONN 40M

Dear All,
menjelang tutup tahun 2012,ijinkan saya untuk memberikan suatu saran yang mungkin bisa dijadikan sebuah evaluasi untuk kebaikan ditahun baru yad.semoga tidak terjadi lagi badai polemik yang berkepanjangan di miling list tentang ONN ini,
perlu di-ingat bahwa kita semua dalam proses pembelajaran, suatu kegiatan untuk kepentingan bersama tanpa harus meninggalkan SOP Amatir Radio itu sendiri.

Re : ONN 40M atau ONN yang lainnya
sejujurnya memang saya sangat jarang dalam
berpartisipasi dalam kegiatan Net ORARI Nusantara tersebut,
hanya saja saya sering monitor kegiatan ini.
1. apakah kegiatan ini bisa di-efisiensikan se-efektif mungkin?
ada pendapat bahwa partisipan di posisikan seperti "absensi masuk ke kantor", namun kebanyakan dari mereka 99,9% no-traffic.kemudian apakah setelah "check-in" partisipan mendapatkan suatu benefit (just kidding), hi
.....
2. kemudian berbias, partisipan berlomba-lomba untuk bisa masuk number #1 ("kesenangan pribadi"), dengan cara mengulang sampai berkali-kali, tanpa memperhatikan kemungkinan adanya station lain yang betul betul URGENT memerlukan bantuan,
for the example : distress situation, kecelakaan laut / darat / udara , ambulance, pertolongan medis , bencana alam, dlsb.
walaupun
kemungkinan-kemungkinan itu mungkin saja kecil, namun tetap saja itu HARUS diperhatikan.
nah kalo sudah demikian mana operating prosedur yang benar?lalu bagaimana dengan kode etik Amatir Radio Amatir Radio Berjiwa Perwira = Secara Sadar ia tidak akan menggunakan udara untuk kesenangan pribadi (coba lihat kata dalam tanda kurung di atas)

3. secara teknis, untuk menghindari hal hal tersebut
a. apakah para Net Control Station ONN sdh bener-bener siap (maaf ! bukan merendahkan), bayangkan untuk meng-handle ratusan partisipan dan tiap hari mereka mungkin butuh suatu asesori tambahan
    for the example :
    * misalkan dalam logging mungkin sdh waktunya mereka harus menggunakan elektronik logger, supaya cepat.   * PTT mungkin bisa di update memakai VOX / foot switch, supaya kedua tangan bisa bergerak dengan leluasa.   * mungkin juga ada beberapa yang lainnya. (menunggu komentar dari temen2 lainnya) hi ....
b. kegiatan ONN ini "nyaris mirip" dengan seorang DX-er yang sedang dalam keadaan big

pile-up (bahasa Indonesia = dikerubutin seantero dunia), soal teknis lagi, bilamana NCS menghadapai situasi sperti itu, be calm .... , mungkin bisa menggunakan cara split, kenapa tidak?
supaya terkendali ... , situasi RX dan TX jelas dan tidak menjadi crowded di "satu frekwensi" , dan partisipan bisa kita pilih walaupun partisipan memanggil sampai 10x lebih misalnya, hi .... :-Dby the way, dalam pile up seorang DX-er pun jarang menemukan panggilan yg berluang-ulang pada
QSX (spilt frekuensinya), coba deh sekali tempo mendengarkannya .
for the example : this is Net Control Station ORARI Nusantara Net 40 m band YB2LSR listen 3 To 5 up, go ahead ... !
saya kira ini sah-sah saja bilamana suatu kondisi yang sangat sulit diatur.
bukankah Net Control Station diartikan Station yang "mengendalikan" Net, namun dalam hal ini jangan diartikan NCS "GALAK/KEJAM/TIDAK KORPORATIF" yang dimaksud disini adalah kontrol yang "TEGAS" bukankah karena NCS yang
me-manage kegiatan ini.
sudah barang tentu ini TIDAK meninggalkan kode etik Amatir Radio yang "Ramah Tamah", karena semua akan dapat bagian / fair tanpa ada yang merasa nomer #1.
c. mungkin secara berkala para NCS perlu mengadakan pertemuan secara berkala (kop-dar = kopi darat) untuk membahas situasi-situasi yang terjadi / mungkin yang akan terjadi dengan pembahasan solusinya tentunya.sambil kuliner misalnya , hi ..... :-D

Terima kasih telah membaca email saya,
bilamana email saya ini dianggap kurang / tidak memberikan solusi mohon silakan diabaikan aja.
semoga bermanfaat ...
Selamat TAHUN BARU 2013,

Thank you OM Gun
Thank you Mbak Endang
Thank you OM Sueb
.....

Mungkin sudah saatnya kita harus melakukan "perbaikan"
sana sini (not for ONN only) walaupun "ora ana duite" semua harus saling mendukung
pro-aktif
Ana "duite"-pun juga harus dikelola utk hal2 yg positif, boleh kan.

Analogi :
Sperti Walikota/Wakil Walikota DKI Jakarta yg sekarang ini pun juga melaukan pembenahan
sana sini,

Semoga ya .....

Saya mengutip lirik lagu dari John Lenon :

" You may say i am a dreamer,
But i am not the only one.
I hope someday you will joint us.
And the world will be the one "

Nah betulkan,
Mbahas sesuatu itu jangan pas posisi lapar, pasti mudah marah , hi .....
Mari kita sambil kuliner, sambil membahas,
Nah siapa yg mau jadi sponsor ?
Ga ada ?
Ya wes kita saweran aja.

Hikzzz ..... :-D

OM Ndut,
Mungkin waktu itu oleh NCS yang dimaksud adalah "ninth call area" dan bukan nine call area alias sembilan dipanggil sekaligus.
Kalo benar begitu seharusnya utk lainnya juga dipanggil 1st call area, 2nd, 3rd, 4th dst.

Dan karena ini Nusantara Net, bolehkah NCS menggunakan bahasa Indonesia utk menyebut call area tsb - misalnya menjadi "Daerah Satu, Dua dst - tapi khusus yg Jakarta jgn dipanggil Daerah Nol/Kosong dong tetap ZERO, xixixixi --- Daerah Kosong.....???? Wah, kodong...!!

Dear teman teman...

Kalau tidak salah masalah klasik check in nusantara net ini sudah pernah di bahas di milist orari..
Dan saya pernah bahas bahwa NCS (tidak semua lho) ada yang salah dalam memanggil.

Misalnya : disini YB0NDT memanggil station station dari nine call area ...

Apa maksudnya ??

Menurut sy: bahwa saya yb0ndt memanggil station station dari sembilan call area utk mem piled up saya.

Sekarang jika saya sebutkan begini : disini YB0NDT memanggil rekan rekan dari call area nine ...

Jelas berbeda bukan ???

Spt dua buah suku kata : "bagaimana nanti " dengan "nanti bagaimana"

Jelas berbeda artinya... Walau di bolak balik...

Apakah ini sudah di perbaiki ???

Selamat Tahun Baru teman teman semoga kita semua makin sukses dan kawan2 ybdxc semakin banyak mendapatkan prestasi di contest, dan juga mendapatkan tambahan award2 bergengsi lain nya...

Regards :

ReplyTo: YBDXC_News@yahoogroups.com
Subject: Re: Bls: [YBDXC_News] ONN 40M

Saya mengomentari ini bukan karena saya sebagai salah satu NCS di ONN 40 MB tapi terpanggil kerena merasa sangat prihatin melihat sebahagian(tidak semua lho) Stasiun AR yg Check in di ONN tsb kualitasnya sangat memprihatinkan. Ada yg tdk setuju dgn kelompok yg sering iwak2 di 7.100 tapi yg kita lihat dan dengar saat chek-in di ONN sebahagian besar tidak ada beda dgn kelompok iwak-iwak.tsb.

Apakah ini memang gambaan dari wajah anggota AR kita silahkan masing2 kita merenunginya. Kalau saya bepergian naik pesawat terbang pada saat antri menuju pesawat ramai2 saling berdesakan tanpa rasa toleransi menyalip orang yg berada dibarisan depan padahal orang yg didepan tsb patuh terhadap etika antri demikian juga pada saat pesawat akan landiig walaupun ada aba-aba dari Petugas kabin untuk tetep duduk sebelum pesawat benar-benar berhenti dan tdk
menggunakan tlp genggam Eeehh sebahagian besar penumpang sdh berdiri mengeluarkan barang bawaannya dari kabin sebahagian lagi sibuk ber hp, fenomona apa ini yg dapat kita tangkap ????.

Apakah hal yg disampaikan diatas benar atau tdk saya rasa bagi yg gemar memperhatikan masalah2 sosial tentunya apa yg terlihat mungkin sama.

Jadi korelasi antara sifat2 sebahagian masyarakat dan sifat2 sebahagian komunitas AR kita tentunya tdk jauh berbeda dan diperparah lagi dgn kualitas para Amatir Radio yg sangat tdk Professional mengemban Tingkat yg diembannya baik Penggalang maupun Penegak entah bagaimana Mereka-mereka ini bisa lulus Unar hanya pembaca tulisan inilah yg tahu.

Kembali kpd substansi topik kita mengapa kalau chek-in di ONN masing-masing berebut mau jadi NO 1 YG DIPANGGIL NCS DENGAN CARA MENYEBUT CALLSIGN NYA
BERULANG-ULANG ya itu tadi karena tdk punya etika padahal Stasiun dia kalau dibandingkan dgn
Stasiun lain lebih sederhana tetapi tetap ngotot mau jadi NO 1dengan kata lain (maaf) tidak tahu diri.

Salam 73

OM Ndut,
Mungkin waktu itu oleh NCS yang dimaksud adalah "ninth call area" dan bukan nine call area alias sembilan dipanggil sekaligus.
Kalo benar begitu seharusnya utk lainnya juga dipanggil 1st call area, 2nd, 3rd, 4th dst.

Dan karena ini Nusantara Net, bolehkah NCS menggunakan bahasa Indonesia utk menyebut call area tsb - misalnya menjadi "Daerah Satu, Dua dst - tapi khusus yg Jakarta jgn dipanggil Daerah Nol/Kosong dong tetap ZERO, xixixixi --- Daerah Kosong.....???? Wah, kodong...!!

Dear teman teman...

Kalau tidak salah masalah klasik check in nusantara net ini sudah pernah di bahas di milist orari..
Dan saya pernah bahas bahwa NCS (tidak semua lho) ada yang salah dalam memanggil.

Misalnya : disini YB0NDT memanggil station station dari nine call area ...

Apa maksudnya ??

Menurut sy: bahwa saya yb0ndt memanggil station station dari sembilan call area utk mem piled up saya.

Sekarang jika saya sebutkan begini : disini YB0NDT memanggil rekan rekan dari call area nine ...

Jelas berbeda bukan ???

Spt dua buah suku kata : "bagaimana nanti " dengan "nanti bagaimana"

Jelas berbeda artinya... Walau di bolak balik...

Apakah ini sudah di perbaiki ???

Selamat Tahun Baru teman teman semoga kita semua makin sukses dan kawan2 ybdxc semakin banyak mendapatkan prestasi di contest, dan juga mendapatkan tambahan award2 bergengsi lain nya...

ReplyTo: YBDXC_News@yahoogroups.com
Subject: Re: Bls: [YBDXC_News] ONN 40M

Saya mengomentari ini bukan karena saya sebagai salah satu NCS di ONN 40 MB tapi terpanggil kerena merasa sangat prihatin melihat sebahagian(tidak semua lho) Stasiun AR yg Check in di ONN tsb kualitasnya sangat memprihatinkan. Ada yg tdk setuju dgn kelompok yg sering iwak2 di 7.100 tapi yg kita lihat dan dengar saat chek-in di ONN sebahagian besar tidak ada beda dgn kelompok iwak-iwak.tsb.

Apakah ini memang gambaan dari wajah anggota AR kita silahkan masing2 kita merenunginya. Kalau saya bepergian naik pesawat terbang pada saat antri menuju pesawat ramai2 saling berdesakan tanpa rasa toleransi menyalip orang yg berada dibarisan depan padahal orang yg didepan tsb patuh terhadap etika antri demikian juga pada saat pesawat akan landiig walaupun ada aba-aba dari Petugas kabin untuk tetep duduk sebelum pesawat benar-benar berhenti dan tdk
menggunakan tlp genggam Eeehh sebahagian besar penumpang sdh berdiri mengeluarkan barang bawaannya dari kabin sebahagian lagi sibuk ber hp, fenomona apa ini yg dapat kita tangkap ????.

Apakah hal yg disampaikan diatas benar atau tdk saya rasa bagi yg gemar memperhatikan masalah2 sosial tentunya apa yg terlihat mungkin sama.

Jadi korelasi antara sifat2 sebahagian masyarakat dan sifat2 sebahagian komunitas AR kita tentunya tdk jauh berbeda dan diperparah lagi dgn kualitas para Amatir Radio yg sangat tdk Professional mengemban Tingkat yg diembannya baik Penggalang maupun Penegak entah bagaimana Mereka-mereka ini bisa lulus Unar hanya pembaca tulisan inilah yg tahu.

Kembali kpd substansi topik kita mengapa kalau chek-in di ONN masing-masing berebut mau jadi NO 1 YG DIPANGGIL NCS DENGAN CARA MENYEBUT CALLSIGN NYA
BERULANG-ULANG ya itu tadi karena tdk punya etika padahal Stasiun dia kalau dibandingkan

dgn
Stasiun lain lebih sederhana tetapi tetap ngotot mau jadi NO 1dengan kata lain (maaf) tidak tahu diri.

Salam 73

From: karsono_suyanto@yahoo.com
Topic: 4821 Message: 4858

Om Hendro begitu sampai call area tiga... Yg sering saya dengar kalimat spt ini: memanggil rekan rekan dari three call area..

Saat di call area dua.. : any station from two call area ???
(Call area yg mana aja ???)

Kalau spt itu, asumsi saya.. Dari call area 9 tadi , yg di maksud adalah nine... Bukan ninth.

Jadi saya yg di call area zero sudah boleh check in saat operator bilang : any station from nine call area ???

Saya bukan ahli bahasa.. Apalagi bahasa English yg bukan bahasa saya sehari hari...

Happy new year om Hen

OM NDuT
Apa yg OM NDuT sampaikan bisa sebagai koreksi untuk rekan2 NCS NuNet...

Happy New Year 2013

Subject: Re: Bls: Bls: [YBDXC_News] ONN 40M

Om Hendro begitu sampai call area tiga... Yg sering saya dengar kalimat spt ini: memanggil rekan rekan dari three call area..

Saat di call area dua.. : any station from two call area ???
(Call area yg mana aja ???)

Kalau spt itu, asumsi saya.. Dari call area 9 tadi , yg di maksud adalah nine... Bukan ninth.

Jadi saya yg di call area zero sudah boleh check in saat operator bilang : any station from nine call area ???

Saya bukan ahli bahasa.. Apalagi bahasa English yg bukan bahasa saya sehari hari...

Happy new year om Hen

OM Ndut,
Mungkin waktu itu oleh NCS yang dimaksud adalah "ninth call area" dan bukan nine call area

alias sembilan dipanggil sekaligus.
Kalo benar begitu seharusnya utk lainnya juga dipanggil 1st call area, 2nd, 3rd, 4th dst.

Dan karena ini Nusantara Net, bolehkah NCS menggunakan bahasa Indonesia utk menyebut call area tsb - misalnya menjadi "Daerah Satu, Dua dst - tapi khusus yg Jakarta jgn dipanggil Daerah Nol/Kosong dong tetap ZERO, xixixixi --- Daerah Kosong.....???? Wah, kodong...!!

Dear teman teman...

Kalau tidak salah masalah klasik check in nusantara net ini sudah pernah di bahas di milist orari..
Dan saya pernah bahas bahwa NCS (tidak semua lho) ada yang salah dalam memanggil.

Misalnya : disini YB0NDT memanggil station station dari nine call area ...

Apa maksudnya ??

Menurut sy: bahwa saya yb0ndt memanggil station station dari sembilan call area utk mem piled up saya.

Sekarang jika saya sebutkan begini : disini YB0NDT memanggil rekan rekan dari call area nine ...

Jelas berbeda bukan ???

Spt dua buah suku kata : "bagaimana nanti " dengan "nanti bagaimana"

Jelas berbeda artinya... Walau di bolak balik...

Apakah ini sudah di perbaiki ???

Selamat Tahun Baru teman teman semoga kita semua makin sukses dan kawan2 ybdxc semakin banyak mendapatkan prestasi di contest, dan juga mendapatkan tambahan award2 bergengsi lain nya...

ReplyTo: YBDXC_News@yahoogroups.com
Subject: Re: Bls: [YBDXC_News] ONN 40M

Saya mengomentari ini bukan karena saya sebagai salah satu NCS di ONN 40 MB tapi terpanggil kerena merasa sangat prihatin melihat sebahagian(tidak semua lho) Stasiun AR yg Check in di ONN tsb kualitasnya sangat memprihatinkan. Ada yg tdk setuju dgn kelompok yg sering iwak2 di 7.100 tapi yg kita lihat dan dengar saat chek-in di ONN sebahagian besar tidak ada beda dgn kelompok iwak-iwak.tsb.

Apakah ini memang gambaan dari wajah anggota AR kita silahkan masing2 kita merenunginya. Kalau saya bepergian naik pesawat terbang pada saat antri menuju pesawat ramai2 saling berdesakan tanpa rasa toleransi menyalip orang yg berada dibarisan depan padahal orang yg didepan tsb patuh terhadap etika antri demikian juga pada saat pesawat akan landiig walaupun ada aba-aba dari Petugas kabin untuk tetep duduk sebelum pesawat benar-benar berhenti dan tdk
menggunakan tlp genggam Eeehh sebahagian besar penumpang sdh berdiri mengeluarkan barang bawaannya dari kabin sebahagian lagi sibuk ber hp, fenomona apa ini yg dapat kita tangkap ????.

Apakah hal yg disampaikan diatas benar atau tdk saya rasa bagi yg gemar memperhatikan masalah2 sosial tentunya apa yg terlihat mungkin sama.

Jadi korelasi antara sifat2 sebahagian masyarakat dan sifat2 sebahagian komunitas AR kita tentunya tdk jauh berbeda dan diperparah lagi dgn kualitas para Amatir Radio yg sangat tdk Professional mengemban Tingkat yg diembannya baik Penggalang maupun Penegak entah bagaimana Mereka-mereka ini bisa lulus Unar hanya pembaca tulisan inilah yg tahu.

Kembali kpd substansi topik kita mengapa kalau chek-in di ONN masing-masing berebut mau jadi NO 1 YG DIPANGGIL NCS DENGAN CARA MENYEBUT CALLSIGN NYA
BERULANG-ULANG ya itu tadi karena tdk punya etika padahal Stasiun dia kalau dibandingkan dgn
Stasiun lain lebih sederhana tetapi tetap ngotot mau jadi NO 1dengan kata lain (maaf) tidak tahu diri.

Salam 73

YB6CA
